VALUABLE MEDICINES.

Infallible Ague and Fever Drops. A long eulogium on the virtues of this medicine is unnecessary, as the money will be returned if patient is not relieved—it never having sailed in many thousand cases; not one in a hundred has had occasion to take more than a bettle, and numbers are half-sheet.

The Genuine Perfian Lotion.

So celebrated among the fashionable throughout Europe, as an invaluable cosmetic, perfectly innocent and safe, free from corrolive and repellant minerals (the basis of other lotions) and of unparalciled efficacy in preventing and removing entaneous blemistes of the face and skin of every kind, particularly, freekles, pimples, pits after small pox, inflammatory reducts, feuris, tetters, ring worms, son burns, prickly heat, premature wrinkles, &c. The Persan Lotios operates mild-liv, without impeding that satural, infensible perspiration, which is essential to health—yet its effects are speedy and permanent, rendering the skin delicately fost and smooth, improving the complexion and restoring the bloom of youth; never failing to reader an ordinary countenance beautiful, and a handsome one more so.

Sovereign Ointment for the Itch. Warranted an infallible and immediate cure, at once using; being the most speedy, effectual and ploasant r medy ever offered to the public, and for the fatis action of the timorous, the proprieter maketh oath, that this ointment does not contain a single particle of mercury or any other pernicious ingredient in its composition, and may be assed with the most perfect fasety by pregnant women and on insants newly born.

Patent Indian Vegetable Specific,
For the cure of Veneral Complaints of every description.

An extensive trial of near four years, has proved the vegetable specific to be effectual in expelling the veneral virus, however deeply rooted in the constitution, and has restored health to many who have been brought to the verge of the grave by the improper administration of success. Within this period upwards of eight thousand patients have experienced its falutary effects.

With the medicine is given a description of the symptoms which obtain in every stage of the difference, with copious directions for their treatment, so as to accomplish a perfect cure in the shortest time and with the least inconvenience possible.

HAMILTON's Worm destroying Lozenges,
Which have, within nine months past, relieved upwards of EISHTEEN THOUSAND PERSONS of all ages in various complaints arising from worms and from fealures or obstructions in the femach and bowels.

Romach and bowels.

This medicine bears no analogy whatever to others of fimilar title fo commonly complained of, as operating with a degree of violence, fufficient, not only to kill worms, but fometimes to endauger the patient's life; on the contrary, a peculiar excellence of this remedy is, its being fuited to every age and confliction, contains nothing but what is perfectly innocent, and is fo mild in its operation, that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal diforders.

At the place of fale may be feen many remarkable cases of cures, the authenticity of which any person may ascertain, either by letter or personal application—not being personmed in Europe, nobody knows where—but at home.

Perfons wishing to precure any of the above medicines genuine, must apply ONLY as above—and likewise observe, that the signature of Lee & Co. (who are appointed the general agents for the United States) is pasted on the outside of each, without which they cannot be geauine.

IN all countries, the proceedings in the commencement of their governments, are lost in darkness and of scurity, owing to a carelessies, in the succeeding generation, to preserve the public records, and the attention of the nation, in these rade ages, being called off from their domestic concerns, to engage in wars and conquest. Of what infinite value would the laws of Alfred be, had they been transmitted to our days? Time, that destroys every thing, enhances the value of well authenticated public records, and renders them almost incommable. It is hoped, that Americans will, therefore, chearfully contribute their affishance in transmitting to posterity the labours of their ancestors—founders of the Columbian nation.
