MEXICAN NEWS.

By the means mentioned yesterday, we have been favored with imperfect files of two Vera Cruz papers, the INDICADOR and the LOCOMOTOR, embracing various dates between the 8th and 19th ultimo. From these we hastily select for translation the articles which seem of most interest.—Nat. Intel.

The Locomotor of the 18th contains the following details of the military mutiny mentioned in our last:

"SAN LUIS POTOSI.—In the capital of this department has occurred a military tumult, which it gives us great pain to announce. At the setting out of Gen. Ampudia, with the division under his command, to pursue his march to the northern frontiers, (that of Texas,) 'Regiment No. 4 and the Puebla Activos, consisting of a little more than a thousand men, refused to march, under the pretence that the commandant of the former had been imprisoned and must be released. Gen. Ampudia presented himself in person to the mutineers, and, grasping the national standard, exhorted them, in the most energetic manner, to return to their duty, pronouncing those who should refuse to march cowards. For the moment, the decisive conduct of the General had a good effect; for the revolters at once returned to their colors. But as soon they came to the city walls, the insurrection burst out afresh; the mutineers made their way back into town; seized upon several churches, and prepared to resist the orders of the General; who, on his side, was prepared to take strong measures for reducing the two regiments to obedience.

"Thus far we learn the facts by private letters. But we do not hear whether or not any political movement led to this unfortunate disorganization, or was likely to mix with it.

"A deep-seated malady corrupts the discipline of our army, which it is time that our rulers should study and cure.—This is not the first time that our soldiery have fallen into revolt, at the signal to march forth to defend the honor of their country. This is not only a national disgrace, but deeply impairs the public strength. Nor do military severities, however exemplary, prevent the recurrence of the evil: it must be more deeply looked into, therefore, and its causes sought in the officering and organizing of the army. When the former shall be good, and the latter in more conformity with the political principles that govern the country, announced and enforced with frankness but moderation, so that the knowledge of them may be able to penetrate into the interior of the company and the platoon, they will bring about a single feeling, a habit of order and obedience. The soldier, not less than his officer, will learn to love honor and duty, and the country will witness no more with grief and alarm these scenes of military tumult and disarray."

MONARCHY IN MEXICO.—The same paper has an article on one of the late steps of the actual Government of Mexico:

"According to what we have seen in the DIARIO DEL GOBIERNO," (the paper published by the Government,) "certain printed sheets, handbills, have lately been circulated in the capital, in which is urged the cession to the United States not only of Texas, but of New Mexico and California into the latter. It is not possible that such writings, the mere reading of which awakens nothing but indignation, should be sincerely published by any Mexican; for no political party has given any cause to believe it capable of an intention so traitorous."

The Locomotor then goes on to suggest that the thing is a device of the Monarchical party, meant to force the Government—which is extremely sensitive to this particular intimation—to repress all political discussion, in order that the press (a majority of which is hotly anti-monarchical) may be silenced.

The suspicion seems to have very little to warrant it, and perhaps signifies nothing so much as that the Locomotor is the ultra of some other party. For evidently the Monarchical party—at first not tolerated—is now able to show its head in Mexico: at first, all the journals were hostile to it; now, only a majority. If it is thus gaining ground, the newspapers are helping it, whether they oppose it or not; and its interest is not to silence them. All opinions that need to be rapidly propagated have to depend chiefly on the press, no matter whether good or bad. Besides all this, the Locomotor forgets that the United States, in common with almost every thing else, has its partisans in Mexico—partisans who can print, like the rest of the world.

At any event, the government of Gen. Paredes, taking the alarm, has issued, through the Diario, an order that the newspapers shall close all discussions of internal forms of Government, under penalty of a visit for the editors to one of the fortresses. Such an order will, of course, we suppose, only bring the new Government into greater trouble.

DR. M'LANE'S CELEBRATED LIVER PILLS.

For the cure of Hepatitis or Liver Complaint, Dyspepsia and Sick Head-Ache.

THIS remedy having been for several years employed by the proprietor in his practice, on a very large scale in Monongalia, Preston, Harrison and Randolph counties, in Virginia, besides several other places, and having been attended with the most happy effects, he has been from time to time solicited to adopt such a course as would give it a more extensive circulation, with a view to lessen the amount of human suffering. Aware of the fact that many useless nostrums have been palmed upon the public, he hesitated for several years until thoroughly convinced that the above medicine, if properly used, would not fail to effect cures in a great many instances, and even to alleviate those cases which are quite incurable.

Symptoms of a diseased Liver.—Pain in the right side, under the edge of the ribs, increased; on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side—sometimes the pain is felt under the shoulder-blade, it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the right arm. The stomach is affected with loss of appetite and sickness; the bowels, in general, are costive, sometimes altering with lax, the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning; and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few or them existed, yet examination of the body after death has shown the liver to have been extensively deranged.

CERTIFICATES.

This is to certify, that having been associated with Dr. M'Lane in the practice of medicine for nearly two and a half years, I have had many opportunities of witnessing the good effects of his Liver Pills, and I believe they have cured and relieved a much larger proportion of the diseases of the liver, than I have known cured and relieved by any other course of treatment. Dec. 7, 1836. OLIVER MORGAN, M.D.

PATENT VERMIFUGE.

DR. M'LANE'S AMERICAN WORM SPECIFIC Promptly expels Worms to an almost incredible number!

Substantiate the above fact many hundreds of testimonials could be adduced, out of which the following are selected, from individuals of standing and veracity. Indeed, it is confidently affirmed that each new trial of the powers of this remedy will have an additional tendency to widen and confirm its fame; and that if it were universally known and diffused over the United States, it would not save less than many hundreds, if not thousands of lives annually.

CERTIFICATES.

I do certify that a vial of Dr. M'Lane's American Worm Specific expelled five hundred and two whole worms and pieces that would have made sixty more, from a boy of John Lewelling, which, if laid in a straight line, would have most probably measured the enormous length of one hundred yards. JOSIAH JACKSON, owner of Water's Forge, and other works, Monongalia county, Va.

This is to certify that I purchased from Holmes & Kidd a vial of Dr. M'Lane's American Worm Specific, and gave two doses to a boy of mine about three years of age. He passed fully half a pint of worms. The quantity was so large I was really alarmed, and called in several of my neighbors to see them. Had this story been related to me, I could not have credited it, without being an eye-witness to the same. My child's health improved much after. SAM'L MORRISON, Merchant Tailor, Wood st, Pittsburgh.

Some two months ago I purchased a vial of Dr. M'Lane's American Worm Specific. I gave a boy of mine most of a vial; he passed forty very large worms. From that time his health improved very much. I had tried two other Vermifuges to no purpose. I believe Dr. M'Lane's the best article for the public. D. CALHOUN, Millin township, Allegheny county.

HEAR MEDICAL TESTIMONY.

From a regular Physician, Dr. G. S. Smith, Sonfish, Ohio. Mr. J. Kidd—Dear Sir—I have used in my practice Dr. M'Lane's American Worm Specific, and have often witnessed its efficacy in expelling worms from the system. A patient of mine, a short time ago, gave a vial of the Worm Specific to a child; in a short time upwards of sixty-five worms were expelled.
