A COMPENDIOUS SYSTEM OF PRACTICAL SURVEYING AND DIVIDING OF LAND; BRIEFLY COMPRISED UNDER THE FOLLOWING HEADS, &c.

TWENTY-THREE Geometrical Definitions, eleven Geometrical Propositions, exhibiting to view the properties and dependencies of triangles; followed by problems and examples preparatory to Trigonometry, heights and distances. Then fifteen problems and examples necessarily previous to calculating a Survey succeeded by seven surveys, the area of the four fields is found geometrically, and of the whole number by difference of latitude and departure, shewing how to take an inaccessible boundary, find the bearing and distance of the closing line without running it, also the distances to an inaccessible corner from the two adjacent corners, followed by examples of offsets on to winding streams of water, shewing how to ascertain the area without the trouble of measuring the windings with chains and instruments—a crooked water course flattened, and a quantity of land on each side found by these offsets.

Ten examples of dividing land, with many subdivisions, leading into the most critical circumstances that can occur in practice; an example of Intersections, and an example shewing how the bearings of a field may be truly taken where the needle is attracted, altho' the attraction may vary in quantity and denomination at every station; examples shewing the method of measuring by the chain only. All the rules are clear and explicit. This work contains the tables of difference of latitude and departure and of logarithms.

Orders sent to Joseph and James Cruickshank, Booksellers, No. 87, High-street, Philadelphia, Boull and Niles, 173, Market Street, Baltimore, or the Subscriber in Wilmington (Del.) will be duly attended to.

Those who have the care of subscription papers for this work, are requested to send their respective numbers as soon as possible, to whom the quota's will be sent agreeably to the proposals.

TO THE PUBLIC.

THE time being fixed on, when the MILITARY LAND (commonly called Knox's) WARRANTS, granted to the United States' army, are to be registered and located,—the subscribers have explored that tract of land on which their warrants are to be laid; with a view, and for the purpose of offering their services as locaters.

We take the liberty of suggesting, "that we are at least well acquainted with the situation, quality of the soil, &c. of the different townships in the aforesaid tract, as any other person;" this will, perhaps, appear more clearly, by observing, that WILLIAM C. SCHENCK assisted in running the Indian boundary line; and which time he considerably traversed that tract: he also assisted in surveying and laying it off into townships, and at other times ranged over it, to gain information. But to obtain a more complete and accurate knowledge, we have lately spent between two and three months, with several assistants, in particularly examining the different townships and quarter townships; by which means we have acquired an accurate knowledge of the whole district.—We now offer our services to the public, as Locaters, with assurances that we will locate every persons warrants intrusted to us to the best advantage, agreeably to their rights of location, which is to be determined according to law. For our services we demand the one equal tenth part, either in lands or warrants, when we locate a full tract, or four thousand acres or more, for one person or firm; the land to be taken in a square, at a corner of the tract; which corner is to be equitably determined before the time of location.—The one equal sixth part, in cash or warrants, when we connect and locate any amount less than four thousand acres. We will be in Philadelphia from December next, until after the time of location, to transact this business. Any person wishing to satisfy himself farther, will please to call on us, by letter, (postage paid) or otherwise; when due attention will be paid, and such vouchers may be seen as we have to offer, which we hope will be satisfactory.

The Swift-Sure, A NEW LINE OF STAGES, NOW RUNNING BETWEEN PHILADELPHIA & NEW-YORK, By the short and pleasant road of Buffalo, Newtown, Scotch Plains, Springfield and Newark.

THE excellence of this road, the populousness of the country through which it passes, with sundry other advantages, which render it so far preferable to the Old Road through Bristol, Brunswick, &c. long ago suggested the propriety of its becoming the Grand Thorough Fare from Philadelphia to New York. During the present year, a minute survey of it has been taken, and its superiority over the Old Road, both in winter and summer, has been clearly ascertained.—There are good bridges over all the other waters but the Delaware, and here the crossing is performed with great safety and in less than half the time required at the Trenton Ferry. The road is several miles shorter than the old road, but this is amongst the least of its advantages, because daily experience proves to us, that dispatch as well as comfort in travelling principally depend on the goodness of the road and the levelness of the country; and in these respects, the New Road is, beyond all comparison, the best. It presents none of those rocky hills, which render the Old Road so fatiguing between the Delaware and Newark. The soil, too, for the greater part, is such as to produce but little mud in winter, and very little dust in summer, which circumstance, added to the beauty of the country, and a considerable proportion of shade, must always render travelling in the latter season peculiarly agreeable.

The Swift Sure starts from PHILADELPHIA, at 6 o'clock every morning (Sundays excepted) from the GREEN TREE, opposite the Lutheran Church, North Fourth street. It goes through Frankfort to Buffalo, where it stops to breakfast; from Buffalo it goes through Newtown to Penny-town to dinner; from Penny-town through Hopewell, Millstone, Bound-brook, Quibbtown and Plainfield to Scotch Plains to lodge. The next morning it stops at Springfield to breakfast, from whence it goes through Newark and arrives at New-York at noon.

From NEW-YORK it starts at 3 o'clock in the afternoon (from Paulus Hook) and arrives at Philadelphia the next evening. For seats at New-York, application may be made to Edward Bardin, Old Coffee house, to A. Mathies, corner of Nassau and John streets, to B. Many, no. 48, Courtlandt, corner of Greenwich street, and to Michael Little, at his hotel, no. 42, Broad street.

Fare for passengers, Five Dollars. Way passengers 6 Cents per Mile. Each passenger is allowed to take on rails of baggage carriage free; but all other baggage, taken on by a passenger, will be charged at 4 cents per pound weight.

With respect to packages sent on without passengers, the proprietors presume they have adopted a regulation, which, though unknown to other lines of stages, they think must meet with general approbation. They pledge themselves to make good every package on the following conditions. The person who delivers the package at the office shall see it entered in the stage-book, for which entry he shall pay 6 cents; he will then state the value of the package, and pay (exclusive of the carriage) one per cent. on the value, as insurance, and for which he will receive a receipt. Thus, for instance, if he estimates his package at one dollar, he will pay one cent and if at one hundred dollars, he will pay one dollar insurance, and in like proportion for packages of any other value.

Very few persons it is presumed, will dislike this regulation; it will however, be optional with every one to avail himself of this security or not. But the proprietors think it right to state very explicitly, that they will be responsible for the safe delivery of no package, which is not regularly entered, and for which an insurance receipt cannot be produced.

In the distribution of the route, the greatest care has been taken to fix on such places and taverns as always afford a good accommodation and entertainment for the passengers at the most reasonable rates. The stages are well equipped furnished with seat and steady horses, and committed to the care of intelligent sober and obliging drivers. The proprietors themselves live at the different towns and villages where the stages will stop, so that the conduct of the persons they employ is continually an object of their attention.— They take care also to see that the passengers are well provided for and politely treated at the taverns, and that no sort of chicanery or insolence is practised upon them; in short, they have spared neither pains nor expence to render the SWIFT-SURE the very best line of stages in America.

The line has now run nearly a month, during which time a great number of gentlemen have gone through, both from Philadelphia and New-York. Every passenger has found the road to surpass very far all that has been said of its excellence; and the Proprietors of the Swift Sure are extremely happy to hear the behaviour of their drivers, and the treatment at Taverners spoken of with the highest satisfaction.
