TREASURY DEPARTMENT June 27, 1798. NOTICE IS HEREBY GIVEN, That by virtue of an act, passed during the present session of Congress, so much of the act entitled "An Act making further provision for the support of public credit, and for the redemption of the public debt"—passed the third day of March, one thousand seven hundred and ninety-five, as bars from settlement or allowance, Certificates, commonly called Loan Office and final settlement Certificates, and Indents of Interest, is suspended until the twelfth day of June, which will be in the year one thousand seven hundred and ninety nine. That on the liquidation and settlement of the said Certificates, and Indents of Interest, at the Treasury, the Creditors will be entitled to receive Certificates of funded Three Per Cent. Stock equal to the amount of the said Indents, and the arrearages of interest due on their said Certificates, prior to the first day of January one thousand seven hundred and ninety one. That the principal sums of the said Loan Office and final settlement Certificates, with the interest thereon, since the first day of January, one thousand seven hundred and ninety one, will be discharged after liquidation at the Treasury, by the payment of interest and reimbursement of principal, equal to the sums which would have been payable thereon, if the said Certificates had been furnished, pursuant to the Act, making provision for the debts of the United States, contracted during the late war, and by the payment of other sums, equal to the market value of the remaining Stock, which would have been created by such subscriptions as aforesaid, which market value will be determined by the Comptroller of the Treasury. OLIVER WOLCOTT, Secretary of the Treasury. June 28

G. SHAW, Respectfully informs the public, he has received from ROBERT JOHNSTON, Apothecary, No. 20, Green Street, Soho, London, a fresh and very considerable supply of his highly esteemed Medicine, AWARE of the deceptions made on every public medicine of established repute and extensive sale, R. Johnston, obtained the King of England's Patent for his invention, not "to recommend," but "to distinguish," Whitehead's Essence of Mustard from SPURIOUS IMITATIONS. "Five years have now elapsed since Mr. Johnston first made known to the world this very extraordinary medicine; during this short period, its efficacy has been so clearly demonstrated that its sale has far exceeded any former example; comparatively there are few families in England or the United States which have not either heard of or experienced its beneficial effects and with heartfelt satisfaction he had the happiness to declare Whitehead's Essence of Mustard has cured more persons afflicted with Rheumatism, Gout, Lumbago, Palsy, Complaints of the Stomach and other Painful Maladies. Than all the Medicines ever before made public, indeed, the influence, of its efficacy and letters of acknowledgment from the most respectable characters" are so numerous that a large volume could not possibly contain them, it has also obtained the approbation of the most eminent men of the faculty and is honoured by the use and recommendation of the first families in England, Ireland and America. A COUNTERFEIT. R. JOHNSTON has reason to believe a large quantity under the name of "Improved Essence of Mustard," as well as many other, has been shipped for America, and considers it his duty to prevent imposition and disappointment. He therefore requests the afflicted to be particular in the purchase of his bottles, boxes, labels, and bill of directions which are closely copied, and words "by royal authority," artfully substituted for the words "by the king's patent" which may elude common observation. The Genuine is distinguished by the signature of R. Johnston, in his own hand writing on each label, and as an additional security is further signed on the outside wrapper by his only agent for the United States, G. SHAW, No. 120 Chestnut Street, Philadelphia, by whom it is sold wholesale and retail, in pills and in a fluid state at one dollar each, box or bottle. FOR CHILBLAINS, SPRAINS AND BRUISES. It is a certain and effectual remedy, seldom requiring more than three or four applications. To the candid and liberal of the FACULTY, R. Johnston respectfully submits the following observations. The Fluid Essence of Mustard, is an embrocation worthy their particular attention, it differs in its nature from all others, and is out of the beaten track of general practice—It is an active stimulant, easily controlled; may be either increased or diminished in its strength by the different methods of use, it is both elegant and convenient and is frequently found in the extemporaneous prescriptions of their brethren in England. The above Genuine Medicine, as well as many others of the first celebrity may be had by appointment of G. Shaw, of Mr. G. Bailey, Wilbraington Dr. Barrill, Maiden Lane, New-York, Messrs. Bailey and Walker, Charleston, William Black, Salem, (N. J.) Charles Bunniche, Lancaster, A. C. Jordan, Norfolk, John Roberts, do. David Keen, Sweet Springs, Virginia, R. Lee, Baltimore, J. & J. Muntz, Frederickstown, Maryland, G. W. Mancini, Albany, Dr. Vanolingen, New-York, Mellis, Titford & Son, do. Mellis, Rofs & Douglas, Pittsburgh, John Welfer, Wilmington, James Wilson, do. Richard Winter & Co. Savannah, and in every principal town in the United States. N. B. The public are desired to enquire for Whitehead's Essence of Mustard, all others being a base and spurious imitation. GEO. SHAW, 120, Chestnut Street, where Venders may be supplied. "Caution against Counterfeits." Agents are appointed by G. Shaw in every principal town of the United States, and there is no certainty of purchasing the Genuine Essence of Mustard in any part of America, unless it is signed on the outside wrapper by G. Shaw, No. 120, Chestnut Street, Philadelphia, where shopkeepers are supplied and a liberal discount allowed them. May 13

Foreign Intelligence. GLEANINGS, From late London Papers. The ship King William, of Liverpool, T. Bent, Master, having 13 effective hands, was, on the morning of the 11th October, at the distance of 180 miles from Barbadoes, chased by a French privateer of 16 guns, 6 and a pounders, and 170 men. Capt. Bent, finding that he could not avoid fighting, brought the enemy to close action, which lasted two hours and a half, when the privateer having sustained considerable damage, and an immense loss of men, fled off, leaving the King William almost a wreck, having received 602 shot, and her rigging cut to pieces. We had 1 of the crew killed and 2 wounded, besides 8 slaves below wounded, 2 of them mortally. The week before Christmas a noble Lord, near Dover-street, being applied to by a person in distress, of whom he had some knowledge, sent down by his butler a 5l. note.—The poor man a few days after met his lordship, and thanked him for his bounty of a one pound note, which it seems, the butler had substituted in the room of the five. A discovery followed of course, and the unfaithful servant was discharged without a character.

The valuable shrub from which the Arabians gather the balsam of Mecca, is still to be found on the spot where he scattered the ruins of the Emperor Aurian's magnificent palace at Trebiz. This was among the most rare and remarkable products which the Emperor collected for the embellishment of the spot where it has perpetuated itself. It yields a kind of gum, which the neighboring peasants use for perfuming their houses. An officer recently returned from the West Indies, and who was at the evacuation of St. Domingo, reports highly of the Black chief, Toussaint, whose troops amounting to 20,000 men, including nearly 7000 cavalry, were well appointed, and excellently disciplined. Among numerous present advantages resulting from our treaty with Toussaint, a considerable commercial intercourse had taken place between St. Domingo and our islands, particularly Jamaica. (Herald.) Rear Ad. Brazely is, we understand, to be appointed to command on the American station, in the room of Vice Admiral Van-deput.

The news-papers say, that "Doctor Gardner having been elected one of the masters at Cambridge, by a majority of one, which was his own vote, has been displaced by the Court of Chancery, that not being deemed a legal vote."

Admiral Nelson has presented the Queen of Naples with the pelisse given him by the Grand Seigneur. The French government have sent engineers and sub-engineers to all the ports of the ocean and Mediterranean, to direct and perfect the naval architecture of those parts. These officers may draw up their plans quite at their ease, now that our brave tars have freed the French ports of the ships of war with which they were encumbered.

VENICE, April 24. We learn by this day's Gazette, that the Mirandole has been taken by a detachment of Gen. Klenau's army; and that several thousand peasants have joined the Austrians in the Cisalpine Republic. All the country of Ferrara has risen against the French, and the Austrians are taking an immense booty all along the Po.

ALBANY, June 28. THE HESLIAN FLY. Extract of a letter to the printers of the Albany Gazette. "I have noticed in some of your late papers, that the Hessian Fly, has again made its appearance in the United States; and that not only in Virginia, and some other of the Southern States, but also in some part of this State, melancholy proofs of the ravages of this devouring insect have been discovered; I have myself also observed that in the county of Washington, in which I reside, the fly is again deluging our fields of wheat. "I hope do potent enemy will not be treated with unconcern and neglect, by the friends of agriculture, but that they will unite their experience with their energy to repel and counteract his insidious and baneful influence; and if possible arrest his progress in its first onset. "The result of my observations respecting the Hessian Fly, when he before ravaged this country, and the plan adopted for destroying him which appeared to me the most effectual, I here submit; with a request you will give the same a place in your paper. "The Fly deposits its eggs in the new wheat soon after its springing up in an ear, tumb, and before there are any severe frosts—propagates in the spring—remains in a torpid state till some time after reaping—is invariably found in the ear or joint of the stalk, and takes wing in the course of August—Cut your wheat high, remove it immediately from off the land, and without delay burn the stubble.—This destroys the insect while in this torpid state, and if the burning be effectual, cuts off the Hessian Fly root and branch in one season. "I think I may safely pledge myself to you, that if this plan of cutting the wheat and burning the stubble is universally adopted we shall hear no more of the Hessian Fly; and that in addition thereto, we shall have larger crops of grain, as the burning greatly enriches the land, and has nearly the same effect as a good coat of manure."
