The German Arctic Expedition.

From the London Sun, December 13 At the monthly meeting of the Geographical Association, which has just taken place at Berlin, Captain Werner delivered a long address, in which he detailed the plan drawn up by Dr. Petermann for the proposed expellition, and stated his own views upon the probability of its success. It is intended to begin the voyage the commencement of spring, and to take Ham-merfest—a harber which never freezes—as the starting point of the expedition. Thence Spitz-bergen will be visited, with a view of examining the coal beds used by the Dutch for upwards of a century, where, should the coal be found really

in quantity, a depot might be set up.

The apparently very extensive fishing-grounds to the south side of the island will also be ex-Connected herewith will be an explo ration of Eales Land. Iving to the east of Spitz-bergen, which has probably been often enough visited by walrus hunters, but never by a scien-tific expedition, and of which no one yet can say whether it is an island, the commen of an archipelago, or even of a continent. The expedition will then stretch away to the west, endeavoring to penetrate as far as possible towards the north, in order to discover whether the North Pole is immediately surrounded by a sea free of ice, and will next pursue its course the east coast of Greenland, whence it will also feel its way as far north as can be accom-plished. Turning then to the east, the expedi-tion will cross the Siberian sea, and, if favored by fortune, return through the Arctic Ocean.

Whether, and to what extent, the entire plan may be accomplished, depends naturally upon circumstances, but Captain Werner believed himself able to assure his hearers that no efforts would be wanting on the part of the leader and participators in the enterprise to insure success The speaker hoped the Prussian Government would give one of its war vessels for the expedi tion, and that in other respects the nation gene would bestow upon it as much support as the English had repeatedly done with the Arctic expeditions fitted out by their Government. Should the Prussian government decline to give a ship for the purpose, the next best plan would be to accept the offer of a Bremen house, which tendered two wooden transports lately disposed of by the American government. These would cost together about \$60,000. It would be advisable to equip two ships, provisioned for three years, in case of being frozen in.

The cost of purchase and equipment, provisioning, pay, and hire of crews, and all other expenses, Captain Werner estimates at 220,000 thalers (about £31,500), admitting this sum to leave a liberal margin for unforeseen outlay, The original plan is to accomplish the whole voyage within eight months, and it is only in case of being unexpectedly frozen in that a three years' sojourn in the Arctic regions is at all con-templated. As in the preliminary reconnoissance voyage in August last, when the engines broke down before the vessel was out of the Elbe, numbers of offers had been received from experienced, tried, and scientifically educated seamen to take part in the empedition. A large number of young persons had also applied from the navigation schools, so that the crews of two ships could consist almost entirely of picked volunteers, all scientifically educated me senting an altogether novel feature in the ex-

MATTERS OVER THE RIVER.

CAPTURED AT LAST .- Theodore McGurk was yesterday atternoon brought to Camden and committed for trial, on the charge of having per-petrated several robberies and incendiarisms here, within a few months past. He was arrested on Monday morning during the fire at Sixth and Chesnut streets. His trial will take place at the next session of the Camden County Court, which commences on Tuesday next, the 9th instant,

TEMPERANCE.-Yesterday afternoon the friends of the cause of temperance in Camden city and county held a meeting in the Odd Fellows' Hall for the purpose of making arrangements for perfecting the organization of a new society auxiliary to the State Society. It was well attended, and the cause is said to be in a prosperous condition.

GOOD APPOINTMENT.-The Camden and Philadelphia Steamboat Ferry Company have appointed Wesley P. Murray, Esq., Captain of appointed Wesley P. Murray, Esq., Captain of their new night boat. Mr. Murray is an experienced and suitable person for the position.

CITY INTELLIGENCE [For Additional City Intelligence see Third Page.]

WHAT IT TAKES TO FEED A CITY .- In the year just closed the sale of beeves decreased 3400 from the previous year; of cows, 1380; of hogs, 4100-total, 8880. Sheep, which produce the cheapest of the meats, have alone increased 11,000, but not sufficient in the weight to make up for the loss of the larger animals. The deficiency has been repaired by the flesh of poultrycheaper frequently than meats—by oysters, fish, and vegetables. The amount paid for the meats alone in a city like ours is enormous. For in-

stance, at average prices:—
Beeves at \$100.....\$9,645,000 Cows at \$75. 490.500 Hogs at \$25. 3 407.500 Sheep at \$7. 2.142.000 \$15,685,000

We add to these figures the fact that it takes ten thousand barrels of flour each week to supply our people with the staff of life, worth say \$10 on the average for wheat and rye, equal to \$100,000 per week, or \$5,200,000 for the year. Making our total for bread and meat in a year. without taking into consideration our poultry, fish, vegetables, and other matters which are eaten, \$20,885,000. To feed a large city costs a good deal of money, as these figures show.

LARCENY OF CRANBERRIES .- This morning a colored man, named Alexander Young, was arraigned before Alderman Fitch, charged with the larceny of a barrel of cranberries. Young and his brother offered the cranberries for sale to a grocer at Hutchinson and Poplar streets. The head was in the barrel, and they supposed it contained crackers. The grocer no wanting crackers, refused to purchase. A police officer heard of the affair, and went to Young's wanting crackers, refused to purchase. house and arrested him. The fact that the defendant did not know what the barrel contained, establishes the belief that the property is stolen. He was accordingly committed for trial by Alderman Fitch. The cranberries await an owner at the Twentieth Ward Station House.

A WORTHY ENTERPRISE .- The Philadelphia Freie Presse comes to us this morning en-larged and in quarto form, only a little smaller than The Evening Telegraph. We are pleased to note this improvement, and doubt not that it will be appreciated by the loyal Germans of this vicinity. We also notice that a translation of Dickens' "Our Mutual Friend" is being published in this newspaper, a work undertaken by Messrs. Paul Jagode and F. T. Loes. We sincerely wish our contemporary every success. Vive la Freie

DEATH OF EX-ALDERMAN TAYLOR .-Samuel Taylor, Esq., formerly an alderman and school director in the old District of Northern Liberties, and father of Major Taylor, of Major-General Hooker's staff, died at his residence at an early hour this morning.

The deceased was well and favorably known throughout the city, and in public and private life bore the character of an honest and estima

THE LATE FIRE.-The ruins of the late tire at Sixth and Chesnut streets were still giving off a dense smoke this morning. Last evening the wind caused the smouldering embers ignite, and the flames had to be extinguished by a stream of water from a hose carriage. A por tion of the walls are in a very unsafe condition, and will be removed some time to-day.

CAVED IN .- The culvert at Sixth Poplar streets caved in yesterday morning, leav-ing a hole in the middle of the street larg enough to contain a horse and cart.

THE BREWERS' ASSOCIATION OF THE | BRIEF ENJOYMENT !-STATE OF PENNSYLVANIA. - The annual meeting of this important association was held last evenng, with an attendance comprising brewers from every section of the State, some seventy

Frederick Collins, Esq., in the absence of the President, filled the chair, Wilson Abbott, Esq., Secretary. The body re-elected as officers of the ensuing year the gentlemen atready holding the respective positions, as thus:-

President—Frederick Gaul, Secretary and Treasurer—Wilson Abbott, Executive Committee — Frederick Collins,

Robert Gray, Frederick Lauer, Very important business was introduced to the meeting, but, owing to the shortness of the time prearranged for the sitting, it was laid over for consideration at a special meeting to be held next week at Wetherill House, Sansom street, near Sixth, on Tuesday evening next, at six o'clock.

Last evening the association, with numerous invited guests, partook of their annual banquet at Augustine's, in Walnut street. Among the invited guests who were present were Messrs. Kelley and Randall, Mayor McMichael, Hon. Alex. G. Cattell, and other prominent citizens and merchants.

In the absence of the President Mr. Collins held the post of honor, Mr. Frederick Lauer acting as Vice

The toasts were as follows:-

First. The President of the United States; he presides over the political interests of \$5,000,000 of free men, with a whole boundless continent for their inheritance. Without boast we may call the office the loffiest on earth, and the present incumbent one of the most intelligent and fearless of rulers.

Second, The Union—Her enemies have not been able to prevail against her. Those who sought her destruction are themselves destroyed. She mands

for th the proud indestructible monument of human Third, The National Congress and United States

Fifth, The German Association of Brewers, Sixth. The Brewers' European Commission. Seventh. "Malt Liquor," a song written for the occasion, and sung by W. R. Angier.

The following, offered by Wilson Abbott, Esq. the Secretary of the Association, was drunk in silence, standing:-

"To the memory of William Penn, the Quaker founder of the State of Pennsylvania; the pioneer brewer in the State of Pennsylvania, he proved nimself the benefactor of its people.'

A number of other volunteer toasts were offered, and numerous songs were also sung. The party separated at a late hour, having spent a delightful evening.

GRANTING LICENCES .- This morning Mayor McMichael granted a number of licenses to pawnbrokers and to proprietors of places o amusement. Dealers in petroleum should re-member that, under the act of Assembly, they are required to renew their licenses the first of the year. The following are the names of the pawnbrokers who obtained licenses this mornng:—A. M. Marcus, Joseph J. Harvey, John Daly. Isaac Nathans, Robert Dougherty, A. J. Baker, William Hamell, A. J. McGarry, Henry A. Jones, Kendric & Brotner, Isaac Sailer, Thos. H. Hellings, D. Tobias, Donnelly & Brother, John Bartley, Homell & Bidwell, John C. Cox,

The following are the public halls and place f amusement licensed:—Music 1 Fund Hall Paul's Casino, Star Hall, Metropolitan Hall Northern Military Hall, Italian Opera, Barciay Street Hall, Colored Masonic Hall, Robert Heller, magician at Concert Hall.

BIGAMY.-John Koon, a ias John Thomas alias David Street, was arraigned before Alderman Thomas, of Frankford, yesterday, charged with having two more wives than the law sancions. The charge of bigamy was preferred by Koch's first wife, who was present at the nearing, and was most bitter against her unfaithful lord and master. The second wife did not appear. The third and last wife was present, but in spite of all of Koon's faults clung to him with the true tenderness of woman. He was committed for The prisoner was locked up at the Station House until morning, when he was sent down in the van. His last wife remained in the Station House with him, and this morning begged and coaxed that she might share his imprisonment. Her request, of course, was not granted.

colored men, named John Novel and George Frederick, were arrested between 9 and 10 o'clock last night going down Fifth street with a bag in their possession. Their movements attracted the attention of the police, who overhauled the two men. The bag was found to contain five sheets and a table-cloth. The prisoners, upon being closely examined, admitted that they had got the property at the fire at Sixth and Chesnut streets. They were committed by Alderman Tittermary.

FAIR IN AID OF A COLORED CHURCH .- A fair is now in progress at Town Hall, Germantown, the proceeds of which are for the benefit of the African Methodist Episcopal Church in Among the articles on exhibition entre street. is a handsome silver pitcher, to be awarded to that clergyman residing in Germantown who shall receive the highest number of votes. A magnificent silver fire-horn is also being

ACCIDENT TO A COUNCILMAN,-Joseph Hill, Esq., member elect of Common Council from the Iwenty-sixth Ward, met with a serious accident in New York. While crossing Cortland street, to take the train for this city, run over by a stage and much hurt. He has reached home, but his injuries are very severe, and he will not be in a condition to take his seat in the new Council for an indefinite period.

PRESENTATION .- A handsome silver teaservice, of elegant design and beautiful work-manship, was presented to Rev. D. L. Gear, of the First Congregational Church, Monday evening. The presentation speech on behalt of the congregation was made by Mr. Charles H. Owens, Superintendent of the Sabbath School.

FALLING OF A WALL.-Yesterday, while some workmen were engaged in removing the walls of an old ice house located on the west ide of the Schuylkill, above the Twenty-fourth Ward Water Works, and which was destroyed by fire some time ago, a portion of the wall fell burying one of the laborers beneath the rains.

FREE FIGHT.-About 10 o'clock last night a free fight occurred in the lager beer saloon of Mr. Joseph Gans, at Second and Poptar streets. The police interiered and arrested Joseph, who was held in the sum of \$800 bail by Alderman foland to answer the charge of keeping a disor-

NOT A MEMBER.-Toe individual arrested for stealing at the great fire at Sixth and Chesnut streets, yesterday, was not a member of the Moyamensing Hose Company, although he had possession of a hat such as are worn by the members of that organization.

THE CONTEST FOR THE FIRE HORN.-The following is the vote for the fire horn at St. Philip's Fair, no to last evening, inclusive:-Franklin, 2114; Shiffler, 1632; Hope Engine, 34; Weccacoe, 1545; Moyamensing, 33.

LARCENY .- James Carney has been held by Alderman Hurley to answer the larceny of William Logue, charged with a similar thert, was held for trial by Alderman Beitler.

BOOKS are sold at the Gift-Book Store, No. 628 Chesnut sircet, at regular prices, and a gift worth from 50 cts, to \$100 handed to each purchaser.

FOR THE various diseases induced by the present unreasonable weather, Hasheesh Caudy offers the most speedy remedy. For sale by the druggists.

TRUESES, BRACES, and Mechanical Remedies adjusted with professional skill by C. H. Needles, corner of Twelfth and Race streets. Ladios' entrance on Twelfth street, first door below Race.

How completely, fells w-sinner, Has the zest of New 1 ear's dinner

Now fled away!

Some future day.

And so will seem sleigh-ri, le and ball, And Mollie's smiles and bia shes all,

You'll find your gain is fust a nought,

When you such joys recall;

But lasting satisfaction's bought

In goods from Tower Hall!

GENTS', YOUTHS', AND BOYS' CLOTHING,

Prices greatly reduced to suit the times.

Goods sold at lower prices than for several years.

A COLD IS EASIEY TAKEN in this changeable

climate of ours, and without due care another will

be contracted on top of it, one cold thus running

into another, until the accompanying cough be-

comes settled and confirmed, straining and racking

the lungs, and ultimately stimulating the produc-

tion of tubercles. A majority of existing cases of

clearly defined pulmonary diseases may thus be

accounted for, and thousands are now carelessly

allowing themselves to drift through the preliminary

symptoms, under the fatal delusion that they are

troubled with nothing but a cold. How obvious it

is then that a cold should be taken care of from its

incipiency, and no effort spared to rid the system of

its effects! A curative, readily atlainable, and of

established reputation, can be found in Jayne's

Expectorant, and by its use all fears of dangerous

results will soon be dissipated. Where the danger

is so imminent, why not resort at once to the

standard remedy? Prepared only by Dr. D. Jayne

THE WINTER'S SNOWS .- AN ODE TO THE NEW

And the tempest shrouds, With its sulien clouds,

Where the flowerets day,

In the summer gay, Were gemmed in the soft bright rain.

And the wreaths and ritts

When wrapped in warm clothes, From our h ad to our toes, From the store of Charles Stokes & Co.

rapidly is of a style superior to anything hereto-tolore offered in this market.

THE VARYING TEMPERATURE of the season is

rapidly producing Colds, Coughs, and Pulmonary

Affections of all kinds. Persons with weak lungs

should now be especially careful; and what may

seem triffing Coughs and Colds ought to have imme

diate attention. The careless indifference which

waits for "a cold to go as it came," in many cases

results in laying the seeds of Consumption. For such

neglect of one's health there is no excuse, as Dr. D.

Jayne's Expectorant can be readily procured, and

On the wintry snow!

The arch of the pleasant sky.

It talls on the hill and plain

How scit and white,

Like a mantle light,

The gladsome child,

Looks up in the frowning sky, And the auge snow drifts,

He hails with a gleaming eye.

O, the stirring sight Is the tempest white

Is the tempest white.
When the winds of winter blow!

With its laughter wild

When the north winds blow On their pinions strong and high:

GLORIOUS RESULTS.

DR. M. J. GALLOWAY, Electrical Physician, formerly the partner of PROFESSOR C. H. BOLLES, after an absence of a year and a half from the city, during which time he has been engaged with PROFESSOR BOLLES, his father-in-law, in investigaling more rully the sublime subject of Electricity as the GREAT CURATIVE AGENT, has resumed his successful practice at No. 142 South EIGHTH Street. where he is curing, with unparalleled success the worst forms or scute and chronic diseases In our many scientific experiments with the electric. Galvanic, Electro-Magnetic, and pure Magnetic Currents, and their numerous modifications on the bodies of various animals for the purpose of ascertaining with minute accuracy the direct and indirect fafuence of each on the organization we have demonstrated that Electricity is the vital element-that it can be directed to any organ or part of the body, and even after the vital functions seem paralyzed, possess the power of arousing the dormant energies equalizing the circulation, and restoring the system to aself-sustaining healthy condition.

The most satisfactory results follow our treatment. In some instances the disease of years' standing yields readily at the first touch of the electric element, while n others it requires a more protracted treatment. One very important feature of our treatment is that no time is lost in experimenting with disease. By means

of an electrical test, an accurate diagnosis is given at

once, determining the locality and character of the disease, and indicating the treatment to be pursued. DR. P. SHEDD, OF NEW YORK CITY, a scientific gentleman of ability, is associated with Dr. Galloway in the practice. Dr. Shedd was a student of Professor C. H. Bolles, with many other eminent medical men in the city of Rochester. N. Y., about ten years ago, and after that a partner in the city of Buffalo, and since that time has given his whole attention to the curing of disease by Electricity in Its various forms and modifications, in accordance with the great and sublime doctrines of Professor Bolles, who has brought his discovery into public favor in all the principal cities of America, among medical men and Electricians. The skill and experience, therefore, of Dr.

to the confidence of the public and afflicted. Mrs. C. H. BOLLES, the oldest and most successful female Electrician in the country, has charge of the Female Department. Our treatment is eminently successful in all FEMALE DISEASES.

M. J. Galloway and P. Shedd, M. D., commend them

N. B .- Professor BOLLES, my tather-in law, has no successor in this city, although we and lengthy advertisements in the public press of this city during the past year from an individual who has had the audacity to style himself "successor to Professor Bolles." The same individual publishes along list of patients as

reference, giving the public to understand that they were cured by him, when in ract every one or them was treated by Professor Bolles and myself-with many thousand others. Many of the parties he refers to as having been treated by him, HE IN FACT, HAS NEVERISEEN, All such misrepresentations are calculated to decree the public, especially the afflicted portion. Those given up as incurable are invited to call.

MEDICAL.

ELECTRICAL DISCOVERIES MEDICAL ELECTRICITY

WONDERFUL SCIENTIFIC DISCOVERY DR. S. W. BECKWITH'S ELECTRICAL INSTITUTE

No. 1220 WALNUT Street. For the Treatment of Acute and Chronic

Electrical investigation has proved that the human bedy acts on the principle or the galvanic battery. The brein, nucous and serous membranes, the sking tissues, and fluids constitute the negative and positive forces. Every action, whether mental or physical, is the result of these antagonistic forces. Direction, respiration, circulation, secretion, and exerction are due solely to Electrical influence. There is a polar action established throughout the norvous system which connects with every part of the body, establishing and preserving a proper balance of the

a polar action established throughout the morvous a polar action established throughout the morvous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element, which constitutes health, and adisturbance of which causes disease. There are strictly but two conditions of disease—one of inflammation, or positive; the other weak, debilitated, negative; and as falectricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper healthy action.

We cannot wish to convey the impression that we can all diseases in all conditions. We cannot cure consumption after the lungs are all destroyed; yet we do assert, and are prepared to practically demonstrate, that hundreds of cases of almost every form of chronic diseases, pronounced incurable, by the being dealy current some of them in an incredibly short time, by our Electrical treatment. Its great superiority over other practice in the cure of disease is also attested in the fact that, within the past five years, over fourteen thousand patients have been treated at this office, suffering from almost every form and condition of disease common to humanity, and in nearly all cases a benefit or periect cure has been affected. Palsy, deafness, bindness, rheumatism, dyspepsia, cancer, and all the old knotty diseases that are a physician's curse, as it proves big inability to eradicate, are by our scientific method comparatively easy of one. Specimens of tumors of large growth extracted by means of Electricity alone, without pain, without the use of the knife, ligatures, or any other means, may be seen at our office by those interested. Therefore, with these racts to prove our theory and treatment of disease, we are willing to undertake any, of the following diseases, with every hope and prospect of success,

FACTS to prove our theory and treatment of disease, we are walling to undertake any, of the following diseases, with every hope and prospect of success, with every hope and prospect of success, with every many others not here enumerated:—

1. Diseases of the Brain and Nervous System.— Epilepsy, Chorea or St. Vitus' Dance, Paralysis (Hemplegia), Neuralgia, Hysteria, Nervousness, Palpitation of the Heart, Lockjaw, etc.

2. Organs and Tissues connected with the Digestive system—Sore Throat, Dyspepsia, Diaerhosa, Dysentery, Obstinate Constipation, Hæmorrholdes or Files, Bilions, Fiatulent, and Painter's Colic, and all affections of the Liver and Spicon. all affections of the Liver and Spicen.

3. Respiratory Organs.—Catarrh, Cough, Influenza, Asthma (when not caused by organic discusse of the heart), Bronchilis, Picurasy, Peurodynia or Rheumatism of the Chest, Consumption in the early

stages.
4. Pibrous and Muscular System - Rheumatism, Gout, Lumbago, Stiff Neck, Spinai Curvature, Hip Diseases, Cancers, Tumors.
5. Urinary and Genital Organs.—Gravel, Diabetes, and Kidney Complaints, Impotence and Seminal Weakness. The latter complaints never fail to yield rapidly to this treatment
6. Diseases Peculiar to Pemales.—Uterus Complaints, involving a mai-position, as Prolapsus, Antroversion, Retroversion, Indammation, Ulceration, and various other affections of the Womb and Ovaries, Painful, Stippressed, Scanty, or Proluss Men-

and various other affections of the Womb and Ovaries, Painful, Suppressed, Scanty, or Profuse Mensireation, Leucorrhea.

TO LADIES we can recommend this treatment as
one of UNVARIED SUCCESS. Almost inhumorable cases have come under treatment at our office
who can testify to this fact. Mrs. BECKWITH has
catific charge of the Lacies' Department, and all
delicacy with be used towards those who entrust
themselves to her care. In female diseases as mentioned in the above jist, with others not mentioned,
she has had a large experience, and can confidently

she has had a sree experience, and can confidently promise the most gratifying results. TOTHE AFFLICTED —The treatment is mild and gentle, producing no shock or unpressant sensation whatever. Our professional intercourse with the afflicted will ever be characterized by perfect candor and honesty, and those whose companies are licura-ble, or do not admit of amelieration, will be frankly told so, and not accepted for treatment. It matters not what may be your complaint, or now long you treatment you may have been subjected to, or what disappointments you may have expenenced, if the system is not worn out—1: sufficient vitality remains for reaction—there is a fair prospect of recovery.

REFERENCES.—The diseased and all interested are referred to the following named goutlomen, who have been treated and witnessed our treatment on others at No. 1220 WALNIT Street:—
