### OUR NEW YORK LETTER.

The Fenians-The Skating-Two Privateers-Curious Triais—Brokers in Trouble—Chans— The Collapse of the "Columbian"—Suing a Tea total Society-Strong Divorce Case Again, Etc. Special Correspondence of The Evening Telegraph. NEW YORK, January 24.

Skating is good again to-day. The snow does not materially interfere with travel.

But little progress has been made during the last few days in the grand tournay of the New York Chess Club-a fact partly to be attributed to the unusual inclemency of the weather, and partly to the indisposition of one or more of the combatants,

Another game, however, was contested on Monday afternoon, in the exciting affair between Captain McKenzie and Mr. Stanley, which, after a little less than three hours' hard fighting, terminated in another "draw." Play between these gentlemen will be resumed this day (Wednesday) at the Club Rooms, University Bullding, at the usual hour (2 P. M.); the state of the score now being:-McKenzie, 2; Stanley, 0; drawn games, 2. According to the terms of the match, a single further success on the part of the Captain will constitute him the victor, while Mr. Stanley has his entire three games still to win.

Wall street is terribly exercised over the collapse of the Columbian Marine Insurance Company. The directors will be able to tell to-morrow whether they can resume business or not. The company's buildings were thronged yester-day by the stockholders, many of whom, on ascertaining the causes of the alleged faiture, pro posed to stand an assessment of fifty per cent, in order that business might be resumed by the directors. A meeting of the latter will take place to-day, at which it is expected some satisfactory arrangement may be entered into. Tosion of many is that the affairs of the company

"fixed up." Cattle have permanently declined, at least so it appears, and if butchers do not take the hint and lower the retail prices, customers may as well remind them of the fact. With large receipts for several weeks past, the bullocks could not all be sold, though offered fully 2c, per lb, lower than a forinight ago. Sheep, too, are lower, and very plenty, both live and dead. Hogs about hold their own, with light receipts of

live, but plenty of dressed.
Yesterday morning United States Marshal Murray, acting upon a monition from United States District Attorney Dickinson, proceeded on board the propeller Meteor, a steamer of fourteen hundred tons burden, and seized the vessel it being charged by an amidavit of Mr. Podestat, an attache of the Spanish Legation, that the vessel was fitted out as a Chilian privateer, destined to destroy Spanish commerce on the high seas. The Meteor, which was to have sailed for Panama yesterday morning, is still in charge of a deputy marshal.

A rumor prevailed in the city yesterday that a Fenian privateer had left this port to prey on British commerce. It was occasioned by sup-posed mysterious movements of the steamship hiba, which cleared at our Custom House on Saturday last for Baltimore, but did not sail till yesterday.

A serious affray occurred on board the steamthip Manhatian, at pier No. 3 North river, yesterday afternoon, between the firemen and coalpassers and the second mate, Henry Curwin. The latter being hard pressed, drew a revolver, and discharged it at the crowd, the shot taking effect in the head of Michael Haley, a fireman producing a probably fatal wound. arrested, and the wounded map was taken to the City Hospital, where the surgeon gave it as his opinion that Haley could not live through the

Evidence was taken yesterday before United States Commissioner Stillwell on behalf of Captain Peabody, of the ship Neptune, who is charged with cruel treatment of seamen on board that vessel. The testimony went to show that many of the crew were inefficient and incapable of working the vessel, and but for the efforts of the captain and sailors and passengers, would never have been brought into port with safety. The case is closed on both sides, and now awaits

the Commissioner's decision.

Commissioner Betts yesterday heard a case in which a man named George Bruno was charged with having in his possession forged fifty cent fractional currency, representing seven or eight me evidenc taken, the further hearing was adjourned. The ex parts business of the Supreme Court at

Chambers has been unusually large during the present month, thus tar. Mr. Justice Suther-land, who sits at Chambers this term, finds it impossible, spite of the diligence, industry, and zeal for which he is noted, to dispose of all the work in hand, in time to take up the Chambers Court calendar at the usual period.

This is owing to the vast increase in the num ber of applications for orders of arrest, warrants of attachment, orders to show cause why injunctions should not be granted, etc. This branch of our courts is getting to be so overwhelmed with business of an important nature, as to positively demand the attendance of two Justices at Chambers each month.

Two men named John Norton and Michael Kerwin were arrested at an early hour vesterday morning by Officer Wilson, of the Eighteenth Precinct, having been discovered in the act of maltreating and attempting to rob Gerret Woutman. The prisoners had ridden up town with their victim in a Third avenue car, and on his alighting at Twenty-fifth street to go home, they followed and attacked him, taking from him a pair of shoes, and threatening to club him if he gave an alarm. Both prisoners were committed for trial in default of \$2500 bail.

A case of some interest came up yesterday on a motion to postpone a trial in the Court of Common Pleas, before Daly, first Judge. It is entitled, The Father Matthew Total Abstinance Benevolent Society against Launcel Murphy and several others. When the case comes on for trial it will probably elicit considerable attention by reason of the number of parties connected with the suit, the legal questions mvolved, and the heavy array of counsel on either side. The trial is set down for the first

day of the next February term.

The trial of Saivator, alias Pellicer, for the murder of Senor Otero, in Brooklyn, was cou tinued yesterday, and the prosecution rested the case. Counsel for the defense made his opening address and the court adjourned to 10 A.M. to-day. The case will probably be given to the jury this evening.

The Strong litigation, we are informed, is to be revived. Notice of a new trial has been served, and the case will be placed on the calendar for next term.

There were a number of burglars sent to the State Prison yesterday from the Court of General Sessions by Judge Russell. Henry Cunningham, who, on the night of the 30th of December broke into the store No. 186 Varick street and stole six dollars worth of hams, pleaded gulity to burglary in the third degree. As he was an old offender the Court sentenced him to the

State Prison for four years.

Thomas Wilson, charged with breaking into the liquor store of Stephen Bownan, in Cherry street, and stealing two pistols and four dollars, pleaded guilty, and was sent to the State Prison for two years. Henry Miller, indicted for bur-glary in the second degree, having broken an inner door of the Continental Hotel, on the 4th instant, and stole an overcoat, pleaded guilty to the third grade of that offense, and was re-manded for sentence. Charles Borsheo pleaded guilty to an attempt to steal five hundred dollars

from Auguste Lott, at No. 329 Tenth avenue.

The accused claimed that the money he took
was in Rebel notes, which were produced. Sentence was postponed. George T. St. Albyn was tried on a charge of stealing three firkins of butter, the property of W. L. Alien, and afterwards sold it to Charles Halms, on the 16th of October. An alibi was established by the depositions of a number of witnesses, who testified that the accused was in the town of Holland, Massachusetts, from the 12th of October to the 8th of November. The jury rendered a verdict of not

There is a lull among the "Finnegans." They cannot raise money. Then the fight kept up by report \$61,428.78 on hand.

the "August Senate" waxes strong and warm.

If Mr. Stephens would only come affairs might be smicably adjusted; but where he is no one seems to know. Apropos to this the local editor of the Commercial Advertiser gets off the following:-

The Fenian Congress has adjourned. It has locked its doors, closed its archives, and ceased its weighty deliberations. Clinton Hall is as deso-tate as Tara. The harp that was awakened by the ate as Tara. The harp that was awakened by the O'Mahony, now hangs as mute on its walls as if its soul were fied. The chavalrons and doughty "bowld soger boys" who kept sentry "ferninst" the doors behind which was assembled the hope of the Irish Republic, are no more visible. They are gone (perhaps) where slory lies in wait for them. They have (also perhaps) like the minstrel boy in Moore's melody, slung their wild harps behind them, and hurried to the scene of bloody conflict, with their fathers' swords girded on them. It is true that some or these scene of bloody conflict, with their fathers' swords girded on them. It is true that some or these throne-quaking Hibermans, during their secret campaign at Clinton Hall, appeared to be very young. But, then, had that never wore a hirsute crnament on their faces have been seen on the battle-field; and let us remember the fact that Napoceon was not much out of his teens when he was known as the "Little Corporat." Therefore, youth in "soger clo'es" is not to be despised. As for the delegates who, at the recent Congress figured so elequently, and opened to heavy Columbidits of their Eringobraghus spleen they have resturned to their homes, and are probably engaged in burnishing up their pikes, pistols, and fowling pleces, preparafory to the great campairs which is soon to open. The O'Mahony remains in his pa'ace on Union pen. The O'Mahony remains in his palace on Union Square, with the green flag and the stars and Stripes waving above his head, as grace ully as if the millernium had arrived, and they were the hon and the lamb that were to lie down together and be led by a little child. From this retreat of the grand cen-tral sun of Irish liberty, but little intelligence comes to the world. There is a silence brooding over and around the place which is ominous. What is the O'Mahony doing? What makes him so quiescent? In other words, "why is this thus?" Then there is the Fenian Senate. It has been in secret session for more than a week, and enough has been done to make the O'Mahony stakehare his secret session for more than a w.ek. and enough has been done to make the O'Manony shake in his spurred boots. But, then, the O'Mahony is not castly scared. Israel Putnam, who faced the woif in its den, and who wriggled his fingers at the "red coats" during his ride down the steps at Horseneck, was a man of plick. There was a gritty element in his composition. The O'Mahony, although not israel. Putnam, is—well, he is the O'Mahony. He is not to be intimidated by ten thousand Sonates, with a Roberts at the head of each. It is said that an I rish privateer has left this port, and is now on the high seas waiting for some British ship to come high seas waiting for some British ship to come along and be made its prey. Now, if this be true, it is a matter of considerable interest to know waether this navy of the Irish Republic received its letters of marque, etc., from the O'Mahonys or from the hobertses. It would also be interesting to know the exact are ament of this to midable (for such it must be, 'av coorse') vessel, and we 'pause for a reply'."

## MEXICO.

Departure of President Junez and His Cabinet from Chihnahua for El Paso -Enthustastic Reception at El Pase-Effect of the Appointment of Gegeral Logan as Minister to Mexico.

PASO DEL NORTE, Mexico, December 22 .- In my letter of the 15th ult. I am ounced the departure of President Juarez, with his Cabinet and Government, from the city of Chihuahua for this place, and also stated that the probable date of his arrival would be the 16th or 17th. In consequence, however, of a very cold spell of weather-the coldest that has been experienced here for years—he was unable to reach this point until last Monday, December 18.

During the previous week we had been celebrating our annual fiesta in honor of "Our Lady of Guadaloupe"—the recognized patroness of this place-and, as usual, this had brought an immense concourse of people from the neighboring country. Their conduct and enthusiasm must have proved cheering, and given hope-inspiring evidence to the President of their deep earnestness and sympathy in his fortunes. When it became known that the Republican President was nearing the city, a large body of horsemen, including all the principal men of the place, pre-ceded by a band of music, sallied out to meet and escort him to the residence assigned for his

An immense crowd of persons, of all ages and sexes, lined the street and plaza from an early hour in the day, anxiously awaiting the arrival of the cavalcade. It was not until late in the afternoon, however, that the procession arrived. The mounted delegation of citizens came first; after them came the President in his carriage, accompanied by the Secretary of State and the Transmer. th pany of infantry as a body-guard, and after them the remaining part of the cortege, consisting of a large number of carriages and ambulances containing, besides Government officials, many of the principal citizens of Chihuahua, who vol-untarily preferred following the fortunes of the President to living under French domination at

The most enthusiastic expressions of joy and welcome greeted the President as he slowly rode through the dense crowd of citizens who filled the streets through which he passed. Vivas upon vivas burst from a thousand tongues; the bells of the cathedral rang out their merriest chimes; deafening volleys or small arms rent the air, while peal after peal of heavy artillery shook the loftiest peaks of the Sierra Madre. It was gratifying evidence that the popular heart beats right; and although a few of the principal men may have united their fortunes with the Imperial dynasty, still the sturdy yeomanry, the bone and sinew of the country, are as ready and will-ing as at any previous time to strike in defense

of the institutions of their choice and adoption. A column of about five hundred infantry, under General Terrasaz, who has been the Governor of this State for a number of years, left Chibua-hua a day or two after the President, and are now in the town of Carrizal. They will remain there a few days and then come on to this place, where it is thought their number will be in-creased to a thousand men. With this force it is intended to move on the capital of the State to drive the invader out of it. General Terrasuz as also moved the entire State Government to the town of Carrizal, including the archives and all movable property; and, for the present, that town will be the State capital.

The last mail brought the cheering news that

President Johnson had at last appointed, after such a long interregoum, a new Minister to represent the United States in this country; and the news was none the less welcome when it was known that that gallant soldier and eloquent orator, General John A. Logan, was the man. The news was carried to President Juarez by a special courier, and met ham on his way to this lace. The very intelligence has given new life and energy to things here already, and the most happy results are anticipated from it.

The military commandant here is Colonel Carlos Norriega, who was one of the prisoners captured at the taking of Puebla, and sent to France, with General Mejla and many more. He was released some months ago, as well as the latter officer, who is also here. They arrived a short time ago by the overland mail from St. ours. Colonel Norriega speaks English quite fluently, is a most efficient officer, and much liked.—N. Y. Herald.

Circular from the Minister of Foreign Belavious of the Mexican Government.

DEPARTMENT OF FOREIGN RULATIONS AND GOV-ERNMENT, PASO DEL NORTE, December 19, 1865 .ection 1. On the 9th of the present month the citizen President of the republic left the city of Chihuahus, and arrived yesterday at this place, where he has directed that the residence of the National Government shall again for the present be established.

It is unnecessary to repeat that the President will always maintain his tirm resolution to con-tinue to sustain the cause of independence and of the institutions of the republic, whatever may be the vicissitudes of the war; in which, ever, the resources of the enemy are diminishing day by day, and must ere long be exhausted, through the constancy with which the Mexican people continue the strugele, their final and cer-

tain riumph in which is now not far distant.
Independence and liberty.

ARREST OF AN OLD BURGLAR.-John Burns, an old man about sixty years of age, was arrested this morning at an early hour, upon the charge of attempted burglary at L. M. Friedenberg's, Seventh and Callowhili streets, Officer James H. Fish, of the Eighth Police District, who was passing, beard a noise, and stop-ping, discovered Burns peeping over the fence. The burglar ran, but was pursued and captured. In his fight he dropped a hatchet and immy. The rascal had succeeded in knocking a panel out of the back door, when the noise alarmed Mr. Friedenberg, who discharged a pistol out the second-story window. This frightened the burglar, and caused him to jump the fence and run. Burns was committed for trial by Alderman Massey. The prisoner was arrested three years ago for committing a burglary at Eleventh and Shippen streets, and was convicted and sentenced to two years' imprisonment for the same. He has been out of the "jug" but a short time.

THAT THERE IS a great event forthcoming our midst is certain. That it will be startling is sure. That it will be A 1 is be ond doubt.

Owen House, Washington.—To the stranger in visiting other cities, the choice of a hoiel is a matter of no little moment. To optain one sufficiently near of no little moment. To optain one sufficiently near to the business portion of the city, and at which the comforts of a home may be had at a reasonable price, is what all desire. It irrequently happens, however, that strangers are compelled to submit to many inconveniences, whilst at the same time paying exorbitant charges, and all through ignorance as to the place where these evils might be avoided. In no city, perhaps, are excessive charges, combined with few accommodations, more prevalent than in Washington. But to those of our readers visiting the National capital, we would suggest the Owen house, No. 212 Pennsylvania avenue; and we are sure they wull find a notei which will fully realize a their wishes. Possessing all the above requisites, its proprietor is ever ready and willing to provide for the wants of his guests. His house is conducted on the European plan, and is fernisated with all the modern conveniences. None visiting it will fail to call again. We advise all to give it a trial.
