An extensive trial of near loar years has proved the vegetable specific to be effectual in expelling the veneral virus, however deeply rooted in the constitution, and has reflored beauth to many who have been brought to the verge of the grave by the improper administration of mercury. Within this period upwards of eight thousand patients have experienced its falutary eff. cls.

HAMILTON'S

Worm destroying Lozenges,
Which have, within nine months paft, rein ved upwards of EIGHTEEN THOUSAND PERSONS of all ages in various complaints arifing from worms and from foulness or obstructions in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title so commonly complained of, as operating with a degree of violence, inflicient, not only to kill worms, but sometimes to endanger the patient's life; on the contrary, a peculiar excellence of this remedy is, its being fuired to every age and constitution, contains nothing but what is perfectly innotent, and is so mild its operation, that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the fromach and bowels of whitever is foul or offensive, and thereby bowels of whatever is foul or offensive, and there-by prevent the production of worms and many fatal disorders.

At the place of fale may be feen many re-markable cases of cures, the authenticity of which any person may ascertain, either by letter or per-sonal application—not being personned in Europe, nobody knows where—but at home.

Perfons wishing to procure any of the above medicines genuine, must apply ONLY as above—and likewise observe, that the signature of Lee & Co. (who are appointed the general agents for the United States) is pasted on the outside of each, without which they cannot be genuine.

IN all countries, the proceedings in the come meacement of their governments, are lost in darkness and of scurity, owing to a carelessnis, in the succeeding generation, to preserve the public records, and the attention of the nation, in those rude ages, being called off from their domestic concerns, to engage in wars and conquest. Of what infinite value would the laws of Alfred be, had they been transmitted to our days? Time, that destroys every thing, enhances the value of well authenticated public records, and renders them almost incumable. It is hoped, that Americans will, therefore, chearfully contribute their affishance in transmitting to posterity the labours of their ancestors—founders of the Columbian station.
