HISTORY OF THE LIFE

ILLUSTRIOUS GEORGE WASHINGTON,

BY IOSEPH SCOTT.

Author of the Modern Geographical Dictionary,

of the various methods which different writers parlie in order to convey uteral knowledge to mankind, Biography stands confessionally among the first. There is none more interesting – none more instructive and entertaining. The histories of distinguished heroes, who have, by their exalted virtues, and noble and splendid actions, been the principal means of redeeming their respective countries from the curroding hand of tyranny, have in all ages been considered the most entertaining, instructive, and important to markind. They afford example; and example is more powerful than precept. It strengthens, by a plain and easy mode of analogical reasoning, the principles of the timid, determines and tites those that are wavering, and ultimately lays the halfs for that harmony and coincidence of sentiment among the citizens; from a much only, a nation can hape to derive rank, conferences and firstility.

Impressed with lively featiments of the eminent virtues of that distributed life to and PATRIOT, the history of whose life I have undertaken to write; it was not till after much reflection I resolved on issuing these proposals.—The following confiderations induced me to this; First, having obtained in the course of an extensive correspondence, with many gentlemen of talouts and information, a large stock of original materials concerning the life of this Illustious Citizen; to give form and body to these, in the manner or history, will preserve many important things that otherwise would most probably be lost. Secondly, as many of the most interesting transactions of his life, since he resigned his commission as Commander in chief of our revolutionary armies, are very im-

the most interesting transactions of his lise, since he refigned his commission as Commander in chief of our revolutionary armies, are very imperfect y recorded, and little understood; yet the greater part of them being fresh in the memories of many, this must be the fittest time to en body them; before a succession of objects, which every day brings forth, we are off the minuter circumstances. There are many of these circumstances important and interesting; as it is universally acknowledged, that great actions, like immense rivers, flow from imall beginnings.

1. The Life of General Washington will eontain nearly 400 pages octavo, printed on fine paper, and in a ftyle of elegance equal to any work that has appeared from an American prefs.

II. It will be embellished with a firiking

likeness of the General, executed by one of the first artists. III. Subscribers' names will be annexed, as

V. Each subscriber is to pay two dollars, one half on subscribing, the remainder on

Subscriptions in this city are re-ceived at No. 297 Arch street, next door to the north west corner of Eighth street. Philadelphia, December 30.
