THE GOVERNOR'S MESSAGE. The 'ollowing message from the Governor was

Gent'emen of the Convention :- Since your adjournment last October nothing has come to my knowledge touching our position in reference to the Federal covernment which is not matter of publie history. At your previous session you made the requisite amendments to the Constitution and passed the ordinances believed to be necessary to a complete reconciliation with the United States and our restoration to national fraterinty. Although our people, with remarkable unanimity, yielded their assent to your action, and were ready, without any exception within my knowledge, to acknowledge their allegiance to the United States and to obey the

laws and Constitution thereof we have been grievously disappointed by the rejection of our member-from the Congress of the nation. This rejection has not been piaced on the ground of any irregularity in the relection of qualifications. Waile Congress recognizes the existence of the State government to the effect of meorporating into the Constitution of the United States our amendments made thereof, they contains to govern and to levy taxes without allowing us any participation in making the laws or imposing the national taxes. Congress has been sitting for some five months without providing any terms on which it is proposed to recognize our admission. We have elected men whom we believe to be at loyal as any men in the out providing any terms on which it is proposed to recognize our admission. We have elected men whom we believe to be a loyal as any men in the United States, every one of whom labored to preserve the Union until hostilities had actually commenced, and every one of them has renewed or is ready to renew his oath of fide ity to the Government of the United States, Whether any one them of could conscientiously swear that he never aided or sympathized with the Rebellion, I do not know. If no member can be recoved from the States lately in Rebellion without taking the Congressional test oath, it will amount to practical distrauchisement. It was presumed when you adjourned in October last that by this time the Union would have been fully restored, or that Congress would have defined its policy of restoration. Norther event has occurred. Neither the President nor Congress has yet made known any further requirements. I have no information which warrants me in making any suggestions to you as to any further action which you may properly take tonding to produce the desired harmony between us; so act as to retain our self-respect and give to our late enemies no just grounds for the continuance of ill-will against us. National prosperity cannot be restored until reconciliation and concord be re-established. If bitterness is to be continued, let alt of us strive to cooperate with the President in his patriotic plazs, and reirain from giving any just excuse for the continuance of such feeling, and I hope the day is not far reirain from giving any just excuse for the continu-ance of such feeling, and I hope the day is not far distant when the Northern people will become satis-fied that their distrust of us is unfounded, and that the religion we profess as well as public policy de-mand mutual forgiveness and reconc lation. I herewith enclose a communication from the public Treasurer suggesting certain amendments to the revenue acts of the last General Assembly. I commend his recommendation to your favorable conmend his recommendation to your favorable consideration. In consequence of the order of the President of the United States reneving the Provisional Governor, I entered upon the dicharge of my duties as Civil Governor, in conformity with your ordinance, on the 28th day of December last. I had to encounter some irregularities, growing out of the transition; but with the universal desire of the people to restore order, no serious difficulties have presented themseves in putting into action the machinery of civil government in the State. In my official correspondence and m'ercourse with the official correspondence and m'ercourse with the executive officers of the United States, and with Brevet Major-General Ruyer, the mittary commandant of this State, all have exhibited a uni-Brevet Major-General Ruyer, the mintary commandant of this State, all have exhibited a uniform disposition to avoid unnecessary jarrings in the discharge of our respective duties, and a readiness to co-operate with me in everything tending to restore the cordial reconclusion between the lately belligerent sections of our country. Hearn from General Ruger, to whom the President of the United States has lately assigned the chief supervision of the Freedmen's Bureau in this State, that he would gladly give to the civil courts of the State will jurisdiction in all matters relating to treedmen, but that he feels embarrassed in doing so consistently with his instructions, on account of certain provisions and conflicting considerations of the act of the General Assembly, passed at its late session, entitled "An act concerning negroes, persons of color, or of mixed blood," etc. His difficulties are understood to grow out of the ninth and eleventh sections of the act. As it is very desirable that the civil courts shall inche out uniform justice to all, white and black, according to law, and that all cause of dissatisfaction as to conflict of jurisdiction should be avoided, I recommend the subject to your consideration. My relations to your body, as I conceive, do not warrant me in submitting any recommendation whatever in reference to the scene of your action. Hence I had not up. nitting any recommendanton whatever in reference to the scope of your action. Hence I had not intended until your call of yesterday, to submit any message whatever Having the fullest confidence in your wisdom, I could not obtrude my views or wishes on you. May God guide your councils to results beneficial to our subayour councils to

results beneficial to our unbappy country. JONATHAN WORTH, FORGERY AND EMBEZZLEMENT

There was arrested in Rochester, on Wednesday There was airested in Rochester, on Wednesday last, by Desective Timothy Golden, from this city, a man who gave his name as John C. Becz, but whose real name is stated to be E. K. Howe, the has, it is believed, passed under half a dozen aliases. This individual is charged with having been concerned in the forger es of bonded warehouse certificates for which mercantile men in Wall street have been awarded out of \$2800,000. swindled out of \$800,000.

In this transaction several persons are implicated, and it is supposed by those who know the details of the case that Howe was used as an agent by others for the accomplishment of their plans, and that in order to serven him from arrest they have been moving him from place to place in the country. The

moving him from place to place in the country. The efforts to cap ure him have cost a large sum of money. One of the parties charged with the forgeries was found in a lunatic asylum in France, and brought back to New York. He-pent \$100,000 or the \$150,000 which he took to Europe with him.

The arrest of Howe in Rochester appears to have been effected in this manner:—Police Officer McLean was authorized by Chief Sherman to render assistance to Golden in looking out for the person he wanted. It had been ascertained that Howe was living in the Iwellth Ward with his family. McLean, who was dressed in uniform, went to the rear of Howe's houre while Delective Rogers entered it, found the owner at home, and arrested him. While found the owner at home, and arreste i him. being taken to the police office flowe met Golden, who called him by his name.

This disconcerted the prisoner very much. Golden informed him that he was an officer in New York, and that he must take him there to answer the charge of having been concerned with others in the torgeries above alluded to. How was brought to this city by Golden on the 4 50 train in half an hour after the arrest had been effected. The prisoner was known in Rochester under the name of Bost. known in Rochester under the name of Beck. was regarded there as a man of inoffensive, peace-able habits. He seemed always to be well off, and his family lived comfortably. He stated that he had been engaged as a piot in the harbor of New York, from which he had only very recently returned to Rochester.

The Irving Bank Embezzlement. The to lowing are the particulars respecting the embezziement or \$60,000 from the Irving Bank, situated at the corner of Greenwich and Wairen streets. Rumors respecting this affair had been in

circu ation through town during the past two or three days. For some time one of the bookkeepers, a young man who is respectably and, it is said, highly connected, had attracted the attention of the President and officers of the bank by his extravagant the 6th of April the Pr sident discovered

that the bookkeeper was somewhat irregular in the discharge of his dust, contrary to the good charac-ter he had before borne for punctuality and atten tion. At first the tresident was under the impression that this departure from cuty on the part of his subordinate resulted principally from indulgence in liquor. The young man had previously left on account of sickness, but no suspicions of dishonesty were entertained regarding him until Fuesday last, when the bookkeeper being absent, owing to ulness, another, who was put in his place, discovered a deficiency of \$60 000 in the accounts or his predecessor.

Just before this discovery was made the President Just before this discovery was made the President of the bank called at the office of superintendent Wairen, of the Fire Insurance and Mercantile Detective Asent, No 68 Broadway, stated the whole of the circums ances, and consulted with him as to what could be done in the matter. Mr Warren placed the business in the hands of two detectives, havnes and Foley, who obtained evidence to show that there was something decidedly group in the conduct of the young man, who was at once ar-rested. He confessed that for years he had been in collusion with an ou-lide party in a syst-matic fraud by which he was enabled to give him credita for amounts never deposited, and record his checks without charging them.

Of the sum thus taken ten thousand dollars in money, and the balance in diamonds, and other pro-perty have been recovered from the bookkeeper, and perty have been recovered from the bookkeeper, and it is believed the remareder can be had from the outside party, who is also in custody. The bank accounts were thoroughly investigated. The first deficiency discovered was one of \$12,000, and upon further investigation a defalcation of \$55,000 was ascertained. The embezzlements were effected by making "forced" balances. The officers of the bank, in consideration of the connections of the parties concerned, desired the suppression of names. The bank, it is believed, will lose nothing, and to the activity of the President of the establishment may be attributed this fortunate result. The bookkeeper has been in the employ of the bank for eleven years.

Tragedy in Kentucky-A Seducer Shot and Mortally Wounded.

From the Louisville Democras. A trage affair occurred in Shipping port on Thursday afternoon, which wil probably result in the death of one of the parties. The organistances which led to this deplorable affair are as follows:

A man named Martin Molden has for some time past been paying his attentions to a Miss Phompson, and it is alleged sectioned by and it is alleged, seduced her. The fact was kept hidden until the peculiar situation of the girl ren-dered concesiment no longer possible, and she acknowledged it to her friends, and confessed that Molden was the seducer. Yesterday afternoon a

brother-in-law of the girl, named Stephen Hol-combe, met Molden in Shippingport, and told [him ibat he (Molden) would have to marry Miss Thomp-ion. Molden replied that he "was as good as mar-ried to her now," upon which Holcombe drew a pistol and shot Molden in the side, inflicting a wound which will, in all probability, prove fatal. Holcombe was arrested last night, and placed in jail by Officers Jones and Fertigo.
