In compliance with the inflructions of the Committee for watering the city, and with my own inclinations, every possible admittance and information has been given to those citizens who have visited the Works during their progress. The Endoes are now arrived, and are immediately to be put up, and it is hoped that it will be thought reafonable and just, both to the Public, and to the Contractor for the Engines, that the workmen should not be interrupted. As a very sew months will fully gratify the curiosity of the citizens, by shewing them the Engines in full operation, a temporary ex-Engines in full operation, a temporary ex-clusion of all visitors from the Engine houses cannot appear improper.

Nasny is a dark yellow negro, about five feet four or sive inches high, remarkably handsome for anegro. Her cloathing unknown as she took a variety of good cloaths with hereshe went off with a negro fellow, named Peter, and calls himself Peter Simpson, he is the property of a certain William Bowers of Talbot county. State as above, who has advertised one hundred dollars reward for him. Peter is a stout well made yellow sellows, about 6 feet one inch high, is a tolerable good Carpenter. Nanny passes for his wire, but her real husbind is named Bob, who belongs to her master. It is probable they are in the neighbourhood of Salem in the Jersies, as they were there in October last, and by information, Peter had built himself an house to live in, between Rum Bridge and Gold Town; it is likely they may have changed their names and may have passes, as Peter can write a middling hand; it is probable Nanny has another hild, as it was thought the was in a pregnant state when she went away. he was in a pregnant flate when the went away.

THOUSANDS are too well acquainted with the nature and effects of comprical medicines daily offered for the cure of the above complaints; dear bought experience has raught them that oily, and heating medicines joined with firong opiates (or fleepy drugs) repeated doles of which, flatter and deceive the patient for the prefent, by procuring momentary eafs; experience, I fay, has taught thoufands that the common opiates and balfams, as they are called, finally aggravate every diforder of the breast and longs in their most dioresting fymptoms; that they load the flomach and impair the digestion, inflame the whole fystem, increale the difficulty of breathing, and excite fever—But the qualities of this valuable discovery are evinced by perfectly opposite effects. A SIN-GLE TRIAL WILL PROVE that it reftores the determination of the fluids to the surface of the body, and brings on the common, healthful perspiration; that it dislodges and evacuates the tough, visied phlegm, or induces, frengtheess the weakened vessels of the lungs, sheathes the acrimonious kumours which irritate the lungs, and finally discharges them. Thus striking at the root of the dilorder, the symptoms are of course, effectually and permanently conquered, the reverse of common medicines, which weaken the constitution and give strength to the disorder, for the sake of moderating for the present, some of its painful effects.

TO PARENTS

This discovery is of the first magnitude, as it affords immediate relief, checks the progrets, and in a fhort time entirely removes the most cruel disorder to which children are liable; the Elixir is so perfectly agreeable and the dose so small, that no difficulty arises in taking it.
