

By this Day's Mail.

BOSTON, August 10. The news from Europe reaches us with progressive, though snail-like pace.

The series of Imperial successes are as uninterrupted, and their aspect as brilliant, as those of Buonaparte were on the same theatre, in 1797.

The capture of Genoa, heretofore announced on the credit of report, is now established on official responsibility.

Of General Macdonald's army—if its destruction is not authentically pronounced; its fate is almost as certain as hopes and wishes have anticipated; and his name will speedily be confined to the oblivion of Joudan's, or to the ignominy which is attracted to Scherer's.

The French once had an army denominated the "Army of England"—The English it seems, are preparing a force, which speedily may justly be called the "Army in Holland."

Sweden enters on the belligerent stage in the fifth act—She is perhaps, solicitous of sharing in the honors of the denouement; and of assisting to close the drama with applause.

THE FRENCH DIRECTORY Is now composed of citizens Barras, La Revelliere, Lepaux, Merlin (of Douai) Trielhard and Sieyes.

Monneron, the ex-director of the French bank, has been acquitted of fraudulent bankruptcy, by the criminal tribunal.

17th JULY CELEBRATION. The President of the United States, in a private letter, speaking of the celebration of the 17th of July, by the citizens of Boston, says—

NEW-YORK, August 11. Capt. Delessa, of the schooner Union, informs, that the ship that occasioned the dispersion of the fleet, was a frigate of 44 guns, and passed so near the Union, that he could see their manoeuvres quite plain.

When the above frigate first entered the fleet, she had English colours flying, but hauled them down, and did not show any others.

It is said a court martial is to be held at Fort Jay, to settle the dispute between Capt. Fry and Major Hoops.

From a late Jamaica Paper. The following has been handed to us in consequence of the publication in our last, recommending the use of Yeast in putrid diseases.

Copy of a receipt for making Yeast, taken many months ago from an English Paper.

YEAST—This useful article, of which there is frequently a scarcity in this country is thus prepared on the coast of Persia.

Mr. Eaton, when in Persia, had his bread made with this yeast, and in the English manner, of good wheat flour.

most advantageous, the most profitable and the best calculated to draw away the embarrassments in which the Spanish treasury is at present involved, particularly by the interruption of trade between Spain and America.

GOSHEN, (New-York) Aug. 6. Last week were brought to this town four of the Money making gentry, from the upper part of this county, with a part of their coining apparatus, which was found in a cedar swamp at New-Shawankonk, where they carried on their business—they were examined by two of the Judges of this county, and committed to prison—one of them turned state's evidence, and it is probable that there is yet a number of these fellows lurking about this county, we hope no exertions will be spared by the citizens of Orange County, to detect and bring them to justice.

On the night of Sunday, the 21th ultimo, James Steel, put an end to his life by hanging himself—The reason of his becoming his own executioner we know not—he was a person who would get intoxicated whenever he could get liquor, but if we are rightly informed, he was very sober the evening he took his exit.

HARTFORD, (Conn.) August 12. On Friday the 2d instant, the Barn of the Rev. Aaron Putnam, of Pomfret, was struck with lightning, and consumed with all its contents of hay, &c.
