The excellence of this road, the populouses, with Tundry other advantages, which render it for are preferable to the Old Road through Briftol, Brunswick, &c. long ago suggested the propriety of its becoming the Grand Thorough Fare from Philadelphia to New York. During the present year, a minute servey of it has been taken, and its superiority over the Old Road, both in winter and summer, has been clearly ascertained.—There are good bridges over all the other waters but the Delaware, and here the crossing is performed with great safety and in less than half the time required at the Trenton Ferry. The road is several miles shorter than the old road, but this is among the least of its advantages, became daily experience proves to us, that dispatch as well as comfort in travelling principally depend on the goodness of the road and the levelness of the country, and, in these re-pests, the New Road is, beyond all comparison, the best. It presents none of those rocky hills, which render the Old Road sa fatiguing between the Delaware and Newark. The soil, too, for the greater part, is such as to produce but little mud in winter, and very little cust in summer, which circumstance, added to the beauty of the country, and a condiderable news reine of shade, must always rendered. odded to the beauty of the country, and a con-iderable proportion of shade, must always ren-ier travelling in the latter season peculiarly a-

With respect to packages fent on withour with relpect to packages fent on withour passengers, the proprieturs presume they have adopted a regulation, which, though unknown to other lines of stages, they think must meet with general approbation. They pledge themselves to make good every package on the following conditions. The person who delivers the package at the office shall see it entered in the stage-book, for which entry he shall pay 6 cents; he will then state the value of the package, and pay (exclusive of the carriage) one per cent. on the value, as infurance, and for which age, and pay (excurive of the carriage) one per cent, on the value, as infurance, and for which he will receive a receipt. Thus, for inflance, if he effimates his package at one dollar, he will pay one cent, and if at one hundred dollars, he will pay one dollar infurance, and in like pro-portion for packages of any other value.

Very few persons it is presumed, will dislike this regulation; it will however, be optionable with every one to avail himself of this security or not. But the proprietors think it right to state very explicitly, that they will be responsible for the safe delivery of no package, which is not regularly entered, and for which an insurance receipt cannot be produced.
