## CITY INTELLIGENCE [For Additional Local Rems see Third Page.]

THE FENIANS ON THE ALERT.-The Femins in this country do not seem to have lost their hopes of inaugurating prompt and vigorous measures to secure the freedom of the "Green Isle" from the trend of the hated Britons. Their expectations may not be as aident as when the once reverenced O'Mahony was Head Centre, and presided over the tamultaous meetings of his adherents in our leading cities, soliciting them to make investments in the bonds of the Irish Republic. Those who acquiesced can have but little doubt of the permanency of the investments they secured by their eager subserving. The anthus axis longings of many ways. the investments they secured by their eager subscriptions. The entbus astic longings of many were
most bitierly blighted by the dissensions which
sprang up in the order, and by the revelations which
followed the acposing or o'Mahony. But the great
raid now being inaugurated by the tew hundred
Femans hovering near the Canada borders, estentatiously bound for California, has given a little of the
old spirit to the organization. This afternoon James Stephens the chief organizer of the Fenian Brother-hood, is expected to prive in this city. Arrange-ments have been made to receive him, and this evening a demonstration of the Order will be had at Na-tional Hall, Market street, below I hirteenth.

CAPE MAY .- As the summer heats begin care Max.—As the summer heats begin to prevail our citizens commence making their arrangements for passing the term in the favored regions where the cooling breezes are obtainable. In view of this necessity the We-t Jersev, Cape May, and Millville and Salem Railroad Companies have made special arrangements for the accommodation of those who prefer saline a r. The r trains will run at hours which will accommodate every visitor. We are all familiar with the fact that a few hours of relaxation during the intensely hot weather is all important, and that it prepares the business is all important, and that it prepares the business man for the butter discharge of his duties. Whatever incilitates this is a rubic benefit and therefore, the excellent arrangements of this road are of great importance. A short stay at Cape May, or any other summer resort, regarded simply in a businesspoint of view, is of a estimable advantage to any one and we are greatled to observe that the rail. one, and we are grettiled to observe that the rail road companies have so arranged the matter tha this small vacation can be had without material los-

SALE OF PAINTINGS.—The sale of valuable oil paintings by Mr. B. Scott, Jr., commenced last evening, and will be continued during this and to-morrow night. The finer specimens brought good prices and the sale was emmently successful. The lowing last of prices will indicate the value of the picture:—Kruseman's "Winter Scene." \$125; Dillen's "Happy Parents." \$125; "Landscape and Sheep." \$115, and a companion, \$100; Verhoeven's "Exterior and Figures." \$105; "Market Scene." by L. TERTH EXTRACTED WITHOUT PAIN .-This morning we tested the much-talked-of method of having a molar pulled under the influence of nitrous oxide better known as Laughing Gas. We are prepared by the experiment to affirm that it is all that its most ardent admirers claim. The subject is entirely unconscious of the painful operation as it was under the old practice. It is a singular fact that no unpleasant effects follow the operation. The act is almost instantaneous, and in the hands of a skilful operator tooth drawing is a quiet luxury. We are under the impression that Dr. Coiton is our greatest modern benefactor, for all that have under gone the cideal of a rawing ooth know how hard it is to part with. Their advertisement in another column contains the names of several hundred prominent cluzens attesting the benefit and value of

THE FRANKFORD FAIR .- The ladies of Frankford are about holding a Fair at the Odd Felows' Hall, for the purpose of raising funds for the erection of a monument to the memory of Colonel E. D. Baker. It will be opened on Saturday next with appropriate ceremonies, in which Major-General Geary, Brisadier-treaers Owen, and others will take a part. All that we can say in this connection is to obey the injunction of the Apost e Paul—"Help these women," for they are engaged in a good work, and deserve encouragement. The Frankford Band have volunteered their services to add eclat to the

YOUTHFUL NECROMANCERS.-To-morrow afternoon, at four o'clock, a very interesting sleight or hand exhibition will take place at the Gity Insti-tute in highteenti street, above Chesnut. Masters Abbott, lownsend, Gratz, and Gordon, the sons of several of our most estimable citizens, will give many evidences of their skill in the art of Prestidigitation They are certainly, for persons so young, quite accomplished in this art, and in time may rival Blitz. The proceeds of the entertainment will be given to "Charity Hospital." Tickets, twenty-five cents, to be had at the door.

ANOTHER GIFT .- Recently the Liberty Fire Company, of Reading, Pa., presented to the Fairmount Engine, of this city, a pair of splendid horses. One of the horses however, died, and to-day Chief Lyle received a letter from the Liberty Company, stating that they have purchased another horse, and would bring it to the city on Saturday, to present it to the Company in place of the one

Beliciously Medicinal,—This is the universal verdict pronounced upon 'Plantation Bitiers' by all who have tried them. The well-known and health-promotting ingredients from which they are made, and their invaluable merits as a remedy for indigestion, and all its consequent ailments, and their preventive qualities against disease arising from clip acteric changes, miasmatic influences, and imperiest secretions, are so widely known, and so honorably endorsed, that we trust no one will forego the advantages of their use. TEETH EXTRACTED

ABSOLUTELY WITHOUT PAIN

BY THE

Colton Dental Association, No. 737 WALNUT STREET.

No. 19 Cooper Institute, New York.

No. 168 BALTIMORE STREET, BALTIMORE.

There is nothing which people dread more than pain, ard there is no pain more excruciating than that of having a tooth extracted.

When I first introduced the NITROUS OXIDE OR LAUGHING GAS as a substitute for chioroform and ether in dental operations, I met with sneers and ridicule. But the new agent made a steady and constant progress. The Gas has now had a trial of three years, and has come out triumphanily!

Many or the leading Dentists of New York and Philadelphia, who have given up the use of chloroform and ether, send all their patients to me who require to take an anasthetic. I make a specially in the use of the Gas, and have business enough to justify me in making it PRESH OVERY day.

I now use about 300 ga lons per day. As to its Safety, I have administered it to over 14,000 patients since May, 1863, and no unpleasant effects have attended a single case. If there was any danger from inhading the Gas, would not some one of these have been injuriously affected? All the [Dental and Medical journals now admit that the Gas is the best anasthetic for tooth-orawing; best, because enough can be given to produce entire insensibility, without any danger; best, because it is so pleasant to breathe, producing no sickness or disagreeable sensations, and leaving the system entirely in two or three minutes; best, because it will succeed with patients on whom chloroform and ether have been tried in vam; best, because the most de loate, nervous, and feeble persons can breathe it with sa ety; best, because, with many patients, it renders too h drawing a pleasure.

Our patients have all signed a scroll certifying that their teeth have been drawn without pain, and opposite each name is a blank for remarks. The following are a tew of the remarks :-

From a large number of Testimonials, I select the following extract from a letter addressed to me by Protessor P. H. Vander Weyde, Professor of Chemistry in Girard College, formerly of New York Medical Col-

'I am satisfied that nitrous oxide can be used in al cases where ether and chioroform cannot be saiely administered; in many cases the use of the two last named anasthetics is by judicious physicians considered cusa e: notwithstanding this, there are too many cases on record where the counter indications were overlooked and fatal results have 101 owed the use of ether and chloroform. I know no case in which I I would consider nitrous oxide gas unadvisable except in a case of consumption so far gone hat the excit-ment a tending the extraction of a too h would be unsafe with utany anosthetic.

From the New York Evenge's:—

"We are slow to believe in the efficacy of new remedies which are offered to the public, but the frequent testimony of cleryymen and others of our acquaintance has assured us that Dr. COL ON has at last found a means of expracting teeth absolutely wilrout pain."

"To Dr. COLTON is due the credit or reviving the use of this most important areast citrous oxide) in the practice of Dentistry."—Letter from Surgeon Carnochan, he w York. From the New York Evange'ss :-

tice of Benistry "-Letter from Surgeon Carnochan. New York.

A clerayman of this city visited the Colton Dental Association a lew das sunce, and after having a large, troublesome tooth drawn, made this certificate on the register of the Association:—"No pain! All over in three mitures A man can leave the dentist shands in a good humor." The operation was performed by the use of Nitrons Oxide or Laurining Gas.

A Thankertt Heart.—A lady teacher from Washington recently eams into our office, and said she had some teeth which she wished extracted, but she was so nervous she was straid to take the gas, and she knew she should feel the pain. We assured her there was not the slightest danger, as we had given it to thousands, and never had a fullure or accident. She breathed the gas, and we extracted nine teeth.

When she awoke, I said:—"Your teeth are out." Rish' possible!" She placed her band to her mouth and exclaimed "God bless you al!!" She immediately wrote on our scroil her name, and added— The Colton Bental Association—a blessing to the human race."

MEMORY OF LIEUT.-GEN. SCOTT.

BOTH HOUSES OF CONGRESS ADJOURNED TO MONDAY.

Etc., Etc., Etc., Etc., Etc.

Our Special Despatches.

WASHINGTON, May 31.

Foth Houses of Congress will adjourn over until Monday, in respect to the memory of Lieutenant-General Scott, and a committee of seven members of the 8-nate and nine of the House have been appointed to attend the funeral.

A number of military and naval officers left Washington by special train this morning, to attend the funeral of General Scott.

The Norfolk Blot.

A Military Commission bas been convened by order of General Grant, and is now in session at Norfolk, for the purpose of investigating the causes which led to the recent riot in that city. The proceedings will be conducted with closed doors, and the evidence will be submitted directly to General Grant.

A Military View of Family Government. An ex-military officer in Virginia, a graduate of West Point, has just been complained o

before the Freedmen's Bureau for beating the mulatto mother of his eleven children over the head with a broomstick, and for other cruel treatment to her, though she is about to present him with their twelfth child. He justifles himsell on the ground that God has placed him at the head of the household, and he is responsible for keeping order in it.

A Fenian Regiment.

Buffalo, May 31 .- Another body of armed men arrived here last night from the West, They are said to be a Fenian regiment. About a thousand have come aitogether, and more are expected.

Nothing can be learned from the men, beyond that they are laborers, bound to California. They have, apparently, no arms, but it is understood there are plenty secreted here. It is pretty generally thought that a raid on Canada, from this neighborhood, has been determined on.

There is no excitement here, as no one believes in the success of any movements the Fenians may make.

Fatal Railroad Accident.

CLEVELAND, Ohio, May 31 .- The train from Sandusky to-day was stopped on account of a broken engine, three miles west of here, and run into by the day Express train from Toledo. One lady, whose name has not been ascertained. was killed, and four or five other persons were seriously, and several slightly, injured. Their

names will be furnished as soon as obtained. President Newell, of the Toledo road, and Superintendents Flint and Rucher, are doing everything for the relief of the injured in their power. Their will be no detention of travel, as the track is undisturbed.

Mr. Schofield (Pa.) opposed the bill, contending that the proper action to be taken by Congress would be the passage of a general bill, instead of a

The Habeas Corpus.

IMPORTANT DECISION OF JUDGE NELSON -MILITARY COMMISSIONS IN TIME OF PEACE ILLEGAL. The following abstract of an important decision by Judge Nelson, involving the validity of a conviction and sentence by a military commission in a case not properly within the cognizance of martial law, is condensed from the report in the Albany

Argus:—
In the Matter of James Egan, a Prisoner in the Albany Penitentiary.—The petition and return to the writ of habeas corpus is ued in this case present the following facts:—The prisoner is a citizen, and by occupation a larmer, in the Lexington district of the state of South Carolana, some eighty years of age, and never engaged in the military service connected with the army of the United States, or of the occuling Compiders of the States. nected with the army of the United States, or of the ro-called Confederate States. He has been arrested and tried before a military commission, in pursuance of orders issued at headquarters of the District of Western South Carolina, Columbia, upon a charge of murder, convicted, and sentenced for life to the Albany Penitentary. The specification in the record of the crime is the killing of a negro boy, by shooting him, on or about the 24th of September, 1855. The trial took place on the 20th of November, and the sentence was pronounced on the lat of December following. The pince on the 20th of November, and the sentence was pronounced on the 1st of December following. The sentence is approved by the order of Brevet Major-General A Ames, and also of Major General D. E. Stekles. The only paper or evidence before us, on the return to the writ of hateas corpus, is the record of order of committal at the hands of General Prisbury, the Superintendent of the Penitentiary, which contains the above tests. It will be observed. out, the superintendent of the Pentientiary, which contains the above incts. It will be observed that this trial before the military commission took place some seven months after the termination of hostilities and the surrender of the Rebel army to the authorities of the United States; and further that the offense is one which, according to our constitutional system of government, is cognizable by the judicial authorities of the State and not of the Federal Government. ernment.
And, also, that the trial was not under the rules and

articles of war as established by the United States, in Congress assembled, as those are limited to the government of the land or naval forces of the United States, and of the militia, when in actual service, in time of war or public danger. The trial must have been had under what is known and denominated 'martial law,' and the question in the constitution of the constitution of the constitution in the constitution of the constitution in the nominated 'martial law," and the question in the case is whether or not this conviction and punishment can be upheld by reason of that authority. All respectable writers and publicists agree in the definition of martial law-that it is neither more nor les than the will of the general who commands the army,

\* \* Martial law is regulated by no known or
established system or code of laws, as it is over
and above all of them. The commander is the legislator, judge, and executioner. His order to the
Provost Marshal is the beginning and the end of
the trial and condemnation of the second of Provost Marshal is the beginning and the end of the trial and condemnation of the accused. There may be a hearing, or not, at his will. If permitted, it may be before a drum-head court marial, or the more formal board of a military commission; or both forms may be dispensed with, and the trial and condemnation equally legal, though not equally humane and judicious.

\* \* This being the nature and extraordinary character of martial law, which, as observed by Sir Matthew Hale, is not law, but something indulged, rather than allowed as law, all authorities agree that it can be even indulged only in case of necessity; and when the necessity coases martial law ceases.

\* \* This necessity must be shown affirmatively by the party assuming to exermartial law ceases. This necessity must be shown affirmatively by the party assuming to exercise this extraordinary and irregular power over the lives, liberty, and property of the citizen whenever called in question. Applying these princicalled in question. \* \* \* Applying these principles to the case in hand, we think the record fails to show any power on the part of the military officer over the alleged crime therein stated, or jurisdiction of the military commission appointed by him to try the accused. No necessity for the exercise of this anomalous power is shown. For aught that appears, the civil local courts of the State of South Carolina were in the full exercise of their judicial functions at the time of this trial, as restored by the suppression of the Retellion some seven months previously, and by the revival of the laws and reorganization of the State Government in obedience to, and in conjormity with, its constitutional daties to the Federal Union. Indeed, long previous to this a Provisional Governor had been appointed by the President, who is commander-in-chief of the army and navy of who is commander-in-chief of the army and navy of the United States (and whose will under martial law constituted the only rule of action), for the special purpose o changing the existing state of things, and re-to, in civil government over the people. In pursuance of this appointment a new Coastitution had been formed, a Governor and Legislature elected under it, and the State in the full enjoyment will be constitutional rights and privileges. The of all her constitutional rights and privileges. The Constitution and laws of the Union were thereby acknowledged and obeyed, and were as authoritative and binding over the people of the States as in any other portion of the country, Indeed, the moment the Rebeltion w. suppressed, and the Government growing out subverted, the ancient possession, authority, and laws resumed their accustomed sway, subject only laws resumed their accustomed sway, subject only to the new reorganization or the appointment of the proper officers to give them operation and effect. I his reorganization and appointment of the public functionaries which was under the superintendence and direction or the President, es. Commander-un-thief of the Army and Nav. of the country, who, as such, had previously governed the people of the State from imperative necessity by force of margial law, had already taken place, and the necessity no longer existed. We have not deemed it necessary, if proper, to look into the merits of the offense, charged against the prisoner, although it is insisted, that it occurred in self-defense and in posisting a violent assault upon himself. Let the prisoner be, discharged,

House Fires,—An exchange paper says that house flies may be effectually destroyed without the use of poison. Take half a spoonful of black pepper in powder, one teaspoonful of brown sugar, and one teaspoonful of cresm; mix them well together, and place them in a room plate, where the flies are troublesome, and they will very soon disappear.
