Fust Published, A COMPENDIOUS SYSTEM Of Practical Surveying and dividing land; briefly comprized under the following beads, viz.

Jollowing beads, viz.

TWENTY THREE Geometrical Definitions, exembiting to view the properties and dependencies of triangles; followed by problems and examples preparatory to Trigonometry, heights and diffances. Then fifteen problems and examples necessarily previous to calculating a Survey succeeded by seven survey, the area of the four first is found geometrically, and of the whole number by difference of latitude and departure, shewing how to take an inaccessible boundary, find the bearing and diffance of the closing line without running it, also the difference to an inaccessible corner from the two adjacent corners, followed by examples of offets on to winding streams of water, shewing how to ascertain the area without the trouble of measuring the windings with chains and infiruments—a crooked water course siratened, and a quantity of land on each side found by these offsets.

Ten examples of dividing land, with many

these offsets.

Ten examples of dividing land, with many sub-divisions, leading into the most critical circumflasces that can occur in practice; an example of Intersections, and an example shewing how the bearings of a field may be truly taken where the needle is attracked, altho' the attraction may vary in quantity and denomination at every station; examples shewing the method of measuring by the chain only. All the rules are clear and explicit. This work contains the tables of difference of latitude and departure and of logarithms.

The Swift-Sure. A NEW LINE OF STAGES PHILADELPHIA & NEW-YORK,

By the short and pleasant road of Bustleton, Newtown, Scotch Plains, Springfield and Newark.

The excellence of this road, the populous of ness of the country through which it passes, with fundry other advantages, which render it so far preserable to the Old Road through Bristol, Brunswick, &c. long ago suggested the propriety of its becoming the Grand Thorough Fare from Philadelphia to New York.

During the present year, a minute survey of it has been taken, and its superiority over the Old Road, both in winter and summer, has been clearly ascertained.—There are good bridges over all the other waters but the Delaware, and here the erossing is performed with great safety and in less than half the time required at the Trenton Ferry. The road is several miles shorter than the old road, but this is amongst the least of its advantages, because daily experience proves to us, that dispatch as well as comfort in travelling principally depend on the goodness of the road and the levelness of the country, and, in these respects, the New Road is, beyond all comparison, the best. It presents none of those rocky hills, which render the Old Road so fairguing between the Delaware and Newark. The fail, too, for the greater part, is such as a rocker with the country, and a considerable proportion of shade, must always reader to the beauty of the country, and a considerable proportion of shade, must always reader to the fail of the heauty of the country, and a considerable proportion of shade, must always reader to the fail of the safety of the country, and a considerable proportion of shade, must always reader to the safety of the country, and a considerable proportion of shade, must always reader to the fail of the safety of the country, and a considerable proportion of shade, must always reader to the safety of the country.

Fare for passengers, Five Dollars. Way passengers 6 Cents per Mile.

Each passenger is allowed to take on tailss of paggage carriage free; but all other baggage, taken on by a passenger, will be charged at 4 cents per pound weight.

With respect to packages sent on without passengers, the proprietors presume they have adopted a regulation, which, though unknown to other lines of stages, they think must meet with general approbation. They pleage them other tooks good every package on the followers make good every package on the followers. felves to make good every package on the following conditions: The perion who deliver the package at the office, shall fee its entered in cents; he will then flate the value of the package, and pay (exclusive of the carriage) one per cent. on the value, as infurance, and for which he will receive a receipt. Thus, for inflance, if he effimates his package at one dollar, he will pay one cent. and if at one handred dollars, he will pay one dollar infurance, and in like proportion for packages of any other value.

Very few persons it is presumed, will disside this regulation; it will however, be optionable with every one to avail himself of this security or not. But the proprietors think it right to state very explicitly, that they will be responsible for the safe delivery of no package, which is not regularly entered, and for which an insurance receipt cannot be produced.

In the distribution of the route, the greatest care has bren taken to fix on such places and raverns as always afford; a good accommodation and entertainment for the passengers at the most reasonable rates. The stages are well equipped fornished with freet and sleady horses, and committed to the care of intelligent slopes and obliging drivers. The proprietors themselves live at the different towns and villages where the stages will slop, so that the conduct of the persons they employ is continually an object of their attention.—They take care also to see that the passengers are well provided for and politely treated at the taverus, and that no forts of chicanery or insolence is practised upon them; in short, they have spared neither pains nor expence to render the SWIET-SURE the very best line of stages in America.

The line has now run nearly a month, dur-

The line has now run nearly a month, during which time a great number of gentlemen have gone through, both from Philadelphia and New-York. Every paffenger has found the road to furpals very far all that has been faid of its excellence; and the Proprietors of the Swift Sure are extremely happy to hear the behaviou of their drivers, and the treatment at Taverns fpokes of with the highest fatisfaction.
