A NEW LINE OF STAGES, NOW RUNNING BETWEEN

PHILADELPHIA & NEW-YORK, By the fhort and pleafant road of

Bufleton, Newtown, Scotch-Plains, Spring-field and Newark.

Builteon, Newtown, Scatch-Fiams, Spring-field and Newark. THE excellence of this road, the populouf-nefs of the country through which it paff-et, with fundry other advantages, which render it to far preferable to the Old Road through Briftol, Brunfwiek, &c. long ago fuggefted the propriety of its becoming the Graad Tho-rough-Fare from Philadelphia to New York. During the prefent year, a minute furvey of it has been taken, and its fuperiority over the Old Road, both in winter and fummer, has been clearly afcertained.—There are good bridges over all the other waters but the Delaware, and here the croffing is, performed with great fafety and in lefs than half the time required at the Trenton Ferry. The road is *feveral miles Norter* than the old road, but this is among? the leaft of its advantages, becaufe daily expe-tience proves to us, that diffatch as well as com-fort in travelling principally depend on the goodnefs of the road and the levelnefs of the country, and, in thefe refpects, the New Road is, beyond all comparifon, the heft. It prefents none of thole rocky hills, which render the Old Road for faitguing between the Delaware and Newark. The foil, too, for the greater part, is fuch as to produce but little mud in winter, and very little uff in fummer, which circumffance, added to the beauty of the country, and a con-ider travelling in the latter feafon peculiarly a-greeable.
