

A Pleasant Retreat.

To be sold at public vendue.

By order of the Orphan's Court of Montgomery County on the 17th day of the fourth month next at 7 o'clock in the evening, at the Merchants Coffee house, in Philadelphia.

The following described capital house and lots situated in Pott's Town, about 26 miles from Philadelphia, being part of the estate of Thomas Maybury, deceased.

The Mansion house standing on the Main Street, built with stone and the best materials, commodiously divided into rooms and well furnished throughout—in an airy and good cellar, forty-two feet in front and thirty feet in depth—adjoining is a Stone Piazza, above room and kitchen with loggia, rooms over them—a well of good water in the yard—and a stone milk house with a smoke house over it—a good garden, &c. on the fourth end of the lot are a brew house, carriage house and a large stable barn—with extensive fields for horses, cows &c. This estate would accommodate a large genteel family inclining to retire into the country. Pott's Town being one of the healthiest places or positions within the same distance from Philadelphia—and for healthy situations, convenience of fares, &c. is equal to most inland towns in Pennsylvania.

With the foregoing premises will be sold, a Lot of excellent CLOVER LAND, adjoining the Barn, containing about three Acres, in which are a number of Apple Trees.

Further particulars may be known on application to

Rebecca Maybury, Administrators to the estate of Thomas Maybury, deceased.

John Warder, or James Vaux, in Philadelphia.

JACOB PERKINS,

Having invented an effectual check for detecting counterfeit Bank Paper, which has received the sanction of one Bank, and the approbation of the undersigned eminent artists, and having obtained a patent, securing to him, and to his assigns, the exclusive right of the invention, hereby offers to his fellow citizens the privilege of using it upon terms, to be agreed on between him and any person disposed to avail themselves of a guard against counterfeits.

THE undersigned having examined Jacob Perkins' new invented method to detect counterfeit Bank paper, do approve of the plan, it being impossible to engrave or sink two plates perfectly alike, without the original die or hub, the counterfeiter would find it impossible to make an impression which would perfectly gage with the check from the original die.
