## MATTERS OVER THE RIVER.

STREET CLEANING.—The following were STREET CLEANING.—The following were the propositions for cleaning the sure is of Camden, recently made to Council: David Croevy, \$450; Charles O'Neil, \$600; John Mediouchlin, \$700; Johnaha Kurgbrids Jr, \$456; J. H. Wood, Jr., \$565; Campbell & Brother, \$840. These gentlemen bring the lowest bidiers, of course received the contract, and have set themselves to work in earnest in cleaning the streets. This is as it should be, for the rapid approach of hot weather, and the near approach of the choters, demand that all the streets shall be kept clean and disconcumbered of garbage and offid.

TOWNSHIP STATEMENTS .- By a law passed by the Legislature of New Jersey a year ago, town-ship clerks are obliged to publish full statements of the receipts and expenditures of their respective townships, under a penalty of a fine of fity dollars. This is a good law, as it will enable the tax paverato ascertain what Decomes of the money raised for the public use.

TO BE MUSTERED OUT,-The friends of the members of the Thirty-fourth New Jersey Vol-uniters, many of them being from Camden city and county are anxiously awaiting their arrival home. They are on their way higher for the purpose of being mustored out at Trenton.

DIRECTRORS' MEETING .- The annual meeting of the stock holders of the West Jersey Railroad will be held on the first of May, in Camden, at which

THE GIRARD ROW .- It is within the recollection of many of our citizens when the fine row of buildings in Chesnut street, between E eventh and Twe fth streets, had no existence; but the lot itself was surrounded by an unattractive board fence. Our great model merchant, Soph n Girard, was then its owner. When the fine residences were erected, many prophesical that they were too far from the trade centre of the city ever to be very profitable; but as business has pradually crept westward, folbut as business has pradually crept westward, following the star or empire, these costy mansious have been demanded by the devotees of Mammon, and already two have been wrested from privacy and converted into splendid mercantile establishments. One will shortly be opened by the Schomaker Prane Forte Company, and Mr. J. H. Schomaker and H. H. Gray pride themselves upon the fact that they will eclipse in magnificence any similar establishment in the country. There will here be ample room to display the fine instruments of the Company. The other store, which is approaching completion, will be occupied by Mr. Mitchell, the well-known confectioner, and will be a first-class establishment in every particular. first-class establishment in every particular.

first-class establishment in every particular.
At the expiration of the current leases other changes will be made. Rumor affirms that a portion will be converted into a grand art gallery, and that a first-class concert hall will be constructed. The retail business is steadily marching up Chesnut stress, and in a short time it will be a continuous avenue of stores, from the Delaware to Broad street. As an indication of the prosperity of the city, the

FAIR IN AID OF THE HOME FOR LITTLE WANDERERS,—On Monday evening a public Fair will be opened at No 2:18 Green street, in aid of the above-named institution. The display will be worth seeing, and we trust that the residence will be properly "warmed" with patronage during the week. Rev. Mr. Siegfried, Dean of the Home, will have the "Little Wanderers" at the Fair three evenings during the week, to sing and otherwise entertain their triends and patrons. Longitupe of more green. riends and patrons. Donations of money, groce-ries, fancy goods, and any attractive and salable articles are earnestly solicited for the Fair, and may be sent to the care of Mrs. Astson or Mrs. Gardner, No. 2118 Green street. We hope our friends will do all in their power to assist these and other lady managers to make the affair completely successful.

THE WEATHER.—The vernal breezes are after to day, and Chesnut street is a moving mass of humanity enjoying the pleasures of the promenate. The suggestively cool attire of the adies, and the natty appearance of the beaux recalls to our remembrance the fact that solsticial leafs are close noon us, and that Atlanuc City, Cape May, and the choicer, perhans, may be expected accor. The sate of the content dry goods clerks were driven to the verge of distrac-tion by the throngs of beauties preparing for a change of cestume, and purchasers of spring mate-rial. The air, though some wha heated, is delight-ful, and every body seems to enjoy it. We congratu-late "etherial mildness" upon his sudden but most we come arrival we come arrival

WHERE SOME STOLEN MEAT WAS DISCO-WERED.—Yesterday atternoon a man named Henry Wilhams, who resides at No. 1204 Parrish street, was arrested on the charge of receiving stolen goods. It appears that yesterday morning Mr. Borsfl's butcher shop, on Thirteenth street, near Mount Vernon, was entered by cetting in the back way, and a quantity of beef, valued at \$300, was stolen. A horse and wagon, belonging to Mr. Boreff, was stolen at the same time, and the meat carried off in it. Subsequently the stolen meat was discovered in the posbeing able to give a very satisfactory account of how he came into possession of it, was held in \$1000 bail by Alderman Cloud for a further hearing.

A ROBBER AND WOULD-BE MURDERER.-Last evening a desperate character named William McGinlev robbed a woman of two dollars, in a low drinking establishment, at Front and Dock streets. The woman discovered her loss, and accused McGinley of robbing her, when the fellow pulled out a Gilley of robbing her, when the fellow pulled out a pistol, and fired the contents at his accuser. Fortunately the ball just grazed the woman's head, and lodged in the wall. McGinley was at once arrested. He subsequently proved to be a hard case who robbed a man on Front street some time back, and the police have been on the lookout for him ever since. Alderman Butter committed him in default

SUSPICION OF LARCENY .- A girl named Kate Russell, who belongs to that class of so-ciety known in certain circles as "temale bummers," was arrested last evening in the not very aristocratic neighborhood of Seventh and Bedford streets, having in her possession two rolls of rag-carpet. Not being able to give a very satisfactory account of how she became possessed of said articles, the inference was that she stole them. Acting under which belief Alderman Tittermary committed Kate to prison.

DEATH OF AN ESTIMABLE CITIZEN .-Mr. Edmund Brewer, a well-known resident of the Seventeenth Ward, died of consumption on Thursday evening. He was especially a favorite among a host of friends, in whose company his genialty was marked He was an exemplary and honored Past Master of Lodge No. 8, Ancient York Masons; Past Chief Patriarch of the Grand Encampment I. O. of O. F. of Pennsylvania; Secretary of Purity Lodge. No. 325, I. O. of O. F., and a member of the School Board of the Seventeenth Section. The funeral will take place on Tuesday afternoon.

ARREST OF A SUPPOSED FORGER.-A man who gave the name of William Foster was arrested at Second and Race strees, yesterday evening, under very suspicious circumstances. He had in his possession about \$20,000 worth of checks, bonds, etc. possession about \$20,000 worth of checks, bonds, etc. He undertook to self a number of coupons of the Cape May and Milville Railroad for \$2 apiece, when it is stated that the par value is \$15. The checks bonds, etc., found in possession of the defendant were drawn on Checimati and other cities. It is shrewdly suspected that the checks and bonds are forgeries. Alderman Hurley held Foster in \$2000 for a turther hearing.

A FEMALE THIEF.-Margaret O'Brien is a pedder, and last evening she went into a grocery store on Treaton avenue, and while the back of the proprietor was turned she attempted to rob the money-drawer. She was seen. however, when she ran out of the store and into the one next door. Margaret was taken before Alderman Cloud, who held her in \$400 ball to answer.

DEFACING PROPERTY AT FAIRMOUNT PARK.—Yesterday afternoon four young men were arrested in Fairmount Park, charged with defacing the public property there, by cutting their names, etc., on the summer-house. The arrests were made by Officer Thorn, of the Park Police. Alderman Massey held them to bail.

Astonishing as these prices may seem, compared with those to which we have been accustomed for several years, they are not fictitious—toe have the goods in quartities, at the prices mentiored. We make no no trash—they are all serviceable good. Advarcing from these rates we have goods of all grades, no to the very finest rabrics, comprising by far the largest and most complete assertment of Clothing in Philadeiphia; men's, youths' and boys', surrowsed by nove, and equalled by iew, in style, make and fit, at prices guaranteed lower than the lowest elsewhere, or the money refunded.

To Clothing a Our purchases for this season.

To CLOTHIERS - Our purchases for this season having been delayed, waiting the expected decline in goods, we have now on hand the largest and bestamorted stock of Clothing in Philadelphia, purchased for cash exclusively, at the very lowest rates of the season, which enables us to realize a fair profit and sell at prices less than the cost of same goods in most other establishments We can supply clothiers doing a fine city trade, with goods adapted to their sales, at prices so much lower than the cost of their present stocks, that, by making an average of the whole, they will be enabled to dispose of their goods at prices covering the average cost, and even paying BENNETT & CO. a profit. CONSTITUTIONAL CONSUMPTION. - From trustworthy data it has been estimated that at least onefourth of all who are born in the United States have at birth lungs in a tuberculous condition, and in consequence are predisposed to Pulmonary Complaints; yet it is equally well established that this predisposition need not end in Consumption, Asthma, or any other Lung Disease, if due care and watchfulness be observed, and all exciting causes are promptly treated as they arise. It is in just such cases Dr. Jayne's Expectorant exercises the most beneficial effects, and has produced the largest proportion of its cures. Besides promptly removing Coughs and Colds, which, when left to themselves, are the most common cause of tuberculous development, this standard remedy allays any inflammation which may exist, and, by promoting easy expectoration, cleanses the lungs of the substances which clog them up, and which rapidly cestroy when suffered to remain. Prepared only at No. 242 Chesmut screet.

"Lyon's KATHAIRON."-The gem of every lady's toilet, the most dehen ful hair dressing in the world
it cradicates scerf and dandruff.
it keeps the head cool and clean.
It makes the hair rich, soit, and glossy.
It prevents hair from turning grey.
It keeps it from falling off.

It restores it on prematurely hald heads. No wonder it has a world-wide reputation. JOHN LOCKE once encountered a blind man who took his idea of scarlet from the sound of a trumpet. On that philosophy, why may not a dear man be reminded, on seeing a loop skirt banging out at the door, of the peal or a boile? And while on the subject of dress and undress, we must refer to the band-ome assortment of Spring Clothing at Charles Stokes & Co.'s under the Continental, for both dress and undress occasions. Lipe, and How we Neglect It—Incusands of persons are now suffering from Catarrh. Throat, Lung, and Chest affections, or arom some disease of the organs of respiration and circulation, or diseastive orashs, which, however slight it may appear at first, will, if neglected, become serious. The means of restoring those organs to a healthy condition is now within their reach. The testimony of the most sminent physicians, and the medical prossof Europe and this country, show that the system introduced by Dr. Von Moschen, ker, of this city, will undoubtedly reach the very seat of the disease and cradicate it. This "Atomizer" is a most valuable and complicated apparatus, and all who have examined it and witnessed the mode of application, have, with wonder and astonishment, acknowledged it to be of the most ingenious construction and utmost value for the pecual treatment of those malades. The Land or this Company consists of about 120 Acres, in a eckienburg county North Carolina, about 53 miles from the town of Charlotte.

On this property fir een sharts or pits have been opened and sunk to various depths, from 10 to 80 feet, demonstrating the existence of three parametrisms of ore of about 15 feet in width and about 15 eet apart, converging to a common centre at the depth of about 150 feet, formto a comm on centre at the depth o about 150 feet, forming one immense mass or vein of ore, extending in tength through he property more than half smile. There are also on this property other veins of ore unexplored with these ores are known as the Brown ores, and are very rich yielding an average of about \$200 per ton in gold the above res wits having seen demonstrate aby the rude working of the mines for several years past, the risk of investment in undeveloped ore perty is not incurred, and by the application of modern mining and recurring machinery he company anticipate an incident and arge return for their money.

Eaving an ore that results yields \$200 per ton, some Baying an ore that readily yields \$200 per ton, some estimate can be made of abevalue of his property. With the present imperiect system of mining ten tons of his ore can be taken out and reduced daily from every shart opened, at an expense not exceeding \$25 per ton, saving a net cally profit of \$1750 for each shaft worked by the Company

The large working capital reserved will enable the Company at once to procure and erect the best mode, of machinery for manipulating the ores, by means of which the yield will be in gely increased.

These mines, whilst they produce ores richer than those of Colorado or Kevada, have many advantages over them particularly in an abundance of fuel and chesp labor, and the facility with which they can be worked during the enthey car; whilst to see of Colorado and Nevada can only be worked during the warm

weather.

A test assay of an average ispecimen of the ore from the Carson Mines was made as late as the 27th of January of the present year, as will appear from the following certificate of Professors Booth and Garrett, the Assayers of the Philadelphia Mint:

MEDICAL PLECTRICITY

Wonderful Scientific Discovery.

DR. S. W BECKWITH'S ELECTRICAL INSTITUTE,

No. 1220 WALNUT STREET, For the Treatment of Acuse and Caronic Diseases,

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain mucous and serous membranes, the skin. tissues, and flu'ds, constitute the negative and positive torces. Every ection, whether mental or physical, is the result of these antagonistic forces. Digostion. respiration, circulation, secretion, and excretion are due solely to 1 lectrical influence. There is a polar action estab ished throughout the nervous system which connects with every part of the body, establishing and preserving a preper ba ance of the electrical element, which constitutes health, and a disturbance of which causes disease. There are strictly but two concitions of ofsease—one of inflammation, or positive; the other weak, debilitated negative; and as Electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper healthy action,

We do not wish to convey the impression that we

cure all diseases in all conditions. We cannot cure consumption after the lungs are all destroyed; yet we do assert, and are prepared to practically demonstrate, that bundreds of cases of almos, every form of chronic discuses, pronounced incurable by the best medical practitioners of the country, have been radically CURED, some of them in an incredibly shor time by our Electrical treatment. Its great superiority over other practice in the cure of disease is a so attested in the fact that, wi hin the past ove years over porgrams THOUSAND patients have been treated at this office. suffering from a most every form and condition of disease common to humanity, and in nearly all cases a benefit or perfect cure has been effected. Pa sy. doafness, blindness rheumstism dyspepsia, cancer, and all the old knotty diseases that are a physician's curse, as it proves his inability to eradicate, are by our scientific method comparatively easy of cure. Specimens of tumors of large growth extracted by means of Electricity alone, without pain, without the use of the knile, ligatures, or any other means, may be seen at our office by those interested Therefore, with these PACES to prove our theory and treatment of disease, we are willing to undertake any of the rollowing diseases, with every nope and prospect of success, with very many others not here enquerated :-DISEASES OF THE BEAIN AND ARRYOUS SYSTEM .-
