PHILADELPHIA, MONDAY EVENING, FEBRUARY 17.

Julium et tenacem propositi virum, Non civium ardor prava jubentium, Non vultus infantis tyranni, Mente quatit folida.

MEMORANDUM.

A display of unparalleled impudence on the part of the Faculty of a certain Institution, has determined me, on what I have long contemplated, an exposition of the villainy, insolence, tyranny and incompetency of these ignorant and brutal Pedagogues.

I wait but for an event to take place which must occur in a day or two; when I will unveil this rank imposture of Reverend Rogues.

The public voice, with loud and general acclaim, has long cried out, "It is high time these insolent were chastised;" and as they are good Republicans, be it my business to teach them, that the Rights of Man are sacred, and that their tyranny shall tend to their own confusion.

The civil dissensions in Pennsylvania threaten the complete disfranchisement of the citizens, at the ensuing election for President and Vice President.

The New York Editor states that a report was in circulation that another revolution had taken place in Paris; in the course of which Buonaparte had again narrowly escaped assassination.

The Regicidal Pentarchy of France, having been overthrown by the usurper Buonaparte, it becomes proper to designate the new rebel government of that kingdom by a new name. Under the dominion of a rebel, regicide, thief and murderer, a Viriatus in profession, practice and character, that unhappy country may not unaptly be said to be under a Diabolarchy.

Mrs. Hannah More, in a late work on Female Education, appropriately notices the lewd and jacobinical productions of the German illuminatus, Kotzebue, in the following passage:

"His cool, calculating, intellectual wickedness eats out the very heart and core of virtue; and like a deadly mildew, blights and thrives the blooming promise of the human spring. Its benumbing touch communicates a torpid sluggishness, which paralyzes the soul. It descends on depravity, and details its grossest acts as frigidly, as if its object were to ally the tumult of the passions, while it is letting them loose on mankind by plucking off the muzzle of present restraint and future accountability. The system is dire intension compounded of bold impiety, brutish insuality, and exquisite folly; which, creeping fatally about the heart, checks the moral circulation, and totally stops the pulse of goodness by the extinction of the vital principle: thus not only choking up the stream of equal virtue, but drying the very fountain of future remorse and remote repentance. See 'Strictures on the Modern System of Female Education.' P. 49.

The comedy of Kotzebue called 'The Birth Day,' consists principally of an attempt at imitating Sterne's Uncle Toby and Mr. Sbardy. The imitation is so weak, that even the London Courier, declares it to be despicable.

The "MR. SASPORTAS" hanged at Kingston (Jamaica) was the man who befriended the Pirate and murderer NASH, and who advised him to swear that he was an American citizen. He was also a French agent at Charleston for Privateers.

A HINT.

MR. FENNO, The honorable member who moved in Congress a few days ago, for the appointment of a committee to bring in a bill making provision for the removal of regular troops of the United States, which may be stationed where an election is held—ought at the same time, to have recollected the mode of conducting elections in the Northern Liberties, and if sincere in wishing that elections may be conducted fairly, amend his resolution, by making provision for abolishing the practice of forming men in military array, and marching them to the election ground with drums beating and files playing, men armed, mounted on horseback, sounding trumpets and parading thro' the streets—he must recollect that all the elections, with few exceptions, have been conducted in this manner in the district of the Northern Liberties; and more inconvenience is to be apprehended from disorderly and irregular militia, than the regular troops of the United States.

KINGSTON, (Jam.) Dec. 24.

By general orders issued the 22d instant, all French male slaves exceeding the age of twelve years, are to be carried to the barracks on Friday the 27th inst. at the hour of 10 A.M.

Yesterday afternoon precisely ten minutes before 5 o'clock, pursuant to his sentence, was executed in the parade, Mr. Sas Portas, condemned as a spy. The Kingston militia and the garrisons of this town and Upper Parke, were drawn up in a square around the gallows, at 10 minutes before four, and the whole business was conducted with the utmost solemnity. Previous to his execution he was marched round the square, with a label having SPY painted on it, on his breast, and another on his back with ESPION on it. He seemed perfectly unconcerned until the handkerchief was bound round his head, and was mounting the ladder from the scaffold, when he made an exertion to save himself by clinging to the ladder. We sincerely hope his fate will be a lesson to those who have come among us on the same errand.

FALMOUTH, Jan. 1.

The ship Boddington, Callenhead, arrived at St. Ann's Bay, on the 24th ult. one of the last convey from England, but last from Trinidad. The news by this arrival states the number of Frenchmen in that island to be more than any other nation; that they had become so treacherous that martial law was laid on; numerous plots for murdering all the English, and getting possession of the colony, were discovered; that a gallows was erected across the main street, so wide that twenty could be hanged at once, and scarce a day passed without from one to five being tucked up. Colonel Hickson is the commanding officer at Trinidad.

FOR THE

CURE OF THE RHEUMATISM, Palsy, gout, lumbago, white swellings, sprains, bruises, numbness, chilblains, acute chronic rheumatism, rheumatic gout, is recommended

Dr. CHURCH'S

Chemical Extract and Essence of Mustard,

Prepared only by Dr. James Church, at his Dispensary, New-York.

There perhaps is no malady to which the human frame is subject, that has had more applications of various kinds administered as remedies, than the Rheumatism: nor is there scarce a disorder that has resisted with like force the attempts made to remove it.

The virtues of the Essence and Extract of Mustard, will be found to equal, if not excel those of any other medicine whatever, in the cure of the above complaints. The following is copied from the London Pharmacopoeia and is the opinion of the College of Physicians concerning this valuable Drug.

"Mustard, by its acrimony and pungency; stimulates the solids, and attenuates viscid juices, and hence is deservedly recommended for exciting appetite, promoting digestion, increasing the fluid secretions; also paralytic and rheumatic affections."

These medicines contain all the virtues that can possibly be derived from that excellent and powerful vegetable. The Essence is prepared in a fluid state, and is singularly efficacious as an external application; in common rheumatism, Sprains, Chilblains, Stiff Neck, swelled joints, Bruises, Frozen Feet, local pains in any part of the body or extremities, Swelled Faces, chapped hands, &c. will be found to yield to its benign influence in a few hours. The Extract is prepared in the form of pills, and being an internal remedy is an amazing additional improvement, taken in the severest cases of the Rheumatic Gout, Chronic Rheumatism, Palsy, fixed pains, Lumbago, Numbness, Gout, &c.—When the essence is externally applied it promotes gentle perspiration, and operates very mildly by urine; they also amend a weak digestion, and strengthen the stomach.

Sold as above with printed directions for use. Where also may be had, CHURCH'S COUGH DROPS, a medicine unequalled by any in the world for the cure of Coughs, Colds, Asthma and Consumptions.—Also by Mr. Price, Baltimore, and Messrs. H. & P. Rice, 16, South Second Street, Philadelphia.

WORMS.

The Genuine Patent Vermifuge Lozenges. FOR DESTROYING WORMS In Children and Grown Persons.

Prepared only by Dr. James Church, at his Dispensary, 137, Front-street, near the Fly Market, New-York.

WORMS it is well known occasions the greatest mortality among children than any other disorder, and few children are without them in a greater or lesser degree.—The necessity of an infallible remedy therefore is obvious. The Vermifuge Lozenges are an excellent alternative, contain nothing but what is perfectly innocent, and may be administered to children of all ages, and to grown persons, with the greatest safety. They are also singularly efficacious in all gross Humours, Scorbatic Eruptions, Sore Throat, &c. &c. and an excellent physic in the Spring and fall of the year, but particularly after the Small-Pox, Measles, Fevers, &c.

Price 50 cents each box.—Family boxes containing eight small ones, at three dollars. Sold by Messrs. H. & P. Rice, 16, South Second Street, Philadelphia, and Mr. Rice, Baltimore.

FOR THE CURE OF FITS.

The patent Antispasmodic Elixir. Convulsion Hysteria, or Epileptic Falling Fits, &c.

Are effectually cured by this excellent medicine. Its virtues are absolutely specific and unparalleled. It has failed in no instance within the knowledge of the proprietor (where taken agreeable to the directions, and with perseverance) the most dreadful Fits ever known. One case of cure only is subjoined out of a considerable number, as proof of its efficacy attested before the Lord Mayor of London.

AFFIDAVIT.

"I, James Pocock, of No 40, North-street, in the Parish of St. Luke's Middlesex, do make oath.—That I was grievously afflicted with fits for upwards of 15 years, and that so violent a degree, as to require 12 men to hold me in them, to prevent me dashing myself to pieces. They would generally last me 5, 6, and often 7 hours; in consequence of which my constitution became quite emaciated. I made application to many eminent gentlemen of the faculty, who afforded me no relief whatever; till I applied to Dr. James Church of the City Road, who prescribed his Antispasmodic Elixir for me, which I took, and which alone cured me of these most dreadful fits, and restored me to perfect health. This deponent further maketh oath, and faith, that it is now two years since he was first cured of his fits, and he has no return whatever of them since.

A valuable Estate for sale, IN VIRGINIA.

THE NORWICH LANDS, MILLS, AND APPENDAGES.

THIS ESTATE

IS situated in the county of Henrico, on Four Mile Creek, near its junction with James River, about 15 miles from the city of Richmond, and nearly the same distance from Peterburgh.

There is about 150 acres of land, and the whole of it good soil for agriculture, and a full proportion of it very suitable for graze; about one half of it is cleared and in a state fit for immediate cultivation; the rest is in woods and well covered with useful timber of different kinds. As to the improvements on the farm, there is a decent dwelling house with the usual out houses, a good brick spring house, and a large new excellent barn, one story of brick, and the other framed work, two orchards of apples and of peaches, in full perfection and good fruit.

The mills consist of three pair of bur stones for the grinding of wheat, and one pair of stones for grinding of corn, all of proved good quality, worked by overhead water wheels and double gears, with all the late improvements for screening, cleaning, bolting an elevating the wheat and flour, all executed in the best manner and of the best materials and quite new.—The mill house is large and convenient, being 46 feet by 72 feet with five floors, the two lower stories are brick, the rest framed work executed in the most substantial manner, the house and machinery of the mills will be found unexceptionable, and they are situated as to be free from all risk from the freshes or inundation of the water courses.—There is a very convenient brick bake house two stories high, with two large ovens; a very good house for the proprietor or manager, a store room, counting room, kitchen, &c. also suitable houses for millers, coopers, and bakers.—The tide water from James River flows to the walls of the mill, where boats of three to four hundred bushels burthen can receive their loads out of the mill, and in one miles distance, ships of any size that navigate James River, can load in great safety.

The neighborhood is healthy—very respectable as to inhabitants, being mostly independent farmers, and the soil is in general very justly esteemed equal to any on James River, for the growing of wheat; upon a moderate calculation, the average annual crops of the neighborhood equally convenient if not more so, to the Norwich Mills, than to any other market, amount to between thirty and forty thousand bushels of wheat. Mr. John P. Gordon who lives on the premises at present, will shew the whole to those who may incline to view it.

I would prefer a purchaser who could pay down the principal part of the purchase money, and would give a very advantageous bargain—or I will sell on a credit convenient to the purchaser, the interest being paid annually. I will wait for a purchaser till the 15th day of March next, and if not then sold, I will be glad to treat with a tenant for a lease, on terms which may be mutually agreeable. I have offered the whole of this estate for sale, on a presumption that the purchaser of the mills would incline to have the land also, for a supply of building timber, oven wood, and hoop poles; but if it be more agreeable to him to take the mills and a few acres of land, he shall be accommodated accordingly.

WATER-OFFICE.

Centre Square, February 5, 1800.

IN compliance with the instructions of the Committee for watering the city, and with my own inclinations, every possible admittance and information has been given to those citizens who have visited the Works during their progress. The Engines are now arrived, and are immediately to be put up, and it is hoped that it will be thought reasonable and just, both to the Public, and to the Contractor for the Engines, that the workmen should not be interrupted. As a very few months will fully gratify the curiosity of the citizens, by shewing them the Engines in full operation, a temporary exclusion of all visitors from the Engine houses cannot appear improper.
