

Foreign Intelligence.

TORBAY, January 23. Since my last arrival the Diamond frigate with stores, and Megara fire ship, and remain with the fleet. The following curious circumstance happened on Monday afternoon:—A French brig privateer of 14 guns, came in with the Gibraltar fleet, and remained six days. She was several times boarded and questioned what she was, but her hands, to the amount of 50, being concealed, the few on deck (who spoke good English) said she had been a French privateer, but was bought by some Liverpool merchants. On the falling of the convoy, she also got under weigh, and in the night would doubtless have captured the most valuable, but a signal was made, which she being unable to answer, of course was suspected, boarded, and taken possession of by the Namur.

VERONA, December 30. Accounts from the Genoese frontiers state, that some hundreds of French soldiers having been compelled by hunger and the want of every necessary to leave their corps and attempt to return to France, being opposed by gen. Gard-nee, he and two other officers fell victims to their fury.

STUTTGARD, Jan. 6. The return of the Russian army to the Theatre of War is now officially announced. The head quarters, it is said, will be at Augsburg. Thus all hopes for peace have again vanished; but the neutrality of Switzerland, it is said, is still a subject of negotiation. In the territories of Furstenberg, Schwarzenburg, and the other parts of the circle of Suabia, every tenth man, from 17 to 45 years of age, is now obliged to become a soldier.

PARIS, January 26. ARMY OF THE WEST. Letter from Gen. Hedouville, Lieutenant of the General in Chief. Angers, 1st Pluviose, Jan. 26.

The division of Chouans under Châtillon has accepted peace. This division composes the party of Mayenne and Loire; also the district of Craon, and the departments on the left of the Isle and Villaine. These must be held distinct from the district of Chateaufort, of the department of Mayenne and Loire, which is occupied by Bourmont, whose bands occupy Sarthe and Mayenne. They will be pursued with the utmost vigor, if they do not follow the same example of Châtillon and D'Autichamp. I think that Prevalais, whose bands are in the departments of Isle and Villaine, will also make his submission.

"The General in Chief, Brunet, pursues Georges with such activity, that the blow which shall be given to him will entirely put an end to this intestine war. (Signed) "HEDOUVILLE."

PROPOSALS

By WILLIAM COBBETT, For importing the following periodical publications: 1. The British Critick; 2. The Anti-Jacobin Review and Magazine; 3. The Gentleman's Magazine; 4. Le Mercure Britanique, or The British Mercury.

THE British Critick is a regular Review of all the works published in Great Britain; it is conducted with great impartiality and ability, and of the numerous publications of the kind which do now appear, and which have appeared in Great Britain; it is universally allowed to be the best. [Price 50 Cents.]

The Anti-Jacobin Review and Magazine is as its title seems to indicate, rather more confined, as to the nature of its subjects, but it certainly is not less calculated for extensive utility. This work is divided into four departments: 1 Original Criticism—A Review of the other Reviews—3 Occasional Essays, in prose and verse—and 4th, A Monthly Summary of History and Politics. Every six months it has a supplement, containing a review of foreign works, not forgetting those of America. The Anti-Jacobin dwells less on subjects which are merely literary and scientific, than on those which have a more immediate influence on society. With a bold and masterly hand, it corrects the blunderings of error, traces the intricate windings of misrepresentation, and strips off the mask of hypocrisy. The avowed champion of the church and the state, it spares the enemies of neither, whether open or secret; and, scorning the pusillanimous defensive, upon which the friends of truth have too long acted, it carries on a continual and vigorous offensive warfare against anarchy, immorality, and irreligion, and thus establishes by its uniform conduct, its right to the title it has assumed. [Price 50 Cents.]

The Gentleman's Magazine, a work stamped with the approbation of three score years, consists chiefly, of communications from antiquaries and cultivators, and of original essays, in verse and prose written by the most learned and ingenious men in the kingdom, and embracing by turns, almost every subject interesting to man. The miscellaneous part of the work is followed by a selection of authentic foreign and domestic intelligence, including official reports, state-papers, and an abstract of the proceedings in parliament; next comes a very copious obituary, being not merely a list of deaths, but a valuable series of biography; to which is added, a Meteorological Diary and Table, a Bill of Mortality for London and its environs, a table of the average prices of corn, and of the stocks, for every day in the month—So that this work must ever be an entertaining and useful companion, not only to those who are of the learned professions, commonly so called, but to the merchant, the farmer, and, in short, to every man, whatever may be the subject of his study, or the object of his pursuit. [Price 50 Cents.]

Le Mercure Britanique, or, British Mercury; by Monsieur Mallet Du Pan.—This work, of which one number is published every fortnight, in French and in English, commenced in August 1798, and is continued with increasing spirit and celebrity. It is both historical and critical; it contains a summary, and is the repository, of all the important events, established facts and public instruments, which relate to the present era; it investigates points of fact, of politics, and national rights; it extends its view over all the nations of Europe, examines the conduct and discloses the motives of their respective courts; it is in short a brief and comprehensive history of the times, equally remarkable for the elegance of its style, the profundity of its remarks, and the soundness of its principles. [Price 50 Cents.]

These four works comprise every thing useful in the periodical way. Gentlemen may subscribe for all, or for either, of them. The first order is intended to be sent off on the 1st of May next; the successive numbers will be received at New York in two months upon an average after, their publication in London; so that those which are subscribed for on or before the 1st of May, will be received in September; after which they will with very little irregularity, come to hand once a month, the importer having made such arrangements as cannot fail of securing punctuality on the part of his correspondents. Subscriptions will be received from any part of America, by J. W. FENNO, Philadelphia. No advance is required. The prices are but four cents a number higher than in London. April 3.

MAP OF NEW-JERSEY. THE commissioners appointed for the purpose of circulating subscription papers, to the best plan of procuring an accurate Map of New Jersey, immediately after their appointment submitted printed copies of the plan to various persons in the several counties of this state, and in cities of New York and Philadelphia, and that time, through the medium of the public papers, have requested the gentlemen entrusted with papers, to return the number of subscribers, then respectively procured, to James Salter, at Trenton, on or before the 6th day of February last. The number of subscriptions received amounting to two thousand, the commission do not conceive themselves authorized to fix a date for the meeting of the company; nevertheless, of opinion from respectable information, the actual subscriptions are nearly, if not adequate to the complete organization of the company, if they could be ascertained by regular returns, and being convinced that a trading department, on the part of the persons holding subscription lists, would enable them to carry intention of the subscribers into effect, they by the unanimous advice and consent of the subscribers, whom they have been able to confer on the 14th day of May next, being the day of the sitting of the supreme court, for a meeting of the subscribers at 11 o'clock in the forenoon at the State House in Trenton, for the purpose of electing five Trustees and a Treasurer, if the number of subscriptions should be sufficient, or to invent to determine on the measures necessary to secure the attainment of an object so useful to the state. From the universal approbation exhibited by their fellow-citizens, at the commencement of this undertaking, it was to be expected that the subscriptions returned would have ensured its immediate execution, and the commissioners are persuaded if proper attention is paid to the procuring subscriptions, to their punctual return at the fixed for the meeting, and to the attendance of subscribers, either in person or by proxy, the further delay will take place in commencing operations of the company, in time for their caution during the course of the ensuing summer. WILLIAM PEARSON, THOMAS EWING, THOMAS M' POTTER. Trenton, March 22, 1800. N. B. Subscriptions papers are left with the following (among other) gentlemen, in their respective counties, to whom these persons desire promoting the object of the company are requested to apply. Wm Campfield, Esq. Morris Middlesex Salem. Gerthom Dunn, Esq. Sussex Cumberland, George Burgin, Esq. Somerset. Wm M' Ewen, Esq. Monmouth. William Lloyd, Esq. Gloucester. Joseph Hankinson, Esq. Bergen. Peter Ward, Esq. Essex. Charles Clark, Esq. Essex. The above gentlemen, with all others holding subscription papers, are particularly requested forward the original subscription papers, to J. Salter, Esq. Treasurer, on or before the 14th of May next.
