COUNTY MEETING.

A meeting of the Whigs and Antimasons of Somerset county will be held at the Court House in Somerset, on Tuesday evening of Court week, (1st September.) to give an expression of opinion on the leading questions which now agitate the country.

The Hon. Andrew Stewart, it is expocted, will be present to address the

next week.

On first page we give some extracts from Mr. Stewart's speech on the Tariff, delivered in the House of Representatives, on 27th of May last.

Concerning that Act of Assembly, the editors of the Visitor are "non-comeatibus, up a gum-tree"-so, we suppose, we must let them slip this time.

Hon. Andrew Stewart. The nomination of Mr. Stewart for reelection is hailed with delight by the friends of American interests, throughout the State and the Union. We hardly open a Whig paper, but what contains evidence of this fact-and we think it highly probable that this feeling is not confined to the Whig party, but is participated in by a considerable portion of the so-called "Democraev." Mr. Stewart is admitted to be Members of the House. Ever at his post, and ever attentive to his duties; unwavering in his purposes, and convincing in his arguments; he has acquired an can boast of. His speeches during the late session are generally admitted by unprejudiced men to have been among the best that were delivered in the House for a long time-and it is no little compliment to hun that one gentleman alone had twenty thousand copies of them printed for gratuitous circulation. Of such a Representative any constituency may well be

In looking over the published proceedings, of the Electoral College of Pennsylvania, which assembled at Harrisburg on the 4th day of December, 1844, and cast its vote for Polk and Dallas, we find that Wilson McCandless presided over that body, and that in the course of an Address delivered by him to the college at the close of the proceeding, he held the following language:-

"In the name and by the authority of the People of Pennsylvania, you have · deposited your ballots in favor of tried 'and distinguished Statesmen, for the 'highest offices known to the Constitu-

Reposing with confidence in this political senti-" ment, emanating from such a source, our · good old Commonwealth, burdened as she is with pecuniary embarrassment, and her mountains, she possesses the "means to satisfy all her liabilities."

For appropriate comments upon the foregoing we reter the reader to Mr. Polk's Messages to Congress, to Secretarv Walker's Treasury Reports, and to Mr. Dallas' recent vote in favor of the British Tariff Bill. Anything more at this time would be superfluous.

They could sell them mostly at their own doors. The erection of several Furnaces in the North of the county gave a market to the farmers as well as employment to laborers in that section, while the Mount Savage Iron Works on its Southern border did the same for the people in the other sections. Flour, The communication of our cor- wheat, rye, oats, potatoes, sugar, beef, respondent "Loom & ANVIL" shall appear | pork, poultry, butter and eggs, and lumber of every description, have been in steady demand and commanded high prices, and mechanics and laborers could at all times get employment and fair wages. These are facts which we think none will have the hardihood to deny, nor will any candid man presume to impute this favorable state of things to anything else than the influence of the protective system .-The inquiry then is, how will all those interests be affected directly by the destruction of the Tariff of 1842 and the adoption of the British System? We answer, that when our manufacturers shall have been compelled by foreign competition to either greatly curtail their business or abandon it altogether-when the thousands of hands now employed by them shall have been, in part or in whole, thrown idle-when the farmer shall no longer be able to sell, or if sell he can at all, when one of the most industrious and useful he must give his produce at fifty or a hundred per cent less than he got beforewhen almost every workingman that had been a consumer shall have been driven away and become a producer-in short, influence and enjoys a reputation in the when the Home Market shall have been councils of the nation such as few others almost entirely destroyed-then will the people of this county see, and feel, and understand how the new system works. But this is not all. Some of the landhol-

ders in our county have manifested a great interest in the speedy completion of the Baltimore and Ohio Railroad. And why? dislike to Crag was the cause. Because they have the ore, the coal, the timber, the water power, everything essential to the erection and carrying on of almost any number of iron works, and have only been deterred from embarking in the business ere now by the We hope to get more definite informawant of a cheap and certain means of tion to-night. transportation to bring their manufac. tures to market. The erection of some dozen or more such works in our county would certainly greatly enhance the value of lands, create a new home market for the produce of the farmer, and furnish additional employment to the mechanic and laboring man-and if the Tariff of 1842 had been left undisturbed, there can be no doubt but in the course of a few years a number of new works would have been erected. Within that period the connexion between Baltimore and Pittsburgh will be completed by means of the Pittsburgh and Connellsville Railroad, which we understand is to be put under contract the · patriotism, and eminent public services; ensuing fall or winter; but what benefit will it be to the people of Somerst county since the Tariff of 1842 has been destroyed and Iron is to be admitted at rates of the recently expressed opinion of the e- duty so low that it will be impossible for · leeted Head of the Nation, "that it is the American manufacturer of this article the BUTY of the Government, to extend, to compete with the importer of the forso far as it may be practicable to do so, eign article?
