CITY INTELLIGENCE LAVING OF A CORNER-STONE-INTEREST TESTING A NOZZLE.—Yesterday afternoon the cere- a number of the members of the Shiffler Steam [For Additional City Intelligence see Eighth Page.]

PRESENTATION TO PROFESSOR COPPER. The students of the University, on hearing of the intended departure of their Professor, determined to present him with some memento of their high appreciation. The following note was delivered to the Professor, expressive of their esteem in connection with the gift:—

their esteem in connection with the gift:—

Professor Coppee:—The students of the University of Pennsylvania, with which you have been long and honorably connected, while they offer to you their hearty congratulations at your transfer to a new fleid of usefulness and honor, cannot but express their sincere regret at the departure from the University of one with whom their intercourse has been of animingled pleasure and benefit.

At a meeting of the students convenied for the pur-

of animingled pleasure and benefit.

At a meeting of the students convened for the purpose of taking action in regard to your resignation of the Chair which you have filled so acceptably, it was resolved to present you with the accompanying memento, as an expression, feeble though it be, of their high esteem for you per onally, and of their appreciation of the mestimable advantages which they have enjoyed under your tuition. Long will they cherish a remembrance of those gentlemanly and scholarly qualities which, in your intercourse with them, you have exhibited, and ever grateful will they be for the pure, patriotic, and elevated sentiments which you have inculcated.

Wishing you length of days and eminent happiness in your new sphere of labor and usefulness, we have the honor, on behalf of the students, to subscribe ourselves the Committee:—Senior Class—L.

nave the honor, on behatio the students, to subscribe ourselves the Committee:—Senior Class—I.

Minis Hays, Frederick W. Beasiey, George T. Graham. Junior Class—T. F. Nevin, Gerald F. Da'e,
A. R. Montgomery. Sophomore Class—R. N. Clark,
J. H. Coates, A. W. Elbott. Freelman Class—Maskell Ewing, Edward Ritchie, George H. Stewart, Jr.

University of Pennsylvania, March 28, 1365.

In reply the Committee have received the fol lowing note:-

UNIVERSITY OF PENNSYLVANIA. April 1, 1886 .-Gentlemen:-It is difficult to find fitting words in which to answer the exceedingly beautiful letter of the students presented through you, the committees of the four classes, and accompanying the very nandsome case of siver, their unexpected but highly
prized gift. I can only say that while no such demonstration of regard could have been made in a
more graceful and refined manner, nothing could
have given me more pleasure. Among my household gods I shall dedicate this

present to the University of Pennsylvania. The let-ter I shall have appropriately framed, and send it down to my children and theirs, as a testimonial, not in official course, but of hearty and spontaneous esteem, never to be extorted, and therefore the more highly prized.

ne the favor to let all those who have joined in this great kindness know how I thank them for it, and believe me. gentlemen, to be, with the sincerest regard for you all, your iriend and Professor, The students being assembled for the last time

in the second term of the collegiate year, enthusiastically applauded their highly popular Professor upon his entrance into the hall for the last time in his official capacity, in response to which he addressed them as tollows:-Gentlemen :- As this is the last time that I shall meet you as a Prote-sor in the University of Pean-sylvania, I have craved and received the kind per-mission of your Provost to say a parting word

pled in your ordinary declamation, and I am sure you will bear with me it I consume no more than that. I shall not detain you longer than the time occu-

fban that.

For nearly eleven years that I have held my Charr I have performed my duties, not always well, indeed often imperfectly, but always with a hearty desire to promote the interest of the University, always with a strong purpose to advance the cause of sound education, always with an almost boyish expectable for the smooth, browed treshilinged years.

of sound education, always with an almost boyish sympathy for the smooth browed, fresh-lipped young men who have been my daily companions in the recitation-room. In their obedience, respect, and advancement I have met with an abundant return.

Nor must I fail to confess that while I have been a teacher here, it is much more to my advantage that I have also heen your fellow-student; I, too, have been a pupil here; and if I succeed in the new and arduous task before me, much or that success will be due to what I have here acquired in ton years of this normal schooling; much to what I have rained this normal schooling; much to what I have gained from daily contact with your learned and distin-guished faculty, and much to my daily practice with the classes which have passed through my hands. Gentlemen, I shall endeavor not to dishonor this part of my training.

For the manner in which I have discharged the

duties of my office. I have been, you are aware, directly responsible to another body, the honorable Board of Trustees.

Let me acquit myself of another responsibility-I have striven to inculcate in a l'things reality of lite, manliness, trute, and Christian honor. I have endeavored to display to you impartiality as a professor and courtesy as a gentleman. I have held up to you the noble motto of your University, "Literas sine moribus vana" I have not miled; your kind expressions of regret at my departure and God-speed on my journey tell me so.

The beautiful gift of silver presented by your com

The beautiful gift of silver presented by your committee, the extremely well-worded and handsome letter which accompanies it tell me so; and I am happier in these assurances than if, with machinelike accuracy. I had been able to give tenfold the amount of letters without morals and manners.

For your beautiful present I shall make a written acknowledgment, but I beg you to receive in advance my grateful thanks.

And now, my friends, farewell; long live and long flourish this loved and honored College. Happy and prosperous be its excellent Faculty. Thrice happy those bound to me by tender ties who give the parting word to the Professor who now crosses its threshold. God bless you all.

Professor Coppee is about to repair to Bethle-

Professor Coppee is about to repair to Bethle hem, to make the necessary preparations for the opening of Lehigh University, a new institution, owing its origin to the munificent liberality of Governor Packer. Success will doubtless crown this new effort on the behalf of science and education.

THE CONTESTED ELECTION CASE,-The hearing of evidence in this case was continued yesterday morning at the office of General Collis, when the following testamony was given in

favor of Mr. Weaver: -Abraham Heimstead, for contestant, sworn-I live at No. 728 South street; have hved there about twenty years in that neighborhood; lived in that house four years; I voted hast election about eleven o'clock; paid my tax within less than a year. The receipt was called for by Mr. Simpson. The same receipt was called for by Mr. Simpson. The same testimony, so far as voting was in question, was g ven by Emanuel Goldsmith, No. 624 South street; Richard Gorman. No. 542 South street; Daniel Roberts, corner of Black Horse alley and Bedford street; Patrick Ragan, No. 615 South Seventeenth street; Philip Rock, No. 615 South Seventh street; John Dwyer, Ashberry street; John J. O'Comor, No. 615 South Seventh street; No. 512 south Fifth street; Richard Cameran, No. 529 Bedford street; George St. Clair, No. 530 Bedford street; Timotay Lear; Shippen street, above Seventh, testified to the names of several who voted. Edward Mellon was home, but did not vote.

Bernard McGarigle testified that he knew John Burch, hving at No. 520 Bediord street; John Bar-ratt, hving at No. 1554 Richmond street, below William, voted for Mr. Weaver at last election; also Michael Kent and Patrick McGuire, No. 1515 Beigrade street, Edward H. Floor, No. 1129 Somerset street, testi

fed that he knew James Brady, Michael Brannan, Francis Brady, Francis Casaide, Henry Cresson, Christopher Callahan, Lawrence Francy, Charles Fay, James Gordon, Austin Gayner, Bartell Gaffney, John Hassney, Henry Hawthorn, Charles Judge, Matt. Keiley, David McCrystle. Edward McGowan, Ihomas Nally, Ferris McFadden. Neill McCollum, Edward McColran, Patrick O'Donnell, William Prvor, Francis Smith, James Sharkey, Bartholomew White.

tholomew White.

Mr. McGarrele, on being cross-examined, said he knew where these people lived from the fact of seeing them every day, and from the fact of his being Assessor there. He was Assessor in the years 1856, 1868, 1869, and 1881.

Francis McDonouch, on being sworm, stated that he lived at No. 1139 Hewson street; he had lived there about four or five years or six; he knew Patrick alcDonough and John McDonouch; John Kervis, fiving in Somerset street, below Salmon, voted for Mr. Weaver once; also, Owen Gollice, Patrick Reilly, Patrick Curran, Philip Mohan, and James Burk.

VOTING AT A FAIR .- The result of the voting at St. Augustme's Fair, now being held in the National Guards' Hall, up to last evening. was as follows:-Fire Horn-Vigilant, 40; Columbia Hose, 7;

Fairmount, 10; Hibernia, 10.

Base Bail Implements—Central, 55; Vigilant, 43; Perseverance, 6; North American, 1; Nep-

SLIGHT FIRE.-Last evening, about o'clock, a window curtain in the residence of Mr. Geisler, at the S. W. corner of Front and Norres streets, was set on fire by being brought in contact with agaslight, and destroyed. Loss, fifteen dollars.

A SUID-PROPERTY OF THE PARTY OF

monies of laying the corner stone of the Seminary of St. Charles Borromeo, on the Lancaster Pike, about five miles from the Market Street Bridge, took place in the presence of a large concourse of people, among whom were nearly all the Catholic clergy of Philadelphia.

The religious services were in accordance.

The religious services were in accordance with the impressive ritual of the Roman Catholic Church. After the consecration of the ground, the Right Reverend Bishop Wood laid the corner-stone, assisted by Very Reverend Dr. O'Hara, V. G., as Assistant Priest; Reverend James O'Connor, Rector of the Theological Seminary, as First Deacon of Honor; Reverend J. F. Ehanahan, as Second Deacon of Honor, and Reverend F. P. O'Neil, Master of Ceremo-

Within the stone were placed the following articles:-

Coins of the United States of the present year, 1866, viz.:—1 cent, 2 cent, 3 cent (amalgam); 3 cent (silver); 5, 10, 25, 50 cent pieces, and \$1, all silver, and \$1 in gold; the following record in English, and a silver plate, with a duplicate of the Latin inscription on parchment, engrayed

"D. 10. M" (Deo Optimo Maximo—Great God, the All-Beneficent), for a lasting memorial.

On the fourth day of April, one thousand eight hundred and sixty-six, in the Fontificate of our Holy Father, Pius IX, Andrew Johnson, President of the United States, and Andrew G. Curtin, Governor of Pennsylvania, civil war being ended and peace happily restored. James Frederick, fifth Right Reversed Bushon of Philadelphia in presence of a Reverend Bishop of Philadelphia, iv presence of a large and approving assemblage of the clergy and faithful, laid the corner-stone of this Church and Ecclesiastical Seminary of St. Charles Borromeo. To these it is proposed to add the daily papers

of this city of to-day's issue. After the completion of the impressive religious ceremonies Right Rev. Bishop Wood introduced Rev. Dr. O'Connor, who declared that the occasion was one of consolation and joy. It indicated progress, and was a sure pledge of a

brilliant future in this vast diocese.

The erection of the first purely ecclesiastical seminary in the present diocese thirty years before, amidst great discouragements, by the great good man whose memory was and would be dear to Catholics for centuries, was portrayed. It was then a monument of the faith of people in the Divine organization of the Church. The great work of the Saviour in pre-paring the Apostles for the ministry was de-tailed, and the principle deduced and well elaborated that the highest privilege to humanity was to aid in the transmission of the Apostolic office by sending forth men authorized to speak as ambassadors from God, and to distribute his

The cordial approval of the clergy of the diocese was a sure sign of the necessity of the present building, for they were the best practi-cal judges of what was conducive to the welfare of religion in the fields of their labors. loubted not, from the earnest support of the clergy and laity, the present undertaking would

be crowned with success.

The tract of land on which the college is to be erected measures 112 acres, diversified into little hillocks and sheltered vales. The cost of the land was \$30,000.

A preparatory school is now located near Media, Delaware county, and the Academy at Eighteenth and Summer streets; but though the latter, at its erection, thirty years ago, was characterized as an extravagant expenditure, beyond the needs of the community, it has become a necessity to enlarge its limits. Accordingly, the two departments are to be united in a build-ing which, from the magnificent and complete scale on which it is projected, will have no rival, on this continent, at least.

The plan proposes a large centre building, 52 94 feet; two outlying and parallel structures, 42 by 65 feet, receding slightly from the front line of the centre building and connected with it, each by a wing of 30 by 122 feet, and directly on the rear of these outlying buildings or pavi lions, standing at right angles and connected with them by intervening structures of 114 by 30 feet each, are two similar buildings of 44 by 74

It will thus be observed that the front line of the building will have a length of nearly 400 feet, with a return of each end of 223 feet, exclusive of an extension to one wing, to con-tain the laundry and other conveniences, of 65 by 74 feet, which, with the intermediate wings, will be two-stories high, while the centre and four main pavilions above described main centre is a chapel, 42 by 103 feet, capable of containing upwards of six hundred persons, adapted to the requirements and character of

the enterprise. The design is a fair example of modern Italian; the only embellishments that have been atempted consisting rather in giving the useful features good proportions, with graceful forms of detail, than in adding decorations for their own sake. The most noticeable architectural attractions are a crowning dome in the central edifice, the arched openings throughout the structure, and the appropriate areades in the

The main walls of the structure will be built and faced with stone quarried on the premises, covered with slate, and the whole con structed with special regard to stability; while the arrangements of the interior, which can be fully understood by reterence to the plan, look to the greatest possible utility and

comfort.
St. Michael's Brass Band, attached to the church of the same, enlivened the occasion with vell-executed airs appropriate to the occasion.

A NEW COLLEGE.—The Society of Orthodox Friends are about erecting a college build-ing, which they expect to fill with pupils from their own ranks, but will allot any spare room that may occur to applicants from any other denomination of people. The locality selected for the building is Westdale Station, on the Media Railroad. It adjoins the venerable college n which the artist Benjamin West first drew breath. The completion of the editice will require two years. It will cost \$200,000. The brick will be burned on the spot. Though its completion is somewhat remote, it will be under roof before the frosts of the coming autumn chill the laborers engaged in its construction. The drawings exhibited show a building that would do credit to any association whatever. A main building, of 168 by 68 feet, is flanked on either side by wings, which in turn terminate in handsome buildings 96 by 44 feet in dimensions. plans provide for a perfect and faultless structure, futo which every modern improvement is introduced, and whose light and ventilation are furnished upon the most approved and scientific principles. The drawings show a building whose dome in the centre is 120 feet high; and the whole will be constructed in a style at once sub stantial and picturesque. By the Hicksite branch of the Society of Friends such an institution has long been needed.

ARREST OF AN ACCOMPLICE. - John Schultz was arrested yesterday morning by Detectives Levy and Tryon, charged with being an accomplice of Samuel Davis (colored), arrested for committing a number of theirs in the city. The latter resided at No. 801 Emeline street; and everal nights since Officers Levy, Tryon, Hen derson, and Lamon made a descent upon the ouse, and arrested Davis and another party. Schultz was in the house when the detectives entered, but he managed to jump out of the window, and escaped. A search of the premises was made, and a full chest of tea was recovered, which, it has since been ascertained, was stolen in front of a store at Eighth and Walnut streets. Several pieces of dry goods were also found, and are now in charge of the officers. Schultz had a hearing before Recorder Eneu yesterday atternoon, and was held for a further

hearing on Thursday. STEALING CARPET,-Anthony Augustine was arraigned before Recorder Eneu yesterday afternoon, charged with the larceny of a roll of Brussels carpet. The accused, it appears, left the carpet at Mr. George W. Smith's auction store to be sold. The owner of it came along. identified it, and instructed Mr. Smith to arrest the party if he called for the proceeds of the sale. This was successfully accomplished. Anthony told very contradictory statements as to how it came into his possession. He was bound over for a hearing to-day.

Fire Engine Company were engaged in testing a nozzle at Movamensing avenue and Greenwich street, recently invented, and for which a patent is claimed. Two streams were played at the same time—one through the old style nozzle and the other through the new one. The water was thrown twenty-two feet further through the latter than the fermer. Upon the trial of a single stream, with the same amount of steam pressure, twenty-six feet were gained in favor of new nozzle. The nozzles were equal in diameter.

GREETING A NEW PASTOR .- A genial and most cordial reception was given to Rev. Anthony Atwood, the pastor of St. Pan's Methodist Episcopal Church, on Tuesday evening last. The parsonage was filled to its utmost capacity by the members and friends of the church. The generous greeting of the congregation must have been exceedingly agreeable to the gentleman, as well as an indication of his future success among them. After the general congratulation, the company sat down to a sumptuous repast provided for the occasion.

SCHOOL HOUSE ON FIRE.-About half-past wo o'clock yesterday afternoon, the Hopkinson school house, at Rising Sun, under the super vision of Mrs. E. M. Janney, accidentally caugh fire in the third story, but nothing of any value was destroyed. There was the greatest conster-nation among the pupils; but, through the coolless of the teacher, many were prevented from jumping out of the windows-and the entire class was dismissed without accident to any one.

ALEXANDER J. HARPER,

WILLIAM BERGER.

WILLIAM L. HIRST, ESQ.

The Land of this Company consusts of about 120 Acres, in a ecklenburg county North Carolina, about 35 miles from the town of Charlotte.

On this property Effect shafts or pits have been opened and anak to various depths, from 10 to 85 test, demonstrating the existence of three parameters, converging to a come on centre at the depth of about 15 test apart, converging to a come on centre at the depth of about 150 test, forming one immense mass or vein of ore, extending in longth through the property more than hair a mile. There are also on this property other venus of ore unexplored all these ores are known as the Brown Ores, and are very rich, yielding an average of about 2500 per ton in gold, the above results having seen demonstrated by the rude working of the mines for several years past, the risk of investment in undeveloped property is not incurred, and by the application of modern mining and requeing machinery the Company anticipate an immediate and large return for their money.

Having an ore that readily yields \$200 per ton, some estimate can be made of the value of his property. With the present imperiect system of mining, ten tons of this ore can be taken out and reduced daily from every shart opened, at an expense not exceeding \$25 per ton leaving a net daily profit of \$1750 for each shall worked by the Company

The large working capital reserved will enable the Company at once to procure and erect the best modern machinery for manipulating the ores, by means of which the yield will be la; gely increased.

These mines, whilst they produce ores richer than those of Colorado or Nevada, have many advantages over them, particularly in an abundance of use and cheap labor, and the facility with which they can be worked during the entire year; whilst those of Colorado and Nevada can only be worked during the warm weather.

A test assay or an average [specimen of the ore from the Carson Mines was made as late as the 27th or January or the present year, as will appear from the fol-lowing certificate of Floiessors Booth and Garrett, the Assayers of the Philadelphia Mint:—

PHILADRIPHIA, January 27, 1866

Dear Sir:—We have careiully assayed the sample of ore from "Carson Mine," North Carolina, and find it to yield ten ounces nine pennyweights of pure gold to the ten of ore. The coin value is therefore \$216.02 per ton of ore. Yours, respectfully.

Dr. M. B. Tatlor, No. 404 Walnut street, Philad.

Subscriptions to the Capital Stock will be received at the Office of the Company, No. 407 WALNUT Street, where samples of the ore may be seen, and full informa-tion given.

Philadelphia FRENCH MEDICINES IN VOGUE BY GRIMAULT & CIE.,

Chemists to H. F. H. Prince Napoleon, 45 RUE RICHELIEU PARIS.

NO MORE COD LIVER OIL.

GRIMAULT'S SYRUP OF IODIZED HORSE-RADISH.

This Syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is minitely superior. It cures diseases of the chest, scroftia, lymphacic disorders green sickness, muscular atony, and loss of appetite. It regenerates the constitution by puriving the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowels, and is administered with the greatest efficacy to young children, subject to humours, or obstruction of the glands. At last, it is very efficacious in the diseases of the skin.

NO MORE CONSUMPTION.
GRIMAULT'S SYRUP OF HYPOPHOSPHITE
OF LIME.
This new Medicine is a sovereign remedy in phthisis
and other diseases of the lungs promptly removes all
the more serious symptoms. The cough is relieved, the
night-sweats cease, and the patient rapidly recovers his
bailth.

NO MORE POVERTY OF THE BLOOD AND PALE COMPLEXION.
DR. LERAS' PHOSPHATE OF IRON. This new errundnous medicine contains the elements of the blood and bones, and from in a liquid state It is different from all histerto offered to the public, is liquid, co oriess, frad tasteless. It speedly cures chlorosis pains in the stomach, difficult direction, dysmeoorrhom

The majority of the Academies of Medicine of Paris The majority of the Academies of Medicine of Paris recommend the phosphate of Iron to Ladies of delicate constitution suffering from anomia, and all other persons fatigued from over anxiety, nervous emotions, overwork general debility, and poorness or blood.

It is the only preparation which never causes constipation, and can be borne by the most delicate stomachs. NERVOUS HEADACHE, NEURALGIA,

GRUMAULT'S BRAZILIAN GUARANA, a vegetable substance used from time immemorial Brazil, and entirely mofension. BETTER THAN COPAIRA!!
GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS.
Where all other Medicines have falled, these preparations wij, always effect a cure. These insure a rapid and extraordinary cure of severe recent and chronic cases of the second contract of these and the blooming in the second contract of these areas and the blooming in the second contract of the second con

private disease. They are used in the Hospitals in Paris, by the celebrated Dr. Elcord and are found greatly succeptor to all hitherto known mineral remedies and Copatha and Cubets. The Injection is used in recent, and capsules in the more chronic cases. GENERAL DEPOTS: In Paris, at GRIMAULT & Cie., Chemists to H. F. H. Prince Napoleon, 45 RUE RICHELIEU. In New York, at T. M. BECKER'S.
