Poetry.

[From the Juvenile Scrap Book.]

Young Thoughts.

Tell us, thou child of sweetness,
What are young thoughts to thee?
Are they not in their fleetness,
Like sunbeams on the sea?
Are they not like the flowers,
Thou gatherest in thy play,
Where the sparkling fountain pours
Its melody all day?
Are they not like the blending,
Of odor and of bloom,
When Spring's young buds are sending
Abroad their soft perfume?
Are they not like the shadows
Of clouds that quickly go,
Across the purple meadows
When southern breezes blow?
Tell us, thou glad some rover,
Unwearied all day long,
Like the bee with beds of clover,
The blackbird with his song,
The lamb so lightly bounding,
The butterfly so gay,
What fairy lute is sounding,
The music to thy play.
What find'st thou, child of gladness,
Mid those young thoughts of thine,
That scarce one tear of sadness
In thy soft eyes can shine?
Hast thou some hoarded treasure,
Or deeper mine of gold,
Or secret stores of pleasure,
To mortal ear untold.
Yes, to thy cheek is swelling
The rosy tide of youth,
Its smile of radiance telling
Thy secret and its truth;
For gloomy fate can never
Thine after-life pervade,
If thou seest the sunshine ever,
Nor murmurest at the shade.

The Farmer.

Agricultural Scene.

Extract from Prof. Kirtland's Address.
Art had also heard from time immemorial,
the saying, "That the late snows
of Spring, are manure for the poor
man." She viewed it as an old wife's
fable, though she had often witnessed
the enlivening effect of those vernal snows
on the fresh starting vegetation.
Science has shown that at the breaking
up of winter the immense accumulations
of enriching gases are set free by the
warmth of Spring, ascend to the clouds,
combine with their moisture, which at
that season often coagulates and falls
to earth in form of snow, charged with those
enriching materials. Plaster will, as it
were, be seized upon an anchor them for
the benefit of the husbandman.
Art pertinaciously exclaims, We
have frequently tried Plaster on our wet,
clay soils, without deriving the least
benefit.
Science tauntingly replies, "You might
as well give a drowning man, sunk twenty
feet under water, a dose of medicine with
the expectation of resuscitating him, as to
apply Plaster to wet clay lands before
they have been properly prepared by
draining and sub-soil plowing.
First, extricate the drowning man from
the water, get him warm and dry—then
if a spark of vitality remains, administer
your cordial medicines, and the latent
powers of life will be excited to activity.
Pursue the same course with your
clay lands; cut blind ditches at suitable
distances and in proper directions, lay on
them brush or flat stones, or what is far
preferable, manufacture tiles from the
clay into proper forms and they will be
enduring.
Having drained your fields thoroughly,
introduce the sub-soil plow get in your
wheat early in the season, and the next
Spring in March sow from four to six
quarts of Cloverseed with as many of
Timothy, and from one to two bushels
of Plaster to the acre, and roll down the
surface when the weather will permit.
The next season mow the first crop of
clover if you please; pasturing with
swine is better economy however; and
the second season pasture sparingly, and
in the month of August turn in a heavy
crop of clover by the aid of Kincaid's
improved patent plow, if you have no
batter article. It is the best we have seen.
Upon this clover-lay, or sod, sow your
wheat drag and roll it in; follow the
next Spring with the same routine of
clover and plaster. Your subsequent
crops will all be abundant, and your lands
will be richer than when covered with
the forest. Not a particle of manure
will be required to aid in effecting the
renovation.

Science would, however direct the
farmer how to save and multiply enriching
products from the sink, the slops and
refuse matters from the house, and yards
stable and poultry roosts. Time and
place will not permit us to particularize
on these heads. It is sufficient to say,
with the addition of these enriching com-
pounds, to the course suggested, the cold
flat clay lands that Art has exhausted,
and knows not how to replenish, can be
converted into some of the best wheat and
corn land the State of Ohio furnishes.

Science would also direct the same
principles in regard to blind ditches and
sub-soil plowing, or deep trenching, as
applicable to the preparation of gardens
and fruit yard soils of the quality just
described. Every garden of this quality
should be surrounded with a blind ditch
from two to three feet deep, laid with
brush, stone or tile, and covered with
earth, and should be traversed by similar
ditches running parallel to each other two
rods apart.
The surface should next be broken
eighteen inches deep, and be enriched
with abundant supplies of the Peaty com-
post previously described; and Plaster
with Poudrette should be employed as a
top dressing to the hills of the various
plants cultivated. Thus managed, your
gardens and fruit yards in clay lands
would vie with the best the world af-
fords.

If you are not disposed to put full cre-
dence in the suggestions of Science, test
their correctness on a limited scale,—dig
a ditch through some of your wet and
drowned lands. Upon the embankment
try a patch of wheat, clover and plaster.
Try other patches of garden vegetables,
cucumbers, melons, &c. dressed with pou-
drette and plaster. The result of your
trials in this way will convince you that
the principle may be equally well ap-
plied to a field or a whole farm. It is not
an hypothesis. It is not a matter yet to
be tested by experiment. It has been
fully tried, both in this country and in Eu-
rope.

In extensive districts in Scotland where
twenty-five years since, the population
could scarcely raise oatmeal enough for
sustenance—scientific farming has changed
the entire character of the soil by the
introduction of ditching sub-soil plowing,
clover and plaster, to such an extent that
they are now large exporters of wheat.
We dwell at some length upon this
fact, for we believe that the mode Sci-
ence suggests, will before the close of a
winter generation, change the staple of
Western Reserve from the product of the
dairy, to that of the wheat field.—Wes.

ASSES' MILK.

Dr. Walcott, better known as Peter
Pindar, had, for some time, a most violent
cough, when his friend Geoghe, per-
sisted in recommending asses' milk as a
certain cure. The bard, tired of his im-
portunities at length quieted him by send-
ing him the following epigram:

"And, Doctor, do you really think
That asses' milk I ought to drink?
'Twould quite remove my cough, you
say,
And drive my old complaint away.
If cured yourself, I grant it true;
But then 'twas MOTHER'S MILK to you."

POSTPONED Orphans' Court Sale.

THE subscribers, Trustees for the
sale of the real estate of John Kin-
dle deceased, will offer at public sale,
(by postponement) at the public square
in the Borough of Somerset, on Thursday
the 9th day of April next, the following
valuable property, late the estate of said
deceased, viz:

A certain plantation

or tract of land, situate in Somerset tp.
Somerset county, containing about two
hundred and ninety acres, more or less,
adjoining lands of Christian Ankeny, Jr.
Jacob Ankeny of C. John Maust, Jacob
Shallis and others, with a weather-boarded
dwelling house and bank barn thereon
erected, and two sugar camps on the
premises; about one hundred and fifty
acres cleared, at least thirty acres of
which are in excellent meadow. The
property is well watered, there being
springs of water in nearly all the fields,
and there is also, a young orchard of
fruit trees on the premises.

Terms—One third of the purchase
money to remain a lien on the premises,
the interest thereof to be paid to the
widow of said deceased during her natu-
ral life annually, and after her death the
principal to be paid to the heirs and legal
representatives of said deceased; one
half of the balance in hand and the re-
mainder in four equal annual payments
without interest, to be secured by judg-
ment bonds.
Attendance will be given by the sub-
scribers.

Valuable Farm AT Private Sale.

SITUATE in Shade township, Som-
erset county, adjoining lands of Da-
vid Rogers, Jesse Berkepile, John Pow-
el and others, containing about

350 ACRES

of land, about one hundred and fifty of
which are cleared, the remainder is cov-
ered with the best of timber; there is a
good proportion of meadow and there
may be one hundred acres made into the
best of meadow, the

UPLAND

will all produce clover and timothy, and
every species of grain; the land nearly
all lies to the sun, and it is decidedly
the best tract in that part of the county.
It lies about a mile and a half from the
old furnace, and about three miles from
the new one, it contains an abundance of

IRON ORE,

and there is every indication of coal on
many parts of the surface. The im-
provements are indifferent, consisting of
an old log barn and house, and a new log
stable; there are on the premises many
fine never failing springs of the purest
water; there is not perhaps in the county
a farm combining more advantages as
a grazing, dairy and grain farm, it has
on it a small

ORCHARD,

and is under tolerably good fence. Per-
sons wishing to purchase a good prop-
erty are requested to call on Robert W.
Mason living on the premises, who will
show them every part thereof, or to en-
quire concerning it of Mr. Postlethwaite
in Somerset, or of the subscriber living

VALUABLE

Real Estate FOR SALE.

THE subscribers, agents and attor-
neys for A G Cole, offer for sale
on advantageous terms, the following de-
scribed real estate, to wit:—That well
known TAVERN STAND
AND FARM,
late the property of Jacob Probasco and
John Baker, Esq., on the National Road,
in Henry Clay township, Fayette coun-
ty, Pa, and one mile west of the village
of Somerset in Somerset county, to-
gether with the appurtenances thereunto
belonging. This property consists of
about one hundred and fifty-three acres
of land, a greater portion of which is
cleared and under cultivation and in mead-
ow. The buildings consist of a large and
convenient

DWELLING HOUSE,

partly stone and partly frame, commodi-
ous stabling and other out-buildings.
The location of this property being
one mile from the town of Somerset,
abounding in wood and Stone coal; hav-
ing a Saw Mill and Grist Mill adjacent
thereto and plenty of water remaining
through the land, renders it an important
and valuable situation for any kind of bu-
siness. The premises have been for a
long time occupied as a Tavern Stand.
The stand is admirably adapted for the
accommodation of all kinds of Droves.
Persons desirous of purchasing the
property, are requested to call on Josiah

HOTEL FOR INVALIDS AT PITTSBURGH.

Drs. Speer and Kuhn.
THE object of this establishment is
to supply a want greatly felt by re-
spectable travellers on our western high-
ways—by residents, without family, ta-
ken sick—and by patients from the sur-
rounding towns and country who resort
to this place for relief from surgical and
other diseases. Such have often suffered
from the want of the various comforts
and attentions so necessary and agreeable
to the sick, and from careless and un-
faithful nurses; and been subjected to
heavy and unreasonable charges.
Invalids will here be provided with
constant, faithful and comfortable atten-
dence, and at a rate much below the usual
charges.

While the care of both physicians will
be extended to every variety of disease,
it is intended by Dr. Speer, to give spe-
cial attention to
ALL SURGICAL DISEASES,
PARTICULARLY TO
DISEASES OF THE EYE.

To these branches of his profession
he has given a large share of his atten-
tion for the last twenty-five years, and
he will continue to devote to them the
experience acquired by a constant prac-
tice during that time.
The Hotel for Invalids is not an exper-
iment. Its establishment is suggested
not only as necessary to supply an evi-
dent want in this city, in the entire ab-
sence of any special provision for the
sick, but is warranted also by the success
of similar institutions at Cincinnati and
New Orleans—the former under the care
of Drs. Taliaferro, Marshall and Strader
—the latter under that of Dr. Stone.
The building selected for the purpose
is situated at the corner of Federal and
Robinson streets, in Allegheny city, ad-
joining the city of Pittsburg. It is
commodious and roomy, and furnished
with all accommodations necessary for
the sick.
Applications for admission to be made
to the subscribers, at their office on Penn
street, Pittsburg, or at the establishment.
No contagious diseases will be ad-
mitted.

DR. McLANE'S CELEBRATED LIVER PILLS.

For the cure of Hepatitis or Liver Complaint,
Dyspepsia and Sick Head-Ache.

THIS remedy having been for several years
employed by the proprietor in his practice,
on a very large scale in Monongalia, Preston,
Harrison and Randolph counties, in Virginia,
besides several other places, and having been
attended with the most happy effects, he has
been from time to time solicited to adopt such a course
as would give it a more extensive circulation,
with a view to lessen the amount of human suffering.
Aware of the fact that many useless nostrums
have been palmed upon the public, he hesitated
for several years until thoroughly convinced that
the above medicine, if properly used, would not
fail to effect cures in a great many instances,
and even to alleviate those cases which are quite in-
curable.

Symptoms of a diseased Liver.—Pain in the
right side, under the edge of the ribs, increased,
on pressure; sometimes the pain is in the left side;
the patient is rarely able to lie on the left side—
sometimes the pain is felt under the shoulder-
blade, it frequently extends to the top of the head,
and is sometimes mistaken for a rheumatism
in the right arm. The stomach is affected with
loss of appetite and sickness; the bowels, in gen-
eral, are constive, sometimes alternating with lax,
the head is troubled with pain, accompanied with
a dull, heavy sensation in the back part. There is
generally a considerable loss of memory, accom-
panied with a painful sensation of having left
undone something which ought to have been
done. A slight dry cough is sometimes an attend-
ant. The patient complains of weakness and
debility; he is easily startled, his feet are cold or
burning, and he complains of a prickly sensation
of the skin; his spirits are low; and although he
is satisfied that exercise would be beneficial to
him, yet he can scarcely summon up fortitude
enough to try it. In fact, he distrusts every re-
medy. Several of the above symptoms attend
the disease, but cases have occurred where few of
them existed, yet examination of the body after
death has shown the liver to have been exten-
sively deranged.

CERTIFICATES.

This is to certify, that having been associated
with Dr. McLane in the practice of medicine for
nearly two and a half years, I have had many
opportunities of witnessing the good effects of
his Liver Pills, and I believe they have cured and
relieved a much larger proportion of the diseases
of the liver, than I have known cured and re-
lieved by any other course of treatment.

Patent Vermifuge.

DR. McLANE'S AMERICAN WORM SPECIFIC
Promptly expels Worms to an almost in-
credible number!
To substantiate the above fact many hundreds
of testimonials could be adduced, out of
which the following are selected, from individ-
uals of standing and veracity. Indeed, it is
confidently affirmed that each new trial of the pow-
ers of this remedy will have an additional ten-
dency to widen and confirm its fame, and that if
it were universally known and diffused over the
United States, it would not save less than many
hundreds, if not thousands of lives annually.

CERTIFICATES.

I do certify that a vial of Dr. McLane's Ameri-
can Worm Specific expelled five hundred and two
whole worms, and pieces that would have made
sixty more, from a boy of John Lewelling, which,
if laid in a straight line, would have most probably
measured the enormous length of one hundred
yards. JOSIAH JACKSON, owner of Wate
Forge, and other works, Monongalia county, Va.

This is to certify that I purchased from Holmes
& Kidd a vial of Dr. McLane's American Worm
Specific, and gave two doses to a boy of mine
about three years years of age. He passed fifty
half a pint of worms. The quantity was so large
I was really alarmed, and called in several of my
neighbors to see them. Had this story been re-
lated to me, I could not have credited it, without
being an eye-witness to the same. My child's
health improved much after.
SAML MORRISON,
Merchant Tailor, Wood st, Pittsburg.

Some two months ago I purchased a vial of Dr.
McLane's American Worm Specific. I gave a boy
of mine most of a vial; he passed forty very
large worms. From that time his health im-
proved very much. I had tried two other Vermifuges
to no purpose. I believe Dr. McLane's is the best
article before the public. D. CALHOUN,
Millin township, Allegheny county.

HEAR MEDICAL TESTIMONY.

From a regular Physician, Dr G S Smith, Sun-
fish, Ohio.
Mr. J. Kidd—Dear Sir—I have used in my
practice Dr. McLane's American Worm Specific,
and have often witnessed its efficacy in expelling
worms from the system. A patient of mine, a
short time ago, gave a vial of the Worm Specific
to a child; in a short time upwards of sixty-five
worms were expelled.
