NEW CHESNUT STREET THEATER.-Henry Dunbur is a better play than "The Outcasts" is a novel. On the stage the action is concentrated; the interest, shorn of all episodes, never for an instant flags. The dramatization is a very good one, with the exception of the catastrophe, which is abrupt. The presence of "Laura" was not accounted for, and postical jus-tice would have been more complete had the detective found out his error, and come back to discover that the criminal had escaped from man's justice to the justice of heaven. The piece was well put on the stage. The old Ehzabothan room, with the three different lights of fire, gas, and moon, was most

The play concentrates itself into three characters those of Mordaunt, Clarke, and Miss Orton Mr. Carke gave us a studied and artistic picture of the flash convict, soi-disant gentleman, in a style which reinstated him in the high position the public had assigned him before he becan calling fitte for its opinion. His case was no ways exaggrated, whilst opinion. Its case was no ways exargerated, whilst the vin of humor was carried throughout, and with most telling effect and naturainess. Mr. Mordaunt found in "itemry Dunbur" a part for the decour phase of his talent. His fine voice cave effect to the impressive language. His desperate courage, his submission to the necessities of his position, his remore, his dread, his yearning love for his calld, were all so blended that the picture enthralied the minds of the aucience, who watched the progress of each succeeding scene with breathless interest.

each succeeding scene with breathiess interest.

Miss Orion won our favor and good opinion for her le-ser qualities as a vivacious southertie, a charming comedience. Having secured this opinion, she has since proceeded to show us that she is a woman of genus. A more forcible, impassioned, natural rerformance than that of Miss Orion's "Margaret Wentworth," could not be conceived. There was no acting about it—it was felt first, and then expressed. Her agony, her devotion, and her horror, at the discovery of her inther and his crime, were so true, so actually real, that it was but when the curat the discovery of her father and his crime, were so true, so actually real, that it was but when the curtain went down that the audieucs came to remember that it was but a pay. All this was produced without exaggeration of either voice or manner. The play was acted in a manner that reflects infinite honor on the talent of the Chesnut's company. Mr. Ward was excellent in the 'Detective,' he has the faculty of seizing the characteristics of the smallest parts. Mr. Foster is making great progress. Mr. Lewis is better as a young man than as an old one. Mrs. Keach was perfect in the words of her part, but her affectation mars all improvement, and keeps from her the sympathy of the public. Heavy Danbar will be played every night curing the week.

THE FRENCH BENEVOLENT SOCIETY'S BALL .-This grand affair came off last evening, and was largely attended by the etite of the city. The patrons kept up the ancient reputation of the organization fer brilliancy of costume and perfection in the details of the entertainment. We could wish that every other ball would pay the same attention to the department of the cuisine that the French Benevolest Feetely ao. The supper-room was in charge of Lakemyer & Bedloe, and was unquestionably the grandest effort of the season. The French Benevolent Society is one of the most meritorious insulations. tions of our city, and deserves all encouragement,

ARCH STREET THEATRE .- Mrs. Waller played her marvellous impersonation of "Iago," which made so deep an impression whon she first appeared in this part some three or lour years ago. By general request Mrs. Waller will, tuis evening, ren at Macbeth, It is a pity that the brevity of Mrs. Waller's engagement will prevent her producing a domestic travedy by ranny Kemble, which she possesses, and which is full of interest, and contains some of the most beautiful poetry in our language.

MR. ROBSON'S BENEFIT.-We are pleased to learn that Mr. Stuart Robson, the favorite comedian of the Arch Street Theatre, is shortly to be tendered a benefit at that establishment, when, in addition to other attractions, a new buriesque by Mr. R. H. Craig, will be placed. It is entitled Hamlet, or the Wearing of the Black, and is fall of come songs, humorous bits at the times, and quizzical situations.

WALNUT STREET THEATRE.-Mr. Clarke appeared as "I remio," to an immense house. This comedy, and Dickey's Wooing, will form the bul this evening.

NEW AMERICAN THEATRE.-Mr. Wallett is the great attraction at this theatre. On Friday evening he takes a benefit, when a novel and attractive enter-tainment will be given—namely, a lecture on Man-nerism, and Shakespearian readings. ACADEMY OF MUSIC.-Mr. Jarvis will give his

third matinec at the Foyer of the Academy, on Thursday, at 4 o'clock. These entertainments are of the highest order. GERMAN OPERA .- Mr. Grover promises us a week

of German opera, commencing on the 26th of February. A most welcome announcement,

CARL WOLFSOHN'S Beethoven matinee takes place at the Foyer to-day. M'me Ritter has arrived from New York, and will sing two admirable classical

Freedmen's Code.

Ex-Governor Graham, of North Carolina, has addressed the following letter to two members of the North Carolina House of Commons:-

HILLSBORO, February 6.—Gentlemen:—Yours, dated the 1st instant, was handed me yesterday. In reply to your request for my opinion on the question pending before the Legislature, whether negroes shall be allowed to testify before courts justice in all cases, civil or criminal, where the rights of colored persons are involved, as proposed by the commission for the revision and amendment of our code as applicable to the black race, I have to remark that, recognizing in letter and spirit the tull force of the amend-ment of the Constitution abolishing slavery, I feel bound to consider everything pertaining to this great change in the organism of our society with the same degree of candor and impartiality that we apply to other provisions of the Constitution.

Acting upon this principle, were I clothed with the authority now vested in a member of the General Assembly, I should concur in the modification of the law in this particular, as proposed by the commission, and mainly for the reasons assigned in their report. Free negroes have always been regarded as freemen in North Carolina, and as such, entitled to the privilege of habeas corpus, trial by jury, ownership of property, even in slaves (and cases were not in-frequent of the enjoyment of this right), to prosecute and defend suits in courts of as incident to this, to make affidavits for a continuance, or as a foundation for rules in the progress of a cause, and to prove by their own oath, even against white men, accounts to the amount of sixty dollars for work and labor done, on goods sold and delivered under the book-debt

The change proposed, then, is not so violent or extensive as many suppose; nor is it more fraught with mischief as a dangerous innovation, than in the estimation of the old professors of the common law were the modern reforms in the law of evidence in England, among which is the regulation that parties, plaintiff and defendant, are permitted to testify in their own causes, which is said to work well. The tendency of judicial decisions in modern times, independently of the public opinion embodied in acts of the Legislature, has been in favor of the admission lity of witnesses, leaving their credit to be passed apon by the tribunal before which they depose.

There is no great force in the argument, that this privilege to the extent proposed to be con-ferred is, in the present condition of the black race, necessary to their safety, since they have lost the security of a white witness in the person of a master or overseer, or the families of either. I would grant it, however, on the higher ground of right. I can at this moment call to mind no essential attribute of civil or religious liberty which is denied to them in this State, except this privilege of bearing evidence in matters in-volving the rights of white men. This concelled they have everything necessary to the fullest enjoyment of their rights under the law. As to political liberty or power over the law, as comprehended in the right of suffrage, the safety and the welfare of the community require that this shall be jealously reserved to the white race, upon whose salutary control in the future as in the past we must rely for that national and conservative freedom which, under a benedoent Providence, is to fulfil the high destiny of the Anglo-American States.

I remain, with high respect, your obedient ervant, W. A. GRAHAM.

ELECTRICAL DISCOVERIES

AND

GLORIOUS RESULTS.

DR. M. J GALLOWAY, Electrical Physician, formerly the partner of PROVESSOR C. H. BOLLES, after an absence of a year and a half from the city, during which time he has been engaged with PROFESSOR BOLLES, his father-in-law, in investigaling more fully the sublime subject of Electricity as the GREAT CURATIVE AGENT, has resumed his successful practice at No. 142 South EIGHTH Street, where he is curing, with unparalleled success the worst forms of acute and chronic diseases In our many scientific experiments with the electric Galvanic, Electro-Magnetic, and pure Magnetic Currents, and their numerous modifications on the bodies of various animals for the purpose of ascertaining with minute accuracy the direct and judirect influence of each on the organization we have demonstrated that Electricity is the vital element-that it can be directed to any organ or part of the body, and even after the vital functions seem paralyzed, possess the power of arousing the dormant energies equalizing the circulation, and restoring the system to a self-sustaining healthy condition.

The most satisfactory results follow our treatment. In some instances the disease of years' standing yields readily at the first touch of the electric element, while

in others it requires a more protracted treatment. One very important feature of our treatment is that no time is lost in experimenting with disease. By means of an electrical test, an accurate diagnosis is given at once, determining the locality and character of the disease, and indicating the treatment to be pursued.

DR. P. SHEDD, OF NEW YORK CITY, a scientific

gentleman of ability, is associated with Dr. Galloway in the practice. Dr. Shodd was a student of Professor C. H. Bolies, with many other eminent medical men in the city of Rochester, N. Y., about ten years ago, and after that a partner in the city of Buffalo, and since that time has given his whole attention to the curing of disease by Electricity in its various forms and modifications, in accordance with the great and subleme doctrines of Professor Bolles, who has brought his discovery into public favor in all the principal cities of America, among medical men and Electricians. The skiil and experience, therefore, of Dr. M. J. Galloway and P. Shedd, M. D., commend them to the confidence of the public and afflicted.

Mrs. C. H. BOLLES, the oldest and most successful temale Electrician in the country, has charge of the Female Department. Our treatment is eminently successful in all FEMALE

DISEASES. N. B .- Professor BOLLES, my lather-in law, has no successor in this city, although we find lengthy advertisements in the public press of this city during the past year from an individual who has had the audacity to style himself "successon to Professon Bolles.

The same individual publishes a long list of patients as ference, giving the public to understand that they were cured by him, when in fact every one of them was treated by Professor Boiles and myself-with many thousand others. Many of the parties he refers to as having been treated by him. HE IN PACT, HAS NEVER SHEN, 'All such misrepresentations are calculated to deceive the public, especially the afflicted portion. Those given up as in-

curable are invited to call. STUDENTS can enter at any time for a full course of nstruction in our scientific practice. We are receiving letters almost daily from different parts of the country. soliciting students who have been instructed by us, therefore we can guarantee good positions to all our graduates. We invite the old students of PROF. BOLLES or myself who are practising our old system in this city to become instructed in our new discoveries, so that they may learn how to cure more diseases, and in much less time than by our old system.

READ WHO SAYS SO.

From Rev. W. D. Seigried, Pastor of Twelfth Baptist Church, Philadelphia. Gentlemen:—I have recently been laboring under the Gentlemen:—I have recently been laboring under the discressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by iriends, and some of them ies ed, but wi hout relief. Your Hootland's German Bitters were recommended by persons who had tried them, and whose involable mention of these Bitters induced me to try them. I must confess that I had an aversion to Patent Medicines from the "thousand and one" quack "Bitters," whose only aim seems to be to paim off sweetened and drugged liquor upon the community in a sly way, and the tendency of which. I lear, is to make many a confirmed drunkard Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, out upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours.

W. D. SEIGFRIFD.

No. 234 Shackamaxon street.

From the Rev E. D. Fendall, Assistant Editor Christian Chronicle, Philanelphia. I have derived decided benefit from the use of Hoof-lan.'s German Bitters, and feel it my privilege to re-commend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

Yours truly, E. D. FENDALL.

From Rev. D. Merrige, Pastor of the Passyunk Baptist Unurch, Philadelpuia From the many respectable recommendations given to Dr. Hoofiand's German Bitters. I was induced to give them a trial. After using several bottles I jound them to be a good remedy for debliny, and a most excellent tonic for the stomach.

D. Marrier.

From Rev. William Smith, formerly Pastor of the Vincentown and Miliville (N. J.) Baptist Churches.

Having used in my family a number of bottles of your Hoefland's German bitters, I have to say that I regard them as an excellent medicine, specially adapted to remove the diseases they are recommended for They strengthen and invigorate the system when debilitated, and are useful in disorders of the fiver, loss of appetite, etc. I have also recommended them to several of my friends, who have tried them and found them greatly beneficial in the restoration of health.

Yours truly. WILLIAM SMITH,
