Mr. Matthew Huston of Germantown, is elected a Member of the House of Representatives of this State, in the room of Gen. T. Mifflin, deceased.

We do not meet (fays the Maff. Federalift) any notice of American affairs, in the French papers.

The Hague Gazette of the 9th November, mentions, the American Minister (Mr. Vans Murray) as being there.

Switzerland continues to groan under the heavy hand of French spoliation. All the accounts from thence are filled with the bitterest complaints respecting the enormous contributions and requilitions ordered by Massena-indeed the opposition of the Helvetic Government grows stronger every day.

A message of the Swis Directory, to the Councils, fay, " For these two years past, we have exhausted all our resources for the French army and its innumerable wants. We have represented to the French Directory on every occasion, our great diffres, and have demanded the repayment of part of our advances, but they diffiamed to give us any an fwer," &c. The Directory and both Councils were ready to call the country to arms, to repel force by force; but Gen. Maffena has at once overthrown the remains of the new Helvetic Constitution, by marching troops to Bern, the very feat of the government, to answer every remonstrance with the powerful argument of the cannon and bayonet! Perochel, the French Minister rather than witness so outrageous a proceeding, and remain in that city as the mock Ambasi dor to a mock Government, chose

Twenty-four cardinals were affembled at Venice, the 23d October, for the election of a Pope. The Paris papers mention that the Catholic Religion will speedily be re-introduced in France.

The creditors of the great failures at Hamburg, are published in the papers there. We have the pleasure of observing, that very few of them belong to the United States. Some houses in Philadelphia only are amongst the lifts we have perufed.

A Bologoa article, of Nov. 1, states, that Admiral Nelson had left Naples, for Minorca; and had in contemplation an atcack upon some French depot.

Dennis, commonly called the Critic, wrote a treatife attributing the decay of Public Spirit to the Italian Operas. The man was ridiculed; but had probably more of reason on his side than the inveterate wits of the age would allow. However real or unreal the ill effects attributed by Dennis to Italian operas, all must allow it to be no very great firetch of imagination to calculate the very worst effects from operas which do openly advocate fornication and adultery, whether faid operas be Italian or German.

If unlicenfed Theatrifts are to be allowed to continue inundating fociety as they have for some time done, with German illumination and in morality, it will become highly necessary (in order to put decent and sober people on their guard) to have titles at once proper and descriptive of the tendency of these licentious works, prefixed to them, instead of the delufive ones they at prefent pass un-der. TH STRANGER ought to be entitled " The Contented Cuckold ;" and the new novel of William and Jeannet, by the fame author, wherein it is inculcated that a woman fustains no other than temporal injury from the less of her reputation, "the Prostitute's Vade Mecum."

## CONGRESS.

HOUSE OF REPRESENTATIVES.

MONDAY, FEB. 1 ..

Mr. Speaker laid before the house two letters from the Secretary of the Treasury, inclosing flatements relative to the Commercial Revenue of the United States-which were ordered to be printed.

Mr. A. Foster laid the following resolu-

tion on the table. ..

Resolved, That a committee be appointed to enquire whether any, and if any, what alterations ought to be made in the compen-fation allowed to the officers of the two houses of Congress.

Mr. Smith, from the committee of commerce and manufactures, reported the fol-

lowing refolution, viz. Resolved, That the term of payment allowed by law on bonds which have been given, and which shall be coming due, prior to the first day of August next, for duties of impost, may be extended for fixty days, in all impost, may be extended for fixty days, in all cases respectively where it shall be required by the parties, and where the recovery of such impost shall not be endangered thereby:—

Provided, that in every case of such additional credit, there shall be required and paid on such bonds, respectively, interest at the rate of one half per cent, per month, from the time such duties shall be respectively due and payable according to law.

and payable according to law.

Mr. S. faid, this was matter of great importance to the merchants of the United States, who had been materially shocked by failures in Europe, and whose fituation required the aid now about to be given, as ipeedily as possible: As it had been submit-ted to the S-cretary of the Treasury, and met his cordial approbation; and as it would not injure the revenue, but on the contrary, might be of benefit to it—he hoped no objection would be made to the refolution, and that it would be immediately taken into conideration-He therefore moved for a refernee to the committee of the whole house this day.

Upon the question, there were ayes 33, noes 33, Mr. Speaker declared himself in the affirmative; the house went into comtee of the whole on the resolution; Mr. Rutledge in the chair; when it was again read, agreed to, and the committee of commerce and manufactures ordered to report a bill pursuant thereto.
Mr. Davis laid the following resolution on

the table.

Resolved, That a committee be appointed to enquire into the expediency of passing a law to regulate the manner of entering Caveats to prevent the iffuing of patents for and granted for military fervices : and that the same committee be directed to enquire into the expediency of passing a law to prevent the entering the Caveat in any case to hinder the iffuing a patent for land granted for military fervices.

Mr. Claiborne withdrew the resolution he

laid some days ago upon the table, requesting the President to direct the proper officer to lay before the house statements of the expenture of money under certain acts authoifing trade with the Indians, and moved the following refolution.

Resolved, That a committee be appointed to enquire into the operation of the acts making provision for the establishment of rading houses with the Indian tribes; and

A valuable Estate for fale, IN VIRGINIA.

THE NORWICH LANDS, MILLS. AND APPENDAGES.

THIS ESTATE

IS fituated in the county of Henrico, on Four Mile Creek, near its junction with James River, about 12 miles from the city of Richmond, and nearly the fame diffance from Pe-

mend, and nearly the fame diffance from Pesterforg.

There is about 150 acres of land, and the whole of it good foil for agriculture, and a full proportion of it very futtable for grafs; about one half of it is cleared and in a state sit for immediate cultivation; the rest is in woods and well covered with useful timber of different kinds. As to the improvements on the farm, there is a decent dwelling heafe with the usual out houses, a good brick spring house, and a large new excellent barn, one story of brick, and the other framed work, two orchards of apples and of peaches, in full perfection and good fruit.

The mills confift of three pair of bur stones for the grinding of wheat, and one pair of stones for grinding of corn, all of proved good quality, worked by overshot water wheels and double gears, with all the late improvements for skreening, cleaning, bolting and elivating the whest and slour, all executed in the best manner and of the best materials and quite new—The mill house is large and convenient, being 46 feet by 72 feet with five sloors, the two lawer stories are brick, the rest framed work executed in the most substantial manner; the house and machinery of the mills will be found unexceptionable, and they are so situated 2s to be free from all risque from the freshes or inundation of the water courses—There is a very convenient brick bake house two stories high, with two large ovens; a very good house for the proprietor or manager, a store room, counting room, kitchen, &c. also suitable houses for millers, coopers, and bakers—The tide water from James River slows to the walls of the mill, where boats of three to four hundred tushels burthen can receive their loads ont of the mill, and in one miles distance, ships of any size that navigate James River, can load in great safety. The mills confift of three pair of bur flones great fafety.

great fafety.

The neighborhood is healthy—very respectable as to inhabitante, being mostly independent farmers, and the foil is in general very justly effected equal to any on James River, for the growing of wheat; upon a moderate calculation, the average annual crops of the neighborhood equally convenient if not more so, to the Norwich Mills, than to any other market, amount to between thirty and forty thousand bushels of, wheat. Mr. John P. Gordon who lives on the premises at present, will shew the whole to those who may incline to view it.

I would prefer a purchaser who could upon

whole to those who may incline to view it.

I would prefer a purchaser who could pay down the principal part of the purchase money, a d'would give a very advantageous bargain—or I will sell on a credit convenient to the purchaser, the interest being paid annually. I will wait for a purchaser til! the 15th day of March next, and if not then sold, I will be glad to treat with a tenant for a lease, on terms which may be mutually agreeable. I have affered the whole of this estate for sale, on a prrsumption that the purchaser of the mills would incline to have the land also, for a supply of building timber, oven wood and hoop poles; but if it be more agreeable to him to take the mills and a few acres of land, he shall be accommodated accordingly.
