FACTS Submitted to public consideration, as additional evidence of the efficacy of Dr. HAMILTON'S MEDICINES, IN THE CURE OF Most Disorders to which the human body is liable. RHEUMATISM.

JOHN HOOVER, Rope-maker, South Second Street, between Mary and Christian streets, Philadelphia, voluntarily maketh oath, as follows: namely, that his wife, Mary Hoover, was so severely afflicted with violent rheumatism, very dangerously situated, the consequence of a cold after lying in, as to be confined to her bed for several weeks, and was at length reduced to the melancholy apprehension of remaining a cripple for life; notwithstanding the most respectable medical advice was followed, and every probable remedy attempted. When seeing several cases of cures performed by Hamilton's Elixer and Extract of Mullard, they were procured from Mr. Birch, No. 17, South Second Street. The first application enabled her to walk across the room, and the use of one bottle restored her to her usual state of health and strength.

Sworn and subscribed to the 25th day of March, 1800, before Elizabeth Ferguson, Esq. one of the Justices of the Peace for Philadelphia county.

DAVID GILBERT, Toyman, No. 46, South Fourth Street, Philadelphia, voluntarily maketh oath, as follows: namely, that about eight months ago, he caught a severe cold, which refilled every remedy he could think of, and produced the most alarming effects; he could procure no rest for incessant coughing, nor breathe without great pain and difficulty, and was finally so exhausted, as to be scarcely able to walk about, which left his friends little hopes of his recovery, though the prescriptions of a respectable physician were constantly attended to. In this situation hearing of the efficacy of Hamilton's Elixer, a bottle was procured from Mr. Birch, No. 17, South Second Street; the first dose of which afforded the most surprising relief, and gave him more ease than he had enjoyed during the whole of the above period, and before the contents of one bottle were taken, he was perfectly cured, his strength and appetite recovered, and not a symptom of his former distressing complaints remained.

The above particulars the said David Gilbert witnesses to be made public, as a testimony of his gratitude, and for the benefit of mankind.

DAVID GILBERT. Sworn and subscribed before me the 8th day of March, 1800. JOHN JENNINGS, Alderman.

TO PARENTS Who may have Children afflicted with the Hooping Cough, This discovery is of the first magnitude, as it affords an immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable—The Elixer is so perfectly agreeable, and the dose so small, that no difficulty arises in taking it.

WORMS. A daughter of Mr. Ewing Wiley, No. 109 Cedar Street, Philadelphia, was dreadfully afflicted with worms, inasmuch that her life was with great reason despaired of, her complexion faded and grew pale and yellow; her eyes sunk; her appetite was lost, and succeeded by a painful and constant sickness of the stomach; which general wasting and debility was accompanied with every appearance of a dangerous fever. From this deplorable situation she was relieved, and delivered to a state of perfect health and strength in a few days, by the use of Hamilton's Worm Destroying Elixer, which expelled a great number of large-pointed worms, from six to nine or twelve inches in length; one of which being a most extraordinary thickness, (supposed from half an inch to an inch in diameter) was opened and found to contain a quantity of young ones.

The above is communicated by Mr. Wiley, believing its perusal may be useful to many, by extending the knowledge of a medicine which merits universal attention: But this testimony is only a corroboration of the evidence of more than fifty thousand persons of all ages, who have, within twenty months past, been cured by this medicine, with the utmost ease and safety, of various complaints, arising from worms and from obstructions or looseness in the stomach and bowels.

Dr. Hamilton's Grand Restorative is recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution; the immoderate use of tea, frequent intoxication, or any other destructive intemperance; the unskillful or excessive use of mercury; the diseases peculiar to females at a certain period of life; bad lymgs, &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of nervous disorders, consumptions, lowness of spirits, loss of appetite, impurity of the blood, hysterical affections, inward weakness, violent cramps in the stomach and back, indigestion, melancholy, gout in the stomach, pains in the limbs, relaxations, involuntary emissions, seminal weakness, obstinate gleet, flour albus (or white) impotency, barrenness, &c.

This medicine is perfectly different in its qualities and operation from those hot and irritating drugs so frequently proposed for similar purposes, and which only recommend themselves by the dangerous rapidity of their effects, and which, sitting at a temporary but violent stimulus to the nervous system, infallibly produce greater evils than those they are intended to remove.

The principal operation of this remedy is in the stomach, restoring the digestive powers, and sending from that organ new health, and vigour into every part of the system. It enriches and purifies the blood without inflaming it; braces, without stimulating too violently the nervous system; strengthens the secretory vessels and the general habit; brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which immodeerate evacuations, have destroyed, and whose loss had thrown the whole frame into languor and debility.

The Restorative is absolutely above all recommendation, in removing those weaknesses and infirmities with which many females are afflicted, the consequences of difficult and painful labours, or of injudicious treatment therein.

The most obstinate seminal gleet; and the most distressing cases of flour albus in females falls particularly under the province of this restorative; speedily yields to its benign operation, and is radically cured, by correcting and purifying the acrimonious humors, restoring a proper degree of tension to the relaxed fibres, and strengthening the weakened organs.

In cases of extremity where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures.

The grand restorative is prepared in pills as well as in a fluid form, which affords considerably in producing a gradual and lasting effect. Their virtues remain unimpaired for years in any climate.

The Persian Lotion operates mildly, without impeding that natural, insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth, improving the complexion and restoring the bloom of youth; never failing to render an ordinary countenance beautiful, and an handsome one more so.
