THE MEETING.

The Whig Meeting last week was very respectable assemblage of the "bone and sinew" of the county. The proceedings, which we publish to-day, speak for themselves. A. J. Ogle, and John Bell, Esquires, are the delegates to the State Convention, and are instructed to vote for Mr. Cooper.

The citizens of Cleveland held a meeting recently in favor of the immediate construction of a Railroad to Pittsburgh.

Both branches of the Legislature have resolved to adjourn on the 16th of March.

The 2nd Regiment Pennsylvania Volunteers sailed from New Orleans on the 24th ultimo.

WHIG COUNTY MEETING.

Pursuant to previous notice, the Whigs of Somerset county held a public meeting at the Court House in Somerset, on Tuesday evening, February 9, 1847. The fol-

lewing gentlemen were appointed officers: President: M. ZIMMERMAN, Vice Presidents: DANIEL LEPLEY, JEREMIAH SHAFFER, GEO. PRINGEY, HENRY LITTLE, oh Lichteberger, Manassah Miller, Sam uel M. Haller.

On motion, the following were appointed a committee to prepare resolutions expressive of the sense of the meeting, who after some time reported the following, which were unanimously adopted.

CONDITION OF IRELAND.

FAMINE AND DISEASE .- The accounts from Ireland, of the scarcity and high price of food, and the consequent famine which prevails in that ill fated country, are of the most distressing character, and are calculated to arouse the warmest sympathies and the most generous emotions in the bosoms of every philanthropist, especially in our own country, where the earth during the past year has yielded such a superabundance of the necessaries and delicacies of life.

The papers contain accounts of many appalling scenes resulting from the famine in Ireland. At Skibbereen a reportor staying half an hour in the town counted three funeral processions. One family was found dying of disease and want, unable to go out and seek food and medicine. In another cabin, nine persons lay streehed on the ground, suffering from woman had given birth to a child, lying upon some straw. Six persons lay around her, suffering from aggravated symptoms of fever brought on by starvation. In another cabin a whole family was ill with fever, having lost two of its number within two days, and the unfeeling landlord had unhinged the door, took off their blankets, and left them to die without shelter, clothing or food. health of my wife and child. About five years ago Mrs. Wimer was attacked with a violent cough, pain in the chest and side and symptoms of annroaching consumption. During the interval from that time to some time in February last, she had been treated by eminent physicians from Utica, Sylvania, Homer Chatham and Newark, and with only partial relief of the most urgent symptoms. About one year ago she caught a violent cold, which seated upon the lungs, producing an slarming aggravation of all her previous systems. Her physician was sent for, and despite his best efforts she began to sink rapidly under ber disease. Cough, expectorant, and hectic, together with night sweats soon reduced her to a complete skeleton. In February last her attending physician deemed her case altogether hopeless; a council was called, and after deliberating upon her case unanimously pronounced her to be beyond the reach of means, and expressed their opinion that she could survive but a short time, one or two weeks at farthest. She was at this time entirely confined to her bed, and scarcely able to articulate, except in a whisper. Her daily proxysms of coughing would last uninterruptedly from three to five hours, and so severe that we expected every proxysm would be her

The physians in council pronounced her lungs, liver, kidneys, spine and mucus membrane of the stomach to be incurably diseased.

It was at this last extremity that we happened to obtain a pamphlet describing Dr. Wistar's Balsam of Wild Cherry, as applicable to lung affections. We immediately sent to you and procured a bottle, and commenced its use at evening by giving her one teaspoon full, and such was the surprising effect that she was able to pass a comfortable night without experiencing any paroxysm of coughing; and such was its ultimate effect, that, after taking five bottles, she was, contrary to the expectations of her physicians and every one who saw her, entire restored to health, and since last summer has done the entire work of the family.

After the last attack of Mrs. Wimer, our voungest child, then an infant at the breast, was taken down and rapidly sinking with the same symptoms as its mather, and having seen the happy effects in the case of the mother, we were disand it was attended with the same per-
