

FOR PRESIDENT OF THE UNITED STATES IN 1848.

GENL. ZACHARY TAYLOR.

FOR VICE PRESIDENT. HON. ANDREW STEWART.

Subject to the decision of a National Convention

JOSEPH W. PATTON.

We invite attention of our readers to the extract we publish, from the Penn'a. Telegraph, in another part of this paper, in relation to this gentleman's pecuniary affairs. The vilest calumnies have been propagated, by the loco foco press, respecting Mr. Patton. He has been charged, in almost all their papers, in this state with the grossest dishonesty and defrauding his creditors—yet when the evidence reaches the public, it is seen that instead of his being dishonest, his honesty is unsurpassed by that of any man now living. When Mr. Patton failed, he was in debt some \$23,000 and since that time he has reduced that indebtedness to less than \$400; and his creditors have perfect confidence that he will pay every cent so soon as he is able.

What calumny the loco foco press will next resort to, it is impossible to imagine; but we caution the public to put no faith in the statements they may make on the eve of the election. From the falsity of the charges they have already made, we must conclude they will stop at nothing—and we doubt not, some infamous fabrication will be started throughout the state just before the election which the whigs will not have time to prove untrue.

Loco Foco Policy No. 1.

Beautiful effects of the British Tariff of 1846.

Exports from Liverpool to the United States in the months of April, May and June, 1846, under the Whig Tariff of 1842, and in the same months of 1847, under the British Tariff of 1846.

Table with 2 columns: Iron, Coal. Rows for 1846 and 1847 with various sub-rows for different types of iron and coal.

Table with 2 columns: Earthenware in half crates and casks, Manufactured Goods in packages crates, bales, &c.

The increase under the British Tariff of 1846, is, In manufactured Goods, Woolens, cottons, &c., 30,857 packages, or 140 per cent.

In Hardware, Iron manufactures of every kind, 4,046 crates, or 400 per cent.

In Earthenware, 172 casks and 184 half crates.

In coal, 2,682 tons, or 80 per cent.

In Iron, 8,300 tons, or 60 per cent.

In Earthenware there was a decrease in whole crates of 163—still the increase in casks and half crates overbalances the decrease in crates.

The above is the certain result of reducing the duties by the Loco Focos in their Tariff of 1846, enabling the British manufacturers through their PAUPER AND LOW WAGES LABOR, to undersell our own brother manufacturers, and deprive them of a market for their manufactured goods at living prices, to the extent of the above increase.

What do you think of it, ye carders, spinners and weavers of Pennsylvania and of the Union, ye Iron manufacturers, forgers, puddlers, nailers, foundrymen, blacksmiths and whitesmiths, ye potters, converters of our mother earth into drinking, eating and cooking vessels, ye coal diggers and haulers, ye farmers, who furnish our manufacturers, mechanics and laborers in the above branches of honest American Industry with their daily food—what think you of the Tariff of 1846?—Do you wonder that the British Parliament should propose thanks to an American Secretary of the Treasury for his Report to Congress recommending reductions in the American Tariff of 1842, for the benefit of British manufacturers, mechanics, &c.? Does not the act of 1846 deserve to be called the British Tariff?

But again, suppose the Tariff of 1846 to be abolished, and free trade in all its destructive nakedness be established, as was advocated with great applause by Charley Brown, Loco-foco Congressman from Philadelphia county, the son-in-law of Gov. Shunk, at a meeting in old Berks a few days since, in presence of Shunk and his leading Loco-foco friends, what then will be the increase of British exports in the above articles, and to what extent will your Factories, Forges and workshops be deprived of a market for

your manufactures, or altogether stopped or shut up!

In the event of Free Trade adoption by the UNCHANGABLE Democracy, instead of the lying motto, as in 1844, "Polk, Dallas, Shunk and the Tariff of 1842," or the perhaps sincere cry in 1847 of "Down with the Aristocratic Tariff of 1842 and up with Polk, Dallas, Shunk and the Tariff of 1846," will not our ears ring in 1848 with the Loco-foco shout of "Polk, Dallas, Shunk, Charley Brown and Free Trade?" CLAY.

LATE AND IMPORTANT FROM MEXICO.

Correspondence of the Pittsburgh Gazette.

WASHINGTON, Sept. 14, 9 P. M. Government despatches have this moment been received from the Headquarters of the Army by the War Department at Washington, by especial Express.

The news heretofore received in reference to the movements and position of Gen. Scott's forces, is fully confirmed.

The American forces, consisting of 7000 men, met the Mexicans at Carubco, three or four miles this side of the Capital.

The Mexicans were 32,000 strong, and stationed behind immense batteries of heavy artillery. After two hours of a most bloody conflict, our gallant troops made a charge and carried every thing at the point of the bayonet.

The American loss was something less than 1,000 in killed and wounded,—Mexicans 5,000, amongst whom were a number of distinguished Generals, Soldiers and Civilians.

The armistice was agreed upon and five commissioners appointed on the part of the Mexicans, at the head of whom was Gen. Herrera.

They had two meetings for the purpose of concluding peace and were to have the third on the Monday then following, 30th of August.

Gen. Valencia escaped with two companies to Taluca, and made a Pronouncement against Santa Anna and all Peace propositions received from the United States. [The inference of course is that Santa Anna played false to Mexico as at Cerro Gordo.]

DRUMMOND'S PATENT CANDLE MAKER.

This is a new invention, which will probably soon supersede altogether the old mode of making candles. It is convenient and economical, and the candle which is produced by it emits a very clear light. The cheapness of the article, considering its real value, should introduce it into every house. For a more full description the reader is referred to the annexed paragraph from the Columbus, Ohio, State Journal, where the article has been in use for some time.

Call at Parker & Ankeny's store, and examine and judge for yourselves.

For the Ohio State Journal.

Mr. Editor:—Have you seen that little wonderworking machine, which they call "Drummond's Patent Candle Maker?" If not, I advise you to lose no time in its examination, that you may be able to enlighten your readers upon a subject of such general practical utility. It is a curious specimen of ingenuity and is likely to run a desperate opposition to all the chandlers and candle-mongers in the country. It makes, wicks and burns its own candles; and only requires for that purpose an occasional supply of tallow, or grease of any kind that will burn. It is very simple in its construction, and its operation easily comprehended by the most common understanding. Indeed, the wonder is, that so simple, convenient and economical a process of manufacturing candles has not come to light before; and it certainly combines all those advantages more eminently than any thing of the kind I have ever seen. By merely turning the bottom of the candlestick (for it is only a candlestick after all, and suitable in all respects for common use,) a neat, smooth, round candle is forced out at the top, all wicked and trimmed and ready for burning. Tallow, lard or any grease that will harden to the consistency of either, may thus be converted into light, at a very cheap rate in the actual cost of material, time and labor. Wicking enough for a month may be prepared in a minute, and the reservoir will need replenishing with grease ordinarily once a week. Any house-wife, especially those who mould or dip their own candles, can estimate the economy of the thing at a glance. The wick being dry, absorbs the melted tallow, and thus turns the current within; so that there is no running of grease, as in the common candle—a matter of no small consequence in point both of neatness and economy.—Besides, there are no waste bits, and no handling, breaking or melting away of the candles themselves, which, in the heat of summer, are the perpetual sources of annoyance.

The candle need not be more than an inch or two in length at any time, and may be kept at a uniform height if desired, until the machinery shall wear out by actual use; which, by the way, with its simplicity and constant lubrication, it is not likely to do for a long time, at the least calculation. The cheapness and convenience of the article should certainly place it in the hands of every one who has any use for "more light." And now, in the conclusion of this cursory notice of the matter, allow me to refer you to a more complete description of its actual operation than I could hope to prepare, to a communication on the same subject in the Statesman of Wednesday; or what will be better still, to the article itself, which may be found at the Heranocourt building, or occasionally in the streets, in the hands of agents, who are rapidly pre-empting them I understand, with the expectation that an ample supply will soon

be furnished by Mr. Wm. R. Kent of this city, who has contracted for an unlimited manufacture, and has already matured preparations for that purpose. A LOOKER-ON.

Two young men, named Geo. Schwartz and Edward Miller, charged with kidnapping Mary Whiting, a free colored woman, from Chambersburg, (Pa.) have been arrested in Baltimore and committed to jail for further examination. They had sold the girl for \$500 to a Mr. Hope H. Slatter.—Civ.

They have been known to effect permanent cures when all other remedies had proved unavailing, and in the last stages of disease.

They have in many cases superseded the prescriptive skill of the most eminent Physicians, and received besides their unqualified commendation.

They have been repeatedly recommended by men of the most distinguished characters, throughout the land, and been sanctioned in Europe by noblemen and Princes of Royal Blood.

They have been introduced into the Hospitals of Edinburgh, Paris, and Vienna, and throughout the disinterested exertions of our foreign ambassadors, they have received the favorable commendation of the Emperor of Russia, and his Celestial Majesty of the Chinese Emperor.

Searched a Packet vessel of any repute sails from the port of New York, without an abundant supply of the SICK MAN'S NEVER FAILING FRIEND. Agencies have been established in all the principal cities of the union, and applications are constantly reaching us from all the most numerous villages in every section of the country. Testimonials of their marvellous effects are pouring in from all quarters—and in such numbers that we have no time to read half of them. What stronger or more conclusive evidence than these important facts can the most skeptical desire! It is possible that the many thousands who tried CLICKNER'S PILLS, can be deceived in their results! If any impostor or quackery existed, would it not long ago have been held up, as it should be, to the scorn and derision of a justly offended community.

Remember Dr. C. V. Clickner is the original inventor of Sugar Coated Pills, and that nothing of the sort was ever heard of, until he introduced them in 1834. Purchasers should, therefore, always ask for Clickner's Sugar Coated Vegetable Pills, and take no other, or they will be made the victims of a fraud.

For the last two years this celebrated and unsurpassed remedy for the above complaints have been well known, and extensively used in Pittsburgh and surrounding country with unqualified success which renders it unnecessary to parade a long list of testimonials in its favor, which could readily be done. Suffice it to say that numbers of the most respectable persons in Pittsburgh and vicinity have used and proved its wonderful efficacy. It is a Vegetable and scientific preparation predicated upon the unalterable Laws of Nature, adapted most certainly to remove the cause that the effect may cease without it. It can truly be pronounced one of the best remedies for the above complaints in the United States. EMANATING FROM A REGULAR PHYSICIAN. DR. INGOLDSBY'S Piles Specific.

AN INTERNAL REMEDY: A CERTAIN AND RADICAL CURE: Whether Internal, External, Bleeding or Blind.

Has made radical cures in every case of the above mentioned complaints, as can be proved by personal reference, and several thousand certificates from all parts of the country.

The Specific is an internal remedy, has a gentle action on the bowels, is pleasant to take, and perfectly harmless in the most delicate cases, male or female. Females before and after confinement are often troubled with constipation of the bowels, or costiveness, as well as the piles. In all such cases the Specific can be taken with perfect safety, and is a certain remedy.

PURGATIVES NOT NECESSARY. Soaverse in their effects, and so liable to injure when used (being in most cases the cause of piles when taken during fever and ague and many other diseases,) as thus done away, with, as costiveness is easily removed by using this medicine, and the bowels restored to a vigorous and healthy action without leaving any perceptible effect on the system.

PILES OF SEVEN YEAR'S STANDING CURED. DEAR DOCTORS.—I have been a perfect victim to the complaint called Piles, contracted in the West Indies in 1838, and during a term of seven years have suffered beyond anything that could be conceived of—loss of appetite, food tasteless, want of rest, burning pain, weakness in the kidneys, and a total want of strength. So decidedly opposed to anything bearing a resemblance to quackery, that I have abstained from any inward or outward application. From the recommendation of our mutual friend Potter, No. 4 Hanover st., I was induced to give your medicine a fair trial, and to those who may be similarly afflicted I give you leave to show this, with my name attached, having been, I firmly believe, entirely cured of one of the most confirmed cases of Piles that any poor creature was troubled with. Make whatever use you think proper of this testimonial of your invaluable medicine, designated by you as Dr. Ingoldsbys's Piles Specific, and accept of my best assurances for your future success.

With regard your obedient servant, W. H. JONES, Auctioneer, 23 Pine st. Reference can be given to some of our most eminent Physicians.

50,000 Victims every year FALL A PREY TO CONSUMPTION, ASTHMA AND RAL-SING BLOOD, HECTIC FEVER AND NIGHT SWEATS.

Mrs. Adams, 126th street, Harlem, suffered a year with a cough, pain in the chest, night sweats, and all the aggravated symptoms of Consumption; nothing relieved her till she tried Sherman's Balsam—half a bottle cured her.

ULCERATED LUNGS AND LIVER. Mr. E. T. Lawrence, Jackson street, Brooklyn, after years of suffering, and treated by various physicians, was pronounced incurable from ulcerated lungs and liver.

DYING, as was supposed, he tried the Balsam; its effects were most miraculous; two bottles cured him.

PLEURISY AND CONSUMPTION. Mrs. Baggas, residing at 88 Sherif street, 70 years old, has been subject to attacks of pleurisy and consumptive coughs for years. The Balsam has saved her from very great suffering.

ASTHMA AND CONSUMPTION. L. J. Beale, 89 Delaney-street gave it to his sister-in-law who had been an invalid for years from Asthma; to another considered as in consumption. It relieved them at once, so that they travelled several hundred miles.

SPITTING BLOOD. Is always alarming. It leads to the worst kind of Consumption, and unless arrested in time is generally fatal. Sherman's All-Healing Balsam is the best remedy it heals the wounded or ruptured blood vessels of the lungs, and thereby effects a permanent cure, while other remedies only stop the blood for some time. A few doses of this Balsam will satisfy the most skeptical that it is the medicine required.—It has been successful in many cases, and that too where they had run into a rapid decline, or, as more generally expressed, "HASTY CONSUMPTION." Young persons, or those of middle age, are more subject to these attacks than the aged.

Price 25 cents and \$1 per bottle. Sold by the following duly appointed Agents for Somerset county, Pa. J. J. & H. F. Schell, Somerset, Snyder & Zimmerman, Stoystown, Edmund Kiernan, Jenner & Roads, Phillippi & Kiernan, Roxbury, Chas. Krissinger, Berlin, P. & W. DR. SHERMAN'S TOOTH PASTE.—A premium Dentifrice, the best article known for cleaning and whitening the teeth, strengthening the gums, sweetening the breath.

SHERMAN'S POOR MAN'S PLASTER.—The best strengthening plaster in the world; a sovereign remedy for pains or weakness in the back, loins, sides, breast, &c. &c. One million a year will not supply the demand. Warranted the best and cheapest. One that will prove the fact.
