A BASE-"BAWL MATC ON THE ICE.

Meeting of the Shad Interest at Harrisburg. An of Fish-all meeting of those interested in

the Damming of the Susquehanna by the Canal Company was held at Harrisburg this week, and was well represented by some Shad of the highest standing in the market and community.

The Chairman called the meeting to order in a neat speech, remarking, "What Shad-ows we are, and what 'shadders' we pursue" (immense applause), evidently alluding to the purpose of the shadders to catch the fish on the other side of the dam with a gill-net. The Chairman thought it high time to raise their voices at this crisis, as other Fin-ians had done (cries of good ! good!), and demand of the State Legislature that there should be no Dam obstructions put in the noble Susquehanna by any Company. No matter if the said Company was composed of the "big fish" (sensation) of the State, he would never extend the right fin of fellowship to any one engaged in such a scaly proceeding, (Great applause, during which the Chairman took his

Shad No. 2 rose to a point of order to ask whether they intended to use "shore," "sweep, or "gill" nets on the upper Susquehanna, and whether the Nett profits (applause) of the proposed Company were to be free from State tax. For his part he would think himself in Seine, to advocate any such measure (great cheering). He had seen enough fishing for patronage since he had been in Harrisburg, to convince him that nobody worked for the good of the public; on the contrary, when a member is approached on any subject of public utility and asked to give it his attention, and no fee accompanies the application, he gives them a cold shoulder, with the remark that he has "other fish to try."

A Voice-"Does he mean any of us?"

Shad No. 3-"Fellow Shad-bellies, I am as much impressed with the importance of this subject as any one can be, but why is it that we are left to fight against this Dam Company alone? are there no other fish interested? Where's Johnny Roach? the Catties, why are they not here? and the Rock family? if they don't attend to their and our interests it will be the Rock on which we'll split (cheers); and though Dr. Landis may have a rock to split Churches on, it takes a good one and a good many of them to split a Canal Company." (Cheers.)

Chairman-I hope members will not spend all of their time in talking about this thing, like the Legislature, else they may say of us as they do of them, that we are "periect shads." I propose that we teach this "scaly" Company that it is not all fish that comes to their net, but that we will kick against it continually and avoid their meshes. (Great cheering.)

Shad No. 4 thought it had better be ascertained when the Dam was going to be built, and then adjourn the Convention immediately, and get on the safe side of it before they committed themselvas to any particular line of action, and he would recommend getting into deep water, They might by that means do two things-induce the Company to get over their heads, and perhaps

sink-their capital or themselves. Shad No. 1 remarked that a greater set of "sackers" never got together than there was now in Harrisburg, and he was certain that no genteel Sucker of his acquaintance would have anything to do with them, and he would propose a meeting of all the big and little fish in the Susquehanna in Convention, and petition the Legislature against chartering a Company with any such Dam privileges, and promise, if our peti-

tion is respected, that we will establish "schools" dixongnout the whole district. As Water-falls are going out of tashion, the Company will never be popular or profitable. (Im-

mense cheering). The Chairman here arose and reminded the members that the time was up, the tide was about turning, and he would adjourn the Convention to take the tide at the young flood, for, as the poet says, "There is a tide in the affairs of men, which,) taken at the flood, leads on to fortone;" and if the present tide does not lead us that far, it will lead us above the town, where we may get something to drink, for he felt like a "fish out of water" in such dry company as he experienced there.

After singing an Ode to the female shad present, commencing "Roe! brothers, Roe!" the meeting adjourned up stream.

CHESNUT GROVE WHISKY. MERIT ALWAYS ITS OWN REWARD.

LIQUORS.

An article possessing Merit will always conquer preju dice, abuse, vilification, and aught that envy, hatred, or malice can impose upon it. CHESNUT CROVE WHISKY Is a strong evidence of the fact. Deerled by numbers for what—simply if its merits were known and appre-ciated—it could not tail to become popular—other taings less so in proportion. There is no stimulant giving evidense of so much purity as to produce certificates from such highly respectable parties as Messrs. Booth, Gar-ret, and Camao, of Philadelphia; L. E. Chilton, New

York; and Dr. A. L. Bayes, Boston. For Nervous Debility, and all diseases requiring a pure, mild stimulant, there is nothing like it. For sale by bottle, demljohn, or barrel, at No. 225 N. THIRD STREET.
