

of Generals Frolich and Hrenzoellen, the brigades of Generals Seckendorff and Alcani, have all been united into a strong army of observation, ready to act every instant in support of the grand army of F. M. Suwarow. Hence the news of a general and bloody engagement may soon be expected, and which, no doubt, will decide the fate of the French in Italy.

The official accounts from Switzerland only come down to the 9th; under which date the Archduke Charles wrote to Vienna, that the French left 94 pieces of cannon in Zurich, and that the progressive movements to mount St. Gothard and the Devil's Bridge, had been stopped by Col. Prince Rehan, Generals Hebert and Haddick.

Direct letters from Switzerland say, that General Massena disputes every inch of ground, and had obtained some trifling advantages in the engagements since the 9th, which, however, were soon returned by the Imperialists, whose head quarters, on the 15th, were still at Klatten, where General Hotz, and other chiefs, hold conference every day.

ELECTION.

The friends to the Election of JAMES ROSS, as Governor, resident in the Townships of Blockley and Kingessing, are requested to meet at George Weed's lower Bridge on Schuylkill, on Saturday, 28th August, at 3 o'clock, to take into consideration the most proper steps in support of his Election. Blockley, August 23, 1799.

THE subscribers, members of the Grand Inquest of the county of Chester, having attentively and deliberately considered the relative merits of the two persons now in nomination for Governor, to succeed the present, do not hesitate in pledging themselves to support JAMES ROSS, of Pittsburgh, at the ensuing election for office, inasmuch as he has always, with that candour which exclusively appertains to the friends of America, advocated her rights in spite of all the menaces and calumnies of foreign emissaries & domestic traitors; that his mind has been superior to the popular clamours of the moment steadily pursuing the interests of the people without being of this party to-day, and the other to-morrow, as popular prejudice might seem to vibrate; and as there will be a vacancy in the Senate of Pennsylvania, at the ensuing election, for a Senator from the district composed of the counties of Chester, Montgomery and Bucks, we do recommend, as our choice, and are determined to support ZEBULON POTTS, Esq. for said office.

DENNIS WHELEN, foreman. Thomas Stalher, Francis Gardner, John Frick, Joseph Sharp, John Marshall, James Whelen, Philip Scott, Thomas Morris, John Pugh, H. Downing, John Huggs, Lucy Woodrow, James M. Gibbons, Abraham Sharples, James Botton, August Term, 1799.

On motion, it was unanimously agreed that a committee, consisting of twenty-six persons, be appointed for the purpose of investigating the validity of the charges alleged against Mr. Ross;—in pursuance of which the following persons were appointed, viz.

William Gibbons, Esq. John Frick, Joseph McClellan, David Morris, Isaac Wayne, Esq. David Pennyfather, Jos. Hemphill, Esq. Loan Evans, Benj. Jacobs, Esq. Dr. Joseph Pierce, Dr. F. SPECULATION.

TO BE SOLD. A Public Vendue, on Monday the 28th of September next, at 2 o'clock, P. M. at the house of the Subscriber, living in the town of New-Castle, State of Delaware, a quantity of valuable

LOTS, suitable for building on, being the South side of the flourishing town of New-Castle above said, distant from Philadelphia thirty three miles.

This valuable property is highly capable of improvement, being immediately on the river Delaware, having a number of what lots on it; and from the depth of the water (earth and materials for wharfing being easily procured) there is no doubt but wharves would bring a handsome interest.

This property consists of five acres more or less, in one body; lays high, and is divided into lots to suit every description of persons.—New-Castle is one of the most healthy and flourishing towns on the continent; and from the increase of trade it has raised property to four times the value it was seven years past.—The number of vessels bound out and in, which stop for supplies of stock, &c. &c. and the whole carriage of goods between Philadelphia and Baltimore, is now through this place. The packets and stages from the aforesaid cities, &c. &c. make it very lively: there is not, at this time, one house to be rented in the place and the number of applications for houses make it an object for persons to improve. There are a number of elegant and useful buildings now going on, a Public Academy and several private schools: The malignant Fever has never made any progress, and the Ague scarcely known; the number of children in this place is a convincing proof of the healthiness of it. The prospect of the river Delaware, up and down is delightful; as far as the eye can distinguish you may view the hills in different attitudes. There is reason to suppose that public pies for the Navy will be built here, as vessels can sail from this place when the river is full at Philadelphia.

The conditions of sale will be easy and made known on the day of sale. Places of public worship, market and mills are very contiguous. JOHN DARRAGH. N. B.—A pl of the above will be exhibited any time previous, as well as on the day of sale. August 26. 1799.

TO LET, A convenient, elegant and new two story BRICK HOUSE,

FOR SALE. A House and Lot, Stables, Shop, &c. suitable for a Store or Tavern, with a well of excellent water before the door; situated healthy and pleasant on the Banks of Tom's River; Dover Township, Monmouth County, New Jersey, within seven miles of the Sea, the River and Bay affording plenty of fish, oysters and clams—also plenty of wild fow in the winter season; and a safe retreat from Pestilential diseases.

Also for Sale, situated as above mentioned on the Banks of said River, several small improved places with valuable Fisheries, together with timber and wood lands, adjacent saw mills &c. Likewise Lots upon said River, on which Houses may be built easy and cheap, lumber &c. being plenty in the neighbourhood: a new Farmstead is erected near by, and from every appearance the place is likely to become good for trade, and almost every kind of business, the Navigation of the River being safe and easy, and the distance to the ocean not more than seven or eight miles, the seats for water works and manufactories equal it not exceed any in the United States; being situated so near navigation that there is little or no land carriage—any person inclining to purchase will please apply to the subscriber on the premises or to
