The Army News?

Late and interesting news from our Armies will be found in to-day's paper; in addition to which we would add here, that the editor of the New Orleans Bulletin has been informed by an officer just from Matamoros, that Gen Taylor had abandoned all idea of marching upon San Luis, as the difficulties which must be encountered between Saltillo and that place were almost insurmountable.

At present Gen. Taylor has 400 wagons, which make a weekly trip between Monterey and Camargo. The Rio Grande is said to be uncommonly low.

The State of New Mexico.

Gen. Kearney, it appears, after his bloodless conquest of that Province, proceeded to organize a Government for New Mexico—appointed a Governor—a Secretary—a Treasurer—a District Attorney—an Auditor and a Bench of Judges. In doing so he no doubt acted under instructions of our Government, and is therefore not to be censured for any of his proceedings.

Volunteers for Mexico.

The official orders making requisition of volunteers for Mexico, are given in another column. We learn from the Pittsburgh Gazette, that the "Duquesne Grays" have accepted the terms of service, which are that those who volunteer serve to the end of the war, unless sooner discharged by Government.

Illness of Mr. Adams.

The venerable John Quincy Adams was seized with paralysis on the 19th ultimo, which rendered him insensible for a time; but at the date of the latest accounts his physicians had strong hopes of his recovery.

Congress.

Congress meets next Monday. The President's Message will probably be sent in on Tuesday—and we expect to receive a copy of it in time for our paper on Tuesday following.

John M. Forster, Esq., has been appointed Judge, in the room of Judge Bell, of Chester county, lately promoted to the Supreme Bench.

Mr. Young, the Governor elect of New York, is not seriously ill, as had been represented, but in the enjoyment of vigorous health—so says the Buffalo Express.

On the 20th ult, a boiler in one of the Foundries at Pittsburgh exploded, by which accident two men were killed and several dangerously injured.

Since the last arrival from Liverpool, there has been a decline in the prices of flour and grain in the eastern cities.

The Baltimore papers are urging the Railroad company to renewed efforts to extend their road to Pittsburgh.

Requisition for Troops.

General Orders—No. 6. HEAD QUARTERS, Adjt. Gen's Office } Harrisburgh, Nov. 18, 1846. }

Sir:—The Commander-in-Chief announces to the Volunteer Soldiers of Pennsylvania, that a requisition has been made by the President of the United States, bearing date the 16th day of November, instant, for ONE REGIMENT OF VOLUNTEERS of this State, to consist of ten companies, and to serve to the end of the War with Mexico unless sooner discharged, on the conditions stated in the requisition, a copy of which is hereto annexed. Pittsburgh is designated as place of rendezvous.

The Commander-in-Chief with great confidence expects, that those companies which patriotically tendered their services upon the request of the President of the 19th of May last, will promptly comply with the present requisition. It will be perceived that the present requisition is susceptible of a different construction from the former one, as to the term of service. It will therefore be distinctly understood, that all offers of service made now, will be in reference to the terms of the last requisition. As the services of all those who have already volunteered will not be required to fill the call now made, the annexed rule marked A, for making the selection has been adopted.

It will be perceived by reference to the present requisition, that each company is to consist of 80 privates; but if the number on being mustered does not fall below 64 effective men in a company, it will be received. The strictest attention to the requirements in regard to the age and physical ability of the men, should be observed.

Each Captain or Commanding Officer is required to report within ten days after he shall have received this order, to the Adjutant General at Harrisburgh. As soon as the reports are received, the selection of ten companies will be made, and those whose services are accepted will receive immediate orders to march to the place of rendezvous, where the officers will be elected, and the regiment inspected and mustered into the service of the United States.

By order of the Commander-in-Chief, GEORGE W. BOWMAN, Adjt. Gen'l.

NOTE A.—The selection will be made according to the following rule:

The company which is first ready to march computing the time from the receipt of this order, will be first accepted. For example:—If one Commanding officer shall report his company ready to march, within one day after the day on which this order is delivered to him, another within two days and another within three days, &c., they will be accepted according to the order of time in which they are respectively ready to march.

WAR DEPARTMENT, Nov. 16, 1846.

Sir:—In my communication of the 19th of May last, your Excellency was requested to organize six regiments of Volunteers, under the act of the 13th of that month, to be held in readiness for public service.

The President now directs me to notify your Excellency that one Infantry Regiment of Volunteers, from your State, is required for immediate service, and to continue therein during the war with Mexico, unless sooner discharged. The Regiment will consist of

- Colonel,
1 Lieutenant Colonel,
1 Major,
1 Adjutant—a lieutenant of one of the companies but not in addition.

Non-commissioned: 1 Sergeant Major, 1 Quarter master Sergeant, 2 Principal musicians, and Staff. 10 companies, each of which is to consist of 1 Captain, 1 First Lieutenant, 2 Second Lieutenants, 4 Sergeants, 4 Corporals, 2 Musicians, and 80 Privates.

Should the number of Privates, on being mustered, not fall below 64 effective men in a company, it will be received.

Pittsburgh is designated as the place of rendezvous for the several companies as fast as they shall be organized, and where they may be further organized into a regiment, if not already done under a previous call. The regiment will be inspected and mustered into service by an officer, or officers of the United States Army, who will in every case be instructed to receive no man who is in years apparently over forty-five, or under eighteen, or who is not of physical strength and vigor. To this end, the inspector or will be accompanied by a Medical Officer of the Army, and the volunteer will be submitted to his examination. It is respectfully suggested, that public notice of these requirements will prevent much disappointment to the zealous and patriotic citizens of your State, who may be disposed to volunteer.

By the enclosed copy of an act authorizing the President to call for volunteers, it will be perceived that all the field and company officers, with volunteers taken into the service of the United States, are to be appointed and commissioned, or such as have been appointed and commissioned in accordance with the laws of the State whence they are taken; and I would suggest the extreme importance to the public service, that the Officers of the above Regiment be judiciously selected.

By an Act of Congress, above referred to, it will also be seen that the terms of service are for "twelve months, or to the end of the war, unless sooner discharged." And it may be that the Regiments which have been enrolled in your State and are now in readiness to enter the service, may regard their offer as made with reference to the former period. Should this be so, your Excellency will cause them to be informed that the engagement, required by this requisition, is to the end of the

war with Mexico, unless sooner discharged, and on this condition only, will their service be required. With this understanding, one of these regiments (to be selected by your excellency) will be accepted. If the modifications suggested should not be acceptable to any of those regiments which have tendered their services, you are respectfully requested to proceed without delay to enrol and organize one in fulfillment of this requisition.

It may be proper to remark, that the law provides for the clothing (in money) and subsistence of the non-commissioned officers, musicians and privates of volunteers who are received into the service of the United States.

In respect to clothing, the law requires that the volunteers shall furnish their own clothing, for which purpose it allows to each non-commissioned officer, musician and private, three dollars and fifty cents per month, during the time he shall be in the service of the United States. In order that the volunteers, who shall be mustered into service, under this requisition, may be enabled to provide themselves with good and sufficient clothing, the commutation allowance for six months (twenty-one dollars) will be advanced to each non-commissioned officer, musician and private, after being mustered into service, but only with the express condition that the volunteer has already furnished himself with six months' clothing—this fact to be certified to the Paymaster by the Captain of the company—or that the amount thus advanced, shall be applied, under the supervision of his Captain, to the object contemplated by law. In this latter case, the advance commutation for clothing will be paid on the Captain's certificate that he is satisfied it will be so applied.

In respect to subsistence before arriving at the place of rendezvous, and for traveling home from the discharge, the allowance is fifty cents for every twenty miles distance.

The President requests that you will be as prompt as possible in the arrangement of this whole matter, in order that the volunteers may be ready for immediate service. Officers of the Quarter-master, and Subsistence Department, will be immediately ordered to the place of rendezvous, with funds to defray the necessary expenses which may be incurred.

Very respectfully, Your obedient servant, W. L. MARCY, Secretary of War. His Excellency FRANCIS R. SHERIDAN, Gov. of Pennsylvania, Harrisburgh.

BALTIMORE, Nov. 23—5 P. M.

An explosion took place, about ten o'clock this morning, at the powder mills of James Beatty, Esq., situate seven miles from Baltimore, on the York road. There were two reports, each of which were distinctly heard and felt in the city. Every house was shaken, and the windows caused to rattle like unto the effects of an earthquake. There were, it is said, over four hundred kegs of powder blown up, and the loss of property is, therefore, very considerable.

I regret to learn that five valuable lives have been sacrificed by this disaster—four white men and one colored. Their names are James Bush, Francis Woodward, William Brannard, a German named Kanoot, and a colored man named Neilson Winger. They were literally blown to atoms. The concussion in the neighborhood was very great. A number of houses at a considerable distance were partial by shaken down by the shock, among which were the dwellings of Captain Purviance and Samuel Barnes, Esq. A small negro hut, some three hundred yards off, was set on fire. The cause of the explosion has not yet been ascertained.

The Wheat Crop in Russia.

The last accounts represent the wheat crop in Podolia and the Ukraine as being more abundant than ever before. Excepting the steppes in the neighborhood of Odessa and the Crimea, and the plains to the North of the sea of Azof, where the crops have failed—the accounts are unusually favorable. The difficulty of getting crops to a shipping port, in consequence of bad roads, is said to be the only reason why the immense stock of wheat in Southern Russia has not found its way to the suffering countries of Western Europe.

Iowa Election.—The Burlington Hawk Eye, of Thursday last, says: "We are still in some doubt about the election of Governor, and cannot yet tell certainly about the Legislature."

General Cadwallader, of Philadelphia, it is supposed, will be a Brigadier of the Volunteers from Pennsylvania just called for.

On Sunday the 22nd inst., by Jacob Knable Esq., Mr. AARON BOUCHER of Millford township to Miss ANN SAYLOR of Turkeyfoot township.

On Sunday the 22nd of November by John Campbell Esq., Mr. JAMES FULLER, to Miss ANN LOUISA daughter of Samuel Wising all of Addison township, Somerset County.

DIED:

Near Lexington, Somerset County Pa. on the 15th of November 1846. Mrs. ELIZABETH BOCHER, wife of Mr. John Boucher, aged 38 years, and 8 months.

The deceased, bore her illness, which was of nearly eight weeks continuance, with Christian fortitude, and pious resignation, to the will of God, and patiently waited for the period of her introduction into "the rest prepared for the people of God." She has left behind her, a deeply afflicted and sorrowing husband, with a family of ten children, together with a large circle of friends and relatives to mourn her departure. But they sorrow not as "those who are without hope"—believing that their loss, is her eternal gain. May her death be sanctified to the good of her surviving and sorrowing friends and relations!

In this borough on Thursday, the 26th, of November, Mr. GEORGE MILLER, in the 74th year of his age.

TURNPIKE ELECTION.

Jayne's Medicine.

DOES NOT REASON AND COMMON SENSE teach us that EXPECTORATION is the most NATURAL as well as the most EFFECTUAL agent in arresting and curing

PULMONARY DISEASES!

Reason says YES, because OBSTRUCTION is either immediately or remotely the cause of Inflammation and Catarrhal Fevers, producing Croup, Consumption, and Abscesses of the Lungs, Pain and Soreness of the Throat, Breast, Sides, or Shoulders—Bronchitis, excreting mucous and purulent secretions, thereby clogging up the lungs, so as to more or less impede both respiration and the free circulation of the blood, causing Difficulty of Breathing, and

ASTHMA.

Pleurisy, Hoarseness and Loss of Voice, Dropsy of the Heart and Chest, Rupture of Blood Vessels and Bleeding from Throat and Lungs, and

SPITTING OF BLOOD.

To remove this Obstruction, from which all these alarming and dangerous diseases originate, and to produce a radical cure, nothing has ever been found equal to JAYNE'S EXPECTORANT.

It stands unrivalled—it stands pre-eminent—TRY IT, and you will be forced to acknowledge that its virtues HAVE NOT, NOR CAN NOT BE OVERRATED; that it stands far above and beyond the reach of competition; that it is the only reasonable, the only natural and the only truly successful method of arresting and curing diseases of the Pulmonary Organs.

JAYNE'S HAIR TONIC.—This late discovery of Dr. Jayne, awakens the praises of the press in all parts of the country. The fact is, the more the article becomes known, the less peace has the Doctor. A continual stream of bald heads keep pouring into his establishment, who go to bed at night, dream of long and flowing locks, and awake in the morning and find the vision realized. We saw a bewitched dandy a few days since, the curl of whose anuburn locks attracted our attention, and for some time we did not recognise an old friend. "Bless us, Maria," said we, "where did you raise that beautiful hair?" "Thank you, sir," said the blushing girl, "You must ask Dr. Jayne." The fact is, that although the Doctor is verging into the "sear and yellow leaf" of life, he understands how to please the ladies.—Public Ledger.

THIS WAY!

HATS! HATS!

Cheap, Good and Fashionable.

THANKFUL for past favors, the subscriber would respectfully inform his old customers and the public generally, that he continues to carry on the HATTING BUSINESS.

In all its branches, at his old stand on main street, in the borough of Somerset, where he keeps constantly on hand a supply of HATS of his own manufacture, made of the best materials and in every variety of style—embracing Fur, Nutria, Russia, Cassimer and

WOOL HATS.

Country Dealers will be supplied with any quantity they may desire for retail, on short notice and at moderate prices; and customers can at all times either have a choice from among the stock on hand, or have their hats made to order, of any QUALITY OR STYLE.

From his long experience in the business, and a determination to sell cheap, and at the same time also that his hats shall not be excelled by those of any other establishment here or elsewhere, the subscriber flatters himself with the hope that he shall continue to receive a liberal share of public patronage.

CAUTION.

The subscriber understands that some persons have been selling hats as having been manufactured by him, which are made elsewhere—and he therefore cautions the public against purchasing any as his make, which have not the words "John C. Kurtz, Main street, Somerset, Pa.," on the top.

STRAUB'S PATENT FLAME ENCLOSED OVEN

COOKING STOVE.

THIS Stove combines all that is valuable in existing Cooking Stoves with certain improvements peculiar to itself. It is constructed upon a new and entirely distinct principle truly philosophical, so as to pass the fire entirely round the oven, thus making it enveloped or flame enclosed, without impairing the necessary draught of the stove. This method of this passing twice round, once over and once under the oven, is the secret of its great economy in the use of fuel, while the enlargement of the air chamber affords increased space for the rarefaction of air and compensates for the usual disadvantages of a circular draught. It bakes, roasts, and boils, easier and better than any Stove yet offered to the public, with the advantage over most of them of saving one half the fuel. It is superior to the "Queen of the West," "Buck's Patent," "Eclipse" or "Hathaways Patent," for the following reasons: In these Stoves the upper side of the oven is dependant for heat and can have from no other source than what radiates through the plate on which the fire is made. If the ashes be lifted clean, too much heat will radiate and burn the bread on the upper side, if too much ashes be left, the bread will not bake on the upper side. Of this defect all good cooks complain. This Stove is entirely free of this objection, the oven always heating exactly alike top and bottom, and ends. Many buy the Premium or step stove and others of similar model. These Stoves consume much fuel, for first the fire chamber is too deep, the pots &c., are too high above the fire. Second when using the oven, all the heat which passes off under the oven being one half, never comes in contact with the boiling utensils, passes off into the pipe and is lost. Also our Stove is so arranged with a bank or elevation in the fire chamber as to ensure the use of the flame upon the forward part of the Stove first, and it then passes back afterward heating all alike whereas Stoves like the Hathaway, having one vest chamber, allow too wide a range for the flame without sufficient concentration.

We manufacture two sizes of this Stove at the Eagle Foundry in Berlin Somerset county, Pa. For the larger size, most of the pots commonly used in the kitchen will answer.

Always on hand, a complete assortment of PLOUGHS, with PLOUGH CASTINGS of great variety. HOLLOW WARE of superior material and finish, comprising every thing in that line. CASTINGS on hand, and made to order, on the most reasonable terms.

JAYNE'S MEDICINE.

AN IMPORTANT LETTER.

19) THE following letter from Dr. Brigham, of Lowell, Mass., but speaks the uniform language of hundreds of other Physicians, who have tried, and therefore know how to appreciate, Jayne's Expectorant.

LOWELL, Mass. Jan. 27, 1844.

Dr. David Jayne:

Dear Sir.—I have used your medicine (so universally known by the name of JAYNE'S EXPECTORANT,) in my practice for a number of years, and can most truly say, that I have been more successful in the use of it than a mild, safe and thorough Expectorant, than of any which I have ever used. It is the best for the following obvious reasons. It does not if given in proper doses, occasion a disagreeable nausea. It does not weaken the lungs and prostrate the system, like most other Expectorants in common use, nor does it abate the appetite of the patient, like other nauseating medicines, which have been used by the faculty. In a word it is nearly or quite the thing which has been sought for by many of the faculty for ages gone by.

I remain your's, &c.
