The Council of Five Hundred had fent a meffage to the Directory, demanding an account of the execution of the laws enact-ed against the authors and outblifters of wried against the authors and publishers of wri-tings tending to excite the re effablishment of royalty, and the overthrow of the con-flitutional Government. The Directory fent a meffage to the Council in confequence —of which the following is the fublitance. "A waft and atrocious confpiracy exifts against the republic, and threatens all true republicans. The proo's are the bodies of the republicans affaffinated in the fouth and elfewhere to the cipfure Cione, which are elfewhere; the influrections which are breaking out on all fides; the execrable journals and libels with which the republic

But the periodical prints fow division among the citizens, excite hatred between the legislative body and the Directory and create mitruit against them by the most and create initial against toem by the most injurious afperfions of the members. Some prevent the departure of the conferipts, and excite the return of royalty; other, proclaiming themfelves the exclusive defen-ders of the configuration, attempt to overbroclaiming themlelves the exclusive defen-ders of the conflictation, attempt to over-throw the powers which preferve it. — Some, like the 2*aotidienne*, heap injories and out-rages on the members of the National Re-prefentation, and the Directory; others, (*le journal des Hommes Libres*) denounce the old foldiers of liberty. In their eyes, no functionary is a republican, no citizen is a patriot : the general, who has juit rallied the army of Italy, is a traitor. If we are to believe them, the Legiflator is unellight-ened, the Directory void of courage the country without children; the public fafety depends on a regeneration in their way. They regret the times which precedet the conflictution. The friends of Kings are in the d at le band of thefe journals. It is particularly in the rem te departments where it is difficult for truth to penetrate that they do infinite injury : the prefent laws are too weak to ftop the ravages of fuch a torrent. Under thefe circumflances, the Directory made of it. That Direc-tory was inverted with immente, powers for the general good, by what fatality did it for by the country and permitted by the has confidered what refolutions were called for by the country and permitted by the laws; it has found them in the 145th ar-ticle of the conflitution, couched in thefe terms: "If the Directory be informed that has confidered what refolutions were called for by the country and permitted by the laws; it has found them in the 145th ar-ticle of the conflitution, couched in the terms: "If the Directory be informed that a confpiracy is plotting against the external and in ernal fafety of the republic, it may iffue orders to arreft fuch perfons as are pre-fume to be the authors and accomplices." The Directory has allo ordered that the preffes and clolets of the pinters and authors of and clofets of the p inters and authors of thole journals be put under feal. "The law authorized, circumftarces

commanded thefe measures, and the Directory have been under the neceffity of adopting them; it was neceffary to dilarm the affaffins of the country. A report was also read from the minister of Police. relative to this object, contain-ing details which could not be inclosed in the meffage.

the Diet of Poland was degraded, that di-vition was fown between the different parties, and the neighbouring powers profited of it to divide that fine country. Let that example ferve as a leffon to us. The council ordered, that the meffage

and the report be printed and that the com-miffion established for the liberty of the preis do nicke its report within three days.

The fitting of the 5th inft was devoted to celebrate the 18th Fructidor. Boulay (de la Meurthe) the Prefident

" The object of this fellival is not to confecrate the victory of one fet of men over another, but to celebrate the greateft triumph gained by the republicans over the royalifts. Before the 18th Fructidor reyalifm did not hide ttfelf under foreign colours it fhewed itfelf mafked. The emigrants who were returned, difdained to folicit their era-fure from the lift, they confidered their emigration as a title of honor, they pretended that they were the only true F enchmen The foreign powers, fo often va quiched, refufed the peace which the republic offered them. The legiflative body was furyed by a faction, which was the principal intrumeet of royalty. It refufed the directory all conflictutional means of confolid ting its power, and followed the fame line of condot towards it, as was followed in

But a great and generous nation will not receive the yoke of barbariaus; the legiflative body is composed entirely of republicans; all the members of the directory are attached to the fame cause, that of the republic. Let a happy union be kept, up between the two first powers and liberty will rise once more incompared from the courd  $\cos \theta$ . triumphant from th's cruel conflict. The means of preferving that naion, are to refpect the conflictution."

FIFTY DOLLARS REWARD.

ON Thursday, 22d October, descrited from the encampment, near Briftol, Pennfylvania, HENRY WEST, an enkited Mulician, belonging to the company of Captain Matthew Henry of the tenth regiment of United States Infantry. He was 26 years of age, 5 feet 7 inches high, grey eyos, fair complexion, born in the county of Tyrene, Ireland, he is a little floop fhouldered and speaks in a low tone of voice.

Briot — " I canntot help exprefing here the protound indignation with which the ftyle of the meffage, and the intentions of those who dictated it, have inspired me .--What ! at the moment when concord has juft been recommended from the tribune, when you have shewn yourfelves disposed to fliffe all hatred-you are called upon to fanction the unconflitutional and dangerous measure which the Directory has just adopted ! What, it is after the 30th Prairial that the most fcandalous act of tyranny is announced to you ! Rememb r that more than once France has accufed her legiflatures of the opprefil n under which fhe has groaned at different periods. R member, that if you do not now refift, and hold with a firm hand the reins of administration, you expose yourfelves to be dishonoured in the minds of your fellow citizens. What, orders are illued to arreft public writers, who are independent by the confliction, and who are amenable only to the laws ! It will be fufficient, then, to be a political writer, to be arrefled, if the principles you profefs do not pleafe the Directory. The Legiflative Body mult not be filent on this act of tyranny. I proclaim it to all France — a great flate blow will flortly be fluck. The Freuch people are to be confined with-in their old territory, and the Directory are in their out territory, and the Directory are in poffeffion of a treaty of peace drawn up-on that bafis ! If this act is confummated, if the Legiflative Body is oppreffed, then liberty is loft : it remains for the people to come to our affiftance; the people mult rife all at once, they mult fly to arms and fave themselves! ( "t these words, violent mur-murs were heard, and Briot was called to order.) The aim of the Directory is to ftrike a great blow, and bring about the dif-folution of the Legiflative Body ! Already, I have proofs of it in hand, attempts have been made to excite a diffurbance in the fubeen made to excite a diffurbance in the In-burb St. Antoine ! (Several voices cried, produce your proof!) The flate is loft, if the Legiflative Body lofes its independence !" Briot concluded by moving, "that the meffage and the report be printed, and re-November 19, 1799.
