THE WAR.

We give highly interesting intelligence this week from the seat of war. Gen. Taylor is advancing still farther into the interior of Mexico, while the Mexicans appear to be making extensive preparations to give him a warm reception whenever they can attack him to advantage. What the result will be, none can foretell. Gen. Taylor will no doubt act with becoming prudence. But in the heart of the enemy's country, with a small force under him, and remote from magazines of provisions and ammunition, what can he be expected to accomplish? Is it not to be feared that prudence and courage and discipline may have to yield to superior numbers? We confess that we have serious apprehensions for the fate of his little army. Many are on the sick-list, unable for duty. A line of posts has to be established to keep up a communication with Point Isabel, whence the supplies for the Army have to be drawn. A number are required also as escorts to the baggage trains, and a number more to take care of the sick. In this way the active fighting force must necessarily become greatly reduced, and the Mexicans, aware of the fact, may not be slow in availing themselves of the advantage which these circumstances obviously give them. That they have determined on making a bold stand, either at Monterey or Sanfilippo, is but too apparent; and though Gen. Taylor and his men may, and doubtless will fight with their usual bravery, the enemy, being in his own country, will perhaps be able to choose his own ground and bring up reinforcements in case of necessity, and thus overpower the Americans. We shall most heartily rejoice in a different result, but repeat that the present situation and condition of the Army are such as are calculated to fill the mind with the most serious apprehensions.

Maryland Election.

We have some accounts of the Maryland election, but not sufficient to justify us in venturing a conjecture as to the result throughout the State. As far as heard from the Whigs did nobly.

In Allegany County the Democratic ticket is elected; majority much reduced from last year. Blocher's majority for Senator is reported at 102.

Frederick County elected the whole Whig ticket by a large majority.

In Washington County, the Whig Senator and three Whig Delegates elected.

Baltimore City: Here the Democratic majority last year was about 1200; this year the Whigs elected their Senator and two Delegates.

More Government Paper.

At Fort Leavenworth a vast amount due bills have been executed by the Quartermaster, in payment of wagons and other articles purchased by him for the United States. This is another species of government paper, used as a substitute for money. This is one of the shifts the government officers are driven to for want of money. When payment is made in such stuff everything will of course cost the government double price. The Loco Focos have been constantly declaiming against paper money, but they will soon have so many kinds of paper currency afloat that it will be difficult to tell what to call it. These notes issued by the Quartermaster will be subjected to a heavy discount if they are cashed, and of course the government will have to pay much higher prices for those things that it is compelled to buy. The amount of this stuff about Fort Leavenworth is said to be very large.—St. Louis Era.

Gloomy.

Each successive week develops more and more of the "blessed" influence of the "Polk and Dallas" Tariff. During the past week, there have been a number of stoppages among the dry goods dealers in this city, some of whom have been able to compromise with their creditors at forty or fifty per cent., and go on again; while others have gone by the board entirely. The sudden reduction that has taken place in the value of goods, in consequence of the new Tariff, must necessarily produce such consequences. The same causes have produced a panic in all the manufacturing districts, and have induced some to make immediate preparation to abandon their business. It was rumored on Saturday that two of the largest manufactories in Manayunk are about being closed. A single manufacturer is reported to have two hundred thousand dollars worth of goods on hand, upon which there is an average reduction in the market value, of from twenty to twenty-five per cent. The disasters which this British scheme for ruining American manufactures, is working out, are painful to contemplate.—Philad. Chronicle.

A Change of Policy.

The Mexicans to support our Army.

The Washington Union, in the course of an editorial article, makes the following important announcement, by which it will be seen, that, for the future, the Mexicans are to be made to support our army:

"We offered the olive branch. Instead of promptly accepting it, Mexico declines even to give us an answer, whether she will or will not negotiate with us, until her Constituent Congress shall assemble in December next. Three months, therefore, were to pass away without doing anything for peace, unless we can assist its restoration by the vigor of our arms. It becomes high time, then, for us to hasten the decision of Mexico. We must carry on the war with vigor. We must make it more her interest to terminate its evils. We must compel her people to share its expenses with us—by levying contributions upon her for the support of our army. We want provisions, and they must assist in supplying us.

The proclamation of General Ampudia, the contents of which has just reached us, increases the necessity of such a measure. He breathes the severest vengeance against any Mexican who will have any dealings with us, and will even sell us provisions. We must compel them, therefore, to contribute for the support of our army.

As soon as the dilatory answer from Mexico was received by the government, there is no doubt that the policy here indicated was adopted. The private property of the Mexican people will be religiously respected, except what may be necessary for the support of our army. Their persons and property, with this exception, will be sacredly protected. Their religion and their altars will be respected as truly as if they were Americans in the bosom of our own country."

MAINE ELECTION.

Belgrade elected a staunch Whig on Monday week, by thirty majority over all others. On the 14th instant, the majority against Bronson was just thirty—net Whig gain sixty! Bangor has elected 2 staunch Whigs, one by 131, the other by 73 majority over all others. The House now stands 46 Whigs to 45 Democrats.

Ex-President Adams has been nominated by the Whigs of VIIIth District of Massachusetts for re-election to Congress.

STRAUB'S PATENT FLAME ENCLOSED OVEN COOKING STOVE.

THIS Stove combines all that is valuable in existing Cooking Stoves with certain improvements peculiar to itself. It is constructed upon a new and entirely distinct principle truly philosophical, so as to pass the flue entirely round the oven, thus making it enveloped or flame enclosed, without impairing the necessary draught of the stove. This method of thus passing twice round, once over and once under the oven, is the secret of its great economy in the use of fuel, while the enlargement of the air chamber affords increased space for the rarefaction of air and compensates for the usual disadvantages of a circular draught. It bakes, roasts, and boils, easier and better than any Stove yet offered to the public, with the advantage over most of them of saving one half the fuel. It is superior to the "Queen of the West," "Bank's Patent," "Eclipse" or "Hathaway Patent," for the following reasons: In these Stoves the upper side of the oven is dependant for heat and can have from no other source than what radiates through the plate on which the fire is made. If the ashes be lifted clean, too much heat will radiate and burn the bread on the upper side, if too much ashes be left, the bread will not bake on the upper side. Of this defect all good cooks complain. This Stove is entirely free of this objection, the oven always heating exactly alike top and bottom, and ends. Many buy the Premium or step stove and others of similar model. These Stoves consume much fuel, for first the fire chamber is too deep, the pots &c., are too high above the fire. Second when using the oven, all the heat which passes off under the oven being one half, never comes in contact with the boiling vessels, passes off into the pipe and is lost. Also our Stove is so arranged with a bank or elevation in the fire chamber as to ensure the use of the flame upon the forward part of the Stove first, and it then passes back afterward heating all alike whereas Stoves like the Hathaway, having one vest chamber, allow too wide a range for the flame without sufficient concentration.

We manufacture two sizes of this Stove at the Eagle Foundry in Berlin-Somerset county, Pa. For the larger size most of the pots commonly used in the kitchen will answer.

Always on hand, a complete assortment of PLOUGHS, with PLOUGH CASTINGS of great variety. HOLLOW WARE of superior material and finish, comprising every thing in that line. CASTINGS on hand, and made to order, on the most reasonable terms. HOUSER & BERKEY. Berlin, Oct. 13 1846-3m.

JAYNE'S MEDICINE.

JAYNE'S EXPECTORANT.—We esteem it a pleasure to be able to recommend this medicine as the best calculated for the purpose of curing coughs, colds, sore throat, asthma, and all affections of the lungs. From a long personal acquaintance with Dr. Jayne, we know that he is no quack, and his medicines are not nostrums of the modern ery up, but are the result of his long experience as a practising physician, and the expense of great labor.—Hartford, (Conn.) Daily Review.

N. Y. March 10th, 1841. Dr. Jayne—Dear Sir—Being severely afflicted with Influenza—a hard Cough and Asthma—and finding every means fail of relieving me. Consumption appeared inevitable—but by using two bottles of your expectorant, I was restored to perfect health. Respectfully yours, JOHN ELLIS. Late Pastor of the Baptist Church, Stamford, Ct.

From the Rev. J. Segur. Lambertsville, N. J. April 27th '39. Dr. Jayne—Dear Sir—By the blessing of God your Expectorant has effected a cure in me of a most distressing complaint. In December last I was seized with great severity by a paroxysm of Asthma; a disease with which I had been afflicted for many years past. It was attended with a hoarseness and soreness of the lungs and throat, together with a laborious cough, and complete prostration of strength, and when almost worn out with suffocation, a bottle of your expectorant was sent to me. At first I thought it was nothing but quackery; but seeing it so highly recommended by Dr. Going, with whom I was well acquainted, I was induced to try it, and in a few days it completely cured me, nor have I ever had any return of the disease since. I have now formed so high an opinion of your medicine, that if I had but a few bottles of it, could obtain no more, I would not part with them for ten dollars each. Yours, most affectionately, JOHN SEGUR. Sold by J. J. & H. F. Schell, Somerset Pa. Also by Edward Bevin, Stoystown Pa.

TO MASONS AND CARPENTERS.

SEALED proposals for doing the work of a new church to be erected by the EV. LUTHERAN CONGREGATION OF SAMUELS, at Lavansville, will be received on or before the 31st of October next.—The building is to be of brick, 60 feet long and 49 feet wide, with a basement story. The foundation is to be of stone, 8 feet high, and 40 feet wide in front, and the other walls to be proportioned to the ground, which is inclined. The brick work is to be 16 feet high to the eaves. For particulars, contractors are requested to call on David Woy, Frederick Countryman or Samuel Kosser.—The Committee will furnish the materials for the foundation, and also the brick and lumber for the building. The whole job will be let out to one man, or the foundation will be let out separately.—Contractors are expected to attend in person at Somerset, on the day of letting, when a full understanding can be had. It is desired to have the church completed by the 1st of July next. By order of the Building Committee, P. RIZER. Somerset, Sept. 23d, 1846.
