BRAZIL.

The Situation on the Parant-A Hard Fight Expected-Enthusiasm Among the Allied Troops-Another Augle-Brazilian Iron-Clad on the Way-The Nataral Resources of Brazil-Liberal Ideas of the Emperor Don Pedro, Etc.

Rio Janeiro, February 1.—As communication between Brazil and the United States is becom-ing more frequent and important, I think that my correspondence will be found interesting as an impartial record of events, and especially with regard to matters concerning Americans.

By this steamer there is but little news to communicate about the war against the Dictator

Lopez of Paraguay.

The army and navy of the triple alliance are epposite Passo de la Patria, the Parana river separating them from the northern bank, where the Paraguayan army is encamped. The allied generals are trying to save time and blood at this ford of the river, where the Dicta-tor of Paraguay has concentrated all his forces and elements of resistance.

The Brazilian army is composed of about forty

thousand men, infantry, cavalry, and artillery, while the fleet consists of twenty men of-war, and four iron-clad gunboats.

The Argentine force comprises eighteen thousand troops, and two or three men-of-war. The Oriental army numbers about seven thousand men, General Flores, the Governor of the Republic of Uruguay, having under his own com-mand three or four thousand Brazilians.

The army of General Lopez, the Dictator of Paraguay, is from twenty-eight to thirty thou-

sand strong.

The latest advices from the seat of war state that the health of the allied forces is excellent, and that great enthusiasm prevails among the brave fellows who are about to free Paraguay from the tyranny of its ruler. It is expected that by the middle of this month the ailied forces will cross the river Parana into Paraguay and march at once upon Humaita, the famous strong-

We shall have to wait, however, for some weeks before learning the issue of the decisive or at least important battle to be fought in the

Paraguan territory.

I do not think that the crossing of the river Parana will prove an easy manusure, but I am quite sure that the allied army is far superior in every regard to the worthless Paraguayan soldiers, because the latter are compelled to fight, while the allied soldiers are filled with enthusiasm and convinced of the justice of their

The neighboring republics are advancing in peace and order, and, in spite of the contentions incident to the late election in the Argentine Republic, it is evident that order will prevail as long as General Mitre continues at the heal

of affairs.

The Oriental State is now recovering strength, and its prospects are encouraging. These new Spanish republics require but stable government in order to attain to a position of welfare and prosperity. The real cause of their struggles is the egotism of their political leaders. Principles are nothing here; individuals are everything. Let them enjoy peace and order during a few years, and they will speedily become prosperous and powerful, to the advantage of themselves and their neighbors.

We teel a great need of immigrants here. Our principal merchants, both natives and foreigners have recently held two public meetings for the purpose of encouraging colonization. It is gratifying to see progressive ideas fostered in this manner. We are expecting another ironclast from England, built upon the same model as the Minerva, which has been rechristened the Bahla since her arrival here. During the last three months we have sent from this port over eleven thousand men and a large quantity

of stores to the seat of war.
The great advantages offered to American farmers settling in this country, and its im-mense natural resources, will no doubt be fully made known to the public in the United States through General Wood, who recently left for the States on business connected with emigration to Brazil. This is a large, rich, powerful, free, and diversified country, where emigrants will find every climate and all the attractions of a civil-

Our Emperor is a most enlightened statesman and highly appreciated as such both in America and Europe, and perfect confidence may be placed in his good intentions and sound wisdom. Don Pedro II is fully up to the spirit of the age: n fact, his ideas are even more ilderat that those of many of his liberal contemporaries. If God spares his valuable lite for a few years we shall see Brazil blessed by all liberal minds and

generous hearts. Our Custom House, during the month of January, and the other revenue offices, have received 2,123,479 950 reis (\$1,068,000). The coffee sent to the United States and Europe during the same period amounts to 136 000 sacks.—N. Y. Herald.

Quite a large meeting of musicians occurred in Dramatic Hall. Houston street, on Friday last, pre-limitary to the formation of a society or Union for protectave and benevotent objects; such organization to be composed of musicians not members of the Mutual Musical Protective Union, while in several amportant respects the new seciety will be antagonistic to that boay. A meeting is to be held on Friday next, at which the new Union will undoubtedly be formed. We understand that it is proposed by the committee baving in charge the drafting of a code of resulations for that purpose, that the new society will be called the "Ordestral Union." It will commence its existence with probably not less than 160 members, among whom are some of the best artists in the city, and the board of officers to be proposed by the Committee will include the name of Henry Appy for Presidents, Louis Schreiber and John P. King, Vice-Presidents; David L. Grahmo, Secretary; M. K. Botsford, Treasurers, and an Executive Committee compased of the leaders of the several cachestans and hands of the city, amajority of whose members are in sympathy with the objects of the movement, which will include Messrs. R. Mo lenhauer, H. B. Douworth, Thomas Baker, Robert Stoepel, and several other emment musical mames. It is beseved that with the two musical Unions in full operation there may be rather competitive eigons in the second content of the city during the ensuing summer for the delectation full operation there may be rather competitive et-forts during the ensuing summer for the delectation of the rabile; and as music has now become an im-periant element on almost all occasions where ameri-

ment is a nurth, of course the public has a considera-be interest in the issue.

The weat her is clear and cool to day. The advent-of spring is new looked for daily.

THE GREAT AMERGAN STEAM BOILER INPROVEMENT.-Every one familiar with the management of steam boilers has witnessed the great inconvenience attendant upon incrustation, and the expense and labor necessary to cleanse such boilers for use and safety. This is all done away with now by the use of the AMERICAN ANTI-INCRUSTATOR, which removes the most flinty and tenacious scales without the use of a pick, hammer, scraper, or scid, and its application prevents new scales from forming. It also saves fuel, and renders boilers less liable to explosions. The AMERICAN ANTI-INCRUSTAron has received flattering indorsements from the Scientific American, and from most of our leading boiler and engine builders. See the advertisement in another column. The office of the AMERICAN ANTI-INCRUSTATOR COMPANY is at No. 147 S. Fourth street, where any information may be obtained.

DESTRUCTIVE CONFLAGRATION THIS MORNING—A PLANING MILL TOTALLY DESTROYED
—ADJOINING DWELLING HOUSES INJURED—LOSS
BETWEEN \$30,000 AND \$40,000.—One of the most estructive confiagrations which has occurred in the northern portion of the city for years took place this morning, between one and two o'clock, involving the total destruction of the large sash and planing mill situated on Allen street, between Frankford road and Shackamaxon street, and owned by Mr. M. J. Brady, and the scrious injury of adjoining property by fire and water.

The planing mill destroyed was a large four-story brick structure, 30 feet front on Allen "aeet, and extending back a distance of 80 feet to Fraley's alley. Not a vestige of the building or its contents remain, with the exception of a portion of the walls left standing, and the lofty chimney connected with the mill. The destruc-

tion was most complete. The mill building was occupied by three parties.

Brady, Shafer & Co., who carry on the sash and door making business, occupied the first, second, and fourth stories. This firm lost everything not a single article belonging to the establishment escaped the ravages of the flames. They estimate their loss at \$10,000, on which there is an insurance of \$2000.

The third stry was occupied by Ollis & Brother, turners. Their loss is estimated at \$8000, on which there is an insurance of only 1000. The cellar was occupied by Mr. John A. Emerick, and was used for the manufacture of foundry facings. Everything in this apartment is a mass of ruins.

Mr. Emrick's loss, it is believed, will reach!the sum of \$15,000, on which there is an insurance of \$5000. The total loss by the burning of the mill will reach over \$30,000. The building and machinery owned by Mr. M.

J. Brady, was valued at about \$15,000. Mr. Brady is insured for about \$4000. The wall facing on Allen street fell in about a half hour after the fire broke out, with a tre-mendous crash, and was followed by the wall on the north and south sides of the building. A portion of the rear wall remained standing. I'wo two-story brick dwellings adjoining the mill on the north were very seriously injured.

The first one, No. 167 Allen street, was occupied by Mrs. Nichol. The upper and back part of the house was entirely burned out, and the furniture of the other portion of the house injured by water. There is an insurance on this dwelling of \$500.

No. 169 Allen street was occupied by Mr. Kirk-patrick. The back buildings and rear portion of the main building were very much injured by fire. There is an insurance of about \$500 on this Another dwelling-house adjoining this on the north, No. 171 Allen street, occupied by Mr. Davis, was also injured partly by fire, but mostly

On the south side of the planing mill was the hvery stable of B, and J. Weber. A large shed connected with this stable, and immediately adjoining the mill, was crushed in by the falling walls, and is a mass of ruins. This shed was used for the purpose of storing carriages, but fortunately they were all conveyed to a place of safety before the wall fell in.

To the rear of this livery stable, and also adoining the planing mill, are two frame dwellrgs, owned by Mr. Benjamin B. Thomas, occupied respectively by James Thomas and Mr. Weber. These buildings were considerably damaged by fire, and the furniture injured by water.

The fire originated in an open shed or shop attached to the planing mill on the north, and it is confidently believed that it was the work of an incendiary. This shed was used for the pur-pose of storing finished material manufactured This shed was used for the pur-

Owing to the combustible nature of the contents of the mill, the flames spread with great rapidity, and in less than one hour after the discovery of the fire the entire building was levelled to the ground.

When the fire was at its height it presented a magnificent and fearful sight, and great con-sternation existed among the inmates of dwelling houses in the vicinity.

The wind was very high at the time, and but

for the almost superhuman exertions of the fre-men, the destruction of property would have been far greater.

TURBULENT FIREMEN.-A number of firemen were arrested on Sunday and yesterday on the charge of creating a disturbance. Among the number were several members of the Mon Engine and Hook and Ladder Company. The arrest was made by Officers Goldy and White, at Fortleth and Laucaster avenue, West Philadelphia.

It is alleged that the Hook and Ladder Com-

out the Union Hose, and that when the members were passing along they were attacked by the opposing party and beaten off.

It was found necessary for the police to take charge of the carriage of the Union Hose in order to save it from the hands of the assailing party, the members of the Union having been elled to leave their apparatus in the road. A hearing took place before Alderman Allen, when the case was continued until this after-

MOVEMENTS OF MISS DIX .- Miss Dorothea L. Dix, on the occasion of her last visit to this city, after examining the Philadelphia Hospital for the Insane, Almshouse, proceeded to Dr. Kirkbride's establishment, the Insane Depart-ment of the Pennsylvania Hospital. She spent the balance of the day there, remaining as the guest of the institution, and returned on Satur-day to Trenton, N. J., which is her usual place or abode, only leaving it on occasions like those we have mentioned, errands of general use to the community. Miss Dix is, we understand, the chief officer or head of the State Lunnite Asylum, at that city, one of the best regulated institutions in the country.

Bogus Passes,-Last evening the officer belonging to the Chesnut Street Theatre ar rested a number of lads who had presented theatre passes which had not been numbered, and consequently were not genoine. On being taken before Alderman Kelly, the accused stated that they had received the tickets from a boy, who, it is alleged, worked in a printing office in Third street, near Chesnut. It is supposed that the tickets were stolen from the printing office in which the lad worked, as stated above, After hearing the evidence in the case, the accused were all bound over for a further hearing.

FELL DEAD IN THE STREET,-Last eyening an unknown white man fell dead at the coner of Third and Union streets, in the Fifth Ward. He was conveyed to the Union Street Station House, where Corener Taylor held an inquest this morning. He was about twe feet ten inches in height, and about seventy years, gray hair, and no whisters. He had on a light overcoat, dark undercost and pants, light vest white shirt, striped flannel undershirt, and army shoes. The Coroner took charge of the body.

SALE OF FINE PAINTINGS, - We have heretofore referred in the columns of The Evening Transcharm to the fine collection of oil paintings now on exhibition at the Pennsylvania Academy of Fine Arts, and to be disposed of at auction by B. Scott, Jr., on this and tomorrow evenings. As is generally known to our citizens, Mr. James B. Earle, the senior member of the firm of James S. Earle & Sons, during the latter part of last sammer visited Europe for the express purpose of purchasing firt-class paintings and other works of art directly from their authors. The present collection is a part of the results of that visit. A few years ago Mr. Earle, observing that the wretched tion is a part of the results of that visit. A few years ago Mr. Earle, observing that the wretched daubs sent from Europe upon speculation met with ready sale and brought remunerative prices, conceived the idea of adopting the plan but improving the style of the compositions. His first great sale was a decided success, and he was encouraged to continue them at stated periods. The present is the lifth of this character, and by far the finest conducted under his auspices. The pictures have been on exhibition for the past two weeks, and have been examined critically by our best art judges, who pronounce them superior to any that have heretotore been offered for sale in this market, and fully equal to the great New York and Boston sales.

The catalogue contains one hundred and fifty-

The catalogue contains one hundred and fifty-seven pieces, every one of which rises above medicarity. Among the list of names will be found those whose genius has made them famous throughout Europe.

Some idea of the character of the collection may be formed from the fact that the gold value of the pieces ranges from \$100 to \$3000. It is scarcely necessary to say in this community, where Mr. Earle's reputation is so firmly esta-blished, that there is no doubt that any one of the pictures is precisely what it is represented to be. The pictures are all elegantly framed at Mr. Earle's establishment, and are warranted to

Lambdin's "Signal from the Monntain Top," Schlicht's "Borders of Como," and a number of others. The sale will commence at half-past 7 o'clock, and will be continued to-morrow evening. It is believed that this sale will collect together a larger number this sale will collect together a larger number of buyers than any that has ever been held in this city. The exhibition will be open, free of charge, during the entire day, and up to the moment of sale, in order to give those desiring to do so an opportunity to examine the speci-mens. Every person should avail themselves of this last opportunity of inspecting these fine

To demise "City Pastor's" work with the above brief report would not be doing instice to curselves nor to him. In considering the above figures we are surprised at the amount of good accomplished by himself and wife, with the aid of one assistant. Rarely, if ever, has one hidividual undertaken so charitable and ben votent an enterprise, and so cheering enterprise the good feelings kind wisnes, and confidence of a large community—a nation (for we find contributions on his books from overy loyal State in the Union)—as "City Pastor" has. (for we find contributions on his books from every loyal State in the Union)—as "City Pastor" has. While the responses to his appeals will bear testimony to the benevolence and philan.hropy of our citizens, the result will also show how much good may be done by the humble, earnest, pessivering efforts of one who, in the spirit of his Master, aims at doing good to suffering humanity. About the first of March ach member of the Committee received a letter from him stating that he must rehnquish the work, with his reasons for so doing. While the Committee regretted the necessity which compelled this step, they appreciated and approved the reasons that induced if These reasons are already before the public in "City Pastor" report, published some weeks ago, and must have made on the minds of our citizens the most favorable impressions of the man gand his work. Himself and wife have been rendering this service to the and wife have been rendering this service to the families of our brave soldiers entirely gratuitously. The widow and fatherless have blessed them, and owe them a debt of gratifude they can never pay; and Philadelphia owes them more than gratifude. STABBING CASE,-A man, who gave the name of Benjamin Welsh, was arrested this morning, at about quarter past 12 o'clock, by Officer Echard, on the charge of stabbing a man named Adams at a party in Stewart street, below Fitzwater. The arrest was made at Tenth and Catharine streets. The wounds of Adams are considered of a dangerous character. The Alderman before whom the hearing took place committed the defendant, without bail, to await the result of the injuries sustained by the wounded man. The greatest excitement pre-valled at the time the deed was committed. It is stated the affair originated through lealousy.

COUNTERFEIT NATIONAL BANK NOTES .-We were shown this morning a very poorly executed counterfeit \$20 note on the First National Bank of Indianapolis. The eagraving is remarkably bad on the face of the note, and the representation of the baptism of Pocaliontas on the back is as mean a specimen of art as we have ever witnessed.
