POETRY.

THE IDLE BOYS.

Hardly a hundred years have passed
Since I was as gay as you,
When earth was ever green to me,
And skies were ever blue;
And I loved the summer brook,
And the forest's autumn hue.

But, time, that brings some change to all,
Hath wrought much change with me;
And in many things I am much unlike
The boy I used to be,
When years ago, I loved to play
Beneath the spreading tree.
Care has not overshadowed me,
Nor sorrow been my lot;
And I have spent some pleasant hours
Too bright to be forgot;
And forged strong chains, that bind me to
This dim and earthly spot.

My best and earliest friend is dead,
Untouched by stain of sin;
But they still live, whose memories
Light up a love within—
Hope lives, and holds the laurel out
That I would die to win!
For a wide future is before—
My heart beats light for fame;
And I have learned to breathe with love
The music of her name,
Writ on the tablets of my heart
In syllables of flame.

Oh! little thought have ye of all
That comes in after years,
To stir the spirit with a spell
Of changing hopes and fears—
To ruin all the fancy work
That dreaming boyhood rears!

Play, while the glad hours sparkle by
Like the bubbles of a stream,
Play on!—the world may be to you
All that it now may seem;
Love may not be a phantasy,
Nor fame an idle dream!

GUN COTTON SUPERSEDED.

Mr. George Turner, of Leeds, England has discovered an explosive compound cheaper than that from cotton. Instead of cotton he uses sawdust, or any fibrous vegetable matter, which he immerses from eight to ten minutes in equal measure of nitric acid, specific gravity one and a half, and of common oil of vitrol. A slight increase of the latter increases the rapidity of combustion. With this prepared sawdust Mr. Turner discharged a pocket pistol, loaded with ball, with equal force to that of gunpowder. Weight for weight, he thinks the sawdust will prove the better projectile.

MORE OF "FREE TRADE."

The New York Tribune of Saturday says:—"Among the bills found by the Grand Jury yesterday, we understand, was one against Mr. Danl. E. Sickels, Member of Assembly elect, for Stealing. Also, one against Michael Walsh, another Member elect, for Libel. We have not heard that any other Members of the Delegation have had bills found against them at this term as yet."

The Union says:—"A friend in Virginia congratulates us upon the defeat we have sustained in Ohio, Pennsylvania &c." This reminds the Alexandria Gazette of a man, who on being asked after the health of his wife, replied, "She is dead, I thank you."

A LOCOFOCO REGION.

The Louisville Journal thus gives up a section of the country to the Locofocos:

The country lying round the head waters of Salt river has become the most unmitigated Locofoco stronghold in the Union. Whatever other victories the Whigs may achieve, it is pretty certain that they will never again have a majority there.

STATUE OF HENRY CLAY.—Mr. Hari the Sculptor, will go to Italy in the Spring for the purpose of executing the statue which is to be erected by the ladies of Virginia.

The Journal of Commerce states that the new Constitution has been adopted in the State of New York by a majority of near 100,000, and that Negro Suffrage is rejected by a majority of about 4 to 1.

JAYNE'S MEDICINE.

AN IMPORTANT LETTER.
19) THE following letter from Dr. Brigham, of Lowell, Mass., but speaks the uniform language of hundreds of other Physicians, who have tried, and therefore know how to appreciate Jayne's Expectorant.

LOWELL, Mass. Jan. 27, 1844.

Dear Sir,—I have used your medicine (so universally known by the name of JAYNE'S EXPECTORANT,) in my practice for a number of years, and can most truly say, that I have been more successful in the use of that as a mild, safe and thorough Expectorant, than of any which I have ever used. It is the best for the following obvious reasons. It does not give in proper doses, occasion a disagreeable nausea. It does not weaken the lungs and prostrate the system, like most other Expectorants in common use, nor does it abate the appetite of the patient, like other nauseating medicines, which have been used by the faculty. In a word it is nearly or quite the thing which has been sought for by many of the faculty for ages gone by.

HOTEL FOR INVALIDS AT PITTSBURGH.

Drs. Speer and Kuhn.

THE object of this establishment is to supply a want greatly felt by respectable travellers on our western highways—by residents, without family, taken sick—and by patients from the surrounding towns and country who resort to this place for relief from surgical and other diseases. Such have often suffered from the want of the various comforts and attentions so necessary and agreeable to the sick, and from careless and unfeeling nurses; and been subjected to heavy and unreasonable charges.

Invalids will here be provided with constant, faithful and comfortable attendance, and at a rate much below the usual charges.

While the care of both physicians will be extended to every variety of disease, it is intended by Dr. Speer, to give special attention to

ALL SURGICAL DISEASES,

PARTICULARLY TO

DISEASES OF THE EYE.

To these branches of his profession he has given a large share of his attention for the last twenty-five years, and he will continue to devote to them the experience acquired by a constant practice during that time.

The Hotel for Invalids is not an experiment. Its establishment is suggested not only as necessary to supply an evident want in this city, in the entire absence of any special provision for the sick, but is warranted also by the success of similar institutions at Cincinnati and New Orleans—the former under the care of Drs. Taliaferro, Marshall and Strader—the latter under that of Dr. Stone.

The building selected for the purpose is situated at the corner of Federal and Robinson streets, in Allegheny city, adjoining the city of Pittsburgh. It is commodious and roomy, and furnished with all accommodations necessary for the sick.

Applications for admission to be made to the subscribers, at their office on Penn street, Pittsburgh, or at the establishment.

No contagious diseases will be admitted.

Jayne's Medicine.

DOES NOT REASON AND COMMON SENSE teach us that EXPECTORATION is the most NATURAL as well as the most EFFECTUAL agent in arresting and curing

PULMONARY DISEASES?

Reason says YES, because

OBSTRUCTION

is either immediately or remotely the cause of Inflammation and Catarrhal Fevers, producing Croup, Consumption, & Abscesses of the Lungs, Pain and Soreness of the Throat, Breast, Sides, or Shoulders—Bronchitis, exciting mucous and venereal secretions, thereby clogging up the lungs, so as to more or less impede both respiration and the free circulation of the blood, causing Difficulty of Breathing, and

ASTHMA.

Pleurisy, Hoarseness and Loss of Voice, Dropsy of the Heart and Chest, Rupture of Blood Vessels and Bleeding from Throat and Lungs, and

SPITTING OF BLOOD.

To remove this Obstruction, from which all these alarming and dangerous diseases originate, and to produce a radical cure, nothing has ever been found equal to JAYNE'S EXPECTORANT.

It stands unrivalled—it stands pre-eminent—TRY IT, and you will be forced to acknowledge that its virtues HAVE NOT, NOR CAN NOT BE OVERSTATED; that it stands far above and beyond the reach of competition; that it is the only reasonable, the only natural and the only truly successful method of arresting and curing diseases of the Pulmonary Organs.

JAYNE'S HAIR TONIC.

This late discovery of Dr. Jayne, awakens the praises of the press in all parts of the country. The fact is, the more the article becomes known, the less peace has the Doctor. A continual stream of bald heads keep pouring into his establishment, who go to bed at night, dream of long and flowing locks, and awake in the morning and find the vision realized. We saw a bewitched damsel a few days since, the curl of whose auburn locks attracted our attention, and for some time we did not recognise an old friend. "Bless us, Maria," said we, "where did you raise that beautiful hair?" "Thank you, sir," said the blushing girl, "You must ask Dr. Jayne." The fact is, that although the Doctor is verging into the "sear and yellow leaf" of life, he understands how to please the ladies.—Public Ledger.

18) "IS THIS MEDICINE?" we exclaimed the other day, on tasting some of Jayne's Tonic Vermifuge. It certainly has none of the nauseous flavor, which one associates with the idea of physic. Children consider it quite a treat, and in taking it their palates are gratified, and their health restored at the same time. Jayne's Tonic Vermifuge not only destroys worms, but carries off the mucus in which they are imbedded, and effects a radical and permanent cure. Every mother knows the prominent symptoms of worms, such as voracity, leanness, ferid breath, grinding of the teeth during sleep, paleness of the lips, itching of the nose, &c, but there is other indicia not so generally recognized. A dry cough, dull eyes, enlargement of the abdomen, and many other symptoms common to other diseases, frequently denote the presence of worms. If their existence is even suspected, the Vermifuge should be administered, because it can do no harm in any case, and may do incalculable good.

JAYNES EXPECTORANT always cures Asthma.—two or three large doses will cure Croup or Hives of children in from 15 minutes' to 1 hour's time. It immediately subdues the violence of whooping cough, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable, with Consumption, Spitting of Blood, and other pulmonary Affections, have been restored to perfect health by it. It never fails in giving relief.

SEVEN THOUSAND CASES of obstinate pulmonary complaints cured in ONE YEAR!

WISTAR'S BALSAM OF WILD CHERRY,

THE GREAT AMERICAN REMEDY

for Lung Complaints, and all Affections of the Respiratory Organs.

Will miracles never cease? More evidence of its surprising Health Restorative virtues!!!

[From Dr. Baker, Springfield, Ky.]

Springfield, Washington co. Ky., May 14, 1845.

Messrs. Sanford and Park:

Gents—I take this opportunity of informing you of a most remarkable cure performed upon me by the use of Dr. Wistar's Balsam of Wild Cherry. In the year 1840 I was taken with an inflammation of the bowels which I labored under for six weeks when I gradually recovered. In the fall of 1841 I was attacked with a severe cold, which sealed itself upon my lungs; and for the space of three years I was confined to my bed. I tried all kinds of medicine and every variety of medical aid without benefit; and I wearied along until the winter of 1844 when I heard of Wistar's Balsam of Wild Cherry.

My friends persuaded me to give it a fair trial though I had given up all hopes of recovery and had prepared myself for the change of another world. Through their solicitation I was induced to make use of the genuine Wistar's Balsam of Wild Cherry. The effect was truly astonishing. After five years of affliction, pain and suffering; and after having spent four or five hundred dollars to no purpose, and the best and most respectable physicians had proved unavailing, I was soon restored to entire health by the blessing of God and the use of Wistar's Balsam of Wild Cherry.

I am now enjoying good health, and such is my altered appearance that I am no longer known when I meet my former acquaintances.

I have gained rapidly in weight and my flesh is firm and solid. I can now eat as much as any person and my food seems to agree with me. I have eaten more during the last six months than I had eaten five years before.

Considering my case almost a miracle I deem it necessary for the good of the afflicted and a duty I owe to the proprietors and my fellow men (who should know where relief may be had) to make this statement public.

May the blessings of God rest upon the proprietors of so valuable a medicine as Wistar's Balsam of Wild Cherry.

Yours respectfully,

Wm. H. BAKER.

COUNTERFEITS.

* * Those who counterfeit a good medicine for the purpose of adding a few dollars to their pockets are far worse than the manufacturers of spurious coin. For while the latter only rob us of our property the former take property and health and life away. Dr. Wistar's Balsam of Wild Cherry is admitted by thousands of disinterested witnesses to have effected the most extraordinary cures of a pulmonary and asthmatic character ever before recorded in the history of medicine.

The young, the beautiful, the good, all speak forth its praise. It is now the favorite medicine in the most intelligent families in our country.

Such a high stand in public estimation has been attained by its own merits alone. And so long as a discerning public are careful to get WISTAR'S BALSAM OF WILD CHERRY and refuse with scorn counterfeits and every other article proffered to them as a substitute, so long will cures—positive cures—cheer the fireside of many a despairing family.

DR. M'LANE'S

LIVER PILLS.

For the cure of Hepatitis or Liver Complaint

Dyspepsia and Sick Head-Ache.

THIS remedy having been for several years employed by the proprietor in his practice, on a very large scale in Monongalia, Preston, Harrison and Randolph counties, in Virginia, besides several other places, and having been attended with the most happy effects, he has been from time to time solicited to adopt such a course as would give it a more extensive circulation, with a view to lessen the amount of human suffering. Aware of the fact that many useless nostrums have been palmed upon the public, he hesitated for several years until thoroughly convinced that the above medicine, if properly used, would not fail to effect cures in a great many instances, and even to alleviate those cases which are quite incurable.

Symptoms of a diseased Liver.—Pain in the right side, under the edge of the ribs, increased on pressure; sometimes the pain is in the left side the patient is rarely able to lie on the left side sometimes the pain is felt under the shoulder-blade, it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the right arm. The stomach is affected with loss of appetite and sickness; the bowels, in general, are constive, sometimes altering with lax, the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few or them existed, yet examination of the body after death has shown the liver to have been extensively deranged.

CERTIFICATES.

This is to certify, that having been associated with Dr. M'Lane in the practice of medicine for nearly two and a half years, I have had many opportunities of witnessing the good effects of his Liver Pills, and I believe they have cured and relieved a much larger proportion of the diseases of the liver, than I have known cured and relieved by any other course of treatment.

DR. M'LANE'S AMERICAN WORM SPECIFIC

Promptly expels Worms to an almost incredible number!

TO substantiate the above fact many hundreds of testimonials could be adduced, out of which the following are selected, from individuals of standing and veracity. Indeed, it is confidently affirmed that each new trial of the powers of this remedy will have an additional tendency to widen and confirm its fame, and that if it were universally known and diffused over the United States, it would not save less than many hundreds, if not thousands of lives annually.

CERTIFICATES.

I do certify that a trial of Dr. M'Lane's American Worm Specific expelled five hundred and two whole worms and pieces that would have made sixty more, from a boy of John Lewelling, which, if laid in a straight line, would have most probably measured the enormous length of one hundred yards. JONAH JACKSON, owner of Water Forge, and other works, Monongalia county, Va.

This is to certify that I purchased from Holmes & Kidd a trial of Dr. M'Lane's American Worm Specific, and gave two doses to a boy of mine about three years of age. He passed fully half a pint of worms. The quantity was so large I was really alarmed, and called in several of my neighbors to see them. Had this story been related to me, I could not have credited it, without being an eye-witness to the same. My child's health improved much after.
