ett in the steamer Gambia for England. -The Empress Charlotte is still in Yucatan, endeavoring, by every means in her power, to secure adherents to her husband's government. -Fitz John Porter is among the list of passen

gers by the Jana, for Liverpool. He goes abroad on private business. -Mr. Southern ("Dundreary") appears in print in a London paper, to deny the statement that he ever belonged to a spiritual circle, or offi-ciated as a medium, while in this country.

-Ex-Attorney-General Black, of Mr. Bu-chanan's Cabinet, has formed a law partnership in Washington with Mr. Lamon, formerly law partner with Mr. Lincoln.

-Major-General Weitzel has resigned his position in the United States Army, and is soon expected to reioin his family in Cincinnati. So ways the Gasette of that city.

-Mr. Laffin, of Chicago, formerly of powder notoriety, is the inventor of a new process which saves nearly all the gold and silver in the ores. It consists in pulverizing, as by present methods, and passing thus reduced turough melted lead. It is said that ninety-five per cent of the geld and silver contained can be saved. -"Head Centre" Stephens is said not to be in Peris at all now, but in Scotland. It is reported

that he was 'lurking' so newhere along the banks of the Clyde, and that one of Her Majesty's cruisers was looking for him. -The Hon, Gerritt Smith has instituted proceedings for libel against the Chicago Tribune in the United States Circuit Court, at that city

placing the damages at \$50,000. The libel is said to consist of a statement in that paper that be feigned insanity in order to evade any responsibility in the John Brown Harper's Ferry raid up

-Dr. William A. Hemmond, late Surgeon-General of the United States, has gone to Europe in charge of a grandson of the late John Jacob Astor; and a gossiping correspondent says that he receives for his services \$10,000 in gold for six months, all travelling and subsistence expenses hberally paid, and \$3000 for each month occupied beyond the six.

-Gottschalk, at latest accounts was giving musical entertainments at Lima and Callao. At his second concert in Lima the crowd was so great that the building gave signs of not being able to sustain the weight, and at an examina tion the next day the structure was found to been so much weakened as to be dangerous for a third attempt. Consequently it was closed by Government order, and the other concerts were so arranged as to be given in another hall.

-Rev. Dr. T. J. Conant delivered a discourse last Sunday, at Onicago, upon the necessity and advantages of a new version of the English Scriptures. Dr. Conant is well known as having not long since issued an able revision of the book of Job, a work as highly interesting to scholars as it is edilying to Christians, and is at present Chairman of the Committee of Reision of the publications of the American bible

Union. -Not long since, a young man in Havana-a negro slave-was discovered to possess great talent, and, in fact, to be a poet. Some of this uninstructed slave's poetry is very fine. His name is Ambrosia Echemendia, and he bids fair e rival the famous colored bard of Matauzas, Placido. A subscription was immediately started, and the owner contributed with nearly half the marketable value of the poet. The rest was soon made up, and the poet is free,

-Two youths in Paris were admirers of an actress at one of the Boulevard theatres. The other night, as ill luck would have it, they were both at the thearre, and both flung one franc's worth of flowers to the object of their affections. The young lady took up only one of the bouquets, whereupon the slighted swain called out the favored one, and ran him through the body with a rapier. The wounded man is not expected to

-A girl was sent to the Reform School at Lansing, Michigan, dressed in boy's clother, and bearing the name of Joseph Howard. Her sex was discovered immediately, and she was sent back to jail. She says that she is nineteen years old, that her parents reside in Cleveland, Ohio, and are respectable and pious people. She says she has worn boy's clothing about seven years and her sex has never before been discovered. Her appearance is so boyish that she remained in jail several weeks, was brought into Court, and sentenced, and taken to Lausing by the offi-

cers, without being suspected. -The Raleigh Register says that Major Hannibal Gee is to be tried in that city by a military court on the charge of maltreating Union prisoners, and that the following named war correspondents are to be summoned as witnesses for the Government:--Junius H. Browne, New York Tribune; S. H. Colburn, New York World: George E. Davis, Cincinnati Gazette; B. C. Truman, New York Times; J. A Ware, Washington Chronicle; Theodore R. Davis, Harper's Weekly; J. T. Forbes, Frank Lesie's Newspaper; Edward Crapsey, Phi-ladelphia Inquirer; Robert S. Davis, L. W. Wallazz, J. H. Hendricks, New York Herald; and others. One of the persons named is in Utah; another in Europe; another in Mexico; and a fourth in the oil regions of Canada. Who will

serve the summonses for these?

-General Early writes from Havana (December 18) to a city journal, to deny that he is an applicant for Executive elemency. The General adds:-"I have neither made nor authorized such application, and would not accept a pardon from the President of the United States if gratuitously tendered me, without conditions or re-strictions of any kind. I have nothing to regret in the course pursued by me during the war, except that my services were not of more avail to the cause for which I fought; and my faith in the just ce of that cause is not at all shaken by result. I have not given a parole or in curred any obligation to the authorities of the United States, and I utterly disclaim all alle giance to, or dependence upon, the Government of that country. I am a voluntary exile from my own country, because I am not willing to submit to the foreign yoke imposed upon it. All declarations attributed to me which are in consistent with the above statement, are en-tirely without foundation, and I hope there will be no further misapprehensions as to my position."

# Oil Items.

-Petroleum oil product last year was 2,180,000 barrels. -The Oil City and Pithole Railroad will be finished to Oil City by the first of February. Thomas B. Porteous, Esq , has been elected President of the Company.

-A new well on Cherry Run, owned by S. Baldwin, Esq., of Rousville, is now producing over twenty-five barrels per day, and increasing very fast.

-The litigation which has been in progress respecting the sale of the Thomas Holmden farm, upon Pithole, by Prather & Duncan, has been settled by a compromise between the parties. -Pine creek is looking up. The "Red Well"

of the Walter Scott Company, produced within forty-eight hours, last week, by actual measurement, one hundred and eight barrels. Allowing ight barrels for shrinkage, it is safe to put it down a fifty barrel well."

-The Reno Times' reporter, who last week visited the producing wells of the several locali-ties named, gives the following as the amounts

of daily production:-			arr-
