T. De Witt falmage, who had just finished his tourth year with falm sevengregation. Previous to commencing his discourse, Mr. Tal-mage made a short statement in reference to the condition of the church in which it appeared that during the past year there had been contributed by the congregation over the thousand dollars for re-lignous purposes. The income of the church at the present time is eighteen hundled and twenty-five dol-lars more than it was at the same date last year, and the adsident to the membership have been quiled lars more than it was at the same date last year, and the adsitions to the membership have been quive large, about fifty-cight new members having been added. They had entered the store with a skeleton ke, by way of the front door, and drilled the fire proof so skillully as to strike directly upon the bolt, which was sprung in this way. They removed a number of the books and a box contain-ing deeds and important papers, but obtained no ing deeds and important papers, but obtained no money, having been drawn away before forcing the burgiar proof where the money was. Mr. Start, who resides next door, heard them, and gave the alarm which resulted in their arrest. It is to be hoped that we are, for the present, rid of two of the numerous scoundrels with which our city is miested,

CONSTITUTIONAL CONSUMPTION. - From trustworthy data it has been estimated that at least onefourth of all who are boin in the United States have at birth lungs in a tuberculous condition, and in consequence are predisposed to Palmonary Complaints; yet it is equally well established that this predisposition need not end in Consumption, Asthma, or any other Lung Disease, if due care and watchfulness be observed, and all exciting causes are promptly treated as they arise. It is in just such cases Dr. Jayne's Expectorant exercises the most beneficial effects, and has produced the largest proportion of its cures. Besides promptly removing Coughs and Colds, which, when left to themselves, are the most common cause of tuberculous development, this standard remedy allays any inflammation which may exist, and, by promoting easy expectoration, cleanses the lungs of the substances which clog them up, and which rapidly destroy when suffered to remain. Prepared only at No. 242 Chesnut street.

A CLERGYMAN (Rev. J. McMurray). writing from Halilax, N. It by have been a great comfort. Others to whom I have recommended them have used them with advantage," For Coughs and Colds the Troches are equally efficacious. JOHN LOCKE once encountered a blind man who cok his idea of scarlet from the sound of a trumpet On that philosophy, why may not a deaf man be re on that philosophy, why may not a dear minded, minded, on seeing a boop skirt hanging out at the door, of the peal of a belle? Digestion. respiration, circulation, secretion, and excretion are due solely to 1 lectrical influence. There is a polar action estab ished throughout the nervous system which coantets with every part of the body, establishing and preserving a preser balance of the electrical element, which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of cisease-one of inflammation, or positive; the other weak, debilitated negative; and as Electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralise the disease and restore proper healthy action.

We do not wish to convey the impression that we cure all diseases in all conditions.
