PROSPECTUS OF THE COTTER FARM OIL COMPANY, OF PHILADELPHIA. CAPITAL STOCK, \$1,000,000. DIVIDED INTO 200,000 SHARES AT \$5 PER SHARE. Subscription Price to a Limited Number of Shares, \$2.50 Per Share. STOCK ISSUED FULL PAID. \$2,500 CASH RECEIVED AS WORKING CAPITAL. ISRAHIL LUKENS, M. D. WILLIAM M. STRAWT. WILLIAM D. SMITH. B. J. HARRISON, M. D.

THE PROPERTY OF THE COMPANY CONSISTS OF THE FOLLOWING: I. The fee simple of 1560 acres, known as the 'Cotter Farm,' on Big Broken-Straw creek, and on the line of the Philadelphia and Erie Railroad, one and a half miles west of Garland, Pittsford township, Warren county, Pennsylvania. This land is situated in one of the best localities in the neighborhood. It takes in the whole of the valley for over a mile in extent, facing a frontage on the Broken-Straw creek of over two miles. It also extends northward over the bluff, and takes in a considerable portion of the Blue Eye Run, a tributary of the Broken-Straw. Broken-Straw creek takes its rise from the east side of the bluff, which gives rise to the celebrated Oil Creek, on the west side. It is navigable from the Cotter Farm to the Allegheny river, a distance of ten miles, and thus affords facilities for transportation by boat to Pittsburgh. As mentioned before, the Philadelphia and Erie Railroad runs directly through the property on the bank of the creek, and thus it is brought in direct communication with the great oil markets, New York and Philadelphia. The bluffs rise from 400 to 600 feet, in some places very abruptly. There is a dam built across the creek about midway on the property, giving immense water-power to one of the finest and best constructed saw mills in the country. This mill at present saws 6000 feet of lumber per day with one single upright saw.

II. The fee simple of 1167 acres on the North Salmon creek, Tionesta township, Forest county, Pa., just over the border of Venango county. This land, as in the case of the Cotter Farm, takes in the valley as well as the bluffs on both sides, and is traversed by numerous ravines and little streams running into the Salmon creek. The evidences of oil cannot be exceeded—in fact, are so marked, and the formation of the land is so favorable to the existence of oil, that every oil man visiting the region says: 'Salmon creek is bound to equal the world renowned Oil Creek,' and the speculative public have shown their faith in it by buying up every acre of it. The development of this property is rapidly progressing. A well is being sunk half a mile from the property, two others two miles from it, and the Tionesta river is lined with them on each side for miles—on at the mouth of Salmon creek, now yielding oil, and all of them giving such indications while drilling that they have become known to the Company. The development of this property is rapidly progressing. A well is being sunk half a mile from the property, two others two miles from it, and the Tionesta river is lined with them on each side for miles—on at the mouth of Salmon creek, now yielding oil, and all of them giving such indications while drilling that they have become known to the Company. PROSPECTUS OF THE MCINTOCK RESERVE OIL COMPANY. CAPITAL STOCK, \$1,000,000. 100,000 SHARES, - - - - \$10 EACH. SUBSCRIPTION PRICE, \$5 PER SHARE. JAMES McINTOCK. SECRETARY AND TREASURY, J. I. REIBOTTE.

The property of this Company is all in Venango county, and is believed to be as good oil territory as any in the country. No. 1. One-fourth royalty interest in three acres one hundred and five perches of land, being the McIntock Reserve, situated at the junction of Oil Creek with Cherry Run. The lease (20 years) are held by proprietary and the specific user. There is a flowing well, struck about the 20th of October, and is now yielding 140 barrels per day, with a good prospect of a large increase. There is also a pumping well, yielding over 80 barrels, increasing daily, and it is confidently expected will become a large flowing well. Three other wells are nearly completed, one 25 feet deep, in the third sand rock, one 450 feet deep; one 225 feet deep, just through the third sand rock, and ready for the rig, which is on the ground, and another just commenced, in all of which oil has already been found, and will be, it is supposed, in a few weeks, largely productive, making six wells completed and in active process of completion. On this territory there is room for twelve or sixteen wells, and from the character of the leases, will be developed rapidly.

No. 2. One-half acre of ground in the center of the above tract, reserved originally by the owner as his residence, and on which it stands. This is a fee simple, but subject to one-fourth of the oil produced from it. The best judge pronounced this half acre to be as good oil territory as any on the creek, and which the Company expect to develop as rapidly as possible for the benefit of the stockholders.
