The Swift-Sure, ANEW LINE OF STAGES,

By the fhort and pleafant road of Buffleton, Newtown Scotch Plains, Spring-field and Newark.

THE excellence of this road, the populoufnels of the country through which it paffees, with fundry other advantages, which render it fo far preferable to the Olid Road through Bristol, Brunswik, &c. long ago suggested the propriety of it becoming the Grand Thorough-Fare from Philadelphia to New York. During the present year, a minute servey of it has been taken and its superiority over the Old Road, both in winter and summer, has been clearly ascertained.—There are good bridges over all the other waters but the Delaware, and here the crossing is performed with great safety and in less than half the time required at the Trenton Ferry. The road is several miles shorter than the old road, but this is among it the least of its advantages, because daily expe-THE excellence of this road, the populo the least of its advantages, because daily expenience proves to us, that dispatch as well as comfort in travelling principally depend on the goodness of the road and the levelness of the country, and, in these respects, the New Road is, beyond all comparison, the best. It presents none of those rocky hills, which render the Old Road so satisfies between the Delaware and Newark. The soil, too, for the greater part, is such as to produce but little mud in winter, and very tittle ust in summer, which circumstances, added to the beauty of the country, and a considerable proportion of shade, must always render travelling in the latter season peculiarly agreeable.
