CITY INTELLIGENCE For Additional City Intelligence see Fifth Page,

THE SOUTH STREET BRIDGE,-Several weeks since Councils passed a resolution in-structing the Committee on Surveys to take into consideration all acts of Assembly relating to the construction of a bridge across the Schuylkill river, at South street. The committee met and in accordance with a resolution, the Engineer has prepared a report upon the sub Engineer has prepared a report upon the subject, which is now in the possession of the committee, and will be submitted to Councils by them. The Chief Engineer, in his report, states that in May, 1861, the Legislature passed an act requiring the erection of a bridge at South street, providing the cost should not exceed \$250,000. Nothing was done by Councils in the progless until April. 1864, when the in the premises until April, 1864, when the Chief Engineer was directed to prepare a plan and estimate. The report was presented April 1865, showing the approximate cost would \$800,000. Here everything rested until the Legislature, in April. 1866, created a Commission with full authority to commence the erection of a bridge, said Commission having authority to create a loan not exceeding \$600,000. The Engineer says that no detailed plan has yet been prepared, but it is believed that the amount named in the act as to the limit of cost will be insufficient to complete so extensive a work in a manner creditable to the city of Philadelphia. In concluding the report the Chief says:-

"In the construction of this bridge it is very im portant that we should, it possible, avoid the use of a draw otherwise we will be compeled to resort to the objectionable slide draw, or reduce the width of structure to about twenty feet, so arranging the masonry as to permit the erection of a third truss whenever the draw pier shall be removed. I should whenever the draw pier shall be removed. I should hope that a permanent bridge would be adopted, as the greater part of the business of the river is the feeding of the Schuylkil Canal, which is done by tugs and canal boats. The facilities now being anoided by placing freight ou the Delaware front, or on the Schuylkil below Grav's Ferry, by the extension of the Pennsylvania Railroad to Greenwich, are so great that the inconvenience and dan er incident to a draw in this bridge would be much more serious, as affecting citizens at large, than would be shutting off masted vessels from the very few wharf properties above South street injuriously affect the whari owners, as such business will, I believe, at an early day, seek those wharves which will give the least length of the fortuous navigation of the Schuylkill, leaving the river ior canal duty alone."

FIRE MATTERS .- The Good Will Fire Company, of Trenton, has presented to the Hibernia Fire Engine Company of this city the photograph likenesses of the president and officers of the Good Will, enclosed in an exquisitely embellished gilt frame. The present cost about

The Hope Hose Comeany bave purchased a new pair of horses, for which they paid \$750. The Pennsylvania Hose Company leave this city on Friday next for Williamsport and Buffalo. They will parade with the Bremen of that city on the 4th of June, and afterwards visit Niagara Fatls. From there they go to Albany, and thence home, arriving in this city on the oth of next month. The Mechanic Engine Company of this city will make all the arrangements to give the

Pennsylvania a proper escort on their return.

The Volunteer Fire Company, No. 1, of New Orleans, are having a steam fire engine built at Neafle & Levy's, in this city. The steamer will have six-inch pumps, and 11½-inch cylinder, with connecting rods of the latest style.

The Weccacoe Steam Fire Engine Company have purchased a fire pair of horses. They cost

have purchased a fine pair of horses. They cost There were ten fires last week, but all of a trifing character, except the one at Lord's cotton

On Saturday night, some greasy woollen rags in the place of business of Messrs, Morris, Tasker & Morris, Third and Pear streets, ignited spontaneously, and would have set fire to the building but for the prompt action of the Hibernia Engine Company. A fire occurred in the building from a similar cause two weeks ago.

An alarm of fire was caused yesterday morning by the slight burning of a floor in a dwelling in Jane street, above Fifth, Third Ward. The occupants were at church, and a chimney-board, taking hie from the stove-pipe, sell down while burning, and set fire to the floor. The Marion Hose Company extinguished the flames.

POLICE ITEMS .- W. D. Jefferson, arrested vesterday on the charge of robbing the boarding house of Mrs. Adams, No. 403 South Third street, in which he nad a room, was committed by Alderman Beitler for a further hearing. William McCarthy was held by Alderman Lutz

to answer the larceny of a barrow-load of pressed brick from a brickyard in the southwestern part of the city.

A young man named James Brady, hailing

from New York, was arrested at an early hour yesterday morning by Officer Gerard, of the harbor police, upon the charge of attempting to rob a layer beer saleon, in Callowhill street, near Front. It appears that the accused entered the premises, assaulted the proprietor's wite, then proceeded up-stairs, and commenced ran-sacking the premises. Brady was taken before Alderman Beitler, and held in \$1800 bail to an-

Abraham De Bruin, keeper of a second-hand shop in South street, had a hearing pefore Alderman Beitler on Saturday afternoon, charged with receiving stolen goods. The prosecutrix is named Nellie Brinton. The allegation is that he received a number of articles of wearing apparel from one William Dowling; that he said to the latter, in presence of witness, if he got the goo is in Philadelphis, he (De Bruin) would send them to New York or Baltimore; but if he (Dowling) had obtained them in either of the latter places, he (De Bruin) would sell them in Philadelphia: that about three weeks ago Dowling and another person stole a velvet coat from a lady, which the prisoner purchased of them for two dollars. De Bruin says that the wi ness' statement is false. He admits that she was at his store; that she came there and asked for money for her husband, whom she said was in distress; that the first time the prosecutive came she gave the name of Horley, and the last time Dowling. The accessed was held in \$1500 ball for a further hearing on the 6th of June next.

THE "CHATTANOOGA,"-The splendid warte mer Caattanooga, Cap'a n J. P. McKinstry, came to anchor of Chester last evening, after having partially completed her trial trip. It was discovered when she was about one hundred miles at sea, that one of her main slide valves on the after cylinder encountered some foreign substance, which entered by the steam pipe, resulting in the breaking of the valve stem. The engineers, however, were enabled to overcome this unexpected difficulty without delay, owing to the peculiarly advantageous features of her engines, by which two separate valves can be employed for each cylinder. This enabed her engines to be operated very satisfactorily by using the remaining valve. As it was desired to test her machinery at the maximum speed, the officers of the ship put her about and brought her to port, so that the neces sary repairs can be made to enable the trial trip to be thoroughly accomplished. Upon her return under steam alone, she made ten knots an hour with only half her boilers, and thirtysix revolutions of her engines. Prior to the accident she was making forty-six revolutions, and was continually improving. Her officers speak of the ship in the bighest terms, and as soon as the necessary repairs are made she will resume and finish her trial at the maximum

SLIGHT FIRE .- An alarm of fire about 11 o'clock vesterday morning in the southern part of the city, was occasioned by the burning of a chimney-board at the residence of Mr. Hortsman, on Jane street, below Passyunk road. The family were absent at church at the time. The chimney-board ignited from a furnace, and in falling, set fire to the floor. Damage inconsider-

HIGHWAY ROBBERY .- On Sunday morning, about 5 o'clock, an aged gentleman, whose name we were unable to learn, while passing along Pitzwater street, near Eric, was knocked down and robbed of his watch and pocket-book. He cried instily for the police, but in vain; when the latter arrived at the scene, the highwayman had made his escape.

THE WEAVER AND GIVEN CASE .- The absence of Judge Allison from the city is the cause of a suspension of the proceedings in the Weaver and Given contested election case. testimony last taken before Commissioner Collis was on the part of Mr. Weaver, and the objecof it was to prove the residence of a number of persons whom the canvassers for Mr. Given were unable to find. Quite a number of these were proved, sufficient to overcome the assumed majority for Mr. Given. It was then proposed by the counsel for the latter to examine witnesses for the purpose of proving that the persons whose residences had been testified to were not entitled to vote. This the counsel for Mr. Weaver would not agree to, for the reason, as they argued, that the order of the Court did not nomit of it. On the part of Mr. Given, it was then said that an enlargement of the order would be asked for, but in the absence of Judge Allison it cannot be done.

Hospital Cases,-John Gallagher, aged twenty-five, was admitted to the Pennsylvania Hospital last evening, with his leg and arm crushed. He resides at Summit Hill, and the accident occurred at a coal mine in Carbon

A boy named C. Hulbrandt, aged nine years, was admitted into the Pennsylvania Hospital on Saturday night, with his thigh broken by falling through a hay loft, in Callowhill street, above Ninth.

A young man named Henry Low was caught, on Saturday night, between the bumpers of two cars, in West Philadelphia His right arm was so badly crushed that it had to be amputated after his removal to the Pennsylvania Hospital.

IMPROVEMENTS FOR MANUFACTURING Preposes,-Mr. Henry Disston, saw manufacturer, is making extensive improvements on the nor'n side of Richmond street, between Front street and Frankford road, and on Lawrence street, between Front street and Frank-ford road. They consist of a storehouse, 104 by 175 teet, and a rolling mill, 140 by 90 feet Messrs, Neafe & Levy are erecting a boiler shop on the east side of Beach street, between Palmer and Hanover, 62 by 180 feet; while on the north side of Hamilton, between Twentythird and Twenty fourth streets, several buildings are going up for manufacturing purposes, one of which will be 40 by 100 feet, another 50 by 50, and a third 35 by 50 feet.

ESCAPE OF A PROFESSIONAL THIEF. - A professional thief by the name of William H. Watkins, who was recently committed under the ninety-day law by Alderman Beitler, and who on Friday was before Judge Pierce on a writ of habeas corpus, asking to be discharged, has made his escape. It seems that Judge Pierce refused to discharge him, and also to reduce the term of his imprisonment, saying that the maximum punishment was little enough. Watkins, who has the alias of Dr. Squills, was in custody of Prison-keeper Cliften, and on his way to the prison made his escape. The escaped prisoner is also charged with picking a gentleman's pocket on a passenger car.

HOW A BABY WAS GOT RID OF .- On Saturday evening a woman was accosted in the neighborhood of Fourth and Wharton streets by a female with a child in her arms, and asked to hold the infant while the other went to the store across the street. Wishing to oblige, the baby was received, and the supposed mother walked off in the direction of the store pointed out. She did not return, and the child was taken to the Second District Station. It is a fine, healthy bey of about nine months old, well dressed, and seems to have been well taken care of. If not claimed to-day it will be sent to the Almshouse.

CONNECTING A MAIN.-Workmen are now engaged in connecting the 48-inch water main laid from Fairmount Water Works to Corinthian avenue, with the turbine wheels. At the basin on Corinthian avenue the main is carried up the bank to within six feet of the top, and then conveyed through 'he earth into an aqueduct covered with an iron grating, so that the water discharged from the pipe into the basin can be seen by visitors to the reservoir. This main is the largest ever laid in our city, and, we believe, there are none in the country of any greater

FOREIGN TRAVEL.—The following Philadelphians left New York last week for Europe:

In the steam-hip Bremen, for Bremen-Frederick Geiger, Anthony Bolger and wife, Frederick Kleunder, W. Plumer, and Mrs. Catherine Schneider.

Schneider.

In the steamship Tanfa, for Liverpool—Mr.
Shewell, Robert Hunter.
In the Bavaria, for Southampton and Havre—
H. U. Sommer, E. Eckstrand, H. Deitz, and Julius Eajans.

A New Officer.—Henry A. Cook, Esq., has been elected President of the Hibernia Fire Company, No 1, to fill the vacancy caused by the resignation of Colonel Page. Mr. Cook has been connected with the Company for twenty years. and was Vice-President before the war. enlisted in the Fire Zouave Regiment at the opening of the war as a private, and returned a Lieutenant-Colonel. The present honor is a well-merited one.

AN INTERESTING CASE. - A lad just arrived from Ireland, named Thomas Glynn, wishes to know the whereabouts of his father, Nicholas Glynn, who came to the United States about three years ago. Any information of the latter will be gratefully received at No. 5 Gatzmer street, where the boy is temporarily staying.

Robbery.—Geo. H. Robinson, a mulatto, had a hearing at the Central Station, on Satur day, upon the charge of having robbed the store of Mrs. Hardy, in Lombard street, near Seventh. some time ago, of a quantity of dry goods and trimmings. The accused was held in \$1500 bad for a further hearing.

A DANGEROUS MATERIAL. -On Saturday evening a slight are occurred at the establishment of Messrs, Morris, Tasker & Morris, Third and Walnut streets. It appears that some cotton waste in the building ignited, and but for the prompt action of the Hibernia Engine Company. would have set fire to the structure.

DESERVED PROMOTION .- John H Gallagher, late Lieutenant-Colonel of the 106th Pennsylvama Veteran Volunteers, has been appointed First Lieutenant in the 14th Regiment United States Infantry, by the President, to date

Dogs CAPTURED .- The torce employed in the capture of unmuzzled dogs are having quite an exciting time, as well as a profitable one. During the past week 178 canines, of high and ow degree, were seized and punished according

FATAL ACCIDENT .- On Saturday evening Mrs. Rose McCluskey, residing at Howard and Master streets, fell down stairs, and was so seriously injured that she died soon after.

A CHAPEL TO BE DEDICATED .- On Thursday evening, the new Presbyterian Chapel at the corner of Broad and Oxford street; will be dedicated.

DISARMED!!!

The Chief Causes of Pestilence Destroyed. DR. E. COURTARET'S DISINFECTING FLUIDS, secured by Letters Fateat in the United States and France. Prepared sole y by the New York Disinfecting Company, at their Laboratory Nos. 298, 390, and 392 HENRY Street, New York; Office, No. 42 CEDAL Street

Company, at their Laboratory Nos. 298, 300, and 302 HENRY Street, New York; Office, No. 42 CEDAR Street.

This Company organized on a permanent basis, wift Dr. Couristet the celebrated French (hemist, in charge of its Laboratory, is prepared to turnish its Disinguezor, is a Fluids for sick rooms, narseries, urhals, water-cosets, privies, cesspools, sewers, gutters, ships, rall-roads hospitals prisons and public lostitutions of all kinds, staughter-houses, offal and at-bot ing establishments; all kinds of manures (mmense y increasing the value of the latter to every larmer) and wherever polsonous and offensive gases exist. These agents are decocrizers anti-eptics, anti-putrescents, and disinfectants in the scientific meaning of the words. They remove noxious sases and odors by chemical principles—leaving in their piaces heat blui air; they are districted, and not merely abstract as of poisonous gases—not injurious to utensis in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimon as in favor of this great discovery, which, with hundreds of others, can be seen at the Company's office.

Delayan House Albany. March 30 1866—To the President of the New York Disinfecting Company—Dear Sir:—It is all it is reoresented to be We have made many trials of cisinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors. T. HOESSEL & CO.

New York Disinfecting Company—Dear Sir:—We pronounce it without exception to be the best we have ever known. Its effect upon every matter is complete and instantaneous.

N.B. These Disinfectants are used by the scavengers, under the direction of the Sanitary Folce of the Metro-polish Health Department. New York

"OWFILL & THOM PSON, No 42 CEDAR St. N. Y. General and Sole Agents for the United States and the fanadas to whom all orders should be addressed.

t angles to whem all orders should be addressed For sale by all Drugsists and General Dealers in the United *tates and Canadas. DR. HYLTON'S

CONSTITUTION AL RENOVATOR FOR THE RAPID CURE OF

Incipient Consumption, and all Diseases

Pertaining to Consumption,

Coughs, Colds, Hoarseness, Coup. Bronchitis and all Diseases of the Lungs and asspiratory Or-ans, Liver Complant. Dyspepsia Loss of Appetite. Nervous Debility with great Lassitude or the Muscular System. etc.

The success of this medicine in the curc of cisease has withstood many critica tests in this country and clewhere: its alutary effects on disease are widely disseminated, and require no effort to parry the prejudisseminated, and require no effort to parry the prejudisseminated, and require no effort to parry the prejudisseminated, and require no effort to parry the prejudisseminated you the greatest doctor on diseases of the lungs in the country. I had a splitting of blood, with large lumps of green marter; a violent pair in my breast and shoulders, a straining cough; and several of the most eminent physicisms gave me up as a hopeless ase of consumption. I tried all the remedies of the day and gained no reliet but grew worse; whee a friend advised me to try your Renovacor, satisfying me to at you were a regular graduate of the University of Pennsylvania and not a self-styled doctor. I used but nine bottles of your Renovacor, and to the surprise of my irlends I am now a well man and able to attend daily to my unshess.

Any one needing further par iculars of my case can call on me and be satisfied. NICHOLAS BILGER.

Dr Hylion is a regular graduate of the University of Pennsylvania. (His dipoma can be seen at his office.) Exemines Lungs without charge. Office, No. 237 North elections.
