MOST AWFUL TORNADO.

THIRTY OR FORTY LIVES LOST

We learned last evening, through respectable commercial firm of this city, that on the evening of the 7th instant a tornado passed over Grenada-a beautiful village in Yallabusha county, Mississippi, with a population of about fifteen hundred inhabitats-while most of the children were at school, demolishing the churches and academies, and very many of the dwellings. The teacher of the male school, Mr. Sample, was killed, and many of his pupils have perished. Mrs. F. E. Plummer, the teacher of the female school, with many of the children under her charge, were killed. Mr. Robinson lost his father, wife, sister and child .-From 30 to 50 persons are ascertained to have perished. The mangled remains of many bodies had not been identified, and and several persons were missing. A very imperfect list of names has reached us. On the outside of a letter to a friend is written the words: "Grenada is in ruins and many of her inhabitants are destroyed; names cannot be given, nor numbers set down." The most awful desolation pervades the town and the hearts of its citizens. We entertain great hopes that the loss of life may have been exaggerated but fear the worst. It is the most deplorable calamity we have had to record for several years .- N. O. Pic. 15th.

NEXT GOVERNOR.

The question of who shall be the Whiar candidate for Governor, is beginning to be pretty freely discussed by the Whier press of the State; and a number of distinguished individuals have been named as suitable candidates for the office. 7mongst whom may be noticed, Gen. Joseph Markle, of Westmoreland county: Hon. James Cooper of Adams; Hon. James Irvin, of Centre; Hon. T. M. T. McKennan, of Washington, and John Strohm, of Lancaster. These are all "good and true men," of whose honesty. capability and patriotism, none can doubt. The question of availability, therefore, should have its due consideration in determining the choice; and, from the unusually large vote polled for the gallant soldier of Mississinewa, at the last Gubernatorial election, we would infer that the most flattering hope of success points to the nomination of that individual .-Should the Convention, however, determine otherwise, the friends of Gen. The word CHAPPARAL, says the F. S. Gazette occurs in the news from Texas which we publish this morning. As that is rather a new word with our readers. and as it may occur again, and it is important, as illustrating the "seat of war." we think it proper to say that a Chaposral is a term applied to a species of evergreen thicket, composed of the musquit bush matted with vines. It generally grows about six or seven feet high. The whole country between the Neuces River and the Rio Grande, is more or less covered by this chapparal, interspersed with salt lakes.
