DANGEROUS COLD.

DAVID GILBERT, Toyman, No. 46, South-Bourth Street, Philadelphia, voluntarily maketh oath, as follows: namely; that about eight months ago, he caught a fevere cold, which reflicts-every remedy he could think of, and produced the mor alarming effects; he could presure no rell for incellant coughing, nor breath without great pain and difficulty, and was finally fo exhaulted, as to be fearcely able to walk about, which left his litends, little hopes of his recovery, though the preferiptions of a refpectable physician were contamily attended to. In this fituation having of the efficacy of Hamilton's Elixir, a bottle was procured from Mr. B. ch. No. 12, South Second Rect; the full dofe of which afforded the most furnition and the second of the full dofe of which afforded the most furnition of the full dofe of which afforded the most furnition of the full dofe of which afforded the most furnition of the full dofe of which afforded the most furnition of the full dofe of which afforded the most furnition of the source period, and helowithe contents of one bottle were taken, he was perfectly cured, his strength and appetite recovered, and nor a symptom of his former distressing complaints remained.

The above paticulars the faid David Gilbert wishes to be made public, as a reflimenty of his gratifude, and for the benefit of mankind.

TO PARENTS

Who may have Children afflicted with the Hooping Cough,
This discovery is of the first magnitude, as it as fords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable.—The Elixir is to perfectly agreeable, and the dose to finall, that no difficulty arties in taking it.

WORMS.

WORMS.

A daughter of Mr. Ewing Wiley, No. 100. Geda firect, Philadelphia, was dreadfully afflicted with worms, infomuch that her life was with great realon delpatred of; her compicxion faded and grew pale and fallow; her eyes funken; her appetite was folk, and succeeded by a painful and configant facknets at the flomach; which general working and debitity was accompanied with every appearance of a dangerous fever. From this deployable fituation the was relieved, and reflored to a flate of perfect health and fitengith in a few days, by the after of Hamilton's Worm Defictorying Lozenges, which expelled a great number of large pointed worms, from fix to nine outwelve inches in length; one of which being a miff extraordinately thicknets, supposed from half an inch to an inch in diameter) was opened and found to contain a quantity of young ones.

The above is communicated by Mr. Wiley, believing its perulal may be useful to many, by extending the knowledge of a medicine which merits universal attention: But this testimenty is only a corroboration of the estidence of MORA, THAN FIFTT TROBASANT persons of all ages, who have, within twenty monthipalt, been cared by this medicine, with the utmost cale and safety, of various complaints, affing from worms and from obstructions or foundates in the stomach and bowers.

Dr. Hamilton's Grand Restorative
Is recommended as an invaluable medicine, for
the speedy relief and permanent cure of the various
compliants which result from disfipated pleasures, juvenile indistrictions, testidency in climates unfavourable
to the constitution; the immoderate also of tea, frequent intoxication, or any other destructive intemperance; the unskilful or exersive also of site; the
diseases péculiar to females at a certain person of life;
bad lyings in sec.

And is proved by long and extensive experience to
be absolutely unpatalelled in the cure of nervous disorders, consumptions, lowness of lating.

be ablolutely unparalelled in the cure of nervous disorders, confumptions, lowners of lpitits, lofts of appetite, impurity of he-blood, hyderical affections, in-ward weak-refles, violent cremps, in the flomach and back, indigeftion, melancho y, gout in the flomach, pains in the limbs, relaxations, involuntary emiflions, feminal weak-refles, obtinate pleets, flour albus (or whites) importency, barrennefs, &c.

This medicine is perfectly different in its qualities and operation from those hot and irritating drugs to frequently proposed for firmiar purposes, and which poly recommend themselves by the dangerous rapidity of their effects, and which, acting as a temporary but violeht filmulus on the nervous (fystem, infallibly produce greater evils than those they are intended to remove.

The principal operation of this remedy is in the tomock, reftoring the digeflive powers, and fending from that organ new health, and vigour into every part of the fydem. It enriches and purifies the blood without inflaming it; brace, without filmulating too viplently the nervous fysicm; fivengthers the feeretory reflets and the general habit; brings back the inulcular fibres to their natural and healthy tone; and references that nutrition which immoderate evacuations, have destroyed, and whole loss had thrown the whole frame into langer and debility.

The Restorative is absolutely above all recommentations, in removing those weaknesses and intermittes with which many semales are afflicted, the consequences of difficult and painful labours, or of injudicious treatment therein.

The most obstinate seminal gleets; and she most difficulting cases of store albus in females falls particularly under the province of this restorative; speedily yielded is benigh operation, and are radically cured, by correcting and purifying the acrimonious humors, restoring a proper degree of tension to the relaxed fibres, and strengtheomy the weakness or gass.
