

POETRY.

From the Boston Traveller. GIVE ME THREE GRAINS OF CORN, MOTHER!

BY MRS. A. M. EDMOND.

The above words were the last request of an Irish lad to his mother, as he was dying of starvation. She found three grains in the corner of his ragged jacket pocket, and gave them to him. It was all she had; the whole family were perishing from famine.

Give me three grains of corn, mother, Only three grains of corn; It will keep the little life I have Till the coming of the morn. I am dying of hunger and cold, mother, Dying of hunger and cold; And half the agony of such a death My lips have never told.

It has gnawed like a wolf at my heart, mother,

A wolf that is fierce for blood, All the livelong day and the night beside, Gnawing for lack of food. I dreamed of bread in my sleep, And the sight was heaven to see: I woke with an eager famishing lip, But you had no bread for me.

How could I look to you, mother, How could I look to you For bread to give your starving boy. When you were starting too? For I read the famine in your cheek, And in your eye so wild, And I felt it in your bony hand, As you laid it on your child.

The Queen has land and gold, mother, The Queen has land and gold, While you are forced to your empty breast

A skeleton babe to hold; A babe that is dying of want, mother, As I am dying now, With a ghastly look in his sunken eye, And famine upon his brow.

What has poor Ireland done; mother, What has poor Ireland done, That the world looks on & sees us starve, Perishing one by one. Do the men of England care not, mother, The great men and the high, For the suffering sons of Erin's Isle, Whether they live or die?

There is many a brave heart here, mother, Dying of want and cold, While only across the channel, mother, Are many that roll in gold. There are rich & proud men there, mother, With wondrous wealth to view, And they bread the fling to their dogs to-night Would give me life and you.

Come nearer to my side, mother, Come nearer to my side, And hold me fondly, as you held My father when he died. Quick, for I cannot see you, mother, My breath is almost gone; Mother! Dear mother! ere I die, Give me three grains of corn!

Health-Hints on Consumption,

BY DR. S. S. FITCH.

The larger the lungs, the more perfect their development, the less they are liable to pulmonary consumption. That the more they are exercised, the larger they will become; that as we take active or laborious exercise, our lungs will be continually enlarging; that on the contrary, indolence, want of exercise, &c., will render the lung smaller, until by absence of air, the air cells will then close up and collapse their walls, as a bird folds up its plumage. By this we also learn that pure air, and even cold air, because more dense, is the best friend of the lungs, and should be resorted to with the greatest confidence, both to prevent and to cure their diseases.

It is found in the history of the American Indians—at one time numbering many millions of people, and inhabiting from the most extreme point north, to Patagonia south, embracing all varieties of climate and location, resting in the frigid, temperate and torrid zones; occupying every variety of situation, on the seaboard, on the borders of the lakes, on the tops of the highest lands, and in the most secluded valleys; on the wide spread and open prairies, and in the most arid deserts; the countries of the greatest humidity, and where it rarely ever rains, as in Peru; yet in all these countries, and every where, such a thing as pulmonary consumption has never been observed, whilst those people remained in their savage state. Bring them into our settlements, civilize them, educate them, and let them adopt our habits, and they become as liable to consumption as we ourselves.

By what peculiarity is the Indian distinguished from the civilized American? Ist, the American Indian is remarkable for the perfect symmetry of his figure.—"Straight as an Indian," is an old proverb, whose truth is instantly recognised by all who have ever seen the wild Indian, his chest is perfect symmetry, his shoulders and shoulder blades are laid flat against the chest and the whole weight of his arms, shoulders, and shoulder blades, is thrown behind the chest; thus always expanding, instead of contracting it; the naked chest and the whole person is often exposed to the open air;

they are much out of doors; breathe the open air, never stoop in gait or walk and pursue no avocations that contract the chest, or prevent its free expansion; often wash in pure cold water, exercise the lungs freely by athletic exercises, running, the chase, frequently dancing and shouting, &c., most vehemently nearly every day. The same holds true in regard to animals.

Animals in their wild state never have the consumption; whilst the same animals domesticated have it—as the monkey, the rabbit, the horse, &c. Consumption is the child of civilization; results chiefly from the loss of symmetry, and from effeminacy, induced by too much clothing, too luxurious living, dissipation, too little exercise, and debilitating diseases and occupations.

If there is an appellation that would apply to us as a nation, it is round shouldered. The habit of contracting the chest by stooping, is formed by multitudes at school, by sitting at low tables; by setting all on a heap, either in school, by not holding themselves erect, either sitting or standing; and it is a matter of habit to a great degree, with tailors, shoemakers, machinists, clerks, students, seamstresses, all of whose occupation causes them to stoop at their work, or at rest, or at their pleasure, or amusements.

Practice will soon make sitting or standing perfectly erect, vastly more agreeable and less fatiguing than a stooping posture. To persons predisposed to consumption, these hints as regards writing or reading desks, are of the greatest importance. In walking, the chest should be carried proudly erect and straight, the top of it pointing rather backwards than forwards. The North American Indians, who never had consumption, are remarkable for their perfectly erect, straight walk. Next to this, it is of vast importance to the consumptive, to breathe well; he should make a practice of taking long breaths, sucking in all the air he can, and hold it in the chest as long as possible.—On going into the cold air instead of shrinking from it, draw a long breath of pure cold air. Do this a hundred times a day, if you have any symptoms of weak lungs, as it will cure you; should you have a slight cold, be in the habit of drawing in a full chest of air.

Luxurious feather or down beds should be avoided, as they greatly tend to effeminate the system, and reduce the strength. For this reason, beds should be elastic, but rather firm and hard straw beds, hair mattresses, these on a feather bed are well; a most excellent mattress is made by combing out the husks or shucks that cover the ears of Indian corn. I first met these beds in Italy; they are delightful. Cold sleeping rooms are in general best, especially for persons in health; they should never be much heated for any person, but all should be comfortable warm in bed.

HOTEL FOR INVALIDS AT PITTSBURGH.

Drs. Speer and Kuhn.

THE object of this establishment is to supply a want greatly felt by respectable travellers on our western highways—by residents, without family, taken sick—and by patients from the surrounding towns and country who resort to this place for relief from surgical and other diseases. Such have often suffered from the want of the various comforts and attentions so necessary and agreeable to the sick, and from careless and unfaithful nurses; and been subjected to heavy and unreasonable charges.

Invalids will here be provided with constant, faithful and comfortable attendance, and at a rate much below the usual charges.

While the care of both physicians will be extended to every variety of disease, it is intended by Dr. Speer, to give special attention to

ALL SURGICAL DISEASES, PARTICULARLY TO DISEASES OF THE EYE.

To these branches of his profession he has given a large share of his attention for the last twenty-five years, and he will continue to devote to them the experience acquired by a constant practice during that time.

The Hotel for Invalids is not an experiment. Its establishment is suggested not only as necessary to supply an evident want in this city, in the entire absence of any special provision for the sick, but is warranted also by the success of similar institutions at Cincinnati and New Orleans—the former under the care of Drs. Tallafiero, Marshall and Strader—the latter under that of Dr. Stone.

The building selected for the purpose is situated at the corner of Federal and Robinson streets, in Allegheny city, adjoining the city of Pittsburgh. It is commodious and roomy, and furnished with all accommodations necessary for the sick.

Applications for admission to be made to the subscribers, at their office on Penn street, Pittsburgh, or at the establishment. No contagious diseases will be admitted. J. R. SPEER, M. D. J. S. KUHN, M. D. February 25, 1845.

SUBPCENA FOR DIVORCE.

THE COMMONWEALTH OF PENNSYLVANIA, To Ann Collier, GREETING:

WHEREAS, Perry Collier did on the tenth day of February, eighteen hundred and forty-seven, prefer his petition to the Honorable, the Judges of the Court of Common Pleas, of Somerset county, praying that for causes therein set forth, he might be divorced from the bonds of matrimony entered into with you, the said Ann Collier, in all time to come, as if he never had been married, as if you were naturally dead. We, therefore, command you, the said Ann Collier, that setting aside all excuses and other business, you be and appear in your proper person before our Judges at Somerset at our County court of Common Pleas, there to be held on the first Monday of May next, to answer the petition or libel of the said Perry Collier, and to shew cause, if any you have, why the said Perry, your husband, should not be divorced from your society, fellowship and company, and from the bonds of matrimony contracted with you the said Ann, as fully and effectually as if he never had been married, or as if you the said Ann, were naturally dead, agreeably to the act of Assembly in such case made and provided, and hereof you are not to fail.

Witness the Honorable Jeremiah S. Black, President of our said court at Somerset, this 19th day of February, Anno Domini, 1847. A. J. OGLE, March 2, 1847. Prothonotary.

THIS WAY.

For the Interest of the Farmers & others concerned.

THE subscriber wishes to inform the public in general, that he is, and will continue in the Foundry business in the town of Mount Pleasant.

He will also continue the manufacture of all the different numbers of the "Woodcock Self-sharpening Plough," manufactured previous to last August by the firm of "Miller and Lippencott." In addition to the five numbers of the above plough, he offers another improved number, which is styled the No. 6.—This Plough is considered by persons of much experience in ploughing to be decidedly superior to any plough in use. The reason why this plough claims the superiority over other ploughs, is because of its strength, its light draught in ploughing, and for being capable of lasting a greater length of time, the strength of the point, it being successfully secured from breaking or ever becoming loose while ploughing.

Mr. Woodcock has attended a number of Fairs with the above named plough and received the premium over all other ploughs.

The subscriber will also keep on hand in connexion with the above ploughs a general supply of Plough Irons suiting all the different numbers of the plough. He will also furnish an assortment of Ploughs and Irons to all the Agents throughout the counties of Westmoreland, Fayette and Somerset, who have been doing business for the firm of Miller & Lippencott. He will also keep on hand all sizes of Stoves of fashionable style, Grates of all lengths, Hollow-Ware of all kinds, Saw Mill Castings of different sizes, Machinery Castings for Engines, for Stationary Horse Powers for Grist Mills, for Gearing of all kinds, and for Thrashing Machines.

Persons wishing to purchase Thrashing Machines can be accommodated by the subscriber, as he has two sets of patterns of the Shallenbarger machine to order ready for immediate use. A machine is on hand at present ready for sale. All kinds of old metal (except what has been burned by a coal fire) will be taken in exchange for Castings, also, country produce, such as Bacon, Flour, Wheat, Corn and Oats, will be taken in exchange at market price. SAMUEL MILLER, Sr. March 2, 1847.

PROCLAMATION.

WHEREAS the honorable JEREMIAH S. BLACK, President, and G. Chorpennet and John M'Carthy, Esqs., associate Judges of the court of common pleas, in and for the county of Somerset, and assistant Justices of the courts of oyer and terminer and general jail delivery and quarter sessions of the peace, in and for said county of Somerset, have issued their precept to me directed, requiring me among other things to make public proclamation throughout my bailiwick, that a court of oyer and terminer and general jail delivery; also, a court of general quarter sessions of the peace and jail delivery, will commence at the borough of Somerset, in and for the county of Somerset, in the commonwealth of Pennsylvania, on the 1st Monday of MAY next, (3d day) in pursuance of which precept

Public Notice is hereby given, to the justices of the peace, the coroner, and constables of said county of Somerset, that they be then and there, in their own proper persons, with their rolls, records examinations, and inquisitions, and other remembrances, to do those things which to their offices appertain in that behalf to be done and also all those who prosecute against the prisoners that are, or then shall be, in the jail of the said county of Somerset, are to be then and there to prosecute against them as shall be just.

Given under my hand, at Somerset, this 23d day of March, in the year of our Lord 1847. SAMUEL GRIFFITH Sheriff.

36) JAYNE'S EXPECTORANT.—By a reference to our advertising columns, it will be seen that this valuable Medicine is offered for sale in this city. We esteem it a pleasure to be able to recommend this medicine, as the best calculated for the purpose of curing coughs, colds, sore-throat, asthma, and all affections of the lungs. From a long personal acquaintance with Dr. Jayne, we know that he is no quack, and his medicines are not nostrums of the modern cry-up, but are the result of his long experience as a practicing physician, and the expense of great labor.—Hartford (Ct.) Daily Review.

ONLY GIVE IT A FAIR TRIAL.—We ask no more of any one, than to give Dr. Jayne's Expectorant a fair trial, and if it does not cure the various diseases for which it is recommended, sooner and more effectually than any other medicine that has ever been offered to the public, the Proprietor is willing to undergo any penalty, however severe, the public may see proper to impose upon him. It has, and it will cure Coughs, Colds, Asthma, Bronchitis, Bleeding from the Lungs or Throat, Whooping Cough, Croup, and a very large majority of the most hopeless cases of CONSUMPTION, when Physicians and prescriptions fail to do any good. Again we say, only try it. It will not harm you, but it must and it will do you good. Sold by J. J. & H. F. Schell, Somerset Pa. Also by Edward Bevin, Stoytown Pa.

MORE PROOF. Darlington, Beaver Co., Pa. } February, 1839. } 35) Dr. D. JAYNE.—Dear Sir,—My little son, when about two months old, was seized with a bowel complaint. It continued for two weeks without intermission, and notwithstanding the remedies prescribed by a respectable Physician, we gave up the child a victim, as we supposed, to a fatal disease. But I providentially heard of "Jayne's Carmine," as an effectual cure for bowel complaint, and immediately dispatched a messenger to a town seventeen miles off for a bottle. By the use of this medicine, in less than thirty-six hours the disease was checked, and by its constant use for a few days, the child was restored to perfect health. Shortly after this, there occurred a similar case in one of the families of my congregation. I prescribed "Jayne's Carmine," and the result was a speedy cure.

The same child, owing to exposure, when recently coming up the Ohio, was attacked by that horrible malady, Croup. We landed in the night at Beaver Point, and when our fears were alarmed lest the hoarse sepulchral cough was the forerunner of death, we gave him a teaspoonful of your Expectorant, and applied some liniment to the throat and breast; and before many minutes the hoarseness was gone, the child breathed freely and slept sweetly. Owing to these circumstances it cannot be wondered at why I have so high an opinion of your medicines, and why I advise every family to keep them on hand, ready for any emergency. Respectfully yours, ARTHUR B. BRADFORD, Pastor of the Presbyterian Church, Darlington, Pa.

Another Proof of the Efficacy of Jayne's Hair Tonic.—This will certify that I was entirely bald for about three years, when I was recommended to try Dr. Jayne's Hair Tonic, I procured two bottles of Mr. Mason, in Summerville, and using the Tonic for about fifteen months, my hair came in all over my head, and although not quite as thick as before, yet it is constantly growing.—This surprising restoration of my hair excited the astonishment of all my acquaintances, and made me an object of curiosity to many. I am now 55 years of age, and have reason to regard the inventor of this matchless Hair Tonic as a public benefactor. JOACHIM GULICK, New Germantown, N. J. Nov 26, 1842. For sale by J. J. & H. F. Schell, Somerset, Pa. Also by Edward Bevin, Stoytown Pa.

Who can doubt the virtues of Jayne's Hair Tonic.

Summerville, N. J. Nov. 26, '42. Dr. Jayne.—Dear Sir: I send you the following certificate obtained from Mr. Gulick. I would just state that I became acquainted with him about two years ago. At that time he was entirely bald, with the exception of a lock of hair on the back part of his head, about the size of half a dollar, and that lock of hair he told me had been made to grow by the use of your Tonic; previous to which he positively avers, he had not a single hair on his head. The hair now completely covers his head, and is from four to five inches long. Very respectfully, yours, &c. P. MASON.

Another New Year!

Amid the ever succession of periods, once more has revolved around. How fraught with food for thought are those "mile stones" in human life!

Change after Change—how many the changes—that a retrospect of the past 12 months will conjure up to view!

The Struggling Poor have in some instances been made happy by the dawn of brighter days; while those basking in the

Sunshine of Prosperity have had to taste the bitter pang of want. How ought these vivid lessons—from off life's truthful page—to stir up the hearts of all

—to godly deeds, And thoughts of sympathy! Death, too, has not been idle; but has helped to make up the changes of the past year. And where health once took up its abode, disease now holds its throne. But how often ill health attributed to

Negligence or Prejudice, which induces the suffering invalid to refuse using the rightful remedy which his own peculiar malady calls for. The experience of more than

Ten Thousand Trials proves the unequalled value of that pleasant and most celebrated medicine

Wistar's Balsam of Wild Cherry, For Diseases of the Lungs and Breast!

ANOTHER Astonishing Cure! Wistar's Balsam of Wild Cherry!

For Coughs, Colds, Consumption, &c., Important to all those afflicted with Diseases of the Lungs and Breast.

Will Miracles ever cease? More evidence of its surpassing Health-Restorative virtues!

The following has just been received from Mr. Edward Stratton, of Lexington, Mo., which shows that Consumption in its worst form can be cured by Wistar's Balsam of Wild Cherry.

LINGTON, Mo., Jan. 21, 1845. Benjamin Phelps—Dear Sir: I take great pleasure in communicating to you what I consider an extraordinary cure effected on my daughter, about 11 years of age, by Wistar's Balsam of Wild Cherry.

About the first of September last, my daughter was taken sick, and attended by several physicians, whose prescriptions were ineffectual, or seemed to do no good. She was attended with a constant cough and pain in the breast. Her physicians and all who seen her, came to the conclusion that she was in a confirmed stage of Consumption. I made no other calculation than for her to die. But as she commenced taking the Balsam she began to improve, and continued so until her health was restored, and is now entirely well. With a view of benefiting those who may be similarly afflicted, I take pleasure in recommending this medicine to the confidence of the public.

Yours, with respect, EDWARD STRATTON.
