POPULAR TAILORING .--

The meeting in St. Louis of the General As semblies of the Old and New School Presbyte-rian Churches, on the 17th of May next, will be an event of uncommon interest. It is seldom that two such august ecclesiastical judicatories meet in the same place at the same time; and in this case, the profound gravity of the subjects to be discussed—the question of a reunion between the two bodies, the inevitable intrusion between the two bodies, the inevitable infrasion of the Missouri Test Oath and the Rosecrans Order into the Old School body, and the propo-sition of Rev. Dr. Breckloridge for an inde-pendent consultation among the "Unio n" mem-bers of the same body—alt these will come in to lend additional interest to the proceedings. We most earnestly wish that the consultation may be harmonious, candid, and fraternal. The New School Assembly will meet in the First Presby-terian church (Rev. Dr. Nelson's), and the Old School Ascembly in the Second Presbyterian church (Rev. Dr. Nicholls'). There will be about six hundred delegates.

No. 1220 WALNUT STREET,

For the Treatment of Acute and Curouic Discases.

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain mucous and serous membranes, the skin, tissues, and fluids, constitute the negative and positive TO PROTI-CT FROM RUSTING, PAINT your metal roofing iron railings, or other metallic manufactures exposed to the weather, with stead's Weather Proof temont, which has been satisfactorily used for the past six years in the New Eng and States; as well as for stopping leaks to alkinds of roofs. Soid by the Agents, TRUMAN & SHAW, No. 835+Eight Thirty-five) MARKET SL, below Ninth forces. Every action, whether mental or physical, is the result of these antagonistic forces. Digestionrespiration, circulation, secretion, and excretion are due solely to r lectrical influence. There is a polar action estab ished throughout the nervous system walch connects with every part of the body, establishing and preserving a preper balance of the electrical element. NO. 635 (Eight Thirty-five) MARRY I SE. BOOT J O R D A N'S T O N I C A L E. JORDAN'S TONIC ALE. JORDAN'S TONIC ALE. JORDAN S TONIC ALE. It is recommended by physicians of this and other places as a "uperior icaic, and requires but a trial to convince the meet skeptical of its great merit. To be had, wholesale and retail, of P. 1. JORDAN, No. 220 FEAR Streef. Champagne Cider, by the dozen, bottled, or by the barret 2145 which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of disease-one of inflammation, or positive; the other weak, debiliated negative; and as Electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper healthy action.

We do not wish to convey the impression that we cure all diseases in all conditions. We cannot cure consumption after the lungs are all destroyed; yet we do assert, and are prepared to practically demonstrate that hundreds of cases of almost every form of chronic diseases, pronounced incurable by the best medical practitioners of the country, have been radical y CURED, some of them in an incredibly short time, by our Electrical treatment Its great superiority over other practice in the care of disease is a so attested in the fact that, within the past five years, over FOURTES TEOUSAND patients have been treated at this office suffering from almost every form and condition of disease common to humanity, and in nearly all cases a benefit or perfect cure has been effected. Pa sy, deaf ness, blindness rheumatism, dyspepsia, cancer, and all the old knotty diseases that are a physician's curse. as it proves his inability to eradicate, are by our scientific method comparatively easy of cure. Specimens of tumors of large growth extracted by means of Electricity alone, without pain, without the use of the knile, ligatures, or any other means, may be seen at our office by those interested Therefore, with these FACTS to prove our theory and treatment of disease, we are willing to undertake any of the following discases, with every hope and prospect of success, with very many others not here enumerated :-

Camden, has adopted the wise precaution of render ing its vaults douby secure by ordering one of Marvin's celebrated Burglar-proof Safes, of large size, and made in the best manner. Before its re-moval we had an opportunity of examining this splendid safe at Me.sis Marvin & Co.'s establish-ment, No 721 Chesnut street, and were forcibly impressed with its superiority over other safes in use. In this opinion we seem to be suscimed by a large number of public moneyed institutions and been supplarting their old safes by the Marvin arti-cle. That the latter approximate more nearly to cle. Fire and Burglar-proof perfection than any other safes made we have not the slightest dcubt. The safe here referred to is a magnificent specimen. The ordinary fire-proofs made by Marvin & Co. are not only thoroughly fire proof, but perfectly dry. the filling being of dry plaster, mixed with small meees of alum, herer moulding their contents or corroding the iron. This has been recently demonstrated by most satisfactory tests

"MEXICAN MUSTANG LINIMENT "-This is the most effective article ever discovered for curing quickly, safely, and permanently, sprains, sores, scratches, burns, bruises, rheums ism, or injuries of any kind, both to men and horses.
