MILAN, June 12.

Gen. Bellegarde has gone toPiedmont, from whence he will marchagainft Acqui, with 12,000, and penetrate the Genoefe country on that fide.

We have just now learned, that the van of Gen. Macdonald's army has been defeated near Lucca, by Gen. Otto, who has made many prifoners.

The fortrefs of Urbino has capitulated. On the 7th, 600 French prifoners arrived from Lugano.

General Moreau has ftretched his right wing towards Genoa, to fuftain Gen. Victor, who covers the Ligurian territory, on the fide of the Imperial fiers. June 11. Gen Macdonald's army is fta-

tioned part on the mountains of Tufcany, and part towards Lucca .- A good polition.

June 12. After Moreau had detached. Generals Victor and Grenier to Genoa, Gen. V. marched to the vailey of Tora, to co operate with Maodonald. They then diflodged General Otto, near Pontremoli, and beat him Lack as far as Parma.

VERONA, June 14. In order to cover Macdonald's march by Sarzana to Genoa, Gen. Montrichard was obliged to make a movement with 8000 men againft Modena ; tut Gen. Hoheuzollern has repulfed him. General Otto is now collecting his whole force to encounter the enemy ; and General Suwarrow is haftening with the main army towards Genoa, to fupport him.

The city of Ferrara is railing a corps of 4000 guards to co-operate with the imperial army.

We expect here an army of 12,000 Ruf-fians, in all June.

The Fren h troops in Tufcany are join ing Moreau. Every where they impofe contributions. Even at Bologna they demanded two millions, but were offered only 130,000.

June 15. The 11th, Gen. Hohenzollern fucceeded in repulling a corps of 8000 French, who approached Modena, and took 800 prifoners. But Gen. Macdonal 's army of 30,000 appearing, the Auftrian general retired to the Po he French extend towards Ferrara and Parma. General Otto is near Piacenza, receiving rsinforcements. Gen. Kray is gone in hafte to General Suwarrow's head quarters, to concert

with the addition, that the Councils remain perfnament until an answer floodd be received. Three hours after the Directory promifed an anfwer the next day. The Council of 500 nevertheless continued permanent.

After a violent difcuffion the Council fuspended the dictatorial power of the Direct. ory over the Journals and Pamphlets, and provisionally decreed fix articles on the liber ty of the Prefs.

The Council was informed that the Di rectory had declared itfelf permanent.

The Councils decreed, at 11 o'clock at night, the election of Treilhard to be un- rancs. conflicutional .- Treilhard immediately ceafed his tunctions, as Director. Yeslerday the ex-minister Gohier was

elected, and proclaimed the new Director. The Revolution of the Executive Power is nearly complete, and of all the Directors from whom Sieyes fo lately received the fraternal embrace, on his initallation there is none now remaining but Barras.

Boulay de la Meurthe, in purfuance of his plan to annihilate the Dictatorial power of the Directory, proposed in the fitting of the 30th of Prairial, to refer the aniwer o the Directory to a special committion. He expressed himfelf very ftrong on this occas fion on the Dictatorfhip which a triumvirate wifhed to affume. I revealed to you, he faid, three days ago, the fecret of the circumflances in which we are now involved. Since the 18th of Fructidor, the Executive Power has affumed the dictatorship, and neglected nothing to villify the national repreientation. You have semained filent ; you thought they would use this immense power for the falvation of the Republic but they have only employed it to bring on its ruin. They have rendered us the objects of the deteflation of all nations. We will refume our place in Europe, and we shall be beloved and respected. I accuse, above all, Merlin and La Reveillere as the authors of thefe evils. Thefe men can never remain in the Executive power.

Arena informed the Council of feveral facts, tending to inculpate the Directors and the Minister of the police, in whole office he faid they had been continually employed during four and twenty hours, in burning papers; these papers, he added, would with-out doubt have difcovered the arbitrary and illegal measures of the Directory and have thrown a new light on the confpiracy. Francois, of Nantes, caused a decree to be paffed in the name of the commission of

eleven members; to whom the mellage of the Directors had been referred importing that |

Gen Count Bellegarde, after taking, with unexampled bravery, the famous St. Got. thard's Mount, es barked, with his own di vition, on the Lago di Como, to proceed by Milan and Pavia, against Tortona, to join the Italian army - leaving behind him Gen. Haddick to maintain the communication between Field Marshal Suwarrow, and the Archduke Charles, which is now facilitated by St. Gothard and Turin.

The Archduke's troops paffed in hafte through Zurich, to purfue the French, and leave them no time to take post again,-Hence the whole eattern parts of Switzerland are evacuated.

Private letters fom Vienna flate, that Cardinal Ruffo had re entered Naples, audwas purfiting Macdonald very clothy; o.

thers fay he was approaching Rome. Fron: Vanice, on the 6th of June they write, that the Imperialifts had entered Cefena, on the river Savio, and Rimini, on the river Marrechina, where they took 5 cannon, 60 prifoners, and the French Conful of Sinegaglia.

By the Vienna Court Gazette Ex. traordinary, of 16th June, the ijunction of Generals Moreau and Macdonald's armies is officially announced. From the above official as well as private accounts, it appears that General Macdonald's march was effected through the mountain defiles in upper Italy, and along the fea-coaft, which enabled him to join General Moreau on his retreat to the valley on the river Tanaro, and near Savona, on the Genoefs coalt. Here they expedied alfo to be joined by Generals Montrichard and Gaultier from Tufcany and Bologna.

To oppose the combined forces of the French, without hindrance to the close flège of the citadels of Turin, Tettera, and Aleffandria, the corps under F. M. Lt. Generals Bellegarde and Otto ; the divisions
