FLAME ENCIRCLED OVEN COOKING STOVE.

Somerset, Pa.,

FIRIS Stove combines all that is valuable in existing Cooking Stoves with certain improvements peculiar to itself. It is constructed upon a new and entirely distinct principle truly philo sophical, so as to pass the flue entirely round the oven, thus making it enveloped or flame encircled. without impairing the necessary draught of the stove. This method of thus passing twice round, once over and once under the oven, is the secret of its great economy in the use of fuel, while the enlargement of the air chamber affords increased space for the rarefaction of air and compensates for the usual disadvantages of a circular draught, It bakes, roasts, and boils, easier and better than any Stove yet offered to the public, with the advantage over most of them of saving one half the fuel. It is superior to the "Queen of the West," "Buck's Patent," "Eclipse" or "Hathaways Patent," for the following reasons: In these Stoves the upper side of the oven is dependant for heat and can have from no other source than what radiates through the plate on which the fire is made. If the ashes be lifted clean, too much heat will radiate and born the bread on the upper side, if too much ashes be left, the bread will not bake on the upper side. Of this defect all good cooks complain. This Stove is entirely free of this objection, the oven always heating exactly alike top and bottom, and ends. Many buy the Premium or step stove and others of similar model. These Stoves consume much fuel, for first the fire chamber is too deep, the pots &c., are too high above the fire. Second when using the oven, all the heat which passes off under the oven being one half, never comes in contact with the boiling utensils, passesoff into the pipe and is lost. Also our Stove is so arranged with a bank or elevation in the fire chamber as to ensure the use of the flame upon the forward part of the Stove first, and it then passes back afterward heating all alike whereas Stoves like the Hathaway, having one vest chamber, allow too wide a range for the flame without suffcient concen-

tration. We manufacture two sizes of this Stove at the Eagle Foundry in BerlinSomerset county, Pa. For the larger size most of the pots commonly used in the kitchen will answer.

Always on hand, a complete assort ment of PLOUGHS, with PLOUGH CASTINGS of great variety. HOL-LOW WARE of superior material and finish, comprising every thing in that line. CASTINGS on hand, and made to order, on the most reasonable terms.

From his long experience in the business and a determination to sell cheap, and at the same time also that his hats shall not be excelled by those of any other establishment here or elsewhere, the subscriber flatters himself with the hope that he shall continue to receive a liberal share of public patronage.

The subscriber understands that some persons have been selling hats as having been manufactured by him, which are made elsewhere-and he therefore cautions the public against purchasing any as his make, which have not the words "John C. Kuriz, Main street, Somerset, Pa.," on the tip.

HOTEL FOR INVALIDS AT PITTSBURGH.

Drs. Speer and Kuhn.

HE object of this establishment is to supply a want greatly felt by respectable travellers on our western high; ways-by residents, without family, taken sick-and by patients from the surrounding towns and country who resort to this place for relief from surgical and other diseases. Such have often suffered from the want of the various comforts and attentions so necessary and agreeable to the sick, and from careless and unfaithful nurses; and been subjected to heavy and unreasonable charges.

Invalids will here be provided with constant, faithful and comfortable attendance, and at a rate much below the naual charges.

While the care of both physicians will be extended to every variety of disease, it is intended by Dr. Speer, to give spo-

cial attention to ALL SURGICAL DISEASES,

PARTICULARLY TO DISEASES OF THE EYE. To these branches of his profession

he has given a large share of his attenion for the last twenty-five years, and he will continue to devote to them the experience acquired by a constant practice during that time.

The Hotel for Invalids is not an exper iment. Its establishment is suggested not only as necessary to supply an evident want in this city, in the entire absence of any special provision for the sick, but is warranted also by the success of similar institutions at Cincinnati and New Orleans-the former under the care of Drs. Taliaferro, Marshall and Strader -the latter under that of Dr. Stone.

The building selected for the purpose is situated at the corner of Federal and joining the city of Pittsburgh. It is with all accommodations necessary for he sick.

Applications for admission to be made to the subscribers, at their office on Penn street. Putsburgh, or at the establishment. No contagious diseases will be ad] J. R. SPEER, M. D. J. S. KUHN, M. D
