DE: LARATION.

Made to the Diet of the Empire in the name of the king of Sweden as Duke of Pomer-

His Mojesty having already d-clared, that he considered the Congress of Peace at Raf-tadt no longer Constitutional, after the renewal of the war, and in consequence there of he recalled his Minister, this Congress ought to be confidered as diffolved. No Legation of the states of the Empire can remain at Rastadt, without evident breach of that respect which each state owes to the Supreme Chief of the Germanic Body. The Supreme Chief of the Germanic Body. The present war, in his opinion, ought to be regarded as a war of the Empire; indeed it was declared as such at first, and as the Congress was convened, for the sole purpose of negociating the peace during the armistice, he conceives that things should remain on the

It is the duty then of each member of the Expire to take an active interest in this furnishing his contingent; no state, in his Majesty's opinion, can be dispersed from this obligation, except those whose lo-cal position, and want of means, render it eal polition, and want of means, render it impossible. A contrary opinion feems to him inadmissible and unconstitutional. Our principal oblication is obedience to the Chief Supreme of the Empire, and attachment to the Constitution, to ensure the enjoyment of our rights and prerogatives.—It may, perhaps, be alledged, that the interests and well being of some of the states of the Empire prescribe to them what is termed a neutrali-ty, but as his Majesty has already excepted those Sovereigns and countries, which from those Sovereigns and countries, which from imperious circumstances, are prevented from supporting the burdens of the war, he does not see any reason for such conduct in those whose fituation excludes the like excuse; and even should the part they would take in the war be attended with difficulties and exthe war be attended with difficulties and expence, they have no folid motives which justify a breach of their engagements.—
After fome other observations his Swedish Majesty thus concludes: He that reads in the hearts of men is his judge, and we will assuredly see that no motive of ambition has induced him to take this step, and that his only incitement is the desire of re-establishing units. only incitement is the defire of re-establishing union, considence, and integrity in the Germanic Body. He declares then here to his Co-estates, that he is ready at this moment to make his contingent march, as Duke of Pomerania; and wishes that all the well disposed Members of the Empire particularly those who have the power to maintain it effectually, may imitate his example.

EAST INDIES.

By the late overland diffacth, we (and we believe exclusively) received the Bombay and Calcutta Newspapers to the departure of the express, having established a medium, by which we shall receive these papers in succession by every possible conveyance. On the present occasion they are particularly barren of intelligence the following being the only articles we deem deserving notice;

From the Calcutta Post, December 7 '98. By letters of very late date from Chittagong, we learn that fome time past, a number of Burmahs have emigrated to the Southermon part of the district, and that recently

a body confifting, it is supposed, of 15,000, arrived. Upon being questioned why they abendoned their native country? they obferved, they found it impossible longer to exift there.—You may deny us protection, fay they—but we cannot return,—death itself is preferrable to fuch a measure.

We have from time to time submitted to our readers, such accounts as could be depended upon, relating to the measures adopted by the Burmay Government, and not long fince we had occasion to state, that the most vigorous exertions were making to meet the Stamese, with a formidable force. meet the Staniele, with a formidable force. To these exertions and their consequences, which must have been distressing in the extreme to the people at large, it is owing that inch valuumbers have abandoned their home, in search of protection in a foreign land. The wretched policy, or the pressing necessities of the Government, have urged them to refer to the cruelest means to raise money; perfects supposed to presse the raise of each perfone supposed to possess the value of 200 rupees have been tortured till they confessed where their treasure lay concealed; and to wrest from the less opulent, their little all the lash has been applyed to an uncommon degree of security; such having been the tale, we may rather expect more emigrants, than that those already arrived will be pre-

vailed upon to return.

The Officers of the Calcutta Militia will dine, we understand, with the Right Honorable Governor General, on Wednesday next. The gentlemen will, of course, be dressed in the full uniform.

> BOSTON, August 1. MR. RUSSELL,

As an evidence of the polite attention paid ythe commanders of our cruising ships in the West Indies, to the wishes of the captains of Merchant vessels we send you for publica-tion, the enclosed letter from capt. PERRY, of the United States ship General Greene, to captain Eames and others, who applied to him for a convoy, from Havanna to Matan-

General Greene, 6th July.

GENTLEMEN, I was duly honored with your polite request, of the present instant be affured every possible protection in my power, shall be rendered you, not only to the Matanzas, but from thence part of the way to America. I have the honor to be Gentlemen, with great respect and esseem, your obedient servant, CHRISTOPHER RAYMOND PERRY.

To capt. EAMES, and others, American Maffers at the Havanna.

PROVIDENCE, July 31.

A letter received in town on Monday last from Mr. Laing, first Lieutenant of the United States frigate General Greene, dated at Newport harbor, mentions, that the General Greene failed from the Havanna the 12th inft, with 50 fail of merchantmen which she convoyed to the northward of Bermuda, when it proving very fickly on board, it was found necessary to bear away for Newport, in order to land the fick, and cleanse the ship: that 20 have died of the sever (among whom are 9 officers) and about 30 fick, who are landing at Coaster's harbor. Among the deceased officers are the purser, the furgeon, and Mr. Coleman, of this town, midshipman.

The United States frigate Gen. Greene capt. Christopher Perry, arrived here on Sa-turday last, the 27th inst. from the Havanna station; having convoyed upwards of fifty vessels bound to different ports of the United States. A very fatal and contagious disorder, together with other pressing causes, compelled her thus early to abandon her station. The causes which produced the fatal malady will no doubt be developed in due feafon—at the fame time we feel ourselves warranted in expressing a belief, that it has not been produced by any negligence of the officers, or uncleanliness of the crew; and that no possible exertions were wanting in fearching into the cause of it, and endeavoring to prevent the effects. The exertions of capt. Perry, fince his arrival in port, to prevent the contagion from reaching the town, will no doubt be applauded by every description of citizens. The caudor with which the nature and extent of the calamity were immediately disclosed by the officers de-

ferves to be particularly noticed.

While we deplore these diffressing circumstances, in common with our fellow-citizens, and in particular with the relative of the deceased, we have the satisfaction to congratulate the friends of the remaining fick, on the flattering profpect of their speedy reco-

The frigate is now anchored near Coaster's Harbor ; the lick have been fent to the hofpital on that island, and the well go on shore at Rose Island for their health. No person is admitted to go on board, or come from the ship, so that there is no danger from any contagion—there have died since the 15th July on board the ship 20; and 35 have been sent to the hospital at Coaster's Harbor—all but three walked to the hospital, and from the change of air and diet are rapidly

We flate these facts for the public's fatis-faction, which may be relied on. We also subjoin a certificate from the physicians who have vifited them.

"We the subscribers having examined the fick who were landed on Coaster's Harbor, from on board the United States frigate General Greene; certify, that we have difcovered no clearly, marked cafe of yellow fever among them; but that the principal difease appears no more than a remittant billious fever, fuch as is frequently generated, in warm feafons, on board of large ships, or other crowded situations.
