General Beauregard-Meeting of Himself and General Joe Johaston-Goyernor Susan's Recent Letter-Political Affairs - the Consolidated Long - & Storm-The Crops

Special Correspondence of The Evoning Telegraph. BALTIMOBE, May 13.

General Beauregard, or the so-called Confederate army, arrived here this morning, and took rooms at Barnum's Hotel. He 18, I believe, on his way to Europe. Quite a large number of sympathising triends, as soon as his presence became known, called at the hotel to pay him their respects. He was soon surrounded by a crowd, and became the lion of the hour. During the Rebellion these same sympathizers often and auxiously looked for his coming to the Monumental City in triumph, with all the pomp and circumstance of war,

Fortunately for them, and all of us, they were disappointed, else at this very day, Baltimore, instead of being blessed and honored for her patriotic cenotaphs, would have stood hereelt, perchance, the monument of desolation. There would now be nowhere to give this Rebel hero welcome, none to proteet him. Starvation and misery, and weeping and lamentation over a ruined city-such as complained o, and realized in the land whence he came-might be our lot. We thank God, therefore, and so soon d all his affiliating admirers, that himself and cause

The effect of Governor Swann, which appeared in Saturcay's TELEGRAPH has caused much ask and 'x contemen' in political circles here As the Union party is no confident in its strength, has grown rather care e s-prone to guarret with itself-1 think this letter will altima ely produce wood, and tend to harmonize those disconant element, which, it much longer encouraged, might cause serious in much longer encouraged, might cause serious in ji:y, and aid the enemy in his wily schemes to sain political sway. Men who have sirier to de-sitor the Government and those who like the Demo-cratic enders, gave them aid and comfort in all they de, are not to be trusted her after. CHOLERA.

The acception of the Public is called to the fact

that Epidemic Cholera has no premonitory symp-

oms. The Diarrhos, which is supposed to be its

forerunner, is the discase itself in its first stage, and

is very tractable. It should, however, be noticed

that this Diarrhea or Looseness is frequently unat-

fended by pain or uneasiness, and fatal delay has

often occurred from the notion that Cholera must be

attended with Cramps. In the early stage there is

offen no Griping or Cramps, and it is at this period

that the disease can be most easily arrested by the

The brain, mucous and serous membranes, the skin,

tissues, and fluids, constitute the negative and positive

the result of these antagonistic forces. Digestion

connects with every part of the body, establishing and

preserving a preser balance of the electrical element,

which constitutes health, and a disturbance of which

causes disease. There are strictly but two conditions o

oisense-one of inflammation, or positive; the other

weak, debuitated negative; and as Electricity contains

these two conditions in the action of the positive and

negative currents, all we have to do is to neutralize

Davis for treason, was received at the office of the Attorney-General, on Saturday, being delivered by Judge Underwood in person. It was decided not to give it to the public at present The indictment contains no feature of special interest, being much the same in form with the previous indictment made at Noriolk. Judge Underwood has been in consultation with the Assistant Attorney-General relative to Mr. Davis' trial at Richmond in June. Every preparation is being made for the event at that time.

It is understood that Chief Justice Chase will preside, and Attorney-General Speed will prosecute, assisted by Judge Clifford, of Massachusetts, and William M. Evarts, Esq., of New York, as counsel on the part of the prosecution. The Court will convene in the early part of June. A gentleman who has read the evidence against Mr. Davis for complicity in the assassination plot, states that it does not contain a fact that would have been thought sufficient by the President, or any other tair-minded mau, to order the trial sought.

The consolidation scheme of paying the national delt by the issue of five per cent. bonds seems to meet with universal favor. It is undoubledly the true mode, and must reflect great credit upon Seers-tary McCul och. Maryland will do her duty in in-vesting in these as she did heretofore in the other securities.
