Death of General Washington. A POEM.

In imitation of the manner of Ossian. By Rev. JOHN B. LINS, A. M. Minister of the First Presbyterian Congregation of Philadelphia.

Mr. Chalmers's Oration will be published on Monday morning, March 15.

PROPOSALS By WILLIAM COBBETT, For importing the following periodical publications:

- 1. The British Critick; 2. The Anti-Jacobin Review and Magazine; 3. The Gentleman's Magazine; 4. Le Mercure Britanique, or The British Mercury.

The British Critick is a regular Review of all the works published in Great Britain; it is conducted with great impartiality and ability, and of the numerous publications of the kind which do now appear, and which have appeared in Great Britain; it is universally allowed to be the best.

The Anti-Jacobin Review and Magazine is as its title seems to indicate, rather more confined, as to the nature of its subjects, but it certainly is not less calculated for extensive utility. This work is divided into four departments: 1. Original Criticism—2. A Review of the other Reviews—3. Occasional Essays, in prose and verse—and 4th, A Monthly Summary of History and Politics. Every six months it has a supplement, containing a review of foreign works, not forgetting those of America.

The Gentleman's Magazine, a work stamped with the approbation of three score years, consists chiefly, of communications from antiquaries and cultivators, and of original essays, in verse and prose written by the most learned and ingenious men in the kingdom, and embracing by turns, almost every subject interesting to man. The miscellaneous part of the work is followed by a selection of authentic foreign and domestic intelligence, including official reports, state-papers, and an abstract of the proceedings in parliament; next comes a very copious obituary, being not merely a list of deaths, but a valuable series of biographies; to which is added, a Meteorological Diary and Table, a Bill of Mortality for London and its environs, a table of the average prices of corn, and of the flocks, for every day in the month: So that this work must ever be an entertaining and useful companion, not only to those who are of the learned professions, commonly so called, but to the merchant, the farmer, and in short, to every man, whatever may be the subject of his study, or the object of his pursuit.

Le Mercure Britanique, or, British Mercury; by Monsieur Mallet Du Pan.—This work, of which one number is published every fortnight, in French and in English, commenced in August 1798, and is continued with increasing spirit and celebrity. It is both historical and critical; it contains a summary, and is the repository, of all the important events, established facts and public instruments, which relate to the present era; it investigates points of fact, of politics, and national rights; it extends its view over all the nations of Europe, examines the conduct and discloses the motives of their respective courts; it is in short a brief and comprehensive history of the times, equally remarkable for the elegance of its style, the profundity of its remarks, and the soundness of its principles.

These four works comprise every thing useful in the periodical way. Gentlemen may subscribe for all, or for either, of them. The first order is intended to be sent off on the 1st of May next; the successive numbers will be received at New York in two months upon an average; their publication in London, so that those which are subscribed for on or before the 1st of May, will be received in September, after which they will with very little irregularity, come to hand once a month, the importer having made such arrangements as cannot fail of securing punctuality on the part of his correspondents.

Subscriptions will be received from any part of America, by J. W. FENNO, Philadelphia. No advance is required. The prices are but four cents a number higher than in London. April 3.

Philadelphia Academy. SAMUEL MAGAW, D. D. Rector of St. Paul's church, and formerly Vice-Provost of the University of Pennsylvania, AND JAMES ABERCROMBIE, A. M. One of the Assistant Ministers of Christ church and St. Peter's. INTEND TO OPEN, On Tuesday the 15th of next month, (April) AN ACADEMY, CONSISTING OF 1. AN English School, in which will be taught Reading, Writing, English Grammar, Composition, Elocution, and Natural History. 2d. A Mathematical School, in which will be taught Writing, Arithmetic, Mercantile Accounts, Geography and the use of the Globes, Geometry, or the elements of Euclid, Trigonometry, both Plane and Spherical, Mensuration, Gauging, Surveying, Navigation, in all its parts, Dialling, Conic-sections, Fortification, Gunnery, Astronomy, Algebra and Fluxions, with their application to the different parts of Mathematics. This department will be conducted by Mr. PETER DELAMAR, formerly Professor of Mathematics in the Royal Military and Marine Academy, Dublin—and lately in the PRIGATE UNITED STATES. 3d. A Classical School, in which will be taught the Latin and Greek Languages, in conjunction with Chronology, Civil History, Rhetoric, and the Institutes of Moral Science. A well grounded conviction of the expediency of the foregoing plan, has been our principal inducement to undertake it. When it is considered that this populous and flourishing Metropolis contains only one Public Institution on an extensive plan, and that many of our youth are obliged to resort to other States, to receive even a Grammar-School Education, the Seminary now proposed, will, we trust, be regarded as eminentely useful. Actuated by these considerations, many gentlemen, friends to Science, and to Literary Establishments, have urged, with great warmth, the present undertaking, and excited the most flattering expectations of its success. Thus encouraged by the countenance and promised aid of liberal men, no less than by a firm persuasion that well-regulated Academies have a most important influence upon manners, habits, and principles; it will be our earnest endeavor to so conduct this Seminary of Learning, as to preserve the great interests of Religion and Morality, to promote Decorum of Behaviour, Correctness of Taste, Liberty of Sentiment, and every other attribute of an ingenious mind, which, in connection with good principles, and found literature, constitute the distinguished ornaments of the gentleman, and the scholar. The building, engaged for this Academy, though affording excellent accommodation, will be relinquished for a more central situation, if such a change should be found necessary. Persons desirous to be employed as TUTORS in this Seminary, are requested to apply, without delay, to either of the subscribers, to whom also Parents wishing to send their children, will please to make application. SAMUEL MAGAW, No. 94 Arch Street. JAMES ABERCROMBIE, No. 101 Pine Street. Philad. March 28.

FACTS Submitted to public consideration, as additional evidences of the efficacy of Dr. HAMILTON'S MEDICINES, IN THE CURE OF MOST Disorders to which the human body is liable. RHEUMATISM. JOHN HOOVER, Rope-maker, South Second Street, between Arch and Chestnut Streets, Philadelphia, voluntarily maketh oath, as follows: namely, that his wife, Mary Hoover, was so severely afflicted with violent rheumatism, very dangerously situated, the consequence of a cold after lying in, as to be confined to her bed for several weeks, and was at length reduced to the melancholy apprehension of remaining a cripple for life; notwithstanding the most respectable medical advice was followed, and every possible remedy attempted. When seeing several cures performed by Hamilton's Elixire and Extract of Mustard, they were procured from Mr. Birch, No. 17, South Second Street. The first application enabled her to walk across the room, and the use of one bottle restored her to her usual state of health and strength. JOHN HOOVER. Sworn and subscribed to the 25th day of March, 1800, before Benjamin Ferguson, Esq. one of the Justices of the Peace for Philadelphia county.

DANGEROUS COLD. DAVID GILBERT, Toyman, No. 45, South Fourth Street, Philadelphia, voluntarily maketh oath, as follows: namely, that about eight months ago, he caught a severe cold, which refused every remedy he could think of, and produced the most alarming effects; he could breathe no rest for incessant coughing, nor breathe without great pain and difficulty, and was finally so exhausted, as to be scarcely able to walk about, which left his friends little hopes of his recovery, though the prescriptions of a respectable physician were constantly attended to. In this situation hearing of the efficacy of Hamilton's Elixire, a bottle was procured from Mr. Birch, No. 17, South Second Street; the first dose of which afforded the most surprising relief, and gave him more ease than he had enjoyed during the whole of the above period, and before the contents of one bottle were taken, he was perfectly cured, his strength and appetite recovered, and not a symptom of his former distressing complaints remained. The above particulars the said David Gilbert wishes to be made public, as a testimony of his gratitude, and for the benefit of mankind. DAVID GILBERT. Sworn and subscribed before me the 24th day of March, 1800. JOHN JENNINGS, Alderman.

TO PARENTS Who may have Children afflicted with the Hooping Cough, This discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable.—The Elixire is perfectly agreeable, and the dose so small, that no difficulty arises in taking it. WORMS. A daughter of Mr. Ewing Wiley, No. 409 Cedar Street, Philadelphia, was dreadfully afflicted with worms, inasmuch that her life was with great reason despaired of; her complexion faded and grew pale and fallow; her eyes sunken; her appetite was lost, and succeeded by a painful and constant sickness at the stomach; which general wasting and debility was accompanied with every appearance of a dangerous fever. From this deplorable situation she was relieved, and restored to a state of perfect health and strength in a few days, by the use of Hamilton's Worm Destroying Lozenges, which expelled a great number of large pointed worms, from six to nine or twelve inches in length; one of which being a most extraordinary thickener, (supposed from half an inch to an inch in diameter) was opened and found to contain a quantity of young ones. The above is communicated by Mr. Wiley, believing its general use to be useful to many, by extending the knowledge of a medicine, which merits universal attention: But this testimony is only a corroboration of the evidence of more than fifty thousand persons of all ages, who have, within twenty months past, been cured by this medicine, with the utmost ease and safety, of various complaints, arising from worms and from obstructions or foulness in the stomach and bowels. Dr. Hamilton's Grand Restorative Is recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures, ju-

venile indiscretions, excessive indulgence in the use of the passions, the immoderate use of frequent intemperance, or any other destructive intemperance; the unskillful or excessive use of mercury; the diseases peculiar to females at a certain period of life; bad hygiene, &c. And it proved by long and extensive experience to be absolutely unparalelled in the cure of nervous disorders, constitutions, lowliness of spirits, loss of appetite, impurity of the blood, hysterical affections, inward weakness, vertigo, in the stomach and back, indigestion, melancholy, gout in the stomach, pain in the limbs, relaxations, involuntary emissions, seminal weakness, obstinate gleet, fluxus albus (or whites) impotency, barrenness, &c. This medicine is perfectly different in its qualities and operation from those hot and irritating drugs so frequently proposed for similar purposes, and which only recommend themselves by the dangerous rapidity of their effects, and which, acting as a temporary and violent stimulus on the nervous system, actually produce greater evils than those they are intended to remove. The principal operation of this remedy is in the stomach, restoring the digestive powers, and feeding from their origin new health and vigour into every part of the system. It enriches and purifies the blood, without inflaming its bract, without stimulating too violently the nervous system; strengthens the faculty of vision and the general habit; brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which, in moderate quantities, have destroyed, and which lost, had thrown the whole frame into languor and debility. The Restorative is absolutely above all recommendations, in removing those weaknesses and infirmities with which many females are afflicted, the consequences of difficult and painful labours, or of indiscretions in their diet, &c. The most obstinate menstrual gleet; and the most distressing cases of fluxus albus in females falls particularly under the province of this restorative, (peculiarly yielded to its benign operation) and is effectually cured, by correcting and purifying the acrimonious humors, restoring a proper degree of tension to the relaxed fibres, and strengthening the weakened organs. In cases of extremity where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures. The grand restorative is prepared in pills as well as in a fluid form, which affords considerably in purchasing gradual and lasting effects. Their virtues remain unimpaired for years in any climate. Dr. Hahn's true and genuine GERMAN CORN-PLASTER, An infallible remedy for corns, for curing removing them from the foot and hand, without giving pain. The genuine Russian Lotion, So celebrated among the Philantropists throughout Europe, is an invaluable, delicate, perfectly innocent and safe, free from corrosive and repellant minerals (the basis of other lotions) and of unparalleled efficacy in preventing and removing untoward eruptions of the face and skin of every kind, particularly freckles, pimples, pits, after small pox, inflammatory redness, scurfs, cutaneous worms, sunburns, itching heat, premature wrinkles, &c. The Russian Lotion operates mildly, without impeding that natural, insensible perspiration, which is essential to health, and extra effects are speedy and permanent, rendering the skin delicately soft and smooth, improving the complexion and restoring the bloom of youth; never failing to render an ordinary countenance beautiful, and an handsome one more so. The Danish Lip Salve Is recommended (particularly to the ladies) as an elegant and pleasant preparation for chapped and sore lips and every Ephemeral and inconvenience occasioned by colds, fevers, &c. speedily restoring a beautiful rosy colour and delicate softness to the lips. The Restorative Powder for the Teeth and Gums, This most excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, absorbing all that acrimonious lime and foulness which diffused to accumulate never fails to injure and finally ruin them. Sovereign Ointment for the Itch, Warranted an infallible and immediate cure at once using; being the most speedy, effectual and pleasant remedy ever offered to the public, and for the satisfaction of the numerous, the proprietor maketh oath, that this ointment does not contain any particle of mercury or any other pernicious ingredient in its composition, and may be used with the most perfect safety by pregnant women, and on infants newly born. Price 3/4ths of a dollar each box. Patent Indian Vegetable Specific, For the cure of Venereal complaints of every description: An extensive trial of near four years, has proved the Vegetable Specific to be effectual in expelling the venereal virus, however deeply rooted in the constitution, and has restored health to many who have been brought to the brink of the grave by the improper administration of mercury. Within this period upwards of eight thousand patients have experienced its salutary effects. With the medicine is given, a description of the symptoms which obtain in every stage of the disease with copious directions for their treatment, so as to accomplish a perfect cure in the shortest time, and with the least inconvenience possible. Infallible ague and fever drops, A long eulogium on the virtues of this medicine is unnecessary, as the money will be returned if the patient is not relieved, it never having failed in many thousand cases, not one in a hundred has had occasion to take more than a bottle and numbers not half a bottle. Dr. Hahn's celebrated Anti-Bilious Pills, Which have been uniformly successful in the cure of bilious and malignant fevers, and in all disorders of the head, stomach and bowels. Cowland's Genuine Lotion—Cure's Cough Drops—Anderson's Pills, &c. Take notice, the above valuable medicines, are sold in Philadelphia by William Young Birch, (stationer, No. 17, fourth second street, and by no one else in the city. Likewise observe that the signature of Lee and Co. (the general agents for the United States) is affixed on the outside of each without which they cannot be genuine. Purchasers by the dozen or gross will receive a liberal allowance by applying to Lee and Co. Baltimore. March 28. m444v

The principal operation of this remedy is in the stomach, restoring the digestive powers, and feeding from their origin new health and vigour into every part of the system. It enriches and purifies the blood, without inflaming its bract, without stimulating too violently the nervous system; strengthens the faculty of vision and the general habit; brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which, in moderate quantities, have destroyed, and which lost, had thrown the whole frame into languor and debility. The Restorative is absolutely above all recommendations, in removing those weaknesses and infirmities with which many females are afflicted, the consequences of difficult and painful labours, or of indiscretions in their diet, &c. The most obstinate menstrual gleet; and the most distressing cases of fluxus albus in females falls particularly under the province of this restorative, (peculiarly yielded to its benign operation) and is effectually cured, by correcting and purifying the acrimonious humors, restoring a proper degree of tension to the relaxed fibres, and strengthening the weakened organs. In cases of extremity where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures. The grand restorative is prepared in pills as well as in a fluid form, which affords considerably in purchasing gradual and lasting effects. Their virtues remain unimpaired for years in any climate. Dr. Hahn's true and genuine GERMAN CORN-PLASTER, An infallible remedy for corns, for curing removing them from the foot and hand, without giving pain. TO PARENTS Who may have Children afflicted with the Hooping Cough, This discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable.—The Elixire is perfectly agreeable, and the dose so small, that no difficulty arises in taking it. WORMS. A daughter of Mr. Ewing Wiley, No. 409 Cedar Street, Philadelphia, was dreadfully afflicted with worms, inasmuch that her life was with great reason despaired of; her complexion faded and grew pale and fallow; her eyes sunken; her appetite was lost, and succeeded by a painful and constant sickness at the stomach; which general wasting and debility was accompanied with every appearance of a dangerous fever. From this deplorable situation she was relieved, and restored to a state of perfect health and strength in a few days, by the use of Hamilton's Worm Destroying Lozenges, which expelled a great number of large pointed worms, from six to nine or twelve inches in length; one of which being a most extraordinary thickener, (supposed from half an inch to an inch in diameter) was opened and found to contain a quantity of young ones. The above is communicated by Mr. Wiley, believing its general use to be useful to many, by extending the knowledge of a medicine, which merits universal attention: But this testimony is only a corroboration of the evidence of more than fifty thousand persons of all ages, who have, within twenty months past, been cured by this medicine, with the utmost ease and safety, of various complaints, arising from worms and from obstructions or foulness in the stomach and bowels. Dr. Hamilton's Grand Restorative Is recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures, ju-

venile indiscretions, excessive indulgence in the use of the passions, the immoderate use of frequent intemperance, or any other destructive intemperance; the unskillful or excessive use of mercury; the diseases peculiar to females at a certain period of life; bad hygiene, &c. And it proved by long and extensive experience to be absolutely unparalelled in the cure of nervous disorders, constitutions, lowliness of spirits, loss of appetite, impurity of the blood, hysterical affections, inward weakness, vertigo, in the stomach and back, indigestion, melancholy, gout in the stomach, pain in the limbs, relaxations, involuntary emissions, seminal weakness, obstinate gleet, fluxus albus (or whites) impotency, barrenness, &c. This medicine is perfectly different in its qualities and operation from those hot and irritating drugs so frequently proposed for similar purposes, and which only recommend themselves by the dangerous rapidity of their effects, and which, acting as a temporary and violent stimulus on the nervous system, actually produce greater evils than those they are intended to remove. The principal operation of this remedy is in the stomach, restoring the digestive powers, and feeding from their origin new health and vigour into every part of the system. It enriches and purifies the blood, without inflaming its bract, without stimulating too violently the nervous system; strengthens the faculty of vision and the general habit; brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which, in moderate quantities, have destroyed, and which lost, had thrown the whole frame into languor and debility.
