CITY INTELLIGENCE!

For Additional City Intelligence see Eighth, Page.]

AMERICAN UNION COMMISSION OF PENN STLVANIA AND NEW JERSEY.—For the encouragement of the friends of the above-named Commission, and likewise for the purpose of showing the citizeus of the two States the admirable adaptation of this work to the end for which it was established, viz.:—in intering to the poor, educating the ignorant, improving the morals, and better-ing the country, it is doing as much, if not more with the funds entrusted to it, than any other organization laboring in the South we give below an extract from the monthly report of the Rev. Frederick Ayres, Agent of the American Missionary Association, halbring in Atlanta, Ga. He says:—"In closing my report, I cannot for bear speaking of one of the noblest charities of the age and day. I allude to the Tree Schools, for the destitute white children, now in full operation here, sustained by the beneficence of operation here, sustained by the beneficence of the American Union Commission of Pennsyl-vania and New Jersev, and under the efficient superintendence of Mr. E. B. Adams, of Ponse-fret, Vermont. Mr. Adams has secured the full confidence of the citizens, and the hearty co-operation of leading men, and also the out-spoken commendation of the press. There are already four schools, with four lady teachers, with an aggregate of three hundred pupils, and many more anxiously awaiting admittance. "Mr. Adams has just built a good sized, plain,

"Mr. Adams has just built a good sized, plain, substantial house for the two schools, and has now under contract for building another 20 by 50 feet, which will be ready in ten days. The scholars have both tuition and books gratutously furnished; and such also, as are in quite destitute circumstances are supplied with clothing from boxes sent on by the Society, and distributed by Miss H. N. Phillips, matron of

Mr. Adams and two of the teachers are board-

Mr. Adams and two of the teachers are boarding at our Home. They are known to sympathize with us in our work, and we in theirs, and that we bit them Godspeed in their humane, patrotic, and Christian work.

"This kindly charity of the true friends of the freedmen towards the destitute, ignorant, and dependent of our own race in the South, has a strong tendency to allay and disarm prejudice segment us as teachers, and the colored necodes. against us, as teachers, and the colored people as the recipients of favors. We do regard the establishment of these schools as having a most happy and beneficial influence in favor of our work among the freedmen."

With such an indorsement as this, the American Union Commission should receive the sym-pathy and the support of every true friend of humanity, and every ardent lover of his country.

The officers are:—President, Samuel V. Merrick; Vice-Presidents, George G. Meade, Major-General U. S. A.; Joseph Parker, Esq., Secretary, No. 1210 Chesnut street; Samuel Work, banker, No. 36 S. Third street,

THE HOUSE OF INDUSTRY,-The annual meeting of the Board or Managers of the Phila despais Society for the Employment and In struction of the Poor was held yesterday after noon, at the House of Industry, Catharine street, above Seventh. Vice-President Rowland occupied the chair. The Board of Managers submitted their nineteenth annual report of the operations at the House of Industry for the year ending March 31, 1866. We give the following important extracts from it:-

The number of persons received as inmates during the past winter has averaged 90 monthly. They receive board and lodging, and as often as possible assisted in getting situations. No in-toxicated persons are admitted. About onethird of the number received were women. Some of those received were discharged from prisons. As usual, a large amount of transient aid is given at the door to many who do not be-come inmates. Breakfast of bread and coffee, clothing, etc., are given, of which it is difficult

to keep an exact account.

The whole number of persons admitted as inmates during this year amounts to 767; these received board and lodging, staying about six days; in addition to this, the children of the industrial school obtained dinner at the During the winter many of those received were colored soldiers from Camp Cad-walader, others were waiting for their back pay, several were sent by General Howard from the freedmen's camp at Washington, under charge of an officer. In a majority of cases they obtained situations, and wherever heard from are reported to be doing remarkably well,

and giving good service to their employers.

The large majerity of the immates, however, were white; many were sent by the St. George and Albion English Societies, by the Swiss Consul, and by the Christian Commission.

But a part of the operations of the society is represented by the 767 persons received as inmates. During the winter 259 persons, applying at the door, have been furnished with meals: 1900 dinners have been given to the industrial school children, thus making, including in-mates, a total of 6864 single meals furnished; 3435 rights' lodging, and 6662 baths given to immates, patients, and calldren belonging to the two schools held in the building. From 10 to 12 gallons of soup have been made and distributed dally during the winter, and since the first of the year an average of 150 loaves of bread, weighing five pounds each, have been baked in the house weekly. An industrial school for colored children, sustained independently of this society, continues in the free occupancy of several large rooms in the house. It is believed to be of great benefit to the large colored popul lation of the vicinity, and is satisfactorily taught by colored teachers; 114 names are on the roll-book; the average attendance is 75. 3120 baths have been given, 101 garments distributed, and

141 pairs shoes. The dispensary has been in active operation during the year, giving medical advice, medicines, and the kine of food necessary in sickness. The report concludes as follows:—

Notwithstanding the most economical use of the means entrusted to their care, the managers regret to state that owing to the high price of provisions and materials of all kinds necessary for carrying on the operations of the House, their funds are entirely exhausted, and, as will appear by the report, the treasury overdrawn. In view of this condition of their finances they are compelled to appeal to the public, who have under their charge, for further subscriptions and contributions in order that the usefulness of the Movemensing House of Industry and its comitant charities may not be curtailed during the coming season. Donations of Slothing, provisions, and household stores of all kinds will be thankfully received at the House, Catharine street, above Seventh, or be sent for by the

The report of Wistar Morris, Esq., Treasurer, showed that the receipts during the year ending March 31, 1866, were \$3141'09, and the ex-penditures \$3207'56, leaving a balance due the Treasurer of \$66.47.

The election of officers resulted as follows:— President, David Scull; Vice-Presidents, John Kelley and Charles J. Bowland; Recording Secretary, Charles P. Perot; Corresponding Seeretary, Joshua L. Bailey; freasurer, Wistar Morris. The Board of Maungers is the same as inst year, with the following additions;-Mrs. Eliza Canby, Charles Elchardson, H. Chifford Smith, and Jonathan Evans.

RAILWAY EXTENSION .- The Chesnut and Walnut Streets Passenger Factory Company are now making preparations for the extension of their railroad on the west side of the Schnyl-kill. A double track is to be laid on Chesnut street to Forty-second street, and the work will be completed in time to place the cars on the road as soon as the Chesnut street bridge is ready for the track. Extensive stables are to be erected at the new terminus of their read, when those now used, on Cleanut street, will be

RECEIPTS FROM TAXES-The following statement shows the receipt from taxes from April 2d to the 7th. both reclusive: April 2d, \$23,568 16; 3d, \$18,249 39; 4th. \$15,571 02; 5th, \$19,522 62; 6th. \$14.104 44; 7th, \$12,811 62; making a total of \$94,927 25. The receipts are larger than at the same period last year, but still they are not so great as they should be, considering that tax-payers are still allowed at the rate of one per cent, a month for prompt

THE EASTERN PENITENTIARY-ANNUAL REFORT.—We have received a copy of the thirty-seventh Annual Report of the Inspectors of the State Pentientiary for the Eastern District of Pennaylvania, as presented to the Legislature of this State. The report states that the whole nnumber is confinement during 1865 was 582, of which there were 230 white males, 9 white females, 4 mulatto males, 3 mulatto temales, and 11 black males received; and 137 white males, 12 white females, 6 mulatto males, 2 mulatto males, 13 white females, 6 mulatto males, 2 mulatto 13 white females, 6 mulatto males, 2 mulatto females, 5 black mules, and one black female discharged, leaving in the Penitentiary on the 31st December, 1865, 418 prisoners, of which number 307 were white males and 14 white ie-males; the remainder were colored.

Of the whole number in confinement during

the year, 110 were discharged by expiration of sentence, 44 were pardoned, 9 died, and 1 by revocation of sentence. Of the number received, 138 were 25 years of age and under, and of these 117 were unapprenticed, 11 apprenticed and left before serving out their apprentice-ship, and 10 served out their term of handicraft

Of the whole number received, 49 were illiterate, and 208 were instructed in the rudiments of an ordinary education; 153 of the number were lately in the army. The average of the sentences for 1865 was 3 years and 23 days, while in 1864 it was 2 years, 5 months and 5

The number of the received convicts last year

convicted of crimes sgainst persons was 29, and for crimes against property 228.

On the 22d of February, 1866, there were 470 prisoners in the Penitentiary, showing a large increase since the beginning of the year over the number in confinement at that period last year. The Inspectors state "that if this increase continues during the present year, there will not be sufficient accommodations for their reception. It will then become necessary to build another corridor of cells. The total number of cells is 500. Of the prisoners received in 1865, the Moral Instructor reports that 83 per cent, spent their time in idleness, gambling, or dissipation, and 17 per cent, were 'weil raised,' and passed their evenings at home." The Moral Instructor made 4866 visits to the prison population during the year, and convicted of crimes against persons was 29, and home." The Moral Instructor made 4866 visits to the prison population during the year, and the number of lessons given for secular instruction by the teachers w a 4635. There were also 12,304 distributions 65 books from the

ibrary, and 6956 pages of tracts distributed. Out of 582 convicts last year, there were only 9 deaths, and of these 5 were fatally diseased on admission. Of the 3483 prisoners received for a period of 22 years, 134 died, or 3 84-100 per

In closing the report, the Inspectors say that the interest excited by this institution in the public mind continues unabated. Visitors from all parts of the world, and large numbers from our own country, pass through the Peniten tiary. During the past seven years, 75,785 visi-tors have been admitted. This number does not melude those who are permitted to see prisoners under existing regulations,

AFFAIRS AT THE NAVY YARD .- An auction sale of condemned tools, hardware, planing machines, hawsers, lamps, paints, etc. etc., took place at the Navy Yard yesterday, under the supervision of Lieutenant-Commander Edward Hooker, United States Naval Storekeeper. The articles were sold for the Bureaus of Equipments and Recruiting, Steam Engineering, Construction and Yards and Docks, and were divided into thirty-six lots, all of which realized fair

The monitor Miantonomah was ordered to proceed to an anchorage off the Navy Yard, last evening, and is very probably at anchor there this morning. The officers of both vessels state that on the trip from Fortress Monroe the Miantonomah outsailed her convoy, the De Sole, considerably, and proved herself to be a most

considerably, and proved herself to be a most excellent seagoing vessel.

Great activity is manifested in overhauling and fitting out for service a number of vessels laid up at the Yard. The Lackawanna is nearly ready, and it is said that she will proceed to sea in a few weeks. The Pensacola is to be fitted out as rapidly as possible as a magship, but her destination is as yet unknown, and several other vessels are being bushed torward with rapidity. vessels are being pushed torward with rapidity. The gunboat Idaho proceeded down to the lower bay, and was engaged there all day yesterday in trying her machinery. It is said that it work and that she will attain a high rate of speed.

EXTREMELY FILTHY .- The cells at the Central Station, corner of Fifth and Chesnut streets, are uncommonly filthy. About the middle of last December the pipes for carrying off the refuse matter from the cells became choked up, and since that time it has been allowed to accumulate. The stench arising therefrom is terrible, and is growing more noxious daily. The attention of Councils called to the fact some time ago. The Police Committee paid the cells a visit about three weeks since, examined them thoroughly, and after a few moments' consideration pronounced them a nuisance of the worst description Hopes were entertained that the matter would receive immediate attention, but nothing whatever has been done. The city should certainly set an example in view of the appraching epidemic, which has already reached the shores of this continent. Immediate action in the case is demanded by those who are com-pelled to visit the locality daily, as well as those who are so unfortunate as to be confined over night in the death-dealing pest-holes of the

PHILADELPHIA TO ST. LOUIS,-The St. Louis papers are describing the contributions to a Fair in that city, got up upon an expensive scale, for the benefit of the "Biddle Market Mission," an institution akin to that of the Bedford Street Mission, of this city, or the Five Points Mission, in New York. It describes as among the contributions a huge coll of steamboat rope 900 feet long, and weighing 1100 pounds, the of Messrs, Fitler, Weaver & Co. delphia. It describes the coil as the handsomes ever seen in the country. The Managers of the Fair baye "put it up," to be voted for (as in tals city we put up fire horns), by the friends of the different steamboats upon the Mississippi. The coil is described as looking like a spool of cotton, greatly magnified, and of surpassing excel ience of finish. The various crack steamers upon the Mississippi have their admirers, just as team fire engines have. The rope or haw about \$600 to manufacture. It will doubtless not a considerably larger sum, considering the manner of its intended disposal.

DEATH WHILE UNDER THE INFLUENCE OF CHLOROFORM.—Mrs. Latinia S. Lister, wite of Thomas S. Lister, whose residence is on Fourth street, above German, went, in company with a female acquaintance, yesterday afternoon, to the rooms of Mr. Slack, dentist, to have teeth extracted. Being delicate, and fearful that she would suffer much from the operation. she requested Mr. Slack to administer chlor form, which he did, in a quantity, as be thought suited to the physical condition of the lady. He was proceeding to extract the teeth, when the patient was observed to be in spasms. As effort was at once made to restore her to con-scionsness, but though all proper means were used, it was unsuccessful and she died in a few minutes. The Coroner was summoned to hold me inquest on the body, and, after making the necessary preparations, postponed the investiga-tion until to-day, Mrs. Lister was thirty-eight veers old.

VALUABLE IMPROVEMENTS. - A large number of valuable improvements are to be made the present season in the Twenty-fourth ward. Among those already commenced we notice the following:—Five brown-stone front dwellings at Fortieth and Chesnut streets; six first-class dwellings, with side yards, at Tairtyminth and Chesnut, four of which will be on Chesnut and two on Thirty-ninth street; three the stores on Market street, west of ny first class dwellings on Spruce street, between Forty-first and Forty-second streets, nearly finished. Work has also been commenced on niteen fine dwellings on Spruce and Pine streets, in the same vicinity.

More Foreign Faurr.-The brig Potosi, which arrived at this port vesterday, from Messins, brought, with Jother articles, 1000 boxes lemons, and 4300 boxes oranges.

HEAVY LARCENY BY A DOMESTIC .- A tall, light-complexioned woman, aged about thir's years, giving the name of Mary Elizabet Connelly, was arraigned yesterday atternoon, upon the charge of the larceny of clothing and lewelry valued at about \$600, the property of Mrs. Ancila Taylor, residing at No. 1544 North Eleventh street. It appears that Mrs. Taylor advertised for a domestic on Thursday last, and Mary presented herself as an applicant and was employed. In the atternoon she accompanied Mrs. Taylor to the house into which she was noving. About 7 o'clock in the evening, Mrs. Mrs. Taylor to the house into which she was moving. About 7 o'clock in the evening, Mrs. Taylor left Mary in charge of the premises. An hour after, she returned and found that her newly engaged servant had left the house, taking with her a handsome set of jewelry, a valuable set of furs, several articles of wearing apparel, etc. Information of the robbery having been left at the Central Station, the metter was placed in the hands of Detective the metter was placed in the hands of Detective Officers Levy and Tryon, who succeeded in accresing the accused on Monday morning, while in the act of attempting to pawn the jewelry in South street, near Seventh.

She acknowledged her guilt, and stated where the balance of the stolen property could be found. The officers accordingly proceeded to a house in Front street, near Shippen, and recovered the articles in the artic, together with a large number of pawn tickets, casting for clothing, levelr, etc. She further stated that she had formerly been employed as a domestic in the house of Dr. Atkinson, in Spruce street, above Second; also in the family of Mrs. Welsh, and that had a taken warmed. that she had stolen several articles from each place. Besides the families above named, the accused said that she had lived with several other fersons, but could not remember their names, and in each and every instance had robbed her employers. It would be well for persons who have had such an individual in heir employ to be present at the final hearing which will take place on next Friday afternoon at 2 o'clock, at the Central Station.

John Connelly, whom the accused alleges to be her husband, was also arrested upon the charge of being an accessory to the fact. On Saturday last he made several ineffectual attempts to pawn a portion of the lewelry stolen by his wife department. by his wife, demanding \$00 advance in one in stance, and \$100 in another, for it. The accused were held in \$3000 ball each to answer, by Alderman Beitler.

POLICE ITEMS .- H. B. Plate had a hearing at the Central Station vesterday, on the charg of setting fire to his tobacco and cigar store, No 10 South street, on the morning of the 28th o March, with intent to defraud the Kensingto insurance Company. The testimony was to the effect that the fire when first seen was coming from the store of the defendant, and that after it had been extinguished not a vestige of stock could be found, except a paper of tobacco; that Mr. Plate first stated his loss to be \$1300 to the secretary of the Kensington Insurance Company, and afterwards presented a written statement, in which the loss in the aggregate amounted to \$313.15. It was further testified to that in a bill of goods made out by a dealer in cigars and tobacco, of whom the accused for merly made his purchases, the date of one purchase was altered from October to March, at his request. To the officer acting in place of Fire Marshal Blackburn he stated that he went home on the night of the fire at cleven o'clock, but a witness testified that he was in a larger beer shop in the neighborhood of the store till after twelve o'clock, and until within a ew minutes of the breaking out of the fire. The dwelling part of the house was occupied by Adolph Indig, clothier, who also occupied the store of No. 312. and his family made a narrow escape. There is an insurance of \$1000 on the stock and fixtures of Mr. Plate. He was committed to answer at the present term of the Quarter Sessions.

ALLEGED RIOTERS, - Seven men were ariested on Sunday upon the charge of rioting. It appears that a number of fire companies were returning from a false alarm, in the southeast-erly part of the city, at an early hour on Sunday morning. On reaching the corner of Second and Reed streets a number of 'men, who are said to be adherents of the Weccacoe Engine, Shiffler and Niagara Hose Companies, got into a row. A running fight was kept up along Second street; bricks and other missiles were used. At Queen street the Second District Police interfered, and arrested seven of the alleged rioters. They were held in the sum of one thousand dollars each to answer by Alderman Tittermary.

HIGHWAY ROBBERY .- Two men were arraigned yesterday morning upon the charge of having assaulted and robbed Thomas Burke, at an early hour on Sunday morning, near Sixth and Shippen streets, but were discharged to want of testimony to connect them with the cifense.

CHILD STRANGLED .- The Coroner held an inquest yesterday on the body of James Nugent years old, who, while playing with a bu got it into his throat and was strangled. Death resulted in a few minutes. The parents of the child reside at No. 1821 North Second street.

ACCIDENT.-Frederick Sheppard, aged eight years, residing at Twenty-lourth and Coates streets, fell off a sofa yesterday afternoo-and fractured his left shoulder-blade. The little offerer was admitted into the Pennsylvania Hospital.

Missing .- A man named Tracy, recently mustered out of the army, left his home in the Twenty-tourth Ward about two weeks ago, and oothing has been heard of him since. His tamily are in great distress.

FIRE.-A fire broke out in the picker-room at Burtis' cotton factory, yesterday, which was arrested before it had made much progress.

LIQUORS.

CHESNUT GROVE WHISKY.

No. 225 North THIRD Street. If anything was wanted to prove the absolute purity or this Whisky, the following certificates should do it. There is no alcoholic sumulant know a commanding such occurrencetion non such high sources:-

We have careagily tested the sample of CHE-NUT GROVE WHISKY which you send us, and find that it centains work of the rolescore substance known as resil. Oil. which is the characteristic and injurious ingredient of the whiskies in general use.

BOOTH, GARRETT & CAMAC.

Analytical Chemists.

NEW YORK, September 3, 1858.

I have spalyzed a sample of CRESNUT G OVE WHISKY received from for charles Wharton Jr., of Philosophias; and having caretulty tested H, I amplessed to state that it is entirely frame from Formonous OR PRINTERIORS substances. It is an unusually pure and fine-flavored quality of whisky.

JAMES R. CHUITON, M. D.,

Analytical Chemist. Boston, March 7, 1859.

Boston, March 7, 1809.

I have made a chemical analysis of commercial samples of ChESNUT GROVE WHISKY, which proves to be free from the heavy Fush Ons, and perfectly pure and unsadulerated. The fine flavor of this which y is derived from the grain used in manufacturing it.

Respectfully, A. A. HAYES, M. D. State Assayer, No. 16 Boylaton street. For sale by barrel degallohn, or bottle, at No. 226 North
