Prevention better than Cure.

For the prevention and cure of Bilious and Malignant Fevers, is recommended.

DR. HAHN'S Anti-bilious Pills,

WHICH have been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern parts of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, Savannah, &c.

Facts of this conclusive nature speak more in favour of a medicine, than columns of pompous eulogy, founded on mere assertion, could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason, which can result from extensive experience for believing that a dose of these pills, taken once every two weeks during the prevalence of our annual bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of these diseases, their use will very frequently succeed in restoring health and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild and may be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration and thereby prevent colds which are often of fatal consequence.

DR. HAHN'S Genuine Eye-water. A certain and safe remedy for all diseases of the eyes, whether the effect of natural weakness, or of accident, speedily removing inflammations, or fluxions of rheum, dullness, itching, and films in the eyes, never failing to cure those maladies which frequently succeed the small pox, measles and fevers, and wonderfully strengthening a weak sight.

Tooth-ache Drops. The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

The Anodyne Elixir. For the cure of every kind of head-ache, and for pains in the face and neck.

Infallible Ague and Fever Drops. This medicine has never failed, in many thousand cases not one in a hundred has had occasion to take more than one bottle, and numbers not cure a bottle. The money will be returned if the cure is not performed.

MAP OF NEW-JERSEY.

THE commissioners appointed for the purpose of circulating subscription papers, to the proposed plan of procuring an accurate Map of New-Jersey, immediately after their appointment transmitted printed copies of the plan to various persons in the several counties of this state, and in the cities of New York and Philadelphia, and since that time, through the medium of the public prints, have requested the gentlemen entrusted with those papers, to return the number of subscribers by them respectively procured, to James Salter, Esq. at Trenton, on or before the 6th day of February last. The number of subscriptions received, not amounting to two thousand, the commissioners did not conceive themselves authorized to fix a day for the meeting of the company; nevertheless being of opinion from respectable information, that the actual subscriptions are nearly, if not fully, adequate to the complete organization of the company, if they could be ascertained by regular returns, and being convinced that a trifling degree of exertion, on the part of the persons holding the subscription lists, would enable them to carry their intention of the subscribers into effect, they have by the unanimous advice and consent of the subscribers, whom they have been able to consult, fixed on the 14th day of May next, being the 2d day of the sitting of the supreme court, for a meeting of the subscribers at 11 o'clock in the forenoon, at the State House in Trenton, for the purpose of electing five Trustees and a Treasurer, if the number of subscriptions should be sufficient, or in any event to determine on the measures necessary to secure the attainment of an object so useful to the state.

From the universal approbation exhibited by their fellow-citizens, at the commencement of this undertaking, it was to be expected that the subscriptions returned, would have ensured its immediate execution, and the commissioners are persuaded if proper attention is paid to the procuring of subscriptions, to their punctual return at the time fixed for the meeting, and to the attendance of the subscribers, either in person or by proxy, that no farther delay will take place in commencing the operations of the company, in time for their execution during the course of the ensuing summer.

WILLIAM PEARSON, MACKEL EWING, THOMAS M. POTTER, Commrs. TRENTON, March 22, 1800.

N.B. Subscription papers are left with the following (among other) gentlemen, in their respective counties, to whom those persons desirous of promoting the object of the company are requested to apply:

The above gentlemen, with all others holding subscription papers, are particularly requested to forward the original subscription papers, to James Salter, Esq. Treasurer on or before the 14th day of May next.

March 26.

The note is in the hand writing of the Subscriber, and at the bottom a memorandum by the indorser, to the credit of the drawer, Thomas W. Francis. This note together with a contract between Charles Williamson, and Charles Hale for lands in township, No. 4, in the 5th range of Stricker county, state of New Jersey, and sundry other papers contained in a Pocket Book, were taken from the Subscribers desk last evening. As the above can be of no use to the person who has carried them off, should they be returned, no questions shall be asked.
